PREFACE

While it seems only yesterday, many months have passed since our joint announcement concerning the 1952 A.N.A. Convention Auction Sale. During those thoroughly busy weeks, we have become intimately acquainted with the innumerable details connected with a project of this size. In many instances, and particularly in regard to the Plates, we were forced to work against time. It is our sincere hope that those who have occasion to read this catalog will consider our difficulties, and bear with us should there be an error or so.

The Typography and Paper were both carefully selected. The Plates presented a difficult decision, and we hope that our selection of a relatively untried process will meet with a cordial reception. While the Photography is of an extraordinarily high quality, and the Plate work performed with equal care, we would suggest that lots be examined wherever reproduction and description differ.

Almost all of the illustrations portraying the Ancient coins in this catalog were made with the use of Plaster casts. Unfortunately, at the last minute, we discovered that a large number of the casts were defective. While many of them have been hurriedly replaced with Photographic reproductions, others appear poorly upon the plates. Therefore, we beseech those interested to bear in mind that many of the Ancients are not accurately illustrated, and to place full reliance upon the descriptions.

It was our wish, from the beginning, to offer an auction sale with a large number of popularly priced and interesting items. Even at the risk of a slightly unbalanced sale, we have attempted to offer material in the greatest possible demand. While trying to make our presentation as interesting as possible, we have also tried to make this catalog informative and authoritative.

We would like to thank William C. Clark and Richard Kenney, both of the American Numismatic Society, for their valuable cooperation and gracious assistance. Walter Breen has also been of considerable help, and his contributions will undoubtedly add to the accuracy of the contents. This paragraph would not be complete without a reference to the interest and advice displayed by the officers of the A.N.A. President Joseph Moss and Advertising Manager Burton H. Saxton, of the "Numismatist," have been most helpful.

The editors of the Standard Catalog of United States Coins have furnished us with considerable data from the forthcoming 1953 edition. Many of our valuations in the American field have been based upon this information.

It is our sincere wish that every recipient of this catalog will find something desirable. Should it prove otherwise, we would greatly appreciate your passing this catalog on to a friend.

The Catalogers

General Information

Exhibition of the Lots. The items in this sale will be displayed at the various offices of the catalogers from Monday, July 14th, to Friday, August 15th, by appointment only. Commencing Saturday, August 16th, lots will be displayed at the Hotel Statler. Items will be exhibited in the Auction room immediately prior to the session in which they are offered.

Removal of the Lots. Physical possession of any item offered can only be made after the termination of the session in which it appears. The exception to this rule will be the two evening sessions, where lots will only be delivered the following morning. Under no circumstances, will material ever be delivered during the actual time of sale. After 12:00 o'clock, Friday, August 22nd, all lots will be removed to the premises of Hans M. F. Schulman, 545 Fifth Avenue, New York City. All deliveries after that time, and subsequent mailings, will be made under the auspices of the Schulman organization.

Duplicate Catalogs. Due to the almost prohibitive cost of this catalog, its distribution has been carefully regulated. Single copies will be distributed gratis to any member of the A.N.A., and to any of our customers, but only upon direct request. Duplicate copies will only be available at a cost of $1.50 each.

Price Lists. A limited number of printed Price Lists, showing the amounts realized for each lot, will be available about thirty days after the conclusion of the sale. The price is $1.00.

INFORMATION FOR BIDDERS AND TERMS OF SALE

1. All bids to be PER LOT as numbered in the catalog.
2. The highest bidder to be the buyer. In instances of similar bids, preference is given to the first received. Bidding advances are as follows: 25¢ up to $5.00; 50¢ up to $10.00; $1.00 from $10.00 to $50.00; $2.50 from $50.00 to $100.00. Bids above $100.00 will advance at the discretion of the auctioneer. If any disputes should arise, the auctioneer's decision is final.
3. All material cataloged and sold at this sale is guaranteed to be exactly as represented. If in doubt concerning a lot, please do not bid before requesting additional information from any of the following: ANCIENT COINS—Numismatic Fine Arts; LATIN AMERICAN AND ORIENTAL COINS—Hans M. F. Schulman; MEDIEVAL AND EUROPEAN COINS—Henry Grunthal.

ALL OF THE UNITED STATES COINS, MEDALS, PAPER MONEY, AND LITERATURE (EXCEPTING LOTS 2772-82), TOGETHER WITH THE CANADIAN MATERIAL, ARE CATALOGED BY THE NEW NETHERLANDS COIN CO., INC.

4. All bidders must have established credit with one of the catalogers or send an advance deposit equal to 25% of their bids. Such deposits will be refunded if bids are unsuccessful. The catalogers reserve the right, even after the submission of references and/or a deposit, to require payment in full prior to delivering lots.
5. Accounts are payable when bills are rendered, and must be paid promptly.

In order to facilitate handling

All Checks and Money Orders to be made Payable to the Order of

THE NEW NETHERLANDS COIN CO., INC.

6. All merchandise delivered in New York City is subject to the New York City Sales Tax of 3% of the gross.
7. There is no charge for executing bids, but a charge is made for packing numismatic literature. No commission is charged to the buyer.
8. Prices following listings are estimates of value, and are intended only as accurate guides for bidders. Where estimates are not listed in the catalog, they will be furnished upon request from the catalogers. See item No. 3.
9. Postage and insurance charges will be added to the invoice wherever merchandise is shipped.
10. As this sale is a public one, conducted by a licensed auctioneer, it is necessary that all minors present parental permission to bid before commencement of the sale.
11. Unlimited or "Buy" bids cannot be accepted.
12. In cases where tie-in bids are made, or where later bids are to be cancelled when earlier ones are successful, we would appreciate early correspondence, clearly outlining all instructions upon the bid sheet.

U. S. HALF DOLLARS

NN

256 **1794.** The first year of issue. Strictly V. Good; almost Fine. Nicely centered and struck. In great demand, and well worth $40.00. V. Rare.
257 1795. Very Good. Few slight signs of mishandling, otherwise an evenly worn and desirable piece.
258 **1801.** Abt. Fine. There are two or three minute obverse defects, including a microscopic dig between the fourth and fifth stars. Altogether, a nicely toned and attractive example of this decidedly rare date. Cost $24.50.
259 **1802.** Strictly Fine. Sharply struck and evenly centered. Lightly toned. A really nice specimen. Rare.
260 1803. Large 3. Fine or better. Toned. Lists at $7.50 so.
261 1803. Small 3. Almost Extremely Fine. Just about free of imperfections, and a highly desirable example of this unusually scarce variety. Rarer than the 1801 or 1815 in this choice preservation.
262 1805/4. Clear overdate. Bought as Fine, but we would call this piece V. Good with a number of minor defects. In particular, we note a number of old and light reverse scratches. Well worth $8.00.

263 1805. The perfect date. Very Fine. Almost invisible obverse edge nick.
264 1806/5. Fine or better. Attractively toned and far above average. Well worth $12.50
265 1806/9. Very clear overdate. Strictly Very Good, but with several slight obverse defects, including a few very light and unimportant scratches in the field. Almost the equal of the specimen in our 36th sale, which realized $15.00. Rare, and in demand.
266 1806. Round top on 6; Small stars. Abt. Very Fine. The reverse has traces of original mint color
267 1806. Pointed top on 6. Choice Uncirculated. A gorgeous, iridescent "Gem." Cost $35.00, a number of years ago.
268 1806. Another, without stem through eagle's claw. Almost Uncirculated. Beautiful iridescent toning. A splendid coin, valued at $30.00.
269 1807. Bust to right. Very Fine. Toned, with faint traces of lustre.
270 1807, Bust l., small stars; 1809, 1810. Both of the last with reverse die breaks. Fine and V. Fine. The 1807 is rare. 3 Pcs.
271 1808 and 1808/7. Extremely Fine or better, both purchased as Unc. The first has a minute obverse nick, but the overdate is unusually nice. 2 Pcs.
272 1809, 1810 and 1811, small 8. Uncirculated, or nearly so. Lustrous. List at $7.50 each (Unc.), in the Guide book. 3 Pcs.
273 1809, 1810, 1811, small 8, and 1812. Uncirculated (2) and Ex. Fine. Nice coins. 4 Pcs.
274 1811, small 8, and 1812. Strictly Uncirculated. Fully lustrous and lightly toned. Hard to find so nice, and worth $13.50 as a pair. 2 Pcs.
275 1811, date 18.11, and 1812/11. Ex. Fine and V. Fine, the last with a planchet flaw at the upper left edge of the obverse, and the corresponding part of the reverse. Rare pair. 2 Pcs.
276 1813, 1814/13, and 1814. Uncirculated, or almost so. The 1813 is Ex. Fine, and the reverse of the overdate shows an imperfect planchet. A nice lot, well worth $20.00. 3 Pcs.
277 1813, 1814 and 1817. Extremely Fine. The first shows a strong reverse incusation above the date. Above average. 3 Pcs.
278 1813, 1814 and 1817. Different varieties than the last. Extremely Fine. 3 Pcs.
279 1814 and 1817/13. Strictly Uncirculated and Ex. Fine. Nicely toned. Cost $9.50. 2 Pcs.
280 **1815.** Over 12, as all are. Abt. Ex. Fine, but with a slight edge bruise at the top of the obverse. Marked as having cost $35.00. Rare.
281 1817. Date 181.7. Almost Ex. Fine. Lustrous, but well toned. Now lists at $8.50 in V. Fine.
282 1818/17, 1818, 1819/18, large 9, 1819/18, small 9, and 1819. Fine (1), V. Fine (2), Ex. Fine (1) and Unc. (1). Nice lot. 5 Pcs.
283 1818, 1819/18, large 9, and 1819. Extremely Fine. 3 Pcs.
284 1819, 1820/19, and 1820, small date. Better than Ex. Fine; almost Uncirculated. Well worth $12.50. 3 Pcs.
285 1820, large date, 1820, small date, 1821 and 1822. Extremely Fine lot. Nicely toned. 4 Pcs.
286 1820, large date, 1821, 1822 and 1823. Average Ex. Fine. Toned. 4 Pcs.
287 1822, 1823, perfect date, 1823, the so-called overdate. Ex. Fine and Abt. Unc. Unusually nice. 3 Pcs.
288 1824/1 and 1824, over other dates. Strictly Uncirculated and Fine to V. Fine. A scarce pair, well worth $12.50 2 Pcs.
289 1824/1 and 1824, over other dates. Another pair. The 1824/1 is Uncirculated, but not quite the equal of the preceding; the other overdate is Abt. Ex. Fine, and superior to the last. Both coins list at $26.50 in Uncirculated. 2 Pcs.
290 1824, 1825 and 1826. Uncirculated, or nearly so. A splendid lot. 3 Pcs.
291 1824, 1825 and 1826. Similar to the last, but Extremely Fine or better. 3 Pcs.
292 1825, 1827, curled 2, 1827, square based 2. First Abt. Unc., others Ex. Fine. One scarce. 3 Pcs.
293 1827/6 and 1827, square based 2. Very Fine and Abt. Unc. First rare. As a pair, worth $10.00. 2 Pcs.
294 1828, large curled 2, 1828, small 8's, square based 2; 1829. Ex. Fine and Abt. Unc. First V. Scarce. 3 Pcs
295 1828, small 8's, square based 2; 1829/1. About Uncirculated. A choice and valuable pair. The overdate is from the Sternberg collection, and cost $21.00 as "Uncirculated." 2 Pcs.
296 1828, small 8's, square based 2; 1829, 1830, small 0 in date, and a sharp double profile. Ex. Fine (1) and Abt. Uncirculated. Unusually nice. 3 Pcs.
297 1829, 1830, large 0 in date, 1830, small 0 in date. All Uncirculated. Attractively toned. List at $11.50 3 Pcs.
298 1831, 1832, small letters, 1833 and 1835. Iridescent Uncirculated. Far above average. A superb lot, but the 1835 has a slight obverse edge nick. List at $14.00. 4 Pcs.
299 1831, 1832, small letters, and 1833. Ex. Fine or better. Choice. 3 Pcs.
300 1832, small letters, 1834, large date and letters, 1834, small date, stars and letters; 1835. Ex. Fine and Abt Unc. 4 Pcs.
301 1832, small letters, 1834, large date, small letters; 1834, small date and letters, large stars; 1835. Average Extremely Fine. 4 Pcs.
302 1832, small letters, 1834, large date, small letters; 1834, small date and letters, large stars; 1836 lettered edge. Ex. Fine and Abt. Unc. 4 Pcs.
303 **1836. Milled edge;** 50 CENTS upon the reverse. Abt. Uncirculated. This coin was bought as strictly Uncirculated; it shows no signs of wear, but does display minor indications of handling. Lightly and evenly toned. Lists at $25.00 V. Fine; $40.00 Unc. Rare.
304 1837 and 1838. Uncirculated and Abt. Unc. The first shows signs of "bag handling." Two entirely different types, and as such, popular. 2 Pcs.
305 1839. Bust type. Strictly Uncirculated. Lustrous, with beautiful iridescent toning. Lists at $5.50
306 **1839 "O".** Mint mark between the date and bust, identical with the exceedingly rare 1839 "O". Iridescent Uncirculated, and virtually a "Gem." Now lists at $30.00, and well worth it
307 1839. The Gobrecht design; drapery from elbow, small letters on reverse. Abt. Unc. A nicely toned and highly desirable coin. Cost $10.00.

308 1840. As the last; date re-engraved. Iridescent Uncirculated. A superb piece, and worth full catalog value of $20.00 so.

309 1840 "O", 1841 and 1841 "O". Fine, Very Fine and Uncirculated. The second with a few defects. Valued at $10.00. 3 Pcs.

310 **1841. Proof.** The 1 in date recut and showing double at the base. Apparently, an early impression of Beistle 1a-B. A sharp, even and full strike; all of the stars fully struck up. Mostly brilliant, with indications of light toning. Extremely rare. Cost $50.00. **Plate.**

311 **1842 "O". Small date;** small letters upon the reverse. Very Fine and tarnished. Extremely rare, listing at $50.00. This rarity is very seldom offered, and seems somewhat underrated. **Plate.**

312 **1840. Large letters on reverse;** similar to 1838. Another real rarity. Strictly Fine, but bought as V. Fine. From the W. S. Furst collection, Morgenthau, 1934. Extremely rare. A nice coin, and worth a good price.

313 1842. Small date and large date. Uncirculated. Iridescent toning. List at $15.00. 2 Pcs.

314 1842 "O", large date, 1843 "O" and 1844 "O". Ex. Fine and Abt. Unc. Nice lot. 3 Pcs.

315 1843 and 1844, bottoms of 1 and 8 re-engraved. Uncirculated. The first nicely toned, and the 1844 a "Semi-Proof" or first strike, but with slight signs of contact with other coins. List at $13.50. 2 Pcs.

316 1843 and 1845. Uncirculated. Heavily toned. List at $13.50. 2 Pcs.

317 **1845 "O". Without drapery from elbow.** Extremely fine. This variety will be listed in the next edition of the Standard Catalog. V. Rare.

318 **1846. Over horizontal 6.** This coin is, or was Uncirculated, but has been cleaned. The surface is just beginning to retarnish, and to acquire an attractive coloring. It is the sharpest example that we have seen, and as such, is definitely superior to many specimens with full mint luster. Extremely rare. Cost $58.50 in 1941. **Plate.**

319 1846, small date, and 1847. Uncirculated and Impaired **Proof.** The last is well tarnished, and an iridescent purple color. The major defect is a small cut on the face. Cost $4.00 and $25.00. 2 Pcs.

320 1846, tall date, and 1848. Ex. Fine and Uncirculated. Well worth $10.00. 2 Pcs.

321 1846 "O", small date, and 1847 "O", the bottom of the 7 recut. Uncirculated, but with slight cabinet friction. List at $9.00. 2 Pcs.

322 1848 "O" and 1849 "O". Abt. Uncirculated. Nicely toned, as are almost all of the coins in this collection. 2 Pcs.

323 1849 and 1851. Uncirculated. The last rare. List at $22.50. 2 Pcs.

324 **1850.** Tarnished **Proof.** Iridescent blue and purple; partly a golden color upon the reverse. Very rare, worth far more than an Uncirculated example, listing at $20.00.

325 1850 "O" and 1851 "O". Uncirculated. The first a "Semi-Proof" with a few slight signs of handling, particularly upon the obverse. 2 Pcs.

326 1852. Iridescent Uncirculated. A "Gem" example of this really rare date. Worth full catalog value of $20.00.

327 1852 "O" and 1854 "O". First V.F. to Ex. Fine, with a few minor defects; the last Uncirculated. Worth $11.50, the 1852 "O" being rare. 2 Pcs.

328 1853 and 1853 "O". Arrows at date; rays behind eagle. Iridescent Uncirculated, the "O" mint a first strike, with considerable proof like surface. Popular, and in demand as "Type" coins. Catalog at $18.00. 2 Pcs.

329 1854, re-engraved 8 and 5, also, 1856. Abt. Unc. and Uncirculated toned. First lists at $10.00 Unc. 2 Pcs.

330 1855 and 1855 "O". Iridescent Uncirculated. A splendid and rare pair. List at $18.50. 2 Pcs.

331 1856 "O". Two varieties, one with the entire date re-engraved; the second with 5 and 6 of the date re-engraved. Uncirculated. Scarce, and worth $17.50. 2 Pcs.

332 1856 "S" and 1857 "S". Fine to V. Fine. Both are defective: The obverse of the 1856 appears to hove been sweated or polished, while the shield upon the reverse has been tooled; the 1857 has been cut or scratched to the right of the shield upon the obverse. Both pieces are somewhat deceptive, and were originally purchased as perfect. V. Scarce. 2 Pcs.

333 1857, 1857 "O", 1858 and 1858 "O". Toned Uncirculated lot. List at $16.50. 4 Pcs.

334 1858 "S", Small mint mark. Extremely Fine. Lists at $20.00 V. Fine; $35.00 Unc. V. Scarce.

335 1859. Superb iridescent Proof. Lists at $17.50.

336 1859 "O", 1860 "O", 1861 "O". Uncirculated, or nearly so. 3 Pcs.

337 1859 "S" and 1860 "S". Abt. Fine and Extremely Fine. Worth $17.50. 2 Pcs.

338 1860. Proof. Lightly toned, and with the slightest evidence of contact with other coins. Lists at $17.50.

339 1861. A splendid Proof, lightly toned. Now lists at $16.50.

340 1861 "S" and 1862 "S". Ex. Fine and Abt. Unc. List at $12.00 V. Fine; $32.50 Unc. 2 Pcs.

341 Confederate States of America. J. W. Scott Store Card with the reverse of the Confederate Half Dollar. White metal. Uncirculated.

342 1862. Toned Proof, with considerable iridescence.

343 1863. Iridescent gold and gray Proof. Only 460 struck.

344 1863 "S" and 1864 "S". Abt. Extremely Fine. Catalog at $8.00 in only V. Fine. 2 Pcs.

345 1864. Iridescent Proof. Only 470 struck.

346 1865 and 1867. The first is superb Uncirculated; the last a slightly handled Proof. 2 Pcs.

347 1865 "S" and 1866 "S", without motto. Abt. Fine pair, the last rare. Worth $10.00. 2 Pcs.

348 1866. Iridescent Proof. Only 725 struck.

349 1866 "S", motto, 1867 "S" and 1868 "S". Fine, V. Fine and about Ex. Fine. Becoming decidedly scarce. Worth at least $12.50. 3 Pcs.

350 1867. Brilliant Proof, partly toned. Only 625 struck.

351 1868. Brilliant Proof. Slightly iridescent. Only 600 struck.

352 1869. Nicely toned Proof. Only 600 struck.

353 1869 "S" and 1870 "S". First Good to V. Good, few slight pit like marks or nicks; second almost Uncirculated. Last worth $10.00 or more. 2 Pcs.

354 1870. Proof. Well tarnished, with a few infinitesimal handling defects. Like all of the Proofs in this collection, this coin has never been cleaned. Only 1,000 struck.

355 **1870 "CC".** First year of issue. Purchased as Uncirculated, this splendid piece shows only the slightest cabinet friction upon the highest spots. Uniformly toned, and exceptionally sharp. The specimen in the World's Greatest Collection, Numismatic Gallery, 1945, was called Fine. Only 54,617 examples were struck, the lowest coinage of the entire series. An extremely rare coin in this choice preservation, and well worth a good price. **Plate.**

356 1871. Brilliant iridescent Proof. Only 960 struck.

357 1871 "S". Extremely Fine. Worth $10.00 so.

358 **1871 "CC".** Abt. Very Fine. Lightly toned. Cost $32.50, several years ago.

359 1872. Iridescent Proof. Only 950 struck. Slight handling defect upon the reverse, which is hardly discernible.

360 1872 "S". The slightest shade from perfect Uncirculated. Decidedly uncommon.

361 **1872 "CC".** Very Fine to Ex. Fine, the reverse particularly sharp. A lustrous and almost perfect example of this rarity. Well tarnished. Similar specimens have sold as high as $50.00.

362 1873. Without arrows (at date). Glittering pink and blue Proof. Only 600 struck.

363 **1873 "CC". Without arrows.** Unevenly struck. V. Fine to Ex. Fine. Worth $40.00 so.

364 1873. Arrows. Brilliant iridescent Proof. Only 500 struck. In the greatest demand.

365 1873 "S" (Arrows) and 1874 "S". The 1873 is better than Good, but somewhat mishandled; the 1874 is Abt. Uncirculated, but badly tarnished, and with a minor obverse edge bruise. Worth $10.00. 2 Pcs.

366 1873 "CC". Arrows. Very Fine, with a few microscopic defects. Bought as Ex. Fine.

367 1874 and 1875. (With and without arrows) Uncirculated. The first lightly toned, and not fully brillant; the last bright and lustrous. A wonderful pair for the collector of types. Worth $8.50. 2 Pcs.

368 **1874 "CC".** Abt. Extremely Fine. A lustrous coin, with a few slight indications of handling. In view of the number coined, this should be the second rarest date in the entire "CC" Mint series. Only 59,000 pieces were struck in 1874, compared with 54,617 in 1870, and 337,060 (both types) in 1873. In the new Standard Catalog, this date will be listed at $25.00 Very Fine; $55.00 Unc. Very rare.

369 1875 "S" and 1875 "CC". Uncirculated, but lightly tarnished, with the slightest traces of cabinet friction. The last is from the Dr. G. P. French collection. Unusually choice. 2 Pcs.

370 1875 "S" and 1876. Iridescent and brilliant Uncirculated. Worth $9.00. 2 Pcs.

371 1876 "S" and 1876 "CC". About Fine and a toned "Semi-Proof." 2 Pcs.

372 1877. Mostly brilliant Proof. Microscopic evidence of contact with other coins. Only 510 struck. Lists at $15.00 in the Guidebook.

373 1877 "S" and 1877 "CC". Uncirculated. A superb pair, the first closely resembling a Proof. 2 Pcs.

374 1878. Proof. Magnificent gold, pink and blue iridescence. Unfortunately, there are two minute rim nicks upon the obverse, faults unnoticed by the previous owner. Only 800 struck.

375 1879. Choice iridescent Proof. Colored like the last. Only 1,100 struck.

376 1879. Uncirculated. Lustrous, but lightly toned. Really scarce, as only 5,900 pieces were coined. List at only $5.00 each. 2 Pcs.

377 1879. Another pair, but hardly as choice. Ex. Fine and Abt. Uncirculated. Equally scarce. 2 Pcs.

378 1880. Brilliant Proof. Traces of toning and tarnish. Only 1,355 struck.

379 1881. Brilliant Proof. Light golden iridescence. Only 975 struck.

380 1882. Proof. Almost fully brilliant. Only 1,100 struck.

381 1883. Choice Proof. Gold, pink and blue iridescence. Only 1,039 struck.

382 1884. Proof. Well toned, but with considerable brilliance upon the obverse. Only 875 struck.

383 1885. Brilliant Proof. Traces of gold toning. Only 930 struck.

384 1886. Superb iridescent Proof. Only 886 struck. V. Scarce.

385 1887. Proof. Beautifully toned. Only 710 struck. Almost rare.

386 1888. Proof. Mostly brilliant, but well tarnished upon the reverse. Only 832 struck. Scarce.

387 1889. Supposedly over 88. Toned gold and blue Proof. Only 711 struck. Scarce.

388 1889/88. Attractive "Semi-Proof" or first strike. Nicely toned. A scarce date, as only 12,000 regular pieces were coined.

389 1889/88. Another, identical to the last. Somewhat tarnished upon the reverse. Choice and desirable.

390 1889/88. Uncirculated. Slightly tarnished, but decidedly lustrous. Unusually scarce. 2 Pcs.

391 1890. Proof. Gold and blue iridescence. There is a slight impairment below, and to the right of the date. Only 590 struck. Scarce.

392 1891. Iridescent Proof. Only 600 struck, in this, the last year of issue. Scarce.

393 **Barber design.** 1892. Beautiful iridescent Proof. Only 1,245 struck.

394 1892 "O" and 1895 "O". Abt. Uncirculated. The last with slight bruising upon the obverse rim. Lustrous, both purchased originally as "Unc." Worth $15.00. 2 Pcs.

395 1893. Purple Proof. Like the other Proofs in this collection, far more desirable than a cleaned and "brilliant" coin. Only 792 struck.

396 1893 "O". Uncirculated. Mostly brilliant, with slight toning, particularly upon the reverse. A splendid example and worth full catalog value of $10.00.

397 1894. Blue and purple Proof. Only 972 struck.

398 1894 "S" and 1895 "S". Very Fine and Ex. Fine. Nice sharp coins, and well worth $12.50. 2 Pcs.

399 1896. Brilliant Proof. A gorgeous specimen, but showing minor indications of contact with other coins, presumably the balance of the Proof set. Only 762 struck. V. Scarce.

400 1896 "O". Extremely Fine. A nicely toned, lustrous coin, that was bought as Uncirculated. Perfect specimens have sold as high as $35.00. The Menjou example was only Good. Rare.

401 1897. Proof. Toned and tarnished, but a "Gem." Only 731 struck. V. Scarce.

402 1897 "O". Extremely Fine. Another rare mint mark, in almost Uncirculated condition. Light rubbing on the high spots. Well worth $17.50.

403 1898 "S" and 1899 "S". Extremely Fine or better. Lustrous. A rare pair that lists at $40.00 when Uncirculated. 2 Pcs.

404 1898 "S" and 1903. Extremely Fine and Uncirculated; the last not particularly brilliant or choice. Worth $15.00. 2 Pcs.

405 1899. Superb iridescent Proof. Virtually a "Gem." Only 846 struck.
406 1900 "S" and 1906 "S". Extremely Fine and lustrous. Uncommonly scarce. List at $37.50 Unc. 2 Pcs.
407 1901 and 1904. Proof and Uncirculated. The first is well tarnished; the 1904 lightly toned. Both are microscopically imperfect, in that they show the faintest defects. Still, above average. Well worth $15.00 today. 2 Pcs.
408 1902. Brilliant Proof. Well tarnished, with a blue iridescence, but still a "Gem." Only 777 struck.
409 1904. Proof. Mostly brilliant, but lightly toned. Only 670 struck.
410 1905. Proof. Almost fully brilliant. Slight gold toning. Only 727 struck.
411 1905 "O", 1906 "D" and 1907. Very Fine, Abt. Unc. and Ex. Fine. The first has a minor reverse rim bruise. 3 Pcs.
412 1906. Proof. Lightly toned, and not in full brilliancy. Only 675 struck.
413 1906 "S". A splendid Uncirculated coin, but with a few, almost invisible, rim nicks at the bottom of the reverse. Purchased as a "Gem," and certainly close to perfection. Now listed as a $17.50 mintmark; ($20.00 in the Guidebook).
414 1907 "D", 1908 "D" and 1908 "O". First two Abt. Unc.; last V. Fine. Some luster. 3 Pcs.
415 1907 "O". Uncirculated. A splendid specimen, with only the most infinitesimal traces of "Bag Handling." Well worth full list of $8.50.
416 1907 "S". Uncirculated. Lightly toned, and not fully struck up. We note a few imperceptible defects, as on the last. Now lists at $15.00; ($17.50 in the Guidebook).
417 1909, 1912 and 1913 "D". Average Abt. Uncirculated. Lustrous, but the second tarnished. 3 Pcs.
418 1911 "D". Uncirculated, but lightly tarnished. Catalogs at $12.50.
419 1912 "D". Uncirculated. Lustrous, and lightly toned. Minute impairment at the bottom of the obverse. A nice coin, and definitely desirable.
420 1913. Iridescently toned Proof. Only 627 struck. Rare, and in great demand.
421 1914. Brilliant Proof. Splendid iridescent tarnish, and just about a "Gem." Only 380 struck, and rarer than the last.
422 **Standing Liberty.** 1916 and 1917. The first and second years of issue. Uncirculated. Lightly toned, and with traces of tarnish. Lustrous, and decidedly choice. 2 Pcs.
423 1916 "D". Uncirculated. A nice coin, with full mint lustre, but lightly tarnished. Scarce.
424 1917 "S" on obverse. V. Fine to Ex. Fine. Evenly toned. A choice example of this rarity, particularly appropriate for the collector not desiring to pay a high price for a perfect one.
425 1918 "S", 1927 "S" and 1928 "S". All labeled "Unc.," but in reality, V. Fine, Ex. Fine and Abt. Uncirculated. Lustrous and attractive. 3 Pcs.
426 1929 "D" and 1929 "S". Brilliant Uncirculated, and Abt. Unc., tarnished. Worth $13.50. 2 Pcs.
427 1929 "S". Brilliant Uncirculated, but lightly tarnished, particularly upon the obverse. Scarce.
428 1933 "S", 1934 and 1934 "D". Extremely Fine and Uncirculated. Lustrous, but partly tarnished. First V. Scarce. 3 Pcs.
429 1934 "D" and 1934 "S". Uncirculated. Almost fully brilliant, but with traces of tarnish. The last is becoming rare, and is in great demand. 2 Pcs.
430 1934 "S". Uncirculated. Lightly toned. Definitely a $15.00 coin.
431 1935 and 1935 "S". Uncirculated. The '35 "S" is really brilliant, but well tarnished. Now worth $11.00. 2 Pcs.
432 1935, 35 "D" and 35 "S". Uncirculated. Mostly brilliant. Last scarce. 3 Pcs.
433 1936, 36 "D", 36 "S", 37 "D". Uncirculated. Almost fully brilliant. The '36 "S" is becoming quite scarce. 4 Pcs.
434 1936, 36 "D", 36 "S", 39, 39 "D", 39 "S". Uncirculated. Mostly brilliant. 6 Pcs.
435 1936, 1937 and 1938. Brilliant Proofs. Decidedly above average. Worth $35.00, or more. 3 Pcs.

A SMALL COLLECTION OF UNITED STATES COINS

The Property of Don Searle, Hollywood, California

490 **Half Cents.** 1804. Plain 4; Stemless wreath. Uncirculated. A splendid lustrous light brown and olive. Not rare, but seldom found so choice.

491 1805. Large 5, Stems to wreath; 1806, Similar; 1809, 1832, 1835, 1851 and 1856. V. Good to Very Fine. 7 Pcs.

492 1809. Gilbert 4. Uncirculated, sharp. Glossy olive and russet. This was lot #2243 in the W. W. Neil collection, 1947, at $10.50. Also, 1835. G-2. Uncirculated. Few minute defects, including an insignificant obverse rim bruise. The first a beauty. 2 Pcs.

493 1834, 1835, 1851, 1849, Large date, and 1857. Ex. Fine to Uncirculated. Definitely above average. Last cost $10.00. 5 Pcs.

494 **1856.** G-1. Brilliant **Proof.** Iridescent pink and steel. A glittering prize, highly underrated in this superb preservation. Very rare. Worth at least $35.00.

495 **Large Cents.** 1793. Wreath type; Buckled obverse. Crosby 7-F. The obverse is a glossy medium brown and has a superb surface, while the reverse is a darker color, and hardly as attractive. This piece is marked "Practically Unc.," which it is not, but is far above average, and almost completely free of the usual minor imperfections. Worth in excess of $150.00.

496 1794. The Short bust. Hays 33. Extremely Fine. This boldly struck and well centered cent would be Abt. Uncirculated, were it not for a few minor defects, including a slight nick on the cheek. Attractive light brown. A beautiful example of this date. Purchased as Uncirculated, at a very high price, from a famous midwestern dealer.

497 1795. Lettered edge variety. Sheldon 75. Strictly Fine, with some claims to V. Fine. A well centered piece, with a remarkably clean obverse, and only a few granular planchet defects to mar an unusually bold reverse. Dark brown. A $50.00 coin, in spite of its catalog value.

498 1797. Stems to wreath. S-140. Strictly Very Fine. Glossy medium brown, and well centered, together with a few of the usual unimportant defects. Purchased as Extremely Fine at $30.00.

499 1803. Large fraction. S-258. Almost Ex. Fine, but slightly mishandled upon the obverse. Still a nice "Penny." Also, 1805. Blunt 1. S-267. Strictly Very Fine with traces of original color, but we notice a few flaws, including a small, round punch mark upon the reverse at ON of ONE. Both were bought as top-grade coins. 2 Pcs.

500 1818 and 1838. Uncirculated. Lustrous and desirable. 2 Pcs.

501 1846. Small date (2); 1852 (2), and 1855, Upright 5's. Extremely Fine and Uncirculated, the first struck as a Proof. Nice lot. 5 Pcs.

502 **Small Cents.** 1857. Flying eagle. A choice and glittering Proof. Somewhat tarnished, and with a microscopic defect or so, but still a nice example of a coin that is hard to find. Catalogs at $75.00.

503 1859. Indian head; laurel wreath reverse. Brilliant Proof. Bringing full list of $10.00.

504 1862. Brilliant Proof, but slightly toned. Another attractive coin.

505 1881 (Indian), 1938 (2), 1940, 1941 (2), and 1942. Red Proofs, but one tarnished. Above average. List at $14.25. 7 Pcs.

506 **Two Cents.** 1866. Brilliant, light red Proof. Planchet flaw at the lower left reverse. Catalogs at $12.50.

507 1867. Brilliant Proof. Similar color as the last, and ever so slightly tarnished. Choice.

508 1867 and 1868. Proofs. The first brilliant and choice, the last attractive, but somewhat dull. 2 Pcs.

509 **Three Cents.** 1851 and 1859. Trimes. Lustrous Uncirculated and toned Proof. Also, 1872. (Nickel.) Attractive Proof. Catalog at $21.50. 3 Pcs.

510 **Nickels,** 1866. The first year of issue, with rays. Brilliant Proof. Not a "Gem," but a really rare coin, now listing at $35.00.

511 1883, Shield; 1883, Without Cents; and 1902. Choice Proofs. The last with a planchet defect or so on the obverse rim. Catalog at $11.50. 3 Pcs.

512 1883, Without Cents; 1937, and 1942, Type I. Brilliant Proofs. Worth $12.00. 3 Pcs.

513 **Half Dimes. 1795.** Valentine 5A, but the crack on obverse extends through cheek, bust and 7 to edge. Abt. Uncirculated. A beautiful little piece, showing no appreciable signs of wear. Lists at $50.00 Uncirculated in the Guidebook. **Plate.**

514 1829 and 1835, Large date and 5¢. Brilliant "Semi-Proofs." An unusual and highly desirable pair, worth much more than mere Uncirculated coins. 2 Pcs.

515 1858 and 1863. Proofs. Mostly brilliant, but partly tarnished. Catalog at $18.50. Last quite scarce. 2 Pcs.

516 **1860.** The very rare variety with **obverse of 1859** and **reverse of 1860.** No mention of United States. Proof. This was lot #1212 from the Dr. C. A. Allenburger collection, Mehl, 1948, at $87.50. Very rare, and seldom offered. Well worth $100.00. **Plate.**

517 **Dimes. 1796.** First year of issue. The variety with 6 in date almost touching bust, and first star close to curl. Serious die break extending through 17 to 9 of date; another, from rim through left side of 9, into the drapery, across bust, to the eighth star and milling. The reverse is also cracked. Just about Uncirculated. A splendid coin, lightly toned and well centered, showing the slightest evidence of file marks upon the obverse. A rare variety, and well worth a good price. **Plate.**

518 1805. Four berries on the reverse. Fine to V. Fine. Slightly toned, and showing a few handling defects upon the obverse. Worth $17.50 so.

519 1837. Bust type. Struck as a Proof, but not fully brilliant, and with slight cabinet friction. Also, 1859. Liberty seated. Brilliant toned Proof. A nice pair, the last a beauty. 2 Pcs.

520 **1837.** The Gobrecht design; sans stars. Large date. A brilliant **Proof,** for this variety, with a partial wire edge. A "Gem" and by far the finest that we have seen. **Plate.**

521 1858. Brilliant Proof. Slightly mishandled. Catalogs at $17.50. V. Scarce.

522 **1859.** The extremely rare variety with **obverse of 1859** and **reverse of 1860.** No mention of United States. Brilliant, iridescently toned "Gem" Proof. A superb example of a real rarity that was not in the World's Greatest, Menjou or many other famous collections. Records to $160.00 at private sale. Ex. Rare. **Plate.**

523 1878, 1883, 1899 and 1937. Nicely toned Proofs, except the last, which is brilliant. List at $16.00. 4 Pcs.

524 **Twenty Cents.** 1875. Well tarnished Proof. Becoming quite rare. Now catalogs at $17.50.

525 **Quarter Dollars. 1796.** Browning 2. Very Fine to Ex. Fine, with a lustrous, Proof like surface. Well struck, and perfectly centered. There is a small, very slight cut at the bottom of the reverse rim which does not materially affect the appearance of this desirable coin. A choice and valuable example out of 6,146 pieces coined. **Plate.**

526 1806. B-3. Abt. Uncirculated. Beautifully toned, but not struck up fully in the center of both the obverse and reverse. This attractive coin has been slightly mishandled, particularly at the right edge which has been bruised. It is the identical specimen illustrated upon Browning's plate. Really rare so choice. Cost $25.00, many years ago.

527 1818. Abt. Uncirculated. A nicely toned coin, with slight rubbing upon the high spots, and a few unimportant defects, including a microscopic rim nick or so. Marked $27.50.

528 1831. Small letters. The eagle with a tongue, and from a die apparently unknown to Browning. Iridescent Uncirculated; a splendid "Semi-Proof." One of the nicest we have seen, and purchased as a Proof for $12.50.

529 1846. Re-engraved date; 1853, Arrows and Rays. Uncirculated. Attractively toned, and not brilliant. The last has a partial wire edge. Worth $15.00. 2 Pcs.

530 1862. Glittering, but toned Proof. Lists at $8.50. Also, 1880. Brilliant Proof. 2 Pcs.

531 1866. The first with motto over eagle. Iridescent Proof. Bringing over catalog as a "Type" coin.

532 1892 and 1894. Popular Barber coins. Toned and tarnished Proofs. List at $14.50. In great demand. 2 Pcs.

533 1893. Isabella Columbian Commemorative. Unc. Deeply toned.

534 1917. Standing Liberty; type I and type II. Uncirculated, the last ever so slightly rubbed. Also, 1941. Brilliant Proof. Nice lot. 3 Pcs.

535 **Half Dollars.** 1879 and 1887. Toned "Semi-Proofs." The last rare. 2 Pcs.

536 1941 and 1942. Brilliant Proofs. Worth $6.00. 2 Pcs.

537 **Silver Dollars.** 1795. Balender 1. Bust with flowing hair; two leaves under each wing of eagle. The 7 in date recut, apparently over a 1. Extremely Fine. A splendidly centered, lustrous beauty. Well struck, and a top-notch "Type" coin. Cost $100.00, and an unusually nice and desirable specimen.

538 1795. B-2. Flowing hair; three leaves under each wing of eagle. Abt. Very Fine. Slight evidence of handling upon the obverse, together with light file marks on the reverse. A choice example, worth in excess of $35.00.

539 1795. B-14. Draped bust, which has been placed too far left. Strictly Very Fine. Well centered and struck almost completely free of the usual defects. Attractively toned. Marked Uncirculated, which it isn't. A nice coin for the collector of types.

540 1795. B-14. Another. Not quite Fine. Comparatively clean, and well worth $27.50.

541 1796. B-5. Large date; Small letters. Just about Extremely Fine. Evenly centered, and a bold, sharp impression. Beautifully toned, but with an edge defect or so. A splendid and highly desirable dollar. Well worth a good price.

542 1796. B-5. Another. Strictly Fine. Shows the usual unimportant indications of handling. A really scarce date.

543 1793. B-24a. Large heraldic eagle; reverse die break from stem down to milling. Very Fine. Small planchet crack or flaw on the right edge. Slight traces of mint lustre. Bought as Extremely Fine for $50.00.

544 1798. B-27. Large heraldic eagle; close date with high 8. Almost Uncirculated. A really beautiful and lustrous coin, well worth a good price.

545 1799. B-7a. (Rarity 5). Strictly Very Fine, but weakly struck at the upper right center of the reverse. Valued by Balender at $60.00.

546 1799. B-9. The "Apostrophe" variety; die flaw after last S in STATES. Very Fine or better, but with two or three minor defects.

547 1800. B-14. Dotted date or "Q" variety. Very Good. With some claims to Fine, and the usual unimportant handling marks.
548 1861. Brilliant Proof. Usually found tarnished or dull. Rare, lists at $50.00. Ex. W. W. Neil collection.
549 1862. Proof. Almost fully brilliant, but appears to have been cleaned. Bringing full catalog of $27.50.
550 1864. Brilliant Proof. Undoubtedly cleaned many years ago, and not quite as nice as the 1861 above. Only 470 struck. Ex W. W. Neil Coll.
551 1868. Brilliant Proof. As is usually the case, this piece shows a few infinitesimal signs of handling upon the obverse. Still, above average.
552 1886. The Morgan design. Toned Proof. Also, 1923 "D". The Peace Dollar by de Francisci. Toned Unc. Both popular type coins, the last at one time quite rare. 2 Pcs.
553 **1895.** Proof. Almost fully brilliant, but partly toned. Apparently cleaned many years ago. Only 880 pieces, of all kinds, believed struck. Steadily increasing in value. V. Rare.
554 1900. The Washington-Lafayette dollar. Uncirculated. Well toned, and not brilliant. Becoming quite popular.
555 1877 "S" and 1878 "S" Trade Dollars. Abt. Unc. and "Gem" Uncirculated. Hard to locate so choice, the last now listing at $7.50. 2 Pcs.
556 **1936 Partial Proof Set.** Badly tarnished. Lacking only the Nickel, which can be obtained under its catalog listing of $10.00. Currently worth $40.00, and rapidly ascending in value. 4 Pcs.
557 **Patterns.** 1879. Goloid Metric Dollar. Silver. Partly brilliant Proof. **A.W. 1606;** Listed as R-6, but actually only R-1. Always popular, and goes well with collection of Silver dollars.
558 1838. Half Dollar. Bust to left. Rev. Eagle with four arrows. Silver. Proof. Almost fully brilliant, but with some tarnish. Partial sharp wire edge. **A.W. 70;** R-8. Decidedly superior to the specimen which realized $33.00 in our 36th sale, and equal in quality to examples that have changed hands at $50.
559 1859. Half Dollar. The Paquet obverse. Rev. Eagle with ribbon. Silver. Proof. Not fully struck up, nor brilliant. **A.W. 291;** R-4.
560 1859. Half Dollar. The Longacre obverse. Rev. HALF DOLLAR within wreath. Silver. Toned Proof. **A.W. 293;** R-4. Like the last, a nice addition to a collection of halves.
561 1870. Quarter Dollar. Liberty with cap; two stars on the forehead. Rev. STANDARD/25/CENTS/1870. Silver. Reeded edge. Lightly tarnished Proof. **A.W. 958;** R-8.
562 1866. Five Cents. Bust of Washington r. IN GOD WE TRUST. Date below. Rev. The type adopted for the regular issue with rays. Nickel. Splendid Proof. **A.W. 551;** R-8. A truly beautiful design, far better than the one selected. A similar specimen realized $21.25 in our 35th sale, Nov., 1951.
563 1855. Cent. Flying eagle, with stars. Rev. Large wreath. Copper. Ex. Fine, a former Proof. **A.W. 197;** R-2. Highly interesting, though hardly rare.
564 **Gold Dollars.** 1855. Type 2. Brilliant "Semi-Proof." Virtually a "Gem" and about equal to coins that sold for as high as $75.00.
565 1887. Proof. Not fully brilliant upon the obverse. Lists at $17.50.
566 1888. Brilliant Proof. Only 457 struck.
567 1889. The last year of regular issue. Proof. Not fully brilliant.
568 **Commemaratives.** 1903. Bust of Jefferson. Louisiana Purchase Exp. Brill. Uncirculated.
569 1903. As last. Bust of McKinley. Brilliant Uncirculated. Like the preceding, now lists at $15.00.
570 1905. Lewis & Clark Exposition. Abt. Unc. Two minute nicks after ORE., upon the obverse. Rare.
571 1916. McKinley Memorial. Niles, Ohio. Brilliant Unc. Only 9,977 pieces coined. Scarce.
572 **Quarter Eagles. 1833.** Round cap on Liberty; Motto over eagle. Ex. Fine. This rare coin is almost Uncirculated. but it has been cleaned and slightly handled. Worth $65.00 today.
573 1834. New type, no motto over eagle. Ex. Fine. Brilliant, apparently struck as a Proof.
574 1836. Just about Uncirculated. Lustrous, and with a broken obverse die.
575 1902. Uncirculated. Becoming hard to find so.
576 1904. Brilliant Uncirculated. Almost perfect.
577 1905. Brilliant "Gem" Proof. A sparkling little beauty.
578 1905. Brilliant Uncirculated. Unusually choice.
579 1911 "D". The rarest variety of the Bela L. Pratt Indian head design. Ex. Fine. Lists at $20.00 in only V. Fine.
580 1926. Sesquicentennial. The last Gold Commemorative struck. Brilliant Uncirculated.
581 1926. As the last. Uncirculated. 2 Pcs.
582 **Half Eagles. 1796/95.** Small eagle. Almost Extremely Fine, but with slight indications of handling, and a partly roughened planchet upon parts of the reverse. Lists at $110.00 in Fine, and $200.00 Uncirculated in the Guidebook. V. Scarce.
583 1800. Brilliant Uncirculated. Fully lustrous, and with the reverse die broken twice on the rim. In spite of a very few unimportant defects, this splendid example is well worth the $75.00 it lists at in the Guidebook.
584 1804. Large 8, under a smaller and more neatly defined numeral. Almost Uncirculated. The reverse die broken twice. A bright, and attractive coin.
585 1805. Almost perfect Uncirculated. Worth $50.00 so.
586 1807. Head in round cap. Abt. Uncirculated. A remarkably clean and desirable specimen.
587 1810. Large date. Extremely Fine and lustrous.
588 1811. Large 5. A shade better than Very Fine, but with a few unimportant defects, including a very light scratch or two in the left obverse field. Rather scarce.
589 1834. New type, no motto over eagle. Impaired Proof. Mostly brilliant, but unfortunately mishandled.
590 1880 "S". Uncirculated, but with the usual "Bag Handling."
591 1898. Uncirculated. Just a shade cleaner than the last.
592 1899. Brilliant Uncirculated. A really choice example.
593 1904. Perfect brilliant "Proof." Only 136 Proofs struck.
594 1907 "D". Brilliant Uncirculated. Mounted in a black composition holder. Popular as a type coin.
595 **Eagles. 1795.** The first year of issue. Abt. Uncirculated. Beautifully centered and struck, but with two or three minor defects. Only 2,795 pieces coined. This beauty should realize $175.00.
596 1797. Large heraldic eagle. Die break through center of 7 in date. Hardly better than Fine, and with several indications of handling.

597 1799. Brilliant Uncirculated. A splendid coin, with full mint bloom, but showing the slight handling defects so common upon large Gold pieces. Really difficult to find so choice. The first Menjou specimen, also a "Gem," sold for $137.50.

598 1799. Another. Strictly Extremely Fine. Lustrous, and with an attractive orange toning. A decidedly attractive example.

599 1803. About Uncirculated. Another beautiful and highly desirable piece.

600 1897. Brilliant Uncirculated. Above average.

601 **1899. Brilliant Proof.** Only 86 specimens struck. Rare, and in demand.

602 1899. Choice Uncirculated. Comparatively clean, but with a very few signs of handling.

603 1906 "D". Brilliant Uncirculated. Popular as a "Type" coin.

604 1906 "D". Another. Equally brilliant, and almost as choice.

605 1908 "D". Indian head; without IN GOD WE TRUST. Lustrous Uncirculated. Only 210,000 struck, compared to 836,500 of the type with motto.

606 **Double Eagle.** 1915 "S". Brilliant Uncirculated. Almost perfect, and decidedly scarce. The Menjou example was only V. Good. This beauty is worth $100.00.

Large Size Chapman Plate Catalogs

From 1882 to 1921, the Chapman brothers of Philadelphia, Samuel Hudson and Henry, published twenty-two voluminous Public Sale Plate catalogs. Over the years, these books have become quite valuable, and are eagerly sought for by many well informed collectors. In the August, 1950 issue of the "Numismatist" will be found a detailed listing of the twenty-two catalogs. At that time, a rarity rating was attached to Plate copies. This listing has been amended somewhat, and the corrections are included in the descriptions of the following lots. Homer Downing had a great fondness for these valuable reference works, and we sincerely hope that others will obtain the some pleasure and knowledge from them.

ODDS AND ENDS FROM THE H. K. DOWNING COLLECTION

723 **Wood's Coinage.** 1723. Halfpenny. Uncirculated. Nicely struck, but the reverse die broken above BERN of HIBERNIA. Lustrous red and brown. Worth $5.00 so.

724 1723. Farthing. Abt. Uncirculated, but not fully struck up in the center. Slight planchet crack at edge. Glossy golden brown. Scarcer than the last.

725 **Half Cents.** 1804. Gilbert-11. Obv. of G-7 (Spiked Chin); Rev. of G-10. Fine or better, almost Very Fine for this miserably struck coin. The obverse shows extensive die damage, and the reverse die appears shattered. This is an R-7 variety, and extremely rare. It is probably the finest known example.

726 1806. G-3. Large 6; Stems to wreath. Uncirculated red. Well struck, the reverse unusually strong. Uncommon so choice.

727 1810. G-1. Strictly Very Fine. Dark brown. Rare in this condition.

728 1811. G-2. Broken die variety. Good to V. Good; on "X" lightly scratched on obverse. Rare.

729 1854. G-1. Uncirculated red. A splendid piece, well worth $5.00 so.

730 **Large Cents.** 1798. Various varieties. Sheldon Nos. 145, 154, 161, 164, 172, 173 and 174. V. Fair to V. Good. All attributed. 7 Pcs.

731 1800. Sheldon Nos. 199 (2), 202 and 207. Abt. Good lot. S-199 is R-4. 4 Pcs.

732 1801, S-224; 1803. S-250 (2), S-254 and S-260. Good to V. Good. S-250 is also on R-4 variety. 5 Pcs.

733 1805. S-268; 1807. S-271, S-276; 1810. S-281; 1814. S-295. Very Good lot. The first is R-6. As in the two foregoing lots, all are attributed. 5 Pcs.

734 **Freak Large Cents.** 1812. S-291. Brockage. Obverse; Normal, but well off center. The reverse shows the impression of another obverse, incused, and is also decidedly off center. Abt. V. Fine. Dark brown. Interesting and rare.

735 1816. NA-4. Both sides clearly double struck. Two entirely separate dates appear upon the obverse. Fine. One of the few that we have seen so.

736 1817. Brockage. Reverse; Normal. The obverse shows the impression of another reverse, incused. Abt. Fine. Similar to the 1812 Cent described above.

737 1818. Brockage. Both obverse and reverse incused. Only Abt. Good.

738 1826. NA-5. Struck badly off center, to the right. Fine. Dark brown and steel. Rare and desirable.

739 1803. Hammered out to a much larger size (35mm); 1851. N-18. False Reeded edge. Fine. 2 Pcs.

740 **Pattern Cent.** 1855. Large Flying Eagle. Rev. Large Wreath. Copper. Iridescently toned Proof. **A.W. 197;** R-2 Over 300 coined, but still scarce and interesting.

741 **Hard Times Tokens.** Mr. Downing's small collection of sixty different varieties, generally above average, both as to condition and quality. We note Low Nos. 3 & 4, Fine and V. Fine; Low No. 6, V. Fine, at a cost of $11.00; Low No. 16, Abt. V. Fine; Low Nos. 56, 143, 145, 148, and other scarce varieties. A nice lot for a serious beginner. Well worth $30.00. 60 Pcs.

New Jersey Cents

It is not generally known that Homer Downing was seriously interested in Jersey Cents. However, he accumulated a large number, including several scarce and rare pieces. On all of the following, the attributions are marked on the envelopes, and are guaranteed to be correct; weights in grains and diameters in millimeters are also marked, evidently for some research project never completed by Mr. Downing.

742 1786. Maris 17-b. Straight Plow beam. Rev. Sprig of leaves under shield; legend punctuated with five pointed stars. Fine to V. Fine, with a few slight obverse nicks. This specimen will undoubtedly be of some consequence in the final establishment of the chronology of Jersey Coppers. It is overstruck upon a Draped Bust Connecticut Cent dated 1787, of a variety reading ETLIR:. This and the date, 1787, show plainly on the right obverse. Rare.

743 1786. M 21-O. Curved Plow beam. Rev. Extra wide shield. Almost Extremely Fine, but roughened, and with some evidence of corrosion. Dr. Maris called this variety R-4, the same rating he gave to the Immunis Columbia of 1786.

744 1787. M 46-e. Quite similar to the Serpent Head. About Uncirculated. Shows indications of die damage. Delicately mottled light brown. Superior to the Maris Plate coin, in that the latter has edge bruises, from which this beauty is happily free. Hard to locate so choice. Ex Parsons coll., 1914 lot #262.

745 1787. M 54-k. The famous "Serpent Head." Extremely Fine. Double struck, with a beautiful light brown surface. Listed without price in the Guidebook, and generally regarded as rare, in spite of Maris's contrary listing. An inferior example realized $14.00 in our 36th sale. This specimen is at least the equal of the piece shown on Crosby's Plate. From Henry Chapman's sale, May 13, 1915, lot #270

746 1788. M 50-f. Horse's head and plow to left. Fine to V. Fine, for this piece, but struck on a defective planchet. Die cracked at final 8 and REA. Dark brown color, with a minute nick at the top of the reverse. H.K.D. called this coin rare. It is well worth $10.00.

747 1786-7. Group of six Jersey Cents, selected as among the most interesting Mr. Downing had. 1787 M 6-D Curved beam, period after legend; 1786 M 21 N. Curved beam, extra broad shield. 1787 M 33-U, Straight beam, without knobs; 1787 M 38-Z and 39-a, Curved beam, no period after legend, 1787 M 41-c Clipped flan, but a R-6 item. Last V. Fair, others Fine and Very Fine. A fine start for either a type set or a variety collection. 6 Pcs.

748 1787. M 56-n. Group of four different overstrikes: Struck over an Irish Halfpenny; a British Halfpenny; a well worn Connecticut Cent; and a fairly new Connecticut Cent of 1787. One good and battered, balance Good to V. Fine. The second is from the Stickney collection. Highly interesting. 4 Pcs.

749 1786-88. A collection of sixty four different New Jersey Cents. All expertly attributed. We note two specimens without Coulters, M 12-G and 12-I, both very scarce, the latter pierced; also a 15-J, 21-O, 55-I and 68-w, each R-4; and the seldom seen 35-J, whose obverse is better than that on the Maris Plate specimen. Includes the "Type" coins, Head left, "Fox" variety, "Serpent Head," PLURIBS, etc., all in great demand. Poor to V. Fine, averaging Good to V. Good. The M 6-C and 28-S are from the Stickney collection. An interesting lot, conservatively valued at $65.00. 64 Pcs.

750 1786-88. Another collection, this one of forty six different varieties. All expertly attributed. This group also contains the M 6-C, 12-G, 12-I, 15-J; as well as the "Type" coins, M 49-f, 54-k, 60-p, 77-dd and 78-dd. Condition about as the last, averaging Good. Worth $40.00. 46 Pcs.

751 1786-88. Still another collection. Twenty nine different varieties, attributed, as are the foregoing. Contains the PLURIBS and "Fox" pieces, as above. Mostly Very Fair to Good, one or two pierced. Worth $17.50. 29 Pcs.

752 1786-88. A fourth group. Twenty four different varieties, all attributed. Also contains the PLURIBS and "Fox" pieces. Fair to V. Good, averaging about Good. None pierced. Worth as much as the last—$17.50. 24 Pcs.

753 1786-88. The remainder of the collection. All attributed. Mainly duplicates, but we observed several PLURIBS and four "Fox" varieties. Fair to Good, a few V. Good, one pierced. Worth $25.00. 55 Pcs.

CANADIAN COINS, MEDALS AND TOKENS

Formerly the property of H. D. Gibbs, Pittsburgh, Pa.

(With additions)

HS

This offering of Canadian material, while far from complete, does include a large number of interesting and valuable items. Recent activity in this field, including the formation of a Canadian Numismatic Association, indicates a remarkable increase in demand and a keen appreciation for the monetary history of our neighbor to the north.

Almost all of the following have been catalogued with the aid of the standard references: THE CANADIAN COIN CABINET. 2nd edition. J. LeRoux. Montreal, 1892; ILLUSTRATED HISTORY OF COINS AND TOKENS RELATING TO CANADA. P. N. Breton. Montreal, 1894; POPULAR ILLUSTRATED GUIDE TO CANADIAN COINS, MEDALS, ETC. P. N. Breton. Montreal, 1912; 1952 CATALOGUE OF CANADIAN COINS, TOKENS & FRACTIONAL CURRENCY. J. E. Charlton. Toronto, 1951; THE COINS AND TOKENS OF CANADA. 3rd edition. W. Raymond. New York, 1952. Also, the various publications of E. G. Courteau, 1908-34.

811 **DECIMAL COINAGE. Province of Canada.** 1858. 20¢, 10¢, 5¢, Specimens, struck with plain edges. Toned Proofs. First has a minute rim defect. Also, 20¢, 10¢, 5¢. Regular issue, reeded edges. Ex. Fine to Unc. V. Rare and scarce. 6 Pcs.

812 **Dominion of Canada.** Silver Dollars. 1947 Maple Leaf, 1948 and 1949 Newfoundland. Toned Unc., but almost fully brilliant with considerable Proof like surface. Above average. List at $10.00. 3 Pcs.

813 50 Cents. 1907 and 1936; 25 Cents. 1903; 10 Cents. 1913, 18, 20 and 1930. Average V. Fine. Well worth $7.50. 7 Pcs.

814 50 Cents. 1937, 38, 43, 47 Maple Leaf, straight 7, 48 and 1949. Choice Unc. Mostly tarnished. Slightest signs of handling. Catalog at $9.50. 6 Pcs.

815 25 Cents. 1937, 43, 47 Maple Leaf, 48 and 1949; 10 Cents. 1937, 43, 47 Maple Leaf, 48 and 1949. Choice Unc. Mostly brilliant, a few partly tarnished. 10 Pcs.

816 5 Cents Silver. 1904, 05, 07 and 1920; 5 Cents Nickel. 1922, 27, 28, 32, 34, 36, 37 (3), 40, 42 (2); Tombac. 1942 (2), 43 (4); Steel. 1944 (3), 45. Nickel. 1946, 47 Maple Leaf, 48 and 1949. Fine to V. Fine (4); balance, Abt. Unc. and Brill. Unc. Nice lot. 30 Pcs.

N.W.S. I.H.F. B-930; Similar, N.W.T. J.H.F. B-931; JOHN TOBIN. B-932 (3); Also, two other unpublished Tobin tokens similar to B-932. **British Columbia.** HON. JOHN ROBSON. B-939. Very Fine to Unc. Charlton values B-930, 931, 932 and 939 at $3.50, $3.50, $3.00 (Each) and $4.00 respectively. Nice lot. 20 Pcs.

905 **ANSE CANOT.** Rev. 1, 5 and 40. All unpublished. Breton only knew of one variety, that of B-924 with 10 on the reverse. The second is completely unknown. W. W. C. Wilson, to our knowledge, had two sets with the 1, 10, 20 and 40 reverses. One of these sold for $76.00 in 1925. Very Fine trio. Extremely rare. Worth a good price. 3 Pcs. **Plate.**

906 **1820. NORTH WEST COMPANY.** Beaver in center. Rev. Laureated head to r., TOKEN above, date below. B-925; R-144. Extremely Fine, medium brown color with traces of lustre and tarnish. **Unholed.** Few imperfections on the obverse edge, but the surface is almost completely free of nicks and dents. Absolutely the finest specimen of this rarity that we have seen. According to Breton, in 1894, only five specimens were known. While some specimens have been discovered since the book was published, we doubt if more than five examples are known in better than Good - V. Good condition. Ex. Rare. **Plate.**

907 1820. NORTH WEST COMPANY. Identical to the last. Holed. Good, but corroded and pitted. As they are usually found. V. Rare.

908 1858. Halfpenny size token. F B L in large, script letters. 2 above, date below. Rev. Uniface. Very Fine. Attributed to the Northwest territory. Very rare and said to have cost $40.00. **Plate.**

909 **Hudson's Bay Company.** Round token made of Walrus ivory. H B lightly scratched on obverse. Rev. Blank. 34mm. Said to of have represented "One Beaver" and to have been used at the James' Bay and Mackenzie River stations of the company, long previous to the brass tokens. Accompanied by a note confirming the above information. Also, set of round Aluminum tokens made for use in the Eastern Arctic. H B C above,

denamination below. 5, 10, 25, 50, 100. Rev. Blank. In addition, a similar, but square shaped token. H B C above, large numeral 1 below. Rev. Blank. Accompanied by a letter which we quote below. Very Fine and highly unusual lot. 7 Pcs.

Mr. Clifford P. Wilson, of the Hudson's Bay Company, wrote to Mr. Gibbs as follows: "The square token represents one white fox skin, which is the unit of currency in the Eastern Arctic, just as the beaver skin used to be the unit of currency in the Indian countries. The round tokens represent values in cents and are designed to teach the Eastern Arctic Eskimos the use of money. These tokens, however, are not taken out of the store. They are simply used across the counter to keep tab on purchases."

910 **Newfaundland.** 1841. R. & I. S. RUTHERFORD. B-952, R-192; Another, without date, R-191; 1846. RUTHERFORD BROS. B-953, R-193; 1860. FISHERY RIGHTS. B-955, R-195. First two V. Fine, but slightly defective. Last two V. Fine and Abt. Unc. Uncommon lot. 4 Pcs.

912 **PETER McAUSLANE.** St JOHNS NEWFOUNDLAND. Rev. SELLS ALL SORTS OF SHOP & STORE GOODS. B-956; R-196. Ex. Fine, traces of lustre. Charlton values this variety at $35.00 in V. Fine and $50.00 in Uncirculated. V. Rare. **Plate.**

913 **Miscellaneous.** B-957; B-958; B-959; B-960 (3); B-961 (4); B-962; B-963; B-964; B-965; B-966, B-967; B-969; B-971; B-976; B-978. Various varieties. Abt. V. Good to Ex. Fine. One or two mishandled, but generally far above average. 20 Pcs.

914 **Wellington Penny tokens.** B-790 and B-974. Very Fine and Extremely Fine. Both very rare in such choice preservation, the last particularly so. The Morris specimens were only Fine and Very Good and sold for $10.90 in 1912. Well worth $25.00. 2 Pcs. **Plate.** (Last only)

915 B-979 (3); B-981 (2); B-982; B-984; B-985; B-986; B-987 (5); B-988; B-990 (2); B-991. Various varieties. V. Good (1), balance Fine to Unc. An unusually nice lot, seldom found so choice. Several are rare, particularly the last. 18 Pcs.

916 **B-986. Struck in Silver.** Also, the rare variety with CIUDAD. Uncirculated and V. Fine. We can locate no record of the former, and can only assume that it is very rare. 2 Pcs. **Plate.** (First only.)

We have seen examples of B-987 struck in Silver, but never of B-986. Both varieties commemorate Wellington's Peninsula victories, 1808-12, and it is understood that the first was struck by John Kirby Picard in 1812, when invited by royalty to exhibit his tokens.

917 B-992; B-993; B-994 (4); B-996; B-997 (5); B-1002; B-1004 (3); B-1006; B-1011; B-1013. Various varieties. V. Good (3), balance Fine to Unc. One or two slightly defective, but mostly above average. 19 Pcs.

918 **B-998. Harp Obverse.** Rev. SHIPS, COLONIES & COMMERCE. Strictly Good, as they usually come. Equal to the W. W. C. Wilson example sold in 1925. Also, the L. A. Renoud collection of Harp tokens, B-1012. Consists of twenty-five different and numbered varieties, as well as twenty-two unnumbered sub varieties and two odd pieces, one dated 1834. Copper and Brass. Good to Abt. Unc., a very few mishandled. Mr. Gibbs called this the "finest collection of Harp tokens in the world." Unfortunately, the rare variety dated 1825 has been removed. 50 Pcs.

919 Standing Eagle and U.S. Shield, 13 stars around. Rev. RESPONSIBLE GOVERNMENT AND FREE TRADE. Brass. Fine, few light edge bruises. This is lot #355 from the Charles Morris collection sold by Ben G. Green, September 13th, 1912, where it realized $16.00. It was purchased by W. W. C. Wilson and later passed into the hands of Wayte Raymond. It is believed to be unique. **Plate.**

WR

920 FERRY TOKEN. Rev. Blank. Brass. Very Good. Said to have superseded the Luzon token. This is lot #360 from the Morris collection, 1912, where it sold for $21.00, and was likewise purchased by Mr. Wilson. Mr. Green, in his catalog, stated that it had cost $13.00 in 1888. Formerly from the collection of Wayte Raymond. Believed to be unique. **Plate.**

Complete Set of Proof Bronze Indian Head Cents

1040 **1864 to 1909.** Complete set of Bronze Indian Head Cents, all in brilliant Proof condition, and including the 1908 "S" and 1909 "S" in bright red Uncirculated. Hardly a matched set, though all of the coins are attractively toned, each with a peculiar charm of its own. A few have begun to tarnish, and others have acquired the slightest tendency towards dust spotting. This set has long been the property of Wayte Raymond, who tells us that he assembled it over a period of years from select coins as they came to him. It is far above the average set offered, and among the nicest that we have seen. Certainly, none of the pieces have been "improved." Mounted in three pages of a small National Coin album. A set destined to increase in value over the years, and one that should be seen. Currently lists at over $475.00. 48 Pcs.

WR

LINCOLN CENTS

From the Ralph J. Lathrop collection, N.Y.C.

It should be remembered that many of the earlier and scarce dates usually bring a substantial premium over catalog value when in bright, red condition. The following coins were carefully selected by Mr. Lathrop, over a period of years, and represent unusually choice quality.

1041 1909, 09 VDB, 10, 11, 12 and 1913. Brilliant red Uncirculated. Exceptionally choice. 6 Pcs.

1042 1909 "S" VDB. Bright, golden bronze Uncirculated. Rare, and in demand.

1043 1909 "S" and 1910 "S". Brilliant Unc. The last toned an orange red color. Cost $5.50. 2 Pcs.

1044 1911 "S" and "D". Choice Unc. The first, a lightly toned, lustrous bronze color and the last, a bright red Scarce pair. Worth $7.00 so. 2 Pcs.

1045 1912 "S". Uncirculated. Almost fully brilliant with light, even toning. A beautiful example of this scarce mint mark.

1046 1912 "D". Brilliant, light red Uncirculated. Slight indications of tarnish upon the reverse. Uncommonly scarce; cost $5.75.

1047 1913 "S". Brilliant, golden red Uncirculated. Highly desirable and scarce.

1048 1913 "D". Choice Unc. A light, even red color. Mostly brilliant, but with slight indications of reverse tarnish Above average.

1049 1914 and 1915. Brilliant red Uncirculated. Uncommon. 2 Pcs.

1050 1914 "S". Choice Unc. With a golden red color that is just beginning to tone. Well worth $10.00 so

1051 1914 "D". Uncirculated. Toned a uniform reddish bronze color. One or two minor defects in the obverse field. An unusually attractive specimen of the rarest coin in the series.

1052 1915 "S" and "D". Brilliant red Uncirculated. The first is just beginning to tone upon the reverse Cost $6.00 2 Pcs.

1053 1916, 16 "S" and "D". Brilliant red Uncirculated. Almost matched with only the slightest indications of tarnish. Well worth $7.00. 3 Pcs.

1054 1917, 17 "S" and "D". Brilliant red Uncirculated. Similar to the preceding 3 Pcs

1055 1918, 18 "S" and "D". Brilliant red Uncirculated The last is just beginning to tone A scarce War year set. Worth $12.00. 3 Pcs.

1056 1919, 19 "S", 19 "D", 20, 21 and 1923. Brilliant red Unc., except for the second which is a light, yellowish color. Above average. 6 Pcs.

1057 1920 "S" and "D". Choice Uncirculated. The first is toned a lustrous, golden brown and the last is bright red. A scarce pair, worth $7.50. 2 Pcs.

1058 1921 "S". Choice Unc. A bright, light bronze color with slight traces of toning. One of the best specimens we have seen of this rarity. Cost $16.00.

1059 1922 "D", 24, 25 and 1926. Brilliant, mostly bright red Unc. Slightest signs of "Bag Handling" and tarnish. Choice. 4 Pcs.

1060 1923 "S". Uncirculated. Toned a rich, iridescent brown color with considerable lustre upon the reverse. This rare mint mark is seldom found red. Lists at $15.00.

1061 1924 "S". Choice Unc. A lustrous and highly desirable coin with light, even toning. Above average. Cost $9.00.

1062 1924 "D". Bright, red Uncirculated. Slight traces of tarnish. Like the last, decidedly scarce.

1063 1925 "S". Uncirculated. Partly lustrous, but beginning to tarnish. Seldom found better. Lists at $6.50.

1064 1925 "D" and 1926 "D". Brilliant red Uncirculated. The first with microscopic traces of reverse tarnish. Decidedly uncommon so choice. 2 Pcs.

1065 1926 "S". Bright, golden bronze Uncirculated. Particularly brilliant upon the obverse. Very scarce.

1066 1927, 27 "S" and "D". Brilliant red Uncirculated. The last has light, iridescent toning upon the reverse. Scarce and well worth $10.00. 3 Pcs.

1067 1928, 28 "S" and "D". Uncirculated. Mostly bright red, but with indications of "Bag Handling" and tarnish. List at $6.50. 3 Pcs.

1068 Balance of the set, 1929 to 1946 "D". Uncirculated choice. Almost completely bright red and mounted in the last two pages of a Raymond Popular album. Catalog at over $17.50. 51 Pcs.

Complete Set of Three Cents Silver

1069 **1851 to 1873.** Complete set of Trimes or Three Cents Silver, all in the finest possible condition. The 1851, 51 "O", 52, 53, 54, 56, 57, and 1858 are Uncirculated. The balance, including the rare 1855, are all Proofs. Partly brilliant, but mostly tarnished. Mounted in a small Raymond album page. A very difficult set to obtain, with a total catalog value of about $340.00. 24 Pcs.

WR

LIBERTY STANDING HALF DOLLARS

From the Ralph J. Lathrop collection, N.Y.C.

The increasing popularity of this series cannot be overemphasized. The new Standard Catalog prices can only reflect part of the demand, as the valuations are based upon last year's records and interest.

All of the coins in this set were originally acquired years ago. A few of them are weakly struck, which is unavoidable, but all have their share of full mint lustre. The latter is our criterion of differentiation between a "Mint" specimen and a rubbed one.

1070 1916. Almost fully struck. Brilliant Uncirculated. Light and attractive toning at borders. Only 608,000 coined. Scarce.

1071 1916 "D". About as well struck as the last. Choice and bright Unc. Slight toning at edges. Scarce.

1072 **1916 "S".** Somewhat weakly struck, particularly upon the reverse. Brilliant Uncirculated. Full mint lustre with the slightest toning at edges. There is an infinitesimal nick on Liberty's left leg. About equal to the specimen in our 35th catalogue which sold for $61.00, when the coin cataloged for only $40.00.

1073 1917 "D" on obverse. Well struck. Brilliant Uncirculated. Full mint lustre. Slightest toning which adds to its appearance. Not a great rarity, but a beautiful and attractive coin.

1074 **1917 "D" on reverse.** Well struck. Brilliant Uncirculated with full, frosty mint surface. Lightly toned, particularly upon the reverse, which only adds to its highly attractive lustre. There is the slightest indication of "Bag Handling" upon the base of the Eagle's left wing. A splendid specimen and one of the finest examples of this rarity that we have seen. Records to $75.00 at private sale.

1075 **1917 "S" on obverse.** As well struck as this coin comes. Choice Uncirculated with full mint lustre. Beautiful gold and iridescent toning. A gorgeous coin not to be confused with the "Rubbed" or quasi mint specimens that are occasionally offered. An inferior example, described as "Slightly Rubbed," recently realized $190.00 at a reputable mail auction. This piece is as fine as any we have seen and should realize $250.00.

1076 1917 "S" on reverse. Somewhat weakly struck. Brilliant Uncirculated. Toned at edges. An acceptable and desirable example of this extremely scarce coin.

1077 1918. Not fully struck up, particularly upon the reverse. Choice Uncirculated with considerable mint lustre. At first glance this coin appears to be slightly rubbed, but under a strong glass the point is debatable. Above average and rare. Should realize $30.00.

1078 **1918 "D".** Poorly struck on the obverse, the head rather flat. Brilliant Uncirculated. There is a beautiful, frosty surface upon the reverse. The obverse is also highly lustrous, and both sides show traces of iridescent toning. A choice and splendid example of this rarity, free of the usual handling and other defects. Records to $55.00.

1079 **1918 "S".** Comparatively well struck. Brilliant Uncirculated. Full, frosty mint surface on the entire coin, high spots included. Slightest traces of toning, at the edges, and of "Bag Handling." A splendid, strictly "Mint" coin and a good example of what we mean by "Mint Lustre Criteria." Well worth $40.00, or more, on today's market.

1080 **1919.** Well struck. Brilliant, perfect Uncirculated. A superb coin with full mint lustre. Only 962,000 coined, 10,000 more than of the elusive 1917 "S" on obverse. A date that is destined to go places, and in our considered opinion, a "Sleeper." V. Rare.

1081 **1919 "D".** Weakly struck, as almost all are. Brilliant Uncirculated with a complete, frosty mint surface. A splendid, select specimen in the same condition as it left the dies. Mr. Lathrop informs us that this is the finest example that he could locate in three years of careful search. A greatly under valued mint mark with records in excess of $100.00. Another coin with an extremely good future.

1082 **1919 "S".** Weakly struck, as has been every specimen we have seen. Brilliant Uncirculated. Full, complete mint lustre and a perfect mate for the lost. A superb coin without the usual rubbing or dullness on the high spots. We are told that $250.00 was paid for this piece, a comparatively low figure for the rarest coin in a rare series.

1083 1920. Well struck. Brilliant Uncirculated. Iridescent toning, which is somewhat heavy upon the obverse. An attractive and desirable coin with full mint lustre.

1084 **1920 "D".** Sharply struck. Brilliant, almost perfect Uncirculated. A superb specimen with full, frosty mint surface. Slightest signs of obverse "Bag Handling," otherwise a "Gem" of the first magnitude. The finest example that we have seen and Mr. Lathrop's favorite coin in the series. This mint mark is currently selling at $100.00, but we would not be surprised to see this gargeous coin realize $125.00.

1085 **1920 "S".** Somewhat weakly struck, on both sides. Choice Uncirculated with considerable mint lustre. Infinitesimal signs of contact with other coins. A rare and difficult piece to obtain with records over $75.00.

1086 **1921.** Sharply struck. Brilliant, just about perfect Uncirculated. Complete frosty mint lustre on both sides. As full and deep an impression as we have seen. There are a very few, almost invisible suggestions of "Bag Handling." This coin was purchased as a "Gem" and is equal to the specimen in our sale of Nov. 10th, 1951, which realized $105.00 when this date only catalogued for $65.00.

1087 **1921 "D".** Somewhat weakly struck. Brilliant Uncirculated with full, bright mint lustre. A thrilling, slightly toned specimen, almost completely free of the slightest defects. This coin has long been under catalogued. Only 208,000 were struck, the lowest coinage in the series. This superb example is well worth $50.00.

1088 **1921 "S".** Not fully struck up upon the obverse. Bright, brilliant Uncirculated. Light and desirable toning at borders. One or two unimportant defects, but, all in all, the cleanest example we have handled. Only 548,000 coined, and recent records in excess of $80.00.

1089 **1923 "S".** Comparatively well struck. Brilliant Uncirculated. A splendid specimen with a full, complete frosty mint surface and a minimum number of microscopic defects. Slightly toned at edges. One of the finest examples we have seen. V. Rare.

1090 **1927 "S".** Somewhat weakly struck, as usually found. Brilliant Uncirculated. A bright and choice coin with full mint lustre. Few infinitesimal defects from contact with other coins. Quite rare and repeatedly realizing $17.50 or so.

1091 **1928 "S".** Mostly sharp and well struck. Brilliant Uncirculated with a bright, frosty mint surface. A gorgeous and highly desirable example of a rare coin which recently realized $19.50 at an Overton Coin Co. sale.

1092 1929 "D". Comparatively well struck. Brilliant Uncirculated. Full mint lustre with traces of toning at borders. Another beautiful coin, as nice as the day it left the mint.

1093 1929 "S". Another, as well struck as they come. Brilliant Uncirculated. With full lustre and a bright, frosty mint surface. Recent records in excess of $10.00.

COMMEMORATIVE HALF DOLLARS

All of the following coins, with the exception of the two duplicate "Rare" Boone sets, were carefully culled from four complete Commemorative sets. This truly "Select" group was Mr. Lathrop's "First Set" and represents the finest lot that we can remember handling. **All are Brilliant Uncirculated.**

1094 1892, 93. Columbians. The first Commemorative Half Dollars. The 1892 is somewhat toned on the obverse and the lost has a minute nick or two in the reverse field. Not rare, but difficult to obtain so choice. 2 Pcs.

1095 1915. Panama-Pacific. Struck at the San Francisco mint. Designed by Barber and Morgan, the two famous mint engravers. 27,134 issued with an original selling price of $1.00. This coin is an absolute "Gem." Scarce.

1096 1918. Illinois Centennial. Portrait of Lincoln. 100,058 issued. One of the most beautiful designs in the series. Another "Gem." Currently, in great demand.

1097 1920. Maine Centennial. Arms of the state of Maine. 50,028 issued. Among the sharpest that we have seen.

1098 1920. Pilgrim Tercentenary. 152,112 issued. Also a "Gem." Worth in excess of catalog so.

1099 1921. Same as the lost, but with the date added in the left obverse field. Only 20,053 minted and decidedly uncommon. Another "Superb" specimen.

1100 1921. Missouri Centennial. 45,028 pieces struck, but only 15,428 distributed and the balance returned to the mint and melted. A well distributed coin. Slightly toned and definitely above average. Quite rare and in demand.

1101 1921. Missouri. Variety with 2x4, designating Missouri as the 24th star in the flag. Only 5,000 minted. Rare and as popular as the lost. As nice as any that we have seen.

1102 1921. Alabama Centennial. Portraits of Bibb and Kilby, the latter governor at the time of the centennial. This is the first instance of the use of a living person's portrait on a United States coin. 49,038 issued. The high portions well struck up and another "Gem" coin. Scarce.

1103 1921. Alabama. Variety with 2x2, denoting Alabama as the 22nd state admitted to the union. Only 6,006 minted. Traces of obverse tarnish, but far above average. Scarce.

1104 1922. Grant Memorial. 67,411 issued. An absolute "Gem." An unusual example of this popular coin.

1105 1922. Grant. The rare variety with a star incused above the name GRANT on the obverse. Has the chin and other die defects that identify the variety. Slight obverse tarnish and the highest portions not struck up boldly. Only 4,256 minted, which makes this variety one of the rarest coins in the series.

1106 1923. Monroe Doctrine Centennial. Struck at the San Francisco mint. 274,077 minted. Traces of reverse toning and far above average. A really hard coin to obtain in perfect uncirculated condition.

1107 1924. Huguenot-Walloon Tercentenary. 142,080 struck, of which 87,080 were sold and the remainder of 55,000 remelted. A beautiful specimen.

1108 1925. Lexington-Concord Sesquicentennial. 162,099 issued. The famous "Patriot" Half Dollar.

1109 1925. Stone Mountain Memorial. Designed by Gutzon Borglum. 2,314,709 struck, a large and ambitious issue, of which only 1,165 were remelted. Regardless of the number coined, this is an extremely difficult coin to obtain in absolutely mint condition.

1110 1925. California Diamond Jubilee. Struck at the San Francisco mint. 86,594 minted. An uncommon coin in "Gem" condition.

1111 1925. Fort Vancouver Centennial. Struck at the San Francisco mint, but without the mint mark "S." Over 50,000 were originally minted, but only 14,994 pieces were sold and the balance remelted. A "Gem" example of a really scarce coin.

1112 1926. Sesquicentennial. Another ambitious operation. 1,300,528 coins were struck, but only 141,120 were sold and the balance consigned to the melting pot. An unusually scarce coin in mint condition.

1113 1926, 26 "S". Oregon Trail Memorial. It is believed that 100,000 of each were struck, but a considerable quantity was melted, leaving 48,030 of the "P" mint coins and 86,354 of the "S" mint issue. Both with traces of tarnish. 2 Pcs.

1114 1928 and 1933 "D". Oregon Trail as last. Only 6,028 and 5,008 issued. Both varieties were released in 1933 and the latter is the first Commemorative struck at the Denver mint. 2 Pcs.

1115 1927. Vermont Sesquicentennial. Over 40,000 were originally struck, but only 28,142 pieces were sold and the balance remelted. The models for this coin were prepared by the late Charles Keck, a good friend of Mr. Lathrop's. A "Gem" example.

1116 1928. Hawaiian Sesquicentennial. Portrait of Capt. Cook. 10,008 struck and sold for $2.00 each, the highest initial sale price up to that time. It is said that 5,000 were sold or distributed in the Hawaiian islands which would account for the rarity of this coin.

1117 1934. Maryland Tercentenary. Facing portrait of Cecil Calvert. 25,015 issued.

1118 1934. Texas Centennial. It is believed that 250,000 coins were minted, but that the greater portion was remelted, leaving 61,350 pieces. Also, 1934. Daniel Boone Bicentennial. Only 10,007 issued. Interesting and choice pair. 2 Pcs.

1119 1935. Connecticut Tercentenary. The Charter Oak tree. 25,018 issued. Slightly toned and really scarce.

1120 1935, 35 "D", 35 "S". Boones. 10,010; 5,005 and 5,005 issued. Considering the small number coined, both mint marks of this issue should advance considerably in value. 3 Pcs.

1121 1935, 35 "D", 35 "S". Boones. Same as the last, but with the small date, 1934 added in the upper right reverse field. 10,008; 2,003 and 2,004 issued. One of the rarest groups in the entire series. When first distributed, this set sold up to $125.00. 3 Pcs.

1122 1935 "D" and 1935 "S". Small 1934 added. Only 2,003 and 2,004 struck. The "Rare" Boones, originally purchased for $75.00 in 1936. 2 Pcs.

1123 Another pair, identical to the last. Slight tarnish, particularly on the "S" mint coin, a similar condition existing in the two preceding lots. Cost $75.00 in 1936. 2 Pcs.

1124 1935. Hudson (New York) Sesquicentennial. 10,008 issued and originally sold at $1.00. An extremely well distributed coin which was scarce from the first date of sale. A "Superb" example.

1125 1935. Old Spanish Trail. Designed by L. W. Hoffecker, a past president of the A.N.A. Only 10,008 issued. Another well distributed coin, now quite scarce. The specimen offered is a "Gem."

1126 1935, 35 "D", 35 "S". Texas set. 9,994; 10,007 and 10,008 issued. Traces of toning. 3 Pcs.

1127 1935, 35 "D", 35 "S". Arkansas Centennial. 13,012; 5,505 and 5,506 issued. A comparatively well distributed set. Unusually choice. 3 Pcs.

1128 1936, 36 "D", 36 "S". Providence Rhode Island Tercentenary. 20,013; 15,010 and 15,011 issued. An oddly designed coinage intended to celebrate the founding of the city of Providence, though no mention of the city is to be found on the coin. A "Gem" set. 3 Pcs.

1129 1936, 36 "D", 36 "S". Arkansas set. 9,660; 9,660 and 9,662 issued. Another "Gem" set. 3 Pcs.

1130 1935, 36. California-Pacific Exposition (At San Diego). Struck at the San Francisco and Denver mints, respectively. 250,000 were struck of the 1935 coins, of which only 70,132 were sold, the remainder being remelted. 30,092 were minted bearing the date 1936, under the special terms of the Recoinage act of May 6, 1936. A splendid pair. 2 Pcs.

1131 1936, 36 "D", 36 "S". Boones. 12,012; 5,005 and 5,006 issued. Unusually choice. 3 Pcs.

1132 1936, 36 "D", 36 "S". Texas set. 8,911; 9,039 and 9,064 issued. A "Gem" set. 3 Pcs.

1133 1934 "D" and 1936. Oregon Trail Memorial. 7,006 and 10,006 issued. These coins are under cataloged, considering the limited coinage. Choice pair. 2 Pcs.

1134 1936 "S" and 1937 "D". Oregon Trail as last. 5,006 and 12,008 issued. First quite scarce, last somewhat toned. 2 Pcs.

1135 1936. Cleveland Great Lakes Exposition. Portrait of Moses Cleaveland. 50,030 issued. An absolute "Gem."

1136 1936. Wisconsin Territorial Centennial. Badger. 25,015 issued. Traces of toning.

1137 1936, 36 "D", 36 "S". Cincinnati Musical Center. Portrait of Stephen Foster, who actually had no connection with the fiftieth anniversary of Cincinnati as a center of music. 5,005; 5,005 and 5,006 issued. Lightly toned. An uncommonly scarce and popular set. 3 Pcs.

The Cincinnati halves were sold in sets of three, at $7.75 per set, a very high initial cost for a new type. The distribution was mishandled and a large number fell into the hands of speculators. Within a very short period of time, sets were selling for as much as $65.00 each. Later however, a quantity were dumped which in turn, drove the price down to as little as $15.00 per set. In time the surplus was absorbed, and in the intervening years these coins have climbed steadily in price.

1138 1936. Long Island Tercentenary. 83,773 issued. Slightly toned, but above average.

1139 1936. York County (Maine) Tercentenary. 25,015 issued. Traces of toning.

1140 1936. Bridgeport (Connecticut) Centennial. Portrait of Barnum. (As B. Max Mehl once said, "An appropriate portrait for a 1936 commemorative.") 25,015 issued. Above average.

1141 1936. Lynchburg (Virginia) Sesquicentennial. Portrait of Senator Glass. 20,015 issued. Traces of tarnish. A rather scarce and difficult to obtain coin.

1142 1936. Elgin (Illinois) Centennial. 25,015 issued. A well handled coinage. Choice.

1143 1936. Albany (New York) Charter. It is believed that over 25,000 were originally struck, but that only 16,887 were sold and the rest remelted. Slightly toned and becoming quite scarce.

1144 1936. San Francisco-Oakland Bay Bridge. Bear on the obverse. 71,369 issued. Another well distributed piece.

1145 1936, 36 "D", 36 "S". Columbia (South Carolina) Sesquicentennial. 9,007, 8,009 and 8,007 issued. Traces of tarnish. Decidedly uncommon. 3 Pcs.

1146 1936. Arkansas. Variety with portrait of Senator Robinson. 25,265 issued. Unusually choice.

1147 1936. Delaware Tercentenary. This coin was authorized in 1936, struck in 1937, and dated 1938 on the reverse and 1936 on the obverse. 25,015 issued. A splendid example.

1148 1936. Battle of Gettysburg. An unusually attractive design. Although 26,928 were minted, the distribution was well handled so that now the coin is scarce and difficult to obtain. Lightly toned.

1149 1936. Norfolk (Virginia) Bicentennial. 15,000 issued. Slightly toned and uncommon.

1150 1937. Roanoke Island, North Carolina. 29,030 issued. Slight reverse toning. A splendid coin.

1151 1937. Battle of Antietam. 18,028 issued. A "Gem" specimen of a well distributed issue. This coin catalogued at $4.50 in 1947 and currently lists at $12.50.

1152 1937, 37 "D", 37 "S". Texas set. 6,571; 6,605 and 6,637 issued. Traces of toning. 3 Pcs.

1153 1937, 37 "D", 37 "S". Boones. 9,810; 2,506 and 2,506 issued. Slightest toning. Rare, and in great demand. 3 Pcs.

1154 1937, 37 "D", 37 "S". Arkansas set. 5,505; 5,505 and 5,506 issued. Last has traces of tarnish. These commemoratives of small coinage are certainly destined to increase in value. 3 Pcs.

1155 1938. New Rochelle, New York. 15,266 issued. This coin catalogued at $3.50 in 1947 and has now advanced to $8.50. An unusually choice specimen.

1156 1938, 38 "D", 38 "S". Oregon Trail set. 6,006; 6,005 and 6,006 issued. Unusually nice. 3 Pcs.

1157 1938, 38 "D", 38 "S". Texas set. 3,780; 3,775 and 3,816 issued. Slightly toned. Rare and very popular. 3 Pcs.

1158 1938, 38 "D", 38 "S". Boones. Only 2,100 of each minted. The set of three catalogs at $75.00 and is readily saleable at approximately that figure. Above average. 3 Pcs.

1159 1938, 38 "D", 38 "S". Arkansas set. Only 3,156 of each minted. This set is rare and has long been underpriced. Toned. 3 Pcs.

1160 1939, 39 "D", 39 "S". Oregon Trail set. 3,004; 3,004 and 3,005 issued. Slight traces of toning. Becoming rare. 3 Pcs.

1161 1939, 39 "D", 39 "S". Arkansas set. 2,104; 2,104 and 2,105 issued. Above average. One of the rarest commemorative issues. 3 Pcs.

1162 1946. Iowa Centennial. 100,057. A most remarkable issue which was disposed of within a few weeks. An absolute "Gem."

1163 1946, 46 "D", 46 "S", 47, 47 "D", 47 "S", 48, 48 "D", 48 "S", 49, 49 "D", 49 "S", 50, 50 "D", 50 "S", 51, 51 "D" and 51 "S". Booker T. Washington sets. As nice a group as we have seen. Various numbers of each minted, from 6,004 to 1,000,546 pieces. Also, the set of W. Raymond pages in which the Commemoratives were housed, 349-A to 349-M. Plus three binders to hold the lot. Like new. 18 coins; 13 pages; 3 binders. In all, 34 Pcs.

1164 **Gold Commemorative Coins.** 1915. Quarter Eagle. Panama Pacific Exposition. Designed by George T. Morgan. Only 6,750 coined. Uncirculated, mostly brilliant and slightly toned. Rare, lists at $60.00.

1165 1915. Dollar. Panama Pacific Exposition. Like the preceding, struck at the San Francisco mint. Designed by Charles Keck. 25,000 coined. Uncirculated, but tarnished. Scarce, lists at $10.00.

Trial Strikes of the 1915 Panama Pacific Dollar

1166 1915. Dollar, as last above. Uniface trial impressions, obverse and reverse separate, struck in White Metal, Bronzed. Similar to the regular dies, but without the mint mark "S" on reverse. The obverse is slightly thicker, and the reverse slightly thinner than the regularly issued coin. Ex. Fine. Obtained from the estate of the late Charles Keck by R. J. Lathrop and believed to be unique. 2 Pcs. **Plate.**

UNITED STATES SILVER DOLLARS

1795 to 1935 "S"

From the Ralph J. Lathrop collection, N.Y.C.

(With additions)

One of Mr. Lathrop's earliest numismatic interests was the acquisition and study of a most impressive series, our Silver dollars. At the expense of considerable time and effort, he managed to form a representative collection containing a large number of highly desirable and carefully selected coins. All of the earlier pieces, 1795 to 1803, are expertly attributed to M. H. Bolender's standard work on the subject. We would like to call attention to several rarities, and also, many commoner pieces which are in a splendid state of preservation. This series is currently very popular, but all indications are that both interest and demand will increase sharply within the next few years. Choice material has already become scarce and many dealers have practically nothing to offer in the way of stock. We have taken our usual pains to grade accurately, but in many cases we would suggest actual physical examination of the lots.

1225 **1795. B-1.** Bust with flowing hair to r., resembling the head of 1794. Wide date spaced 1 795. Rev. Two leaves under each wing of the eagle. The 7 in the date seems to be recut, or engraved over another cipher, a characteristic which apparently has gone unnoticed. Almost Uncirculated, bold and sharp, with considerable original lustre. Only the highest portions of the reverse show signs of rubbing. Somewhat superior to the Stickney, Schwab, Bolender specimen. A splendidly struck and centered coin, one of the finest known examples. Well worth $150.00. **Plate.**

1226 1795. **B-2.** Flowing hair. Similar to the preceding, but with 95 in date closer together than the other figures. Minute diagonal bar in field close to inner point of the 4th star. Rev. Same as B-1: two leaves under each wing. Strictly V. Good. Nicely centered and struck, with two slight defects in the reverse field.

1227 1795. **B-5.** Flowing hair. This variety can be readily identified by a diagonal bar in the left obverse field close to the uppermost curl. Rev. Three leaves under each wing of the eagle. Very Fine. A nicely toned and highly desirable coin.

1228 1795. **B-6.** Flowing hair. Wide date, with 7 and 9 closest. Rev. Same as B-5: three leaves under each wing. V. Fine to Ex. Fine. A beautifully toned coin with traces of reverse mint lustre. There is a slight impression upon the reverse edge, and the obverse shows the slightest signs of file marks. The letter were done prior to

striking, to lighten the weight of the planchet. This piece is equal to the Lighthouse, Bolender specimen which is illustrated in the Bolender text and which sold for $60.00, six months ago. Uncommonly choice and scarce. Ex H. D. Gibbs collection. **Plate.**

1229 1795. **B-7.** Flowing hair in six curls. The lowest curl is very small and perfect, nearly forming a loop. This variety has many times been listed as the "head of 1794," but there is no exact head of 1794. Rev. Three leaves under each wing. This is the only variety with fourteen berries on the wreath. Abt. Very Fine. Attractively toned with faint traces of lustre. A choice and desirable coin with the slightest reverse defects. Rarity 4. This variety was not in the sale of the celebrated Bolender collection. Originally purchased from Wayte Raymond by H. D. Gibbs. Rare. **Plate.**

1230 1795. **B-9.** Small bust with flowing hair. This obverse (Same as B-3 & B-11) has also been called the "Head of 1794" because of two low and thick curls. The third curl from the top turns downward. Rev. Same as B-4, with two leaves under each wing. Almost V. Fine. A choice and lustrous coin with magnificent iridescent toning. There is a minute obverse edge nick, but this is one of the finest known specimens. Rarity 5. V. Rare. Well worth $75.00. **Plate.**

1231 1795. **B-14.** Draped bust. Variety with bust placed too far to left. Rev. Very small eagle. Extremely Fine. Only the high spots, particularly upon the reverse, show signs of rubbing. The obverse shows several file or adjusting marks, done at the mint in correcting planchet weight. Attractively toned, and far above average. Originally purchased as Uncirculated.

1232 1795. **B-15.** Draped bust, similar to preceding, but well centered. Rev. Also similar to the foregoing. The reverse shows slight die cracks that are not mentioned by Bolender. Strictly Very Fine with traces of mint lustre. There are one or two microscopic edge defects. Rarer than the last, due no doubt to the aforementioned die cracks.

1233 **1796. B-1.** Draped bust, as on all following. Small, wide date, the 9 and 6 closer than the other figures. Rev. Small letters. Fine to Very Fine. A nice clean, attractive and desirable coin. The Bolender example was Very Fine and realized $60.00.

1234 1796. **B-4.** Small, wide date, similar to the last. Die dot above 1 of date. Curl on top of head perfect. Rev. Large letters. Very Fine. A lightly toned and lustrous coin with a minute rim bruise or so, opposite C in AMERICA, upon the reverse. Cost $40.00.

1235 1796. **B-4b.** Identical obverse to the last, but curl on top of head incomplete or defective, as on B-3. Rev. Large letters. This coin is actually, in our opinion, a specimen of the famous Bolender B-4a. However, the piece is accompanied by a letter from Mr. Bolender to Mr. Lathrop which calls the dollar a new sub-variety, B-4b. Very Fine. There are faint file marks on the obverse, mostly discernible on the center of the bust. Also, we note a pin point gouge in the left obverse field. Bolender calls B-4a unique, but it is actually only rare. There are a great many dollars which do not correspond to either B-4 or B-4a, if bifurcation is to be a criterion. Uncommonly rare and highly interesting. $65.00 was paid for this coin.

1236 1796. **B-5.** Large date. Rev. Small letters. Small die lump at right top of I in AMERICA. Abt. Fine. Weakly struck, as sometimes found, on the lower left side of the obverse and at STA of STATES upon the reverse. Lightly toned. An acceptable and desirable example of this scarce date.

1237 **1797. B-1.** Sixteen stars, 9 x 7. Rev. Large letters. An intermediate state of the dies. The obverse resembles B-1b, but the reverse is not cracked. Very Fine with a nicely toned iridescent surface. There is a minute edge nick upon the lower part of the obverse which does not affect the appearance of this coin. We also note an odd planchet defect, of little consequence, in the right obverse field. Well worth $50.00.

1238 1797. **B-3.** Sixteen stars, 10 x 6. Rev. Large letters. Very Fine. Very lightly toned with traces of tarnish and of golden lustre. The reverse edge has a small planchet defect which looks like a minor bruise. Another nice coin.

1239 **1798. B-1a.** Thirteen stars. Rev. **Small eagle** and large letters. This coin displays the various reverse die breaks as described by Bolender, but also has two light breaks originating above the first T of STATES and continuing to and above D of UNITED. Abt. Extremely Fine. The eagle, upon the reverse, is not struck up as always, but the various high spots only show slight rubbing. A splendid and beautifully toned coin with the most minute imperfections. This piece was formerly described as Uncirculated, and is from the Collins, Reeder, Gibbs collections. A "Type" coin and in great dmand. **Plate.**

1240 1798. **B-2.** Fifteen stars. Rev. **Small eagle** and small letters. The identical reverse die was used for four years; 1795 (B-14), 1796 (B-1, 2 & 3), 1797 (B-2), and for this rare type. Very Fine. A well centered, evenly struck and attractively toned coin. One of the nicest specimens that we have seen in years. This variety is probably the most difficult "Type" to acquire in choice preservation with the exception of the 1797 dollar having the same reverse. Very rare in any condition. **Plate.**

1241. 1798. **B-4.** Draped bust and thirteen stars. Rev. Large, heraldic eagle as on all following, to 1803. Knob 9. Curl does not touch 1. Rev. Ten perfect, one faint and two "Headless" arrows. V. Fine to Ex. Fine. Sharp and bold, the obverse particularly so. A nicely toned and lustrous coin, almost the equal of the Bolender specimen which sold for $110.00. Rarity 6. Extremely rare, a variety lacking in the "World's Greatest Collection." Ex H. D. Gibbs coll. **Plate.**

1242 1798. **B-8.** Stars on right very close to Y and bust. Long vertical die flaw in center of left obverse field. Rev. Four large berries on branch. An intermediate state of the dies, not mentioned by Bolender. The obverse is not cracked, but the reverse has the first crack of B-8a. Somewhat weakly struck in the center of the reverse, but strictly Very Fine. A well struck and lustrous coin with two infinitesimal reverse nicks. A similar piece, in the W.G.C., realized $35.00.

1243 **1798. B-8a (Should be B-8b.)** From the same dies as the last, but thoroughly shattered. Actually, a much later state than B-8a. Very Good or better with a number of minor defects, including a pin point nick in the center of the shield. Ex. Rare.

1244 1798. **B-11.** Medium wide date. No spur on 9. Hill shaped die cutting shows just beneath ribbon bow, along two highest curls at back of head. The obverse die is not cracked as yet, but is just starting to bend or buckle as on the cent of 1793, Crosby 7-F. Fine. Few light handling defects. Rarity 6. Extremely rare. Valued by Bolender at $50.00.

1245 1798. **B-15.** Wide date. Spur on 9. Rev. Same as B-11. V. Good to Fine. There is a light edge bruise upon the obverse and two upon the reverse.

1246 1798. **B-24a.** Medium, wide date. Rev. Die break from stem down to milling, a primary characteristic of this variety. We should call this piece B-24b, as it was struck from a throughly shattered obverse die. There are several small cracks in addition to those described by Bolender. Abt. Uncirculated. A lustrous, and comparatively bold coin, considering the condition of the dies. Undoubtedly of extreme rarity. A splendid dollar, and should realize a good price. **Plate.**

1247 1798. **B-27.** Close date, high 8. Rev. From same die as B-11 and B-15. (Leaf points to space between R and I in AMERICA. Star distant from eagle's beak.) Fine to V. Fine. Above average, but with one or two unimportant reverse defects.

1248 1798. **B-31.** The obverse is from the same die as B-26, 27, 28, 29 and 30. The die cracks are similar to those on B-28 and B-30. The reverse is a new die, unknown to Hoseltine. Star close to both upper and lower parts of eagle's beak, but does not touch. Leaf points under center of I in AMERICA. This is an intermediate state of the dies, as the reverse has some of the breaks found upon B-31a. Fine or better for this poorly struck piece. Both sides show a few old signs of handling. Rarity 7. Excessively rare. Valued by Bolender at $60.00.

1249 **1799/98. B-2.** Last 9 of date very close to bust. Stars very close together. Die flaws at left base of E; under RT, and above R of LIBERTY. Rev. Die break through D, as mentioned by Bolender, plus several other light cracks. Abt. Very Fine. Not strongly struck, but a nice example of a popular coin. This variety was lacking in the W.G.C. sale, 1945.

1250 1799/98. **B-3.** Obverse from the same die as the last (B-2). Rev. The famous "Fifteen Star" reverse. (There are two extra stars almost buried in the clouds.) Extremely Fine. A boldly struck and lustrous coin with sharp even impressions. This superb specimen is about equal to the Earle, Schuyler, Bolender example which is illustrated in the standard text. Rarity 5. Extremely rare and a popular "Type" coin. **Plate.**

The "Crack" above OF AM as described by Bolender, is actually a heavy incusation from the bust point and stars 799 is also visable at ES and space.

1251 **1799. B-5a.** Perfect date. The closest star is the 8th star which is slightly closer to Y, than 7th star is to L. Without the pocket under throat as claimed by Bolender. Rev. U in UNITED imperfect at upper left. All six upper stars touch clouds. We would like to mention that the short obverse die cracks from lower left corner of E down to the hair, as described by Bolender, are incusations from the eagle's tail, and are not constant The reverse is cracked as described. Fine to V. Fine. There are a number of imperfections, particularly on the edges, and the obverse milling has been slightly improved upon. Rarity 3.

1252 1799. **B-5a. (Should be B-5c.)** Same as the last, but a much later state of the dies. There is a heavy crack from border through first T of STATES to clouds; another, from A in STATES to right through AMERIC. Extremely Fine or better. Well struck, with considerable mint lustre. A superb example and of great interest Uncommonly rare and unpublished. **Plate.**

1253 1799. **B-6. (Should be B-6a.)** First star smaller than the others. Rev. Right stand of A in STATES touches cloud. We believe that this piece could be called B-6a. It is the earlier of two stages of cracked dies in B-6. (See lot #94 in Bolender's 183rd sale.) Strictly Fine. Rarity 5, or better. Very rare and valued by Bolender at $40.00.

1254 1799. **B-6. (Should be B-6b.)** Same as the preceding, but a much later die state. The reverse die cracks are much heavier than upon the last. Very Fine. A lightly toned coin with traces of lustre. There are a very few light nicks upon the obverse, but this is a choice specimen of a really rare coin. It is the first that we have seen. Well worth $60.00.

1255 1799. **B-7.** From the same obverse die as B-5, 6, 10, 11 and 17. Rev. Point of star touches point of upper part of eagle's beak. This coin is almost B-7a, but the die cracks are all faint and not quite as extended as on B-7a. V. Fine. We note a few very slight signs of handling and an unimportant reverse edge bruise. Rarity 4.

1256 1799. **B-7a.** From the same dies as the last, but with decided reverse die breaks. Very Fine or better. A boldly struck and lustrous dollar. Rarity 5. Valued by Bolender at $60.00.

1257 1799. **B-10.** First star appears small and thin. Rev. Five large berries. Strictly Fine.

1258 1799. **B-10a.** From the same dies as the last, but all of the die cracks as described by Bolender have not fully developed. Actually, this is an intermediate state of the dies. Very Fine, with a slight edge bruise upon the obverse. Rarity 3. The Bolender example was estimated at $40.00 so.

1259 1799. **B-12a.** Seventh star close to L, more so than 8th is to Y. Rev. Usually described as "Without berries." Light obverse die breaks. Abt. Uncirculated. A splendid specimen, magnificently toned. There are a few file or adjustment marks upon the reverse, together with one or two minute edge defects. Rarity 4. This coin is almost the equal of the Bolender specimen, the obverse of which is illustrated on plate VI of his book It was estimated at $65.00, but sold for $72.50 in his 183rd sale. Ex H. D. Gibbs coll. **Plate.**

1260 1799. **B-12b.** Identical to the preceding, but the obverse die cracks are much more pronounced Fine or better Traces of mint lustre. A clean and attractive coin. Rarity 4.

1261 1799. **B-12b. (Should be B-12c.)** Another, identical to the last. There are now two breaks across the hair and bust, and the break from the 9th star is much more pronounced. V. Good to Fine. Tarnished with the usual unimportant defects. Rarity 4.

1262 1799. **B-13.** Irregular date. Rev. Die dot above E in STATES, and die flows inside upper part of same letter Strictly Fine. A nice clean and lustrous coin, with the exception of two old and light scratches upon the reverse. Rarity 6. Extremely rare variety, valued by Bolender at $50.00 so

1263 1799. **B-14.** Die flaws in field before eye. Rev. Die flows under AM of AMERICA. Fine to V. Fine. Rarity 4 Said to have cost $33.50.

1264 1799. **B-16.** Left stars distant from curl and L. Right stars close to Y and bust Rev. Left corner off U in UNITED. Very Fine to Ex. Fine. A beautifully toned impression with a minute obverse edge defect. Unusually choice.

1265 1799. **B-16c.** From the identical dies as the last, but showing intermediate die cracks between B-16c and B-16b. Apparently identical with lot #121 of the Bolender collection sold on February 23rd last. Extremely Fine and lustrous. A nice coin, well struck and evenly rubbed about the equal of the Bolender piece which was estimated at $50.00, but realized $55.00. Really rare and highly desirable

1266 1799. **B-19.** Eighth star distant from Y, and farther than first star is from curl, or seventh star from L, or last star from bust. Rev. From the same die as B-2, but with a die break through the curved part of D in UNITED. Fine or better. Slightly tarnished. Rarity 5. Valued by Bolender at $40.00 in Fine and $60.00 in V. Fine. Very rare.

1267 1799. **B-22.** (**Should be B-22a.**) Same obverse as B-14, but with a die crack from edge between 17; another, through 179 and to left, crossing the first crack. Rev. A heavy horizontal die break from right side of E to left side of M divides the coin in half. Obverse Fine; Rev. V. Fine. This coin has an infinitesimal reverse edge nick, and is fully equal to the Schwab, Bolender specimen of B-22. Undoubtedly Ex. Rare if B-22 is listed as Rarity 6. We have never seen a duplicate of this sub-variety.

1268 1799. **B-23. Thirteen stars, 8 x 5.** Rev. From the same die as B-16. Strictly Very Fine. A bold and beautifully struck example of this popular "Type" coin. Actually, this is one of the cleanest specimens we have seen. Usually, this coin is plagued by various nicks, cuts and other defects. Cost $50.00, several years ago.

1269 **1800. B-10a.** Very wide date, 8 low. Rev. A die flaw just to left of lower part of second T in STATES quickly identifies this reverse, the same die used for B-5. This specimen is a somewhat later die stage than described by Bolender under B-10a. Fine to V. Fine. Nicely toned, but with a few minor imperfections, including a slight obverse edge bruise. At least Rarity 3.

1270 1800. **B-11.** Obverse identical to last with highest curl on top of head defective. Rev. AMERICAI. Abt. Very Fine. A well centered, sharply struck and lustrous coin. There is a rather serious planchet defect upon the edge, above I in LIBERTY, which extends to the reverse. This is the excessively rare AMERICAI variety that took Bolender so long to find. We consider this example almost the equal of the Dreiske, Bolender specimen, illustrated on Plate VIII in the standard text. Rarity 7. Ex. Rare. **Plate.**

1271 1800. **B-14.** So called "Dotted date," flaws inside and above first 0 in date. Rev. ME in AMERICA join. Only 12 arrows show plainly, 13th nearly hidden. Almost V. Fine. This coin has a rather peculiar surface which is entirely too lustrous. We note a minute reverse edge bruise and one or two other unimportant defects. A choice and highly interesting dollar. Rarity 3.

1272 1800. **B-14a.** Identical to the last, but with additional breaks on both sides. There is a heavy die break under first 0 in date, and up through both 0's and bust. Fine with a slight obverse edge bruise. A nicely toned and desirable coin.

1273 1800. **B-16.** Die dot just to left of highest curl on top of head. Rev. Die flaws show at top and to right of ES, easily identifying this die, also used for B-4 and B-20. Fine. A bright and almost perfectly clean coin.

1274 1800. **B-16a.** From the same dies as last, but letters appear bifurcated. Very Fine. A nicely struck coin with broad, bold borders. Evenly toned with one or two minor reverse edge bruises. Cost $25.00.

1275 1800. **B-18.** Last star closest and nearer bust than eighth star is to Y. Rev. Suction mark at OF, described by Bolender as a "Spray like" die break extending from tip of eagle's right wing through F and clouds to second and third stars. There is also a fine crack through top of AMERICA curving down to the eagle's tail. Abt. Extremely Fine. A boldly struck and nicely toned piece, worthy of a home in the finest collection.

We might add here that we have never seen a specimen of the dollar described by Mr. Bolender under B-18a. The description of lot #158 in Bolender's 183rd sale (B-18a), neglects to mention the fine reverse die crack across shield and to right, a hallmark of the variety. There is a distinct possibility that B-18a, if it actually exists, may be an entirely new and totally different variety.

1276 1800. **B-19.** Right stars close to Y and bust. Rev. AMERICAI. Not quite Fine. The edges are lightly bruised upon both sides, a common characteristic of these large, heavy coins.

1277 **1801. B-1a.** Wide date, 01 closest. Rev. Point of star almost touching tip of lower part of eagle's beak. There is a crack through ST to clouds. See lot #164 in the sale of the Bolender collection. Abt. Very Fine. Sharply struck and attractively toned with two small obverse edge nicks. Rarity 4.

1278 1801. **B-2.** Obverse the same as last (B-1). Rev. Only twelve arrows show plainly. Strictly Fine or better, the reverse being particularly well struck. Traces of lustre. Rarity 4. A nice example of a scarce date.

1279 1801. **B-4.** Close date, figures evenly spaced. "Die dot" to left of date. Rev. A "Spur" on curved part of D in UNITED. Very Fine. A strongly struck dollar with traces of toning. Unusually choice and decidedly above average. Rarity 5. V. Rare.

1280 **1802/1. B-3.** Wide overdate, most space between 8 and 0. Small die lump in upper right obverse field between eighth and ninth stars. Reverse "B". Almost V. Fine with one or two minor handling defects.

1281 1802/1. **B-4.** Close date, the 1 firmly touching the curl. Reverse "A". Fine or slightly better. Rarity 5. Very rare.

1282 **1802. B-6.** Variety with right foot of T in LIBERTY missing. Reverse "A". Uncirculated. A superb coin, almost as perfect as when it left the dies. The bright, frosty surface shows only traces of toning and tarnish. The bust displays evidence of contact with other coins, being lightly nicked in one or two spots. Early dollars are almost impossible to locate in strictly Uncirculated condition. Invariably, every specimen examined shows friction on the high spots. Mr. Lathrop paid $100.00 for this coin, which he considered a "Gem." **Plate.**

1283 **1803. B-4.** Close date. Small thin 3, top side long, the right end near bust. Numeral 1 firmly united with curl. Reverse "A". Almost Fine. Few edge or rim bruises, particularly upon the reverse.

1284 1803. **B-5a.** Small, thin 3 which is too high. Figures of date all close. Reverse "B". Very Fine. A boldly struck and lustrous coin. Unusually choice, and valued at $50.00. Rarity 5. V. Rare.

1285 1803. **B-6a.** Thick top to 3 of date. 180 wide and 3 somewhat low. Reverse "A". An ultra fine die crack connects all stars on right. Very Fine, but somewhat mishandled. There is a light scratch in the obverse field and several surface nicks and minor edge bruises upon both sides.

THREE EXTRAORDINARILY RARE FLYING EAGLE DOLLARS OF 1836 AND 1838

N SMISMATIC GALLERY

1286 **1836.** Liberty seated r., in plain field. C. GOBRECHT F. on base, date below. Rev. **Flying eagle in plain field,** totally unlike the regular variety which has twenty-six stars surrounding the eagle. Plain edge. **A.W. 44;** R-12. Cleaned Proof with one or two minute defects. Only a small number of this rare variety were struck, and such famous collections as the Dunham, Roe, Atwater, Geiss or Neil did not possess a specimen. Actually, this coin is a mule of the 1836 obverse combined with the reverse commonly used in 1838 and 1839. Of great rarity, said to have cost over $400.00. **Plate.**

1287 **1838.** Same general type as the preceding, except that there are thirteen stars upon the obverse and the name of C. GOBRECHT is omitted entirely. The reverse is identical to the last. **Plain edge. A.W. 64;** R-14. Brilliant bright Proof with slight iridescent toning. A magnificent and sharply struck example of an extremely rare coin. According to all available information, only two or three specimens are said to have been struck with a plain edge. The commoner variety of this coin, with a reeded edge, now catalogs at $500.00, and readily brings that amount when offered. Ex Zug collection. **Plate.**

1288 **1838.** Identical to the preceding, but with a reeded edge. **A.W. 65;** R-13. An unusually bold and mainly brilliant Proof. Certainly, a most beautiful and desirable example of the so-called "Commonest" Gobrecht dollar bearing this date. Lists at $500.00, but the Menjou example was said to have cost $750.00, and realized $575.00 as lot #2081 of that sale. Not quite as rare as the last, but still an extreme rarity.

1289 1840. The first regular issue of the basic Gobrecht design. V. Fine. Now lists at $15.00 so. Scarce.

1290 1841. Abt. Uncirculated. A bright, lustrous coin with only the slightest indications of contact with other coins. This date is decidedly uncommon and now lists at $22.50 in mint condition.

1291 1842. Extremely Fine or better. Well struck and brilliant with considerable mint lustre. Definitely above average but with a minute obverse edge nick.

1292 1842. Another. Ex. Fine. Nicely toned with a slight nick in the reverse field.

1293 1843. Strictly Ex. Fine. This coin is choice and well struck and shows the usual minor defects. Also, there are two imperfections upon the reverse. One is on the rim and the other upon the head of the eagle. Both appear to be planchet flaws, so commonly found upon these coins.

1294 1844. Abt. Extremely Fine. Mostly bright and desirable. A scarce date that catalogs at $25.00 in Uncirculated condition.

1295 1845. Very Fine. The reverse has three edge nicks at the lower edge. Scarce.

1296 1846. Ex. Fine or better. This coin has indications of a wire edge and considerable Proof like surface. It was undoubtedly struck as a Proof.

1297 1846 "O". Fine to V. Fine. Three or four of the usual minute handling defects. Worth $12.50 so.

1298 1847. Extremely Fine. Bright and choice with a few infinitesimal imperfections. Uncommon.

1299 1848. Abt. Very Fine. This piece shows numerous signs of contact with other coins. Scarce.

1300 1849. Almost Uncirculated. Lustrous and above average, in spite of a very few unimportant defects. Catalogs at $25.00 in Uncirculated.

1301 1850. Uncirculated with considerable Proof surface. An attractive, iridescently toned coin which shows only the slightest indications of handling. Ex Dr. French and H. D. Gibbs collections. This date now lists at $35.00 in Uncirculated.

1302 1850 "O". Abt. Uncirculated. Almost fully lustrous upon the obverse. The reverse is somewhat tarnished with a pin point edge nick. The Balender specimen realized $19.00 in equal condition. This piece is from the Dr. French and Gibbs colls., like the last.

The Rare Original 1851 Silver Dollar

1303 **1851.** Variety with date high, nearly touching the bust, and slanting down to the right. Upright 5. Haseltine Addenda No. 2. The date on this coin is similar to that found on the 1850. **An Original.** Proof. Sharply struck with an almost complete wire edge. This piece is not fully brilliant and shows the slightest signs of mishandling. There are two or three minor obverse rim defects and a few microscopic abrasion marks in the right obverse field. It is far superior to the damaged Proof in the collection of the A.N.S., formerly from the J. P. Morgan collection. To our knowledge, in addition to the impaired Morgan specimen, only one other example in Proof is known. This coin is now listed and illustrated in the Standard Catalog and is tentatively valued at $750.00. Excessively rare. **Plate.**

In 1851-52, the director of the Philadelphia mint, J. R. Snowden, repeatedly complained of the exportation of Silver dollars as bullion (melted up), and it appears that the issues of these two years were deliberately limited for that reason. Only 1,300 Silver dollars were struck in 1851, the entire issue being in Uncirculated condition for regular business use. These were coined from the above described obverse die, together with a very few Proofs for the regular Proof sets of that year. Records in the National Archives indicate that almost the entire coinage was absorbed, soon after its release, for the bullion premium. This was the direct cause that led to the reduction in weight of the Halves, Quarters and smaller silver, two years later. It is impossible to give any estimate of the number of 1851 dollars melted up, but from the volume of official complaints, it must have been a considerable fraction. In 1853, no Silver dollars were coined until after the law of March, 1853 took effect. The first delivery of 39,000 was on April 21st; the second of 7,110 on December 29th.

Early cataloagers and dealers always referred to the "High date" variety of the 1851 dollar as an original. This practice died out after our hobby grew and the word "Restrike" tended to limit the sales appeal of any 1851 dollar so described. In a careful examination of over one hundred Plata catalogs and or 1851 Silver dollars, we were able to locate six or seven originals. Almost all of these were in Uncirculated condition. In comparison, we found approximately ninety odd listings for the restrike or "Centered date" variety, all of which were in Proof or "Impaired Proof" condition.

1304 1853. Extremely Fine. Beautiful blue and iridescent toning. Almost perfect. This date is very scarce and similar specimens have sold for over $20.00.

1305 1854. Uncirculated. Lightly toned with the usual indications of "Bag Handling." Catalogs at $4[illegible]. In great demand.

1306 1855. Extremely Fine. Like the last, lightly toned and choice. Becoming rare.

1307 1856. Extremely Fine. A bright and sharply struck coin. Scarce.

1308 1857. Extremely Fine. Weakly struck on head and on part of the reverse. Lightly toned and with the usual minor defects. Scarce.

1309 **1858.** Proof. Partly brilliant, but with slight obverse cabinet friction. Only eighty pieces struck. Very rare. Currently selling for $200.00. Ex Zug collection.

1310 1859. Impaired Proof. This coin is brilliant, but shaws an unusual raughness on parts af both the abverse and reverse. Cast $27.50.

1311 1859 "O". Uncirculated. Taned, but with considerable Proof surface. There is a light edge bruise and o few unimpartant signs af handling upon the obverse. Ex Dr. French and H. D. Gibbs colls.

1312 1859 "S". Uncirculated. Mostly tarnished with traces af mint lustre. Minor reverse edge nick, but otherwise highly desirable. Catalags at $30.00. Popular, and in demand.

1313 1860. Very Fine or better. Usuol minar defects.

1314 1860 "O". Very Fine. Slightly mishondled upon the obverse edge tagether with a rather seriaus reverse edge bruise.

1315 1861. Uncirculated. Not fully brilliant, but desirable and choice. Lists at $25.00 so.

1316 1862. Steel colored Praof. Cotalags at $27.50.

1317 1863. Praaf. Lightly toned ond a "Gem." Lists ot $27.50 with higher records.

1318 1864. Brilliant Proof. Anather "Gem" coin. This specimen is worth $30.00.

1319 1865. Brilliant Uncirculated. Not fully struck up on the reverse, but an ottractive coin with considerable Proaf like surface. Catalogs at $22.50.

1320 1866. Praaf. Beautiful iridescent toning. Cotologs at $30.00.

1336 1880 "O". Abt. Unc. Nicely toned with slight cabinet friction upan the high spots. Scorce.

1337 1880 "CC". A splendid Uncirculated cain with full mint lustre. This piece is lightly toned with traces of tarnish, but is without the usual digs and abrasions. The Bolender example, sold in his recent sale, was estimated at $20.00 and realized $32.50. A coin to watch.

1338 1881. Proaf. A beautifully toned purple color. Unusually choice with records to $13.50.

1339 1881 "O". Uncirculated. Toned, but partly brilliant with a Proof like lustre. Signs of the usual "Bag Handling." Scorce.

1340 **1881 "CC".** Uncirculated. A splendid example of this rarity with light, iridescent toning. This coin was purchosed a number of years ago, and is free from the slightest signs of cabinet friction ar the commonly found minute nicks and abrasion marks. The Balender specimen was only Fine to V. Fine. Reolly rare sa choice and worth o good price.

1341 1882. Brilliont Praof. Far above averoge. This piece cost $12.75.

1342 1882 "CC". Unc. A first strike or "Semi-Proof." Toned an iridescent purple color. Scarce.

1356 1888. Brilliant Praof. This piece appears to have been cleaned, many years ago. Recent records have been in excess of catalog value.

1357 1888 "O". Unc. Well toned with an Iridescent blue ond purple surface. Troces of Proof lustre. This coin cotalogs at $15.00 and readily brings thot amount whenever offered.

1358 1888 "S" and 1889 "S". Unc. The first is brilliant; the last is toned and a "Gem." At one time, these two coins were among the rarest in the series and sold for record prices. 2 Pcs.
1359 1889. Proof. Well toned and somewhat dull. Has never been cleaned or improved. Now lists at $13.50.
1360 1889 "O". Brilliant Uncirculated. Slightest signs of handling, as commonly found upon many of these large, heavy coins. Scarce.
1361 1889 "CC". Uncirculated. Well tarnished and with a few minute defects. Rare, lists at $20.00 so.
1362 1890. Proof. Well toned and fully brilliant. Rare. This date now lists at $17.50, but has already sold over that figure.
1363 1890 "O". Uncirculated. Almost brilliant with slight toning. Sharply struck and almost perfect. Similar specimens have sold for $6.50.
1364 1890 "S", 91 "S" and 1891 "CC". Unc. All brilliant but the first, which is somewhat toned. 3 Pcs.
1365 1891. Proof. Toned an attractive purple steel color. Catalogs at $13.50.
1366 1891 "CC". Brilliant Uncirculated. Above average. This coin now lists at $4.00, but has two recent records, one in the Bolender sale, of $6.00. Becoming uncommon.
1367 1892 "O". Abt. Uncirculated. A choice, mostly lustrous coin, with only the slightest rubbing upon the high spots. Said to have cost $9.00. Uncommonly scarce.
1368 **1893 "S".** Uncirculated. A lustrous and attractively toned example of this rarity, which has a number of minor abrasion marks upon the obverse and a rather serious edge dent on the right side opposite UM of UNUM. The reverse edge is also slightly impaired, but this specimen is far superior to many of the pieces offered and should realize a good price. V. Rare.
1369 **1893 "CC".** Uncirculated. The obverse is lustrous and mostly brilliant; the reverse is toned an iridescent pink and blue. This coin shows only slight signs of handling, but there is an apparent dullness on a few of the high spots. The Bolender specimen, sold last February in his 183rd sale, was estimated at $30.00 and brought $47.00. This is another rare mint mark that bears watching.
1370 1894. Proof. Almost fully brilliant, but somewhat tarnished, particularly upon the obverse. Catalogs at $16.00, but has higher records.
1371 1894 "O". Unc. Fully lustrous, but slightly toned with slight dullness on the high spots. A choice example of this scarce coin which regularly brings over catalog value.
1372 1894 "S". Unc. Lightly toned with a few minor defects, including three or four light edge nicks on the obverse. This coin lists at $5.00, but has recently sold as high as $10.00.
1373 **1895.** Brilliant steel colored Proof. Some of the obverse tarnish is a little spotty, but this is a splendid example of the rarest date in the series. Only 880 pieces, of all kinds, believed to have been struck. V. Rare.
1374 1895 "O". Uncirculated. Fully lustrous, but not fully brilliant. Very scarce, records to $17.00.
1375 1896. Proof. Nicely toned, but mishandled upon the reverse. We notice a number of light scratches to the left of the eagle's wing and one or two other imperfections.
1376 1896 "O". Abt. Unc. Lightly toned with slight rubbing or dullness upon the high spots. There are three small nicks or cuts, near the legend, upon the reverse. Unusually scarce.
1377 1896 "S". Uncirculated. Only partly brilliant and well tarnished. Slightest signs of handling. Scarce.
1378 1897. Proof. Almost fully brilliant. Lightly toned. Not in the Bolender collection. Unusually scarce.

QUARTER EAGLES

Property of the late John Zug, Bowie, Md.

1470 1834. New type, without motto. Abt. Ex. Fine. Few minute defects, including a reverse rim nick or so. Becaming uncamman.
1471 1836. Strictly Very Fine.
1472 1839 "O". Mint mark between the bust and date, an the obverse. The first year of issue and the anly date of this type. Uncirculated. Mostly brilliant with an insignificant spot upan the reverse, at the tap of the shield. Far superior to the W.G.C. and Menjou examples and as nice as any that we have seen. Only 17,781 pieces struck. Decidedly rare in choice condition. **Plate.**
1473 1843 "D". Fine or better. Few minor defects, including a light, hardly noticeable scratch in the reverse field.
1474 1843 "O". Large date. Very Fine or better. The Menjau specimen was anly Fine. Quite rare. Records above $30.00.
1475 1843 "O". Small date. V. Fine to Ex. Fine with traces of lustre. Few minor rim defects, but above average.
1476 1844 "D". Somewhat weakly struck, but Extremely Fine with considerable mint lustre. An uncommon coin as only 17,332 pieces were struck. Underrated.
1477 1845. Uncirculated. Almost fully brilliant and perfect. Scarce so.
1478 1846 "O". Abt. V. Fine and lustrous. Not fully struck up.
1479 **1848. CAL over eagle,** an the reverse. Ex. Fine with traces of Praof lustre. Unfortunately, some vandal has carefully drilled two neat holes inta this coin. One is at the barder, above the head, and the other is at the right, though the curl at the back of the head. The design is not greatly impaired and the general appearance of the coin is satisfactary. V. Rare.
1480 1848 "C". Fine or better. Tarnished. Uncommon.
1481 1850 "O". Fine or better. Lustrous.
1482 1852. Strictly Very Fine.
1483 1853. Brilliant Uncirculated "Gem." A cammon cain, but rare so fine.
1484 1854. Bright, brilliant Unc. Number of odd granular planchet defects, particularly upon the obverse.
1485 1855. Brilliant Uncirculated. Usual signs of "Bag Handling."
1486 1857. Very Fine or better.
1487 1858 "C". Abt. V. Fine for this poorly struck cain. Only 9,056 minted. Decidedly underrated.
1488 1861. Uncirculated. Mostly brilliant and almost perfect. Scarce so nice.
1489 1866 "S". Very Fine.
1490 1877 "S". Uncirculated. Somewhat weak upon the abverse, but a chaice and attractive coin.
1491 1880. Abt. Uncirculated. Uncommonly rare as only 2,996 pieces were struck. Worth $25.00.
1492 1884. Brilliant Proof. Allegedly only 43 Praofs struck. The W.G.C. specimen realized $35.00.
1493 1889. Brilliant Uncirculated. Few rim imperfections, due to faulty striking.
1494 1891. Brilliant Proof. Traces of tarnish. Only 80 Proofs struck.
1495 1892. Brilliant Proaf. A rare date, as only 2,545 pieces of all kinds were struck. The W.G.C. example sold for $50.00.
1496 1893. Proaf. Almost fully brilliant. Only 106 Praofs struck. Lists at $30.00.
1497 1894. Praof. In almost full brilliancy. Only 122 Proafs struck against a total coinage of 4,122 pieces. Warth $30.00 today.
1498 1895. Praof. Mostly brilliant, but with a minute carban spot on the cheek. Only 119 Proofs struck.
1499 1896. Beautiful, brilliant Proof. Only 132 Praofs struck. The Menjou specimen realized $33.00.
1500 1897. Unusually brilliant and bright Proaf. Only 136 Proofs struck. Lists at $30.00.
1501 1898. Brilliant Proof. Traces of reverse tarnish. Only 165 Proofs struck. A specimen in the W.G.C. sale sold for $27.50, aver six years aga.

UNITED STATES MINT ANNUAL ASSAY MEDALS

From the Collection of Wayte Raymond

Assay medals are presented to the members of the Assay Commission, who are appointed annually by the President to pass upon the fineness of the year's coinage. The series commenced in 1860 and has continued up until the present time. They are among our rarest and most desirable medals, as only twenty-five or so are struck each year. It must be remembered that they are not sold and are therefore, extremely difficult to obtain. When more collectors are developed in this series, the market values will materially advance.

This collection constitutes one of the finest lots of early medals ever offered. To our knowledge, only the Smith and Zabriskie offerings were more extensive. All are of a uniform size of 33mm, unless otherwise stated.

1532 1870. Juno Moneta standing amid retorts, coins, etc. Below, J. POLLOCK DIRECTOR. Rev. ANNUAL ASSAY 1870, within wreath. Silver. Toned Unc. Minute defect on edge. Not in the Zabriskie collection. Extremely rare.

Complete Panama-Pacific Set in Frame

1569 1915. Complete set of Panama-Pacific Exposition Gold and Silver coins. The set consists of both the round and octagonal Fifty Dollar Gold pieces, Quarter Eagle, Gold Dollar, and Half Dollar in Silver. The five coins are mounted upon dark purple velvet, with a full description and interpretation of the design of each piece printed in gold on violet cards. Across the top, suitably inscribed, is a brilliant purple ribbon. The whole is framed under glass in an attractive hammered copper frame with easel. All of the coins are in absolutely perfect Uncirculated condition. The frame is as new, and the entire presentation is bright and unsullied. Accompanying the lot is the official announcement and price list by the "Panama-Pacific International Exposition Company" plus the lavender display card. By far the most complete and splendid arrangement of these coins that we have seen. Extremely rare and valuable, a superb set destined to increase in worth considerably.

THE HOMER K. DOWNING COLLECTION OF UNITED STATES LARGE CENTS

It is with considerable pride and enthusiasm that we present the collection of U.S. Large Cents, formed by the late Homer K. Downing of New York City. This collection is celebrated, not only for the high caliber of its contents, but for the character and attributes of the famous numismatist who assembled it.

Homer Downing was not only a collector—he was a specialist, an expert in his field. At his death, he was known from coast to coast as one of the foremost authorities on "Big Pennies." Several others command, and have commanded, a comparable knowledge of die varieties, sale records, color variations, and the innumerable other characteristics of early coppers. However, few have ever acquired the intimate and highly accurate sense of pedigree that was his. The history of past owners, of auctions and sales, of trades, swaps and deals, with the resulting "feel" for demand and rarity, is indeed a fascinating and valuable asset. A few years ago, H.K.D. began the compilation of Photographic record books, in which it was his intention to paste the photograph, and trace the background, of the finest known examples of every Sheldon die variety, 1793 to 1814. This work was in its infancy, when he died. Comparatively few cents in this collection were fully pedigreed, but we have included all of the available data with the description of each lot. In a few instances, where time permitted, we have added additional information. We are happy to report that the records so ably conceived and begun by Homer Downing, will be added to, and in time completed. Eventually, it is hoped that this valuable material will be fully available to the collecting fraternity.

The collection lacks only eight varieties of the 301 collectible pieces known, as described in Dr. Sheldon's masterful work. It includes the only complete set of 1795 cents ever offered, featuring the famous and unique "Lettered Edge Jefferson Cent." The varieties of 1794 and 1796 are also of extreme interest, containing as they do, many well known and valuable coins. We may also point to the Perfect date 1799, the third finest known; the remarkable array of early year die varieties, 1797-1803; as well as the small, but unusual offering of late date cents, including several almost unobtainable Proofs.

While the collection contains numerous "Finest knowns," it also possesses a number of pieces that were to be replaced. It must be remembered that Mr. Downing acquired his collection in a comparatively short period of time. He became actively interested in Large Cents in 1941, and it was not until the following year that his interest became intensified. Even though interrupted by death, this representation compares favorably with offerings that took considerably longer to form.

We have described each lot with unusual care. Almost all of the condition ratings are Mr. Downing's, and may be considered conservative. We truly feel that collectors can bid with full confidence, based upon the descriptions, but wherever possible, we suggest that the lots be examined. The quality of many specimens is almost impossible to describe or even illustrate. Each lot is accompanied by the small, neatly lettered tray, that is the hallmark of the collection.

Homer Downing derived great pleasure and happiness from the acquisition, care and ownership of his "Pennies." We feel that it would be his wish to have his many friends, and those that follow in his footsteps, experience the same thrills and pride of possession that were his. The catalogers can only add that top quality cents are almost impossible to obtain, and the sparseness of dealer's stocks, including our own, strongly testifies to the value of this splendid opportunity. It is our sincere wish that every collector can obtain at least one coin from this famous and popular collection.

1793

1615 **Crosby 1-A.** (Sheldon 1) R-4. The famous Chain AMERI. The rare sub-variety with the reverse die cracked through the top of TATE in STATES. Obverse VF-30; Reverse EF-40. Light brown and steel. The surface is glossy and iridescent, as one would expect on a Mint State specimen. We note two or three insignificant defects, but this piece is equal to the example in the Mint collection, which was purchased as Uncirculated in 1882 (A. M. Smith coll.). A choice example and in great demand. **Plate.** **($275.00)**

1616 **Crosby 1-C.** (S-2) R-4. Chain, AMERICA. Obverse EF-40; Reverse, about AU-50. Lustrous dark brown. The obverse shows traces of chain "suction marks," and there are a very few microscopic defects, mainly on the reverse. With a condition census of 60-45, this is one of the six or seven finest known examples. A splendid coin, somewhat rarer than the lost. **Plate.** **($300.00)**

1617 **Crosby 3-C.** (S-3) R-3. Chain, AMERICA. This coin is strictly EF-40, and is one of the sharpest impressions that we have seen. The surface is a pleasing even brown, and has an almost perfect gloss that should satisfy the most fastidious collector. There are a number of minor handling defects, and we particularly note a slight nick on the lower part of Liberty's cheek. This cent was, at one time, described as AU-50 by a prominent authority. It resembles the famous Zabriskie, Brand, Hines specimen which was "nearly MS-60," and sold for $325.00 in 1945. A highly desirable piece, formerly from the Hines coll. **Plate.** **($235.00)**

1618 **Crosby 4-C.** (S-4) R-4. Chain, periods after date and LIBERTY. F-15. This coin would be V. Fine if it were not for a few light edge bruises and a defect between the chain and IC of AMERICA. Dark olive. A well centered cent, an attractive example of a variety in great demand as a "Type." Ex Hines coll. **($125.00)**

1619 **Crosby 6-F.** (S-5) R-3. Wreath type; Large date and LIBERTY. This is the scarcest of the R-3's of 1793, but is not quite R-4. VF-25, or better. Light brown. A beautiful coin with several light obverse planchet defects and one or two tiny edge imperfections. It looks much better to the naked eye than the description sounds. **($165.00)**

1620 **Crosby 7-F.** (S-6) R-3. Wreath type; Buckled obverse. VF-25. Almost the equal of the preceding and somewhat more desirable in that this is not on so defective a planchet. There are one or two infinitesimal edge nicks and an almost invisible scratch at the date. Not quite as scarce as the last. **($150.00)**

1621 **Crosby 8-F.** (S-7) **R-7.** Wreath type; the Faint Curl. VG-8. Obverse VG-10, but on a rough and defective planchet. Reverse F-12, but with two or three unimportant edge bruises. Even brown color. One of the highlights of this collection, this 8-F is the fifth best of the nine specimens now known, and is (as Dr. Sheldon said) "One of the numismatic prizes." Sheldon mentions a record of $90.00 (1938) for this piece, but gives no pedigree. It came from the Granberg and Woodin collections, being lot #69 in the "Collection of a Prominent American" (1915) and later was owned by C. Petersen, from whom Mr. Downing obtained it. Extremely Rare. **($150.00)**

1622 **Crosby 9-G.** (S-8) R-3. Wreath type; The Horizontol Stem. VF-25 Another sharp item, equal to the 6-F ond 7-F described above, but with a lustrous light olive and black surface. There are a few faint defects in the upper left obverse field which are not deep enough to disturb the color. This must have been one of the earliest 9-G's struck, as the imperfections noticed by Crosby and Sheldon are not visible, except for weak suction marks under the chin. Reverse cracked as described. An unusually choice cent **($125.00)**

1623 **Crosby 9-H.** (S-9) R-2. Wreath type; Large round bow upon the reverse. Perfect dies G-6 Light brown with nice, even weor except for a single bruise upon the outer obverse edge at left. Everything reodable A space filler, as H.K.D. intended to replace this piece. **($25.00)**

1624 **Crosby 10-I.** (S-10) R-4. Wreath type; Injured Rim. Mr. Downing called this beauty EF-40, which surely is a masterpiece of understatement. It would be more accurate to say: Obverse, EF-45, but with a few very minute injuries outside the border beading; Reverse, MS-60 or better. The piece is well centered and hos o wide, raised border, setting off the design to advantage. The surface is a beautiful light olive, worthy of a MS-65 coin. A superb cent, ex Brand call. **Plate.** **($325.00)**

1625 **Crosby 11-J.** (S-11a) R-5. Wreoth type; Lettered edge variety, but with Vine and Bars edge. VF-20. This coin is a VF-30, but the edge, upon both sides, is marred by a number of small bruises, most of which ore outside the border beoding. Obverse steel; Reverse mottled steel, brown ond red. This is probably one of the top eight or nine, and without the edge bruises would be a $200.00 cent. Ex Hines coll. Really rare **($140.00)**

1626 Crosby 11-J. (S-11b) R-4. Wreath type; Lettered edge, two leaves ofter DOLLAR. VG-10. This piece is neither a gem nar a space filler. It is almost completely brown in color and has one or two light obverse edge bruises, plus another minute defect or so. The coin is well centered and the suction marks for AMERICA and the wreath are barely shawing. This sub-voriety is just beginning to come into its own. Ex C. Petersen ond lot #13 from the Pearl catalogue, 1944, where it wos described as Fine. V. Scarce. **($60.00)**

1627 Crosby 11-J. (S-11c) R-3. Wreath type; lettered edge, single leof after DOLLAR. VF-25. Light brown. A sharp and attractive coin with a few minor defects, including what appears to be a planchet blemish at N in UNITED upon the reverse. Suction marks are heavier on this than on the lost. In great demand os a "Type" coin. **($125.00)**

1628 **Crosby 12-K.** (S-12) **R-6.** The third rarest Liberty Cap. G-6. The obverse is G-5 or 6 and the dote is fully legible. The reverse would grade Fine except for the bulged center (which is constont on Reverse K) and a heovy scratch at the bow and right ribbon. This variety has a condition census of 50-6, broken down os follows: The Fewsmith, Klein, Crosby, French, Clapp, A.N.S. AU-50 specimen; the second finest is Sheldon's, VG-10; the remainder in Good or worse. This piece is probobly the third or fourth finest known and wos lot #15 in the celebrated Newcomb sale, 1945, where it wos described os V. Good. V. Rare. **($100.00)**

1629 **Crosby 12-L.** (S-13) R-4. Liberty Cap; Similar to the lost, the leof under ME parallel. G-5. Strictly Good. Everything, and in particulor the dote, stands out in bold relief. The surface is slightly rough ond we note a minute edge nick upon the bottom of the reverse. A clear, readable exomple of a variety in great demand as a "Type." Rore. **($50.00)**

1630 **Crosby 13-L.** (S-14) R-5. Liberty Cap; The Bisecting Crack. G-5. A well centered and evenly worn coin with a slight scratch over IB of LIBERTY upon the obverse. An acceptoble specimen of a very popular cent Mr Downing groded this piece as G-6. He valued it ot— **($75.00)**

1631 **Crosby 14-L.** (S-16) **R-7.** The second rarest Liberty Cap; The Dotted I. G-6. This coin has strong claims to V. Good ond noses out the Dr. French example as fourth best of the eight now accounted for. There are two planchet defects upon the obverse, one at the edge and one in the right field which resembles o crack. Neither interferes with the design. This is not one of the seven specimens mentioned by Sheldon, but is one of the "two more known to rumor" that he speaks of. An excellent exomple of a real rarity. **($150.00)**

1794

The cents of this year were probably Homer Downing's favorites. He began to ocquire and earnestly study them, and to "hunt 'em down," comparatively late in his collecting career. Only a few weeks prior to his passing, he carefully inked in the H and D of HUNDRED upon the edges of his cherished 1794s. This was to "identify them," as he put it, and was similar to the earlier ideas of Hays, Hall and others. The catalogers sincerely regret that their good friend did not live to see the splendid pieces from the Hall, Wurtzbach, Brand collections, which came to light about a year ago.

1632 **Hoys 1.** (S-20) R-5. Maris's "The Exoct Head of 1793." Strictly VF-30. This is the third finest example extant, according to Dr. Sheldon. It has a light, lustrous, olive brown surface and is well struck and centered except for weak obverse milling. There are o number of minor defects, including a few faint edge bruises upon the obverse ond a microscopic nick at the bottom of the bust. This cent is definitely superior to the Holl, Hays, Brand piece which we sold in our 34th sale. It first appeared in the Gilbert sale, 1910, as lot #1. Loter, it was lot #83 of the Granberg-Woodin "Collection of a Prominent American," and it went for the ridiculously low figure of $35.00 in the Newcomb sale, 1945, lot #18. The obverse is illustrated in the Gilbert-Elder revision of Hays, 1910. A splendid coin to own. **Plate.** **($175.00)**

1633 **Hoys 2.** (S-19a) **R-6.** The Double Chin; Edge device of '93. G-4. This coin wauld possibly be V Good or better, if it were not for a rough surface, especially upon the obverse. This is one of "seven or eight that Dr. Sheldon mentioned under his No. 19a, all but two of which are in worn condition Ex Hines coll An uncommonly rore sub-variety. **($20.00)**

1634 Hays 2. (S-19b) R-4. The Double Chin; Edge device of '94. VG-10. A rather attractive exomple mottled in half-a-dozen shodes of light and dork brown. The surface shows a few infinitesimal pit marks which certainly do not mar its appearance in the slightest. Almost Fine and a nice cent Ex Hines coll **($35.00)**

1635 **Hays 3.** (S-18a) **R-6.** The other Double Chin; Edge device of '93 VG-8 This cent has several pit marks which hove arranged themselves into a little group at the bottom of the reverse and in one or two spots upon the obverse. There are one or two other minor defects, but this coin would be Fine if it were evenly struck throughout and cleon. Dark steel color, mottled with reddish brown One of the better examples of a very much underroted sub-variety, of which Dr. Sheldon has only seen five or six specimens From our 33rd sale, lot #557 of the D. C. Wismer coll. V. Rare. **($35.00)**

1636 Hays 3. (S-18b) R-4. The other Double Chin; Edge device of '94. Uncirculated, MS-60. Mottled steel blue and brown. This coin shows the small crack on the twelfth denticle left of the 1, the swelling under TED, and another swelling under the cap. There is a tiny edge bruise, of no particular importance, under the 9. This piece is one of the three or four finest known and is slightly superior to the example sold in our 34th sale (Hall, Brand coll.), which realized $170.00. It originally appeared as lot #734 in the Zobriskie catalog, 1909; later, it was listed as lot #655 of the H. Miller collection, 1917, and finally, as lot #19 of the Newcomb sale, 1945. Uncommonly choice and desirable. **Plate.** **($165.00)**

1637 **Hays 4.** (S-17) **R-6.** Head of 1793; Wide, Straight Date. F-12. This piece could easily be called a F-15 coin, or better, but the edges are bruised, particularly upon the reverse. Even, medium brown. The surface is pleasing and attractive in spite of a few handling defects. This is the identical coin mentioned by Sheldon on page #84, and is definitely the third finest known example. It is the original Hays specimen, and appeared as lot #4 of the Hays-Phelps sale, 1907. Later, it was in the Ebenezer Gilbert collection and was sold as lot #4 in 1910. In 1915 it appeared in the Granberg collection as bought by W. H. Woodin and consigned to Wayte Raymond. (Lot #86, "The Collection of a Prominent American.") It reappeared as lot #20 in the Newcomb sale catalogue, 1945, and was there bought by Dr. Sheldon, from whom Downing later obtained it. This piece is illustrated in the Frossard-Hays book (1893), also in the Gilbert-Elder (1910) edition of Hays, and in Chapman (1923, 26)) each time as No. 4. A rare cent with a fascinating numismatic history. Worthy of a home in the finest collection. **Plate.** **($100.00)**

1638 **Hays 5.** (S-21) R-2. Maris's "Sans Milling," Sheldon's "Flat Pole" variety. Strictly VF-30. A choice and really good looking coin with a lustrous, light brown surface. The milling shows all around the obverse, but is weak and narrow at upper left. The reverse is somewhat roughened, but is still sharp. This is another W. W. Hays cent and appeared as lot #5 of the Hays-Phelps sale; later, it was in the Earle collection and a Bullowa sale of October, 1949. A Frossard-Hays plate coin (1893). Another "historical penny." **($40.00)**

1639 Hays 5. (S-21) R-2. Duplicate of last, in better condition, but without so long a pedigree. EF-40. A beautiful and handsome cent with a lustrous light brown surface. There are two unimportant and hardly visible obverse edge defects. The hair is hardly as sharp as upon the last, but this piece has a more pleasing and desirable general appearance. Ex George H. Clapp. **Plate.** **($50.00)**

1640 **Hays 6.** (S-47) R-5. Maris's Young Head. The rare sub-variety from perfect dies of which Sheldon states he has only seen four or five examples. VF-35. A coin that would be EF-40 were it not for a decided roughness upon part of the obverse. The reverse is particularly sharp and attractive. This cent is a russet color and is perfectly centered. It is believed to be the second finest example known and was discovered after the publication of the Sheldon book. Uncommonly rare so choice. **Plate.** **($120.00)**

1641 Hays 6. (S-47) R-5. Another, but with the cracked die as described by Dr. Sheldon. VF-25. Dark brown. Well centered and struck. An unusually handsome and attractive cent, almost the equal of the last. Far superior to the artificially colored Dr. French specimen which has a record of $85.00. One of the finest pieces known and from the Hines coll. **($85.00)**

1642 **Hays 7.** (S-49) R-2. The second Young Head. Obverse with broken die. This medium brown beauty will rate AU-50, and is given exactly that grading on page 114 of the standard text. There are three unimportant defects, two of which are upon the reverse edge. This is another original Hays coin, which went in the Hays-Phelps sale as lot #7, and later was owned by C. H. Stearns. It reappeared as lot #23 of the Newcomb sale and realized a paltry $37.50. In 1947 it was in the A.N.A. Convention sale at Buffalo, N. Y. and sold for $65.00. Sheldon claims that this piece was resold from the Newcomb sale for $75.00. It is illustrated upon the Chapman plates, and is believed to be the third finest known specimen. **($75.00)**

1643 Hays 7. (S-49) R-2. Another, but with a perfect obverse die and a double profile. Strictly VF-20. Medium brown, mottled with darker brown. The edge is slightly bruised upon both sides. Ex Lambert coll., 1910, lot #585, and Sargent coll., 1913, lot #409. Slightly scarcer die state than the last, but hardly as desirable. **($25.00)**

1644 **Hays 8.** (S-48) **R-6.** The celebrated **Starred Reverse,** possibly the most famous of all the 1794 cents. G-4. The obverse is almost V. Good, but the reverse is badly worn, even though it still shows the stars ploinly. Black, rough surface with a small reverse cut. An acceptable specimen of a rarity of which all but three or four are low grade. In great demand. **($37.50)**

1645 **Hays 9.** (S-52) **R-7.** Maris's Coquette. This is one of the two known specimens from a perfect obverse die, the other being a F-12 coin in the A.N.S. collection. Strictly F-12, a very dark color. Nearly the equal of the Hays, Gilbert specimen, on the Sheldon plate, but this piece was subjected to repairs below the date, and is downgraded for that reason. This is the Dr. French example which later appeared in the 1947 A.N.A. Convention sale as lot #784. It is the third finest of the seven known specimens. Record of $165.00. Ex Rare. **Plate.** **($175.00)**

1646 **Hays 10.** (S-51) R-5. Maris's Forlorn. Perfect obverse die. AU-50. The finest example known. Light and dark red color. A sharp and unblemished cent that misses perfection only from having weak denticles, as usual, upon the lower right reverse. This coin is misdescribed by Dr. Sheldon who confuses it with the Hays specimen, which is the next lot. Ex Gilbert coll., 1910, lot #10; Granberg-Woodin, 1915, lot #92; Newcomb, 1945, lot #26. This coin was sold to H.K.D. by the catalogers. It is pictured in the Gilbert-Elder (1910) edition of Hays, and in Chapman, both sides; the obverse is on Sheldon's Plate 8. A splendid and valuable addition to the finest collection. **Plate.** **($175.00)**

1647 Hays 10. (S-51) R-5. Another, the extremely rare variety with a heavily broken obverse die. Strictly V. Fine with claims to Ex. Fine. Unfortunately, the obverse shows a few pit marks, and this coin can only be graded VF-30. Dark olive. A handsome cent with a particularly nice reverse. This is the original Hays specimen which later reappeared in the Pearl catalogue, lot #24. Choice and desirable, probably the finest known example of this die state. **($100.00)**

1648 **Hays 11.** (S-54) R-3. Maris's Crooked 7; Closed Wreath reverse. Better than VF-30. Light olive. Perfect die, but shows incusations of leaves between the cap, hair and LI. A choice cent, rare so fine, and superior to the Newcomb coin, which sold for $37.50. This is probably one of the finest known examples, and is certainly one of the top four or five. From our 33rd sale, lot #564 of the D. C. Wismer coll. **Plate.** **($50.00)**

1649 **Hays 12.** (S-56) R-4. The Office Boy Reverse. Strictly VF-30. There are two or three microscopic handling defects upon the obverse, which do not mar the attractive olive brown surface. The reverse has claims to Ex. Fine, but shows a minute nick or planchet defect within the wreath. A remarkable example at least equal to the Hines specimen that sold for $65.00. Unusually difficult to find choice. One of the finest known. Ex B. Bluestone. **Plate.** **($65.00)**

1650 **Hays 13.** (S-55) R-3. The Big Berries variety. This is another "Office Boy" reverse like Z of 1794 and D of 1796. VF-30. Even, light brown color. Few infinitesimal defects. The crack described shows faintly and the incusations mentioned above, under H-11, are gone. A choice and attractive cent. Ex George H. Clapp. **($45.00)**

1651 **Hays 14.** (S-57) R-1. The Pyramidal Head. Perfect obverse die. VF-20. Dark olive. The reverse is injured as described. The obverse edge is slightly bruised and there is a minute nick at T in UNITED upon the reverse. Ex Hines coll. **($20.00)**

1652 Hays 14. (S-57) R-1. Another, but late stage of the broken dies. VF-25. Light brown. The reverse shows a break in the rim denticles over STATES and to the right. A choice cent with the usual microscopic defects. Definitely above average. Ex Hines coll. **($25.00)**

1653 **Hays 15.** (S-59) R-4. The Many Haired. The variety from a cracked reverse die. VF-20 or better. Dark steel blue with traces of russet. A beautiful and well centered cent. The finest specimen in collectors' hands is a VF-30, so this piece is not far from the top, certainly one of the six or eight finest. The obverse actually has claims to VF-30, but the reverse is slightly roughened and weakly struck at left. Very choice. **($50.00)**

1654 Hays 15. (S-59) R-4. Another, the variety with a perfect reverse. Strictly F-15. Steel and brown. The denticles are weak at the top of the obverse and the bottom of the reverse, as is the top of LIBERTY. A choice and desirable coin with two or three defects, including a small reverse nick. Rare so fine. Ex H. C. Miller sale, 1917, lot #667, and the Hines coll. **($35.00)**

1655 **Hays 16.** (S-58) R-4. The second Many Haired. F-15. A nice clean coin with a pleasing light brown surface. Well centered and struck. Uncommonly scarce and choice. **($30.00)**

1656 Hays 16. (S-58) R-4. Another, and like the last from an unbroken reverse die. Almost VG-10. Steel color. One of the original Hays coins, marked on the edge H 40 DIE CKD AT DATE. (The "crack" is a planchet defect.) Nice, even wear. Ex Hays-Phelps coll., lot #16a, later owned by A. C. Gies and W. W. Garrabrant. Interesting and valuable. **($20.00)**

1657 Hays 16. (S-58) R-4. Still another, the variety from a broken reverse die. Another original Hays cent. Downing listed this piece as VG-8, however, it would be more accurate to call it VF-20, but with a badly roughened and repaired obverse. Dark brown, well centered, sharp, and with the usual minor defect or so. Ex Hays-Phelps coll., lot #16, A. C. Gies, G. H. Clapp, Hines and Sheldon. **($17.50)**

1658 **Hays 17.** (S-24) R-2. Maris's "Scarred Head," Sheldon's "Apple Cheeks." EF-40 to AU-50. This splendid cent is nearly Uncirculated with a lustrous, light brown surface. There is a slight rim bruise, upon the reverse, together with one or two other minor imperfections, on account of which Mr. Downing downgraded the piece to EF-40. It came from a midwestern dealer, and originally was lot #738 in the Zabriskie sale 1909. Exceptionally choice and desirable. **Plate.** **($55.00)**

1659 **Hays 18.** (S-23) R-5. The (usually) Shattered Obverse. This EF-40 example is either the second or third finest specimen known of this rarity, and is also one of the two perfect die impressions, the other being the Maugey, A.N.S., MS-60 coin, illustrated in Chapman. It is indeed an odd coincidence, that the two perfect die specimens should also be the two finest known. This piece is light red and gray, the color probably resulting from cleaning long ago. No blemishes are readily visible. A magnificent coin, and one of the most desirable in the entire collection when its rarity as a variety and a die state, together with its condition are considered. Ex Hines coll. Ex. Rare. **Plate.** **($150.00)**

1660 **Hays 19.** (S-41) R-4. Maris's Abrupt Hair variety. Almost VF-20. Dark brown. A nice clean coin with only one or two minute defects and a reverse rim bruise or so. The surface leaves a little to be desired, but this cent is far above average and unusually difficult to locate so. Ex Hines coll. **($37.50)**

1661 **Hays 20.** (S-42) R-5. ("Possibly R-6"—Sheldon) Abrupt Hair; OF weak. EF-40. One of the five now known that equal or exceed VF-30, this is the second finest specimen extant. It is only exceeded by the Hall, Hays Brand coin, AU-50, which we sold in our 34th sale and which was apparently unknown to Dr. Sheldon. The present piece is from the Newcomb sale, lot #37, and was obtained from Dr. Sheldon. It has the "planchet irregularity" mentioned by him, as well as a splendid olive surface with faint traces of lustre. The Hall, Hays, Brand cent realized $165.00 and we understand that $100.00 was offered for this piece soon after the sale of the Newcomb collection. Ex. Rare. **Plate.** **($140.00)**

1662 **Hays 21.** (S-26) R-2. Obverse ground down, meriting more than ever the Proskey designation of "Severed Hairs." AU-50. Light brown. The obverse is close to EF-40, as the denticles are weak at top and the surface has a few microscopic imperfections. The reverse has claims to MS-60 but is not well struck up due to heavy injuries from the obverse die and breaks. This is the original W. W. Hays specimen; it was lot #21 of the Hays-Phelps coll., later owned by Virgil Brand and the St. Louis Stamp & Coin Co. Mr. Downing obtained it from B. G. Johnson. The obverse is illustrated on the Frossard-Hays Plate, 1893. A beautiful and numismatically valuable specimen of this popular variety. **Plate.** **($62.50)**

1663 **Hays 22.** (S-25) R-2. Obv. as last; Maris's Separated Date. Better than VF-20. Dark brown. This cent is conservatively graded as the obverse surface is slightly rough. There are a few other defects, mainly granular, but generally speaking, this is a choice example from a scarce die. It is a good match for the A.N.S. coin. This is the Pearl specimen, lot #40, and was purchased for $35.00. **($40.00)**

1664 **Hays 23.** (S-28) R-3. Maris's "Ornate," Proskey's "Nondescript." A superb AU-50 specimen which would be MS-60, except for a very light blemish upon the neck, only visible in a certain light. There are one or two other defects of even lesser note. This cent has a magnificent light brown surface. The reverse is an unusually late die stage; the incusations are more extensive than mentioned by Sheldon. A truly thrilling coin to own. Ex B. Bluestone. **Plate.** **($85.00)**

1665 Hays 23. (S-28) R-3. Another, like the last. F-15. This cent has claims to Very Fine, but there are many faint scratches in both the obverse and reverse fields. Mottled light and dark brown with one or two other imperfections. The reverse incusations of the Liberty head are unusually strong. An original W. W. Hays cent, the edge marked H 17 in white paint. Far more desirable than the description implies. **($25.00)**

1666 **Hays 24.** (S-29) R-2. The "Ornate" with Tailed Reverse. EF-40. A remarkably choice example with the obverse die delicately cracked. The reverse is perfectly centered and struck, and is almost lustrous. Another Hays cent. This variety is not rare, but examples of this caliber are far from common. **Plate.** ($50.00)

1667 **Hays 25.** (S-27) **R-6.** Maris's Egeria. One of the most difficult varieties to obtain in decent preservation. This is the third finest specimen extant, being exceeded only by the two AU-50 examples owned respectively by A.N.S. (Brand Clapp calls) and Dr. Sheldon, ex Hines. This piece has a very dark and somewhat pitted surface, but will easily grade F-15. We can safely predict that it will be many years before a better Hays 25 will be offered. Ex Rare. **Plate.** ($75.00)

1668 **Hays 26.** (S-32) R-1. The Venus Marina. The variety with a rim break over LI, the reverse broken as described. AU-50, with weak milling at the right on both sides. A superb cent with lustrous steel and brown coloring. The original Hays specimen. This piece was in the Hays-Phelps sale, lot #26, Gilbert sale, lot #26, Granberg-Woodin, lot #108, Hines collection, and included with a number of his duplicates in the A.N.A. (Buffalo) Convention sale, 1947, as lot #802. It is illustrated in the Frossard-Hays (1893) and Gilbert-Elder (1910) references. $90.00 was paid for this fine and remarkable coin. **Plate.** ($55.00)

1669 **Hays 27.** (S-33) **R-7.** The "Venus Marina" obverse, combined with the reverse that usually has six "wheel spoke" breaks. Probably sixth or perhaps fifth best of eight known specimens, this is the unique example mentioned by Dr. Sheldon (page 98), which does not have any of the die breaks. Obverse Fair, the reverse is about G-5 and would be better were it not for the die swelling in the center, which is constant on reverse K at 1794. Mr. Downing graded this piece as G-4. It was in the Borcky collection, 1935, lot #388, and later went into the A.N.A. Convention sale, 1947, as lot #803, from where it was obtained by H.K.D. Unique. ($50.00)

1670 **Hays 28.** (S-34) **R-7.** Same obverse as the last. Reverse, single berry left of bow. VG-7. This rare cent has a rough surface and a number of minor defects, including two or three obverse edge bruises. Light brown and steel. Ex H. C. Hines collection, out of the King-Gillette-French sale held by H. Chapman, 1927, lot #23. A desirable and quite acceptable specimen, as it is probably the third finest known. Ex Rare. ($75.00)

1671 **Hays 29.** (S-35) **R-6.** Maris's Diana. The extremely rare sub-variety with a perfect obverse die. Strictly F-12. Steel color. This choice cent does not have a blemish or a nick, just even wear and a slightly rough surface. About as attractive a cent for the condition as can be had. This is one of the finest known specimens and is an unusually desirable coin. Ex David Proskey and Hines calls. **Plate.** ($50.00)

1672 Hays 29. (S-35) R-6. Another, but from the broken obverse die. VG-10. Almost as desirable as the last, but with a reverse edge bruise, and some damage on the bruised spot. There are a few other minute imperfections, but this is still an excellent specimen. From the Borcky sale, 1935, lot #433, and the Hines coll. V. Rare. ($40.00)

1673 **Hays 31.** (S-36) **R-6.** Maris's Crowded Date. About a dozen examples are known in all, of which this AU-50 is unquestionably the second finest. It is only exceeded by the Clapp, A.N.S. piece, which, with this specimen, arrived from England in 1934. We consider this cent a shade superior to the Dr. French coin, now owned by Dr. Sheldon. Dark steel. A magnificent example of a great rarity with only the slightest defects. The finest available specimen. **Plate.** ($225.00)

1674 **Hays 32.** (S-63) R-3. The Fallen 4. Strictly EF-40. Well centered and struck with a beautiful, light brown surface. This is the original Hays coin, mentioned by Sheldon on pages 124-5. It was lot #32 in the Hays-Phelps collection, lot #48 in the Newcomb sale, and was purchased at the 1947 A.N.A. Convention sale as lot #805. It is pictured in Frossard-Hays, 1893. A choice example of a highly popular cent. **Plate.** ($60.00)

1675 **Hays 33.** (S-44) R-2. The Short Bust. Strictly EF-40, with strong claims to being almost AU-50. Light chocolate brown. A splendid specimen with the die breaks well advanced. Hardly rare, but an unusually nice example of a 1794 cent. Ex B. Bluestone. **Plate.** ($50.00)

1676 **Hays 34.** (S-43) R-2. The second Short Bust. EF-40. This is the first of a series of three of this variety, showing progression of the reverse break. Die break very light. Dark olive brown. A well centered and struck cent with a double profile. Unusually choice and desirable. Ex Hines coll. **Plate.** ($50.00)

1677 Hays 34. (S-43) R-2. Another, with break heavy. Almost EF-40. Dark brown. This coin is unusually well struck and centered, but has a number of old and minute obverse defects. These include three or four microscopic pit marks, only one of which, on the cap, is readily visible. A splendid cent, far superior to its description. Ex B. Bluestone. ($45.00)

1678 Hays 34. (S-43) R-2. Another, with break severe. The reverse is sinking bodly at lower left and upper right of the break, this is probably one of the last specimens coined from Reverse R. Evenly worn, just a shade under VG-8, as much of the apparent wear is undoubtedly a result of the die sinking. There is a strong nick at the bottom reverse edge. ($7.50)

1679 **Hays 35.** (S-60) R-4. The Patagonian obverse. Strictly VF-20. Usual incusations under LIB. Cracked as described on the obverse, reverse, perfect die. Really VF-30, but has a number of minor defects, including a slight obverse edge nick, a light scratch from Liberty's ear to jaw, and another minute nick at the triple leaf upon the reverse. Mottled brown and steel. This coin is far superior to its description, being well centered and sharp, and is very hard to find in Very Fine. Only about ten examples are known above VF-20, the finest of which we sold in our 34th sale for $205.00. (Estimated at $125.00). ($45.00)

1680 **Hays 36.** (S-61) R-4. The Patagonian with second reverse. This cent is unique in that it lacks the incusations under LIB present upon all others, as well as upon most of the H-35's. No trace of a crack. Sheldon did not know of any such example. This coin was evidently struck before the H-35's. VF-30. Dark glossy steel with one or two microscopic defects. About equal to the Newcomb specimen. Ex Hines coll. Very beautiful indeed. ($60.00)

1681 **Hays 37.** (S-30) R-1. First Marred Field. Strictly VF-30. Ripe olive and steel. The reverse is bold and well struck, but has two minute edge bruises. Not rare, but an unusually choice and desirable 1794 cent. ($30.00)

1682 **Hays 39.** (S-31) R-2. Second Marred Field. AU-50. A magnificent cent. Miss Liberty could repeat the biblical words of the Shulamite to King Solomon: "I am black, but beautiful" . . . without fear of contradiction. Very close to perfection indeed. Ex Virgil Brand coll. **Plate.** ($62.50)

1683 **Hays 40.** (S-39) **R-7.** Sprawled Ribbon Ends. Basal state, the edge hammered down, reducing the diameter about ½mm. Only nine pieces known in all. ($7.50)

1684 **Hays 41.** (S-38) **R-6.** Third Morred Field. EF-40. This is the identicol coin mentioned by Dr. Sheldon (page 103), ond is the finest ovoiloble, ond the second finest known. It is only exceeded by the Newcomb specimen now in the A.N.S. collection ond forever off the morket. Dork brown. There ore two serious nicks upon the outer edge ond o few signs of hondling. This cent come to Mr. Downing from the Hines collection, ond hos o record of $125.00. Previously, it wos in the Gilbert (lot #41) ond Gronberg-Woodin (lot #126) collections. The obverse is figured in the Gilbert-Elder edition of Hoys, 1910. A splendid oddition to ony collection Ex. Rore. **Plate.** **($175.00)**

1685 **Hays 42.** (S-40) **R-6.** Sprung Reverse Die. F-15. This cent hos o rough, dork surfoce ond would otherwise be VF-20. The reverse is o little weok in the center, the result of the die being "sprung" os on the Crosby 14-K of 1793 ond the Hoys 27. This piece wos the finest thot Newcomb could obtoin, ond wos sold os lot #57 in the cotolog of his collection. Somewhot rorer thon the lost, o desiroble exomple of o real rority **($75.00)**

1686 **Hays 43.** (S-22) R-1. Moris's "Lorge Plonchet," Sheldon's "Bent Hoir Lock." Strictly EF-40. Medium brown A rother eorly strike, os only the topmost "mound" is ot oll developed. A reolly nice cent. **($40.00)**

1687 **Hays 44.** (S-66) **R-6.** ("Almost on R-7"—Sheldon) Moris's "Distont 1," Sheldon's "Split Pole." This steel ond brown specimen is VG-8, ond o pleosing coin for the condition. A few smoll edge bruises ond two or three other minor defects do not reolly detroct from its oppeoronce. The obverse is almost VG-10, but the reverse is not neorly os good. However, when we realize thot only five Fine or better pieces exist, ond thot three of them ore in the A.N.S. collection, the importonce of this V. Good exomple rises considerobly. This is an originol Hoys coin; it wos lot #44 in the Hoys-Phelps sale, lot #422 in the W. B. Guy collection (H. Chopmon, 1911), ond wos obtoined by H.K.D. from H. Hines. The obverse is illustroted on the Frossord-Hoys Plote, 1893. Uncommonly rore ond desiroble. **Plate.** **($65.00)**

1688 **Hays 45.** (S-65) R-1. Shielded Hoir. VF-30. Dork brown. The reverse hos cloims to Ex. Fine, but there ore o few pin point nicks upon the obverse. An excellent specimen for dote collectors. Ex Hines coll. **($30.00)**

1689 **Hays 46.** (S-64) R-5. Shielded Hoir; Reverse, Sons Regulo. AU-50. Another outstonding coin. This mognificent piece is russet in color, mottled with block. The surface is superb, ond the only defects we notice ore o few minute nicks obout the dote, visible with o gloss. Only the very highest port of the obverse shows ony oppreciable cobinet friction. This is either the third or fourth finest known, ond is mentioned on the top of page 126 by Dr. Sheldon. Ex Gilbert (lot #46), Gronberg-Woodin (lot #132) ond Hines collections, by woy of Dr. Sheldon. $150.00 wos poid for this cent; it is worth every bit of thot ond more. **Plate.** **($165.00)**

1690 **Hays 47.** (S-45) R-5. Moris's "Plicoe," Sheldon's "Broided Hoir." VG-10. This cent is strictly Fine, but hos o smoll nick in the upper right obverse field ond severol green corrosion spots upon the reverse. Light olive brown. An originol Hoys coin, loter sold os lot #49 of the Chorles Williams collection, Numismotic Gallery sole, Nov. 1950. It is decidedly rore in decent preservotion, ond like Hoys 20, this voriety moy be on R-6. **($35.00)**

1691 **Hays 48.** (S-46) R-2. Broided Hoir; Crossed E reverse. Die breoks well odvonced. EF-40. Strictly Extremely Fine, with everything thot the word implies. This cent would be AU-50, except for severol tiny corrosion morks, visible under o gloss, moinly upon the reverse. Well centered ond struck, o dork olive brown. This is lot #64 from the Newcomb collection. Uncommonly scorce so choice. **Plate.** **($55.00)**

1692 **Hays 49.** (S-62) R-5. The Trephined Heod. Voriety with the heavy rim breok behind the neck. Mr. Downing described this piece os F-15. We feel it would be more occurote to call it almost VF-30, but with o roughened surfoce ond o few light pit morks, porticulorly upon the obverse. Steel ond light brown. Ex Hines coll. We wonder if this specimen is the piece thot Dr. French once bought as "Uncirculoted, but pitted." Very rare, even in this condition. **($65.00)**

1693 Hoys 49. (S-62) R-5. Another, the very rore voriety from o perfect obverse die. F-12. The obverse of this cent is cleon ond ottroctive. The reverse shows o number of minor defects, including two minute pit morks. Block ond olive, with troces of red oxidotion. A reolly rore ond desiroble coin thot should be seen to be oppreciated. Ex Hines coll. **($35.00)**

1694 **Hays 50.** (S-69) R-4. (This ond the next eight lots ore listed in the Stondord Cotolog os "Heod of '95") Five Broided Locks, Smoll Circulor Curl. EF-40. Dark brown. A splendid cent with nothing to mor its beouty but o minute reverse edge nick. This is the celebroted Dr. French specimen, mentioned by Dr. Sheldon on poge 130, which wos sold for $85.00 in 1945. Later, it oppeored os lot #818 of the 1947 A.N.A. Convention sole. One of the finest known, ond one of the rorest coins in the entire series in this preservotion. **Plate.** **($85.00)**

1695 **Hays 51.** (S-70) R-2. Obverse, similor to lost; Reverse, Triple Leaf under D. Usuol broken obverse die. VF-30 Light olive ond brown. Well centered ond struck, free from ony significont blemishes. A nice cent **($37.50)**

1696 Hoys 51. (S-70) R-2. Another, but the finest of the three known specimens from o perfect obverse die The A.N.S. hos o VG-8 exomple ond o Boltimore collector owns o Foir piece. This cent is the identicol one mentioned by Sheldon on poge 131— "The other, from the Hines collection, is now in o New York cobinet" VF-20. The obverse is well centered ond struck. Unfortunotely, there is o rother serious planchet defect or imperfection upon the reverse edge, together with one or two other minor foults. Dork brown ond highly ottroctive. Ex Foster Lordner collection, lot #24, and H. Hines. A thrilling ond voluoble coin to own ond excessively rore os o die stote. **($35.00)**

1697 **Hays 52.** (S-71) R-2. Obverse, similor to the foregoing, but with o die injury at the eye Reverse os lost Perfect obverse die. F-15. The surfoce of this piece shows o slight roughness, and there is o minor reverse edge bruise. **($17.50)**

1698 Hoys 52. (S-71) R-2. Another, the rore sub-voriety with o broken obverse die including the odvonced breok between R ond T of LIBERTY. Almost VF-20, but with two or three slight defects, including o minute edge nick or so upon the obverse edge. Nice dork surfoce. Ex H. C. Miller coll, 1917, where it wos erroneously colled H-54; H. C. Hines coll., then to Downing. Rorer than the lost **($20.00)**

1699 **Hays 54.** (S-67) R-3. Heod of 1795; The Romon Plicoe. Strictly VF-20 A nice cent with o pleosing dark brown surfoce. Well centered ond struck. Two slight ond unimportont obverse nicks do not impair the oppeoronce of this piece. Ex King-Gillette-French sole, 1927, lot #55, ond the Hines coll. In great demand os o "Type" coin. **($35.00)**

1700 **Hays 55.** (S-68) **R-6.** The Bisecting Die Break. MS-60. The finest known example. Light reddish brown. A magnificent, superb cent with bold, sharp borders. The obverse clearly shows that the engraver once more attempted to depict every hair, as on Hays 7 and 57. The die break is quite faint, showing as a buckle or crease in the lower half, and is almost invisible between the ear and nose. This coin is far superior to the Dr. French specimen which was sold for $205.00, some years ago. It is also better than either of the two A.N.S. pieces, including the EF-40 example purchased in 1931 from B. Max Mehl for $185.00. One of the highlights of this collection and well worth a good price. Ex Hines coll. **Plate.** **($265.00)**

1701 Hays 55. (S-68) R-6. Another, the die break fairly heavy. VG-10. Fine obverse; worn reverse with a few minute defects. This variety was first described by Frossard and has been known as one of the Hays-Frossard discoveries. This is the original Hays coin, the "discovery" specimen. The edge is marked H NEW VARIETY DESCRIBED. Ex St. Louis Stamp & Coin Co. A highly interesting example of this rarity, that would not disgrace any cabinet. **($40.00)**

1702 **Hays 56.** (S-72) R-2. The Exact Head of 1795. AU-50, with some claims to MS-60. Olive steel color. Well centered and struck, almost completely free of blemishes. Both the obverse and reverse dies are broken as described. There are incusations upon both sides, particularly under IB and at eye, and within the wreath. Ex St. Louis Stamp & Coin Co. A beauty, and one of the finest extant. **Plate.** **($65.00)**

1703 **Hays 57.** (S-50) **R-6.** The Gilbert variety. Maris 58, not known to Hays, but erroneously illustrated in Frossard's 1879 Monograph as the variety later called Hays 7. EF-40. Light olive and russet. A splendid cent with two or three minute defects, including a small nick at I in LIBERTY. According to Mr. Downing, Dr. Sheldon described this piece as VF-30 in error. Careful investigation indicates that it is the finest available specimen, and second only to the Hines, Clapp, A.N.S. example, now forever off the market. The Miller, Newcomb cent is somewhat sharper, but has a large and deep obverse planchet defect from the pole to the edge. This coin is from the Ebenezer Gilbert collection, lot #57, and was illustrated in the Gilbert-Elder edition of Hays, 1910. Later, it appeared in the Granberg-Woodin sale, lot #145; the Dr. French catalogue, lot #84, and finally, in the A.N.A. Convention sale, 1947, as lot #823. It has a record of $145.00, and is well worth considerably more. **Plate.** **($175.00)**

1704 **Hays 59.** (S-37) **R-7.** The Steigerwalt variety. Discovered by dealer Steigerwalt about seven years after the publication of the Frossard-Hays work. VG-8. The fourth best of the six known specimens. It has some claims to Fine, but these are dispelled by a dark, rough surface. However, this cent is free from blemishes, and is quite attractive in its own way. The Barcky specimen, mentioned by Sheldon, with a record of $85.00; obtained by H.K.D. from the Hines coll. Ex. Rare. **($100.00)**

1795

The Only Complete Set of the Cents of this Year Ever Offered

1705 **Sheldon 73.** (Clapp-Newcomb 1) **R-6.** The famous Hyphen variety. VF-20. Light brown. Few infinitesimal defects, including a reverse edge nick. This cent was lot #95 in the Dr. French collection, and was later owned by H. Hines. It sold for $125.00 in 1944, and is equal to the second finest example known. A popular and uncommonly rare variety. **Plate.** **($125.00)**

1706 **S-74.** (CN 2; D-68) R-4. Lettered edge. EF-40. Dark steel. A superb example of a coin much in demand by "Type" collectors. Uncommonly choice and desirable. Ex Hines coll. **Plate.** **($130.00)**

1707 **S-75.** (CN 3; D-67) R-3. Lettered edge. Strictly Fine-15. This coin has claims to V. Fine, but the surface is slightly roughened. Black. Another excellent piece for the type collector. **($45.00)**

1708 **S-76a.** (CN 4; D-66) **R-6.** Lettered edge; ONE CENT high. G-6. Evenly worn, particularly upon the reverse. The rim shows slight bruising, which does not affect the appearance of this rarity. The surface is black in color, like the last, and is somewhat rough in the field. Ex Dr. Sheldon coll. V. Rare in any condition. **($37.50)**

1709 **S-76b.** (CN 4; D-66) R-1. Plain edge; ONE CENT high. Many of this variety were undoubtedly coined in 1796. MS-65. A "Gem" Uncirculated cent that is almost perfectly centered and struck. The surface is a magnificent light brown, with traces of lustre. Only one or two microscopic defects remove this piece from absolute perfection. This coin was lot #472 in the Arthur Sargent collection, catalogued and sold by S. H. Chapman in 1913. It was later in the Hines coll. **Plate.** **($50.00)**

1710 **S-77.** (CN 5; D-69) R-4. Plain edge. EF-40. Lustrous, glossy brown. A choice example of a rare cent; in fact, this variety is almost an R-5 item. One of the best extant. Ex Hines coll. **($80.00)**

1711 **S-78.** (CN 6; D-70) R-1. Plain edge. MS-65. A magnificent mate to the S-76b above. This piece retains traces of original mint red, and has a superb surface. There is a slight planchet defect, as commonly found upon this variety, on the top left reverse edge. Uncommon and difficult to obtain so choice. **Plate.** **($65.00)**

1712 **S-79.** (CN 7) **R-7.** The famous and excessively rare variety with a **reeded edge.** Good plus, the surface black and rather rough. An unusually sharp example of this rarity. Unfortunately, the edges are somewhat bruised. Mr. Downing graded this cent as G-6, and stated that it was the second or third finest known. It is at least equal to any in collector's hands. The Newcomb piece, G-5, was sold for $165.00. Ex Hines coll. Only five specimens known. **Plate.** **($100.00)**

1712a S-79. (CN 7) R-7. Reeded edge cent. Brockage. The reverse shows the impression of another obverse, incused, from a second coin having failed to leave the dies before this piece was inserted. Fine, but holed at left. This is the identical specimen described by Sheldon as the fifth known example. Ex Hines coll. Unique. **Plate.** **($50.00)**

Most authorities agree that the reeded edge cents were experimental pieces. They were probably made late in December, 1795, prior to the change to a plain edge cent. Since the Pattern Birch Cents of 1792, all of the Mint's copper coins had some kind of an edge device, as do our silver and gold to this day, and probably for the same reason. When it became apparent that the retention of a lettered edge would not be feasible on thin planchet coins, the Mint authorities presumably looked about for alternatives, being conditioned to the presence of some edge inscription or device. Since the Cent and Eagle were of the same diameter, we feel it is only logical to assume that they tried reeding the edges of cent planchets. Why the experiment was abandoned, after striking only a few Patterns, is not easy to explain. Possibly, it was a realization that the then underweight cents no longer needed such protection as reeding, as they did when they contained a cent's worth of copper.

This variety has been known since 1862, when one brought $2.50 in the Lilliendahl sale. It was listed by McGirk (6A) as a plain edge variety, and the same error occurs in the W. B. Guy collection catalogue, 1911. The wonder is that no one gave

it any publicity before Clapp. There is an error on Sheldon's plate of this rarity. He shows the correct obverse mated with Rev. "S" at 1796 (Double Leaf under O in OF). It should have been Rev. "U" as on Plate 17. (Correctly illustrated in the Standard Catalog.)

The Unique Lettered Edge Jefferson Cent

1713 **S-NC 1** (CN X-1) **R-8.** Firm, robust masculine head with the hair combed out almost straight No hair ribbon. The cap is small and the pole is thin and distant from the bust. The date is also small, with crude figures. The lowest lock forms a long, lazy S type of curl under the bust. LIBERTY in large letters, widely spaced. The general appearance of the obverse is one of high relief. Rev. The letters in the legend are coarse and heavy. The wreath has large, "Lobster Claw" leaves and the ribbon bow is in three loops instead of two. Large fraction, with fraction bar extending far beyond the denominator at both ends. Nine berries left, four right. Seventeen leaves left, eighteen right. Very wide planchet, the border milling wide and deep upon both sides. Edge lettered ONE HUNDRED FOR A DOLLAR. This lettering superficially resembles that on the 1794-5 cents of undoubted Mint origin. Single leaf after DOLLAR. Fine-15. The lower part of the reverse is not struck up, but the piece is sharp enough, where bold, to lay claim to VF-20. Brick red, mottled with black. The surface is extraordinarily clean except for a few minute edge nicks. There are a number of file marks where weakly struck upon the reverse. This piece was lot #286 in the Newlin sale, Haseltine, 1883; lot #271 in the Morris sale, Henkels, 1886; and was later owned by W. C. Newcomer and H. Hines. The latter purchased it from Macallister for $400.00 in 1935. This is probably the rarest and most interesting Large Cent. There are many good reasons which lead us to believe that this piece will eventually be recognized as one of the major rarities in the U.S. series. It is the prize offering in this collection, and our estimate is only a rough guess at its real value. Coins of far less rarity and historical import, have sold for much more. Absolutely unique. **Plate.** **($1,250.00)**

This coin, as well as the commoner plain edge Jefferson Cents, acquires a new interest in view of R. H. Williamson's suggestion, that they are Patterns for a "Contract" coinage, made by one John Harper.

Harper was responsible for some of the New Jersey Cents. He was also instrumental in the striking of the Peter Getz (1792 Washington) Half Dollars. If the latter had been accepted by the government, he would have been Chief Coiner. It is a historical fact that in 1795, there was renewed agitation to abolish the Mint, the idea being that we should have proceeded on a contract coinage basis, exactly as the U. S. had done in 1787 with the Fugios. It is also a fact, that John Harper, the New Jersey coiner and Trenton sawmaker, made some dies and struck impressions as samples of his work. He hoped to be awarded the coinage contract, as Jarvis had been awarded it in 1787. The clamor for abolition of the Mint finally blew over, and after Elias Boudinot became Director, he learned that Harper still had his dies. Boudinot took them into the Mint, thinking it improper that a private individual should retain them. He later induced Congress to reimburse Harper for them, and the legislature voted $100.00 for that purpose.

The Jefferson Cents have long been a fascinating enigma. Most of the information outlined here can be found in the "History of the First United States Mint—Its People and Its Operations," by Frank H. Stewart, 1924. A careful analysis of that scarce book, and general research concerning the period in question, leads us to believe that the Jefferson Cents were definitely the identical patterns made by Harper.

The time element fits perfectly, and there are no other pieces known to us that could have been Harper's samples. Moreover, it is logical to assume that Harper would have conformed in his devices and legends to the terms of the Mint acts of 1792-3, and the Jeffersons do just that. Again, it is pretty obvious that they are not Mint products, but neither are they counterfeits. They are well struck pieces of good copper and full weight, which a counterfeit couldn't be. The profit on counterfeiting cents would have to be either from low costs or wide distribution. These coins bear no evidence of either. The only remaining possibility is that they are Harper's samples.

1714 **S-80.** (CN X-2) **R-6.** The Plain Edge Jefferson Cent. The reverse of this variety is entirely different from that of the last, though it resembles it very closely. The Fraction bar is much shorter, and Sheldon calls this the "Many Berries" reverse (Eleven berries left, twelve right). On this piece, the left branch of the wreath has nineteen leaves, while on the preceding, it only has seventeen leaves. VG-7. While the obverse stands out in bold relief, this cent is almost black in color, and has a decidedly rough surface. The outer perimeter shows considerable wear upon both sides. An acceptable example of this rare and popular coin. **($55.00)**

1715 S-80. (CN X-2) R-6. Another. Poor, the edge damaged by hammering. Still a "Jefferson Cent."

1716 S-80. (CN X-2) R-6. Still another. This is the unique example struck over a Liberty Cap Lettered Edge cent It is mentioned by Dr. Sheldon on page 149. Fair-2. Light brown, with a V. Fair obverse, but haled, above the head, long ago. Part of the upper surface of the cap and the back of the head are visible below ONE CENT on the reverse; a row of long serrations (i.e. denticles) clearly show upon the obverse, and one of our friends can even make out the word STATE(S). This is probably a trial piece of Harper's second die. Wgt. 12.35 Grams; 190.6 Grains. Of considerable interest. Unique. **($20.00)**

The Liberty Cap Cents of 1796

1717 **Sheldon 81.** (Clapp-Newcomb A; G-A) R-2. "Closest Date" variety. Perfect obverse die. AU-50 Dark brown with traces of lustre. There are one or two microscopic imperfections upon the obverse. An unusually choice cent, purchased by Mr. Downing from the catalagers. **Plate.** **($125.00)**

1718 **S-82.** (CN B; G-B) R-5. Perfect obverse die, as always. Strictly VG-10 Dark steel with a slightly rough surface. The surface is unusually clean, but we notice a slight defect on the left obverse rim This variety is extremely hard to find in decent condition. Ex Hines coll. Uncommonly rare **($40.00)**

1719 **S-83.** (CN E; G-E) R-4. Usual die break joining the pole and point of bust VG-10 Dark brown This cent is quite sharp, but shows minor indications of handling, particularly upon the obverse edge Rare **($32.50)**

1720 **S-84.** (CN D; G-D) R-3. The Open Mouth obverse. VF-25 A beautiful dark brown cent with traces of iridescent color upon the obverse. A choice coin, showing only the slightest defects Specimens of this caliber are becoming increasingly difficult to obtain. **($70.00)**

1721 **S-85.** (CN G; G-G) **R-6.** Considerably rarer than the Gilbert H this is the second rarest 1796 Liberty Cap F-15. Dark steel. The obverse shows an edge bruise or so, together with a few small nicks and other minute defects. The reverse, however, is unusually sharp and clean An attractive cent in spite of its imperfections and very rare. Purchased in our May 1950 sale. **($70.00)**

1722 **S-86.** (CN K; G-L) R-5. This could be called the "Office Boy Reverse." F-15. The obverse is almost V. Fine, the reverse only Fine. Block color. There ore two or three minute defects upon the reverse, including a very light scratch from under the N in CENT to the edge. Another underrated coin. V. Rare. **($60.00)**

1723 **S-87.** (CN C; G-C) R-2. AU-50. Brown, mottled with red. The denticles are not strong, as usual, but everything is as bold as could be desired. A splendid cent, the few microscopic imperfections visible only with a glass. Any 1796 Liberty Cap is really very rore in this fine preservation, and this piece is one of the finest known of the variety. Ex Hines coll. **Plate.** **($125.00)**

1724 **S-88.** (CN H; G-H) **R-6.** The third rarest Liberty Cap. Mint Stote 60. A highlight of the entire collection; unquestionably, the finest specimen in existence, far superior to ony groded by Dr. Sheldon. (Condition census: 40-20) Beautifully centered ond struck. Superb steel color, the reverse showing faint traces of mint lustre. A slight defect at the top reverse milling, is all that separotes this magnificent cent from MS-65. Obtained by the late H. C. Hines from David Proskey. The obverse is illustrated on the Sheldon plate. It is extremely difficult to ploce a voluation upon this piece, as it is for any "Finest known." **Plate.** **($325.00)**

1725 **S-89.** (CN J; G-K) R-4. Strictly Fine-12. Dark gray. A sharp ond bold cent, showing only the slightest signs of handling. Like many of the coins in this collection, this piece was groded rather conservatively by Mr. Downing. It is an excellent exomple of o variety with o low condition census. Ex Proskey and Hines colls. Decidedly rare. **($40.00)**

1726 **S-90.** (CN I; G-I) **R-7. The finest known specimen of the rarest Liberty Cap cent.** Mint State 60. One of the outstanding items in the entire collection, in fact, one of the most important pieces offered in this sale. Superb light ond medium brown, lightly toned with block. The reverse displays faint troces of original mint luster. This magnificent cent is well centered and unusuolly bold, the bust of Liberty particularly so. Almost a "Gem" coin, with an attroctive, glossy surface. It is by far the finest of the nine known examples, and has the short vertical crack above the right top of N in ONE upon the reverse. Only two other specimens exceed EF-40; one of these is in the A.N.S. collection and is almost AU-50. The others known are all decidedly inferior; Newcomb's wos only V. Foir, and Peorl had none. This cent is worthy of the highest superlatives, ond was Homer Downing's prize possession. Our estimote is hardly a true reflection of its value—it cannot be duplicoted at ony price. **Plate.** **($500.00)**

1727 **S-91.** (CN F; G-F) R-3. The Wide Dote variety. Strictly F-15. This coin could be called V. Fine, but the surface is lightly pitted, here and there, upon both sides. It is dork brown in color, well centered, and unusually bold. Generolly, this voriety occurs in quite worn condition, as do most of the 1796's. Ex Proskey ond Hines colls. **($35.00)**

The Draped Bust Cents of 1796

Masan's Cain & Stamp Magazine, December, 1867, maintains that the change from Liberty Cap to "Fillet Head" Cents, in 1796, accurred in July. This estimate agrees independently with the conclusions published in the Coin Collectar's Journal in 1951, that the 109,825 cents of the secand quarter were Liberty Caps, and the 363,375 made after July were the first Draped Busts.

1728 **S-92.** (CN 1; G-1) R-2. The second commonest Draped Bust of 1796, but for from common in this condition. F-15. Dork brown. This choice and ottractive cent would be almost VF-20, if it were not for a few rust spots ot the bose of the obverse. A coin that belittles its description. Obtained from D. Proskey by H. Hines. **($30.00)**

1729 **S-93.** (CN 2; G-2) R-3. Mr. Downing graded this piece os VG-10. Actually, it is a difficult specimen to describe. The bust is exceptionally sharp, and if the coin were clean, the obverse would be EF-40. However, the upper left portion of the obverse is lightly corroded, ond the reverse is uniformly pitted. Black. This cent must be seen to be opprecioted. **($25.00)**

1730 S-93. (CN 2; G-2) R-3. Another, the reverse die heavily broken over ER through ICA and the rim. Strictly F-12. Black. Few minor edge and other defects, mainly upon the obverse. Definitely obove average ond highly interesting. Ex Hines coll. Rore. **($27.50)**

1731 **S-94.** (CN 26; G-33) R-5. Fine and sharp. H.K.D. called this one F-12, but it oppears somewhat better to us. Dark steel. Usual unimportont defects. The condition census is 40-15, and since the American Numismotic Society has the EF-40 coin, this is one of the top half dozen or so. Ex Hines coll. Really rare. **($37.50)**

1732 **S-95.** (CN 27; G-34) R-5. Equolly rore as the last. Somewhot better than F-15. Dark gray in color, as most varieties with this obverse seem to be. A sharp and unusually desirable cent. Ex Hines coll. **Plate.** **($50.00)**

1733 **S-96.** (CN 29; G-36) **R-7.** There are exoctly five specimens known of this rarity, two of which are in the A.N.S., ond forever off the market. This is the finest of the five. VG-10. Block; the surface rough, but sharp. Perfect reverse die. Of equal rarity to the 1793 14-K. By Dr. Sheldon's own definitions of "NC", as given on pages 44 and 54, this variety should have been so listed in the text. In any event, this specimen was lot #128 in the Newcomb cotalog, 1945, where it was incorrectly listed. Another "Finest known," and as such, a hard coin to place an estimate upon. **($125.00)**

1734 **S-97.** (CN 4; G-4) R-3. Strictly Fine-15. Light steel. An exceptionolly cleon cent, well struck, ond unusuolly nice. Hardly rore, os o variety, but exceedingly difficult to find so choice. Ex Hines coll. **($35.00)**

1735 **S-98.** (CN 3; G-3) R-4. A numismotic trogedy. This light groy-brown piece would be strictly VF-20, but it hos a number of rough handling defects. The most prominent of these is on the hair, but others are at L in LIBERTY and upon the bottom of the reverse. H.K.D. graded this, as o result, as VG-10. Hardly as bad as it sounds. Ex Hines coll. Rare. **($22.50)**

1736 **S-99.** (CN 30; G-38) **R-6.** ("Possibly R-7"—Sheldon) Early state of the dies. VG-7. Dark gray. Evenly worn, particularly ot the outer edges. The bottom of the date is somewhat weak. A comparatively clean and definitely desiroble example. There ore not many top grade specimens of this voriety, as the low condition census (40-15) demonstrotes. Ex Hines coll. Only nine or ten pieces known in all. **($45.00)**

1737 **S-100.** (CN 20; G-20) **R-6.** Good, neorly V. Good, but corrosion shows upon the reverse. Downgraded to V. Fair-3 by Mr. Downing, for this reason, and we think perhaps too severely. Light steel gray. Ex Hines coll. V. Rare. **($20.00)**

1738 **S-101.** (CN 22; G-24) R-5. Almost Fine, the reverse struck o little weak. Strictly VG-10. Dark steel color. This cent shows the usual handling defects, and has a little nick just to the left of O in OF upon the reverse. Most of the surfoce is cleon and attractive. A nice coin, formerly lot #121 from the Newcomb collection, then to Hines. Rore. **($32.50)**

1739 **S-102.** (CN 7; G-7) R-3. The Defects over Dote variety. VF-20. A glossy blue black. This coin hos strong cloims to VF-30, but there ore two mojor ond two minor edge bruises upon the obverse. Nicely centered, ond uncommonly hard to locote in this condition. The bust is particulorly sharp, ond the reverse unusually attractive. Purchosed ot our sole of Moy, 1950. **($45.00)**

1740 **S-103.** (CN 8; G-9) **R-6.** The rore LIHERTY with type of '94 reverse. Strictly Fine-12. The surfoce is an ottractive brown ond groy. An exceptionolly choice ond desirable cent, morred by nothing but even weor. Ex Hines coll. Very rare, ond worth o good price. **($75.00)**

There ore three types of reverse between 1794 and 1807, and oll three come on 1796 cents. The **Type of '94** is marked by coarse, saw-tooth denticles; bows high above knot; many smoll berries; smoll fraction placed low, single leaf at C of CENT, fourteen leaves left and either seventeen or eighteen leaves right. The 1796 reverses of this type ore S, U and V. Rev. U was used on the reeded edge cent of 1795. The **Type of '95** hos single leaves ot top of wreath. All of the 1796 Liberty Cap reverses and eight of the Droped Bust reverses, are of this type. There is great voriation in number and placement of leaves. The **Type of '97** has sixteen leaves left, nineteen leaves right, and was used on all dies, 1797-1807, except the resurrected 1796 reverses.

1741 **S-104.** (CN 9; G-10) R-3. The regularly found LIHERTY. Fine-12. Block. The surfoce disploys o very few minute signs of handling, ond the reverse is unusuolly well centered. A nice "Penny," ond in greot demand os o type. Ex Hines coll. **($50.00)**

1742 **S-105.** (CN 16; G-16) **R-6.** The Double Cut 6. This cent wos groded os VG-7, by H.K.D. The reverse is considerobly better thon thot, but the obverse beors unmistokoble signs of extensive repair work. Light brown color. Still not o specimen to be shrugged off, os there ore only obout nine or ten known in any condition. Of these, there ore obout four or five in Fine condition or better. Wolter Breen tells us that this voriety may even be on R-7. Reolly rore, ond o coin thot should be seen. **($42.50)**

1743 **S-106.** (CN 23; G-25) R-5. Perfect obverse die. F-15. Strictly Fine ond sharp, with on edge bruise upon the obverse ond two or three similor defects upon the reverse milling. Dork steel color. A very rarely offered coin in ony condition. Ex Hines coll. **($45.00)**

1744 S-106. (CN 23; G-25) R-5. Another, the voriety with o crocked obverse die. VG-10. An ottractive, cleonly ond evenly worn, comporotively unblemished exomple. Steel groy. Also from the Hines coll. Quite rore. **($30.00)**

1745 **S-107.** (CN 17; G-17) **R-7.** Strictly F-15. This rority could be colled V. Fine, but the surfoce is slightly rough, porticulorly upon the reverse. There is olso o cut in the milling, on the reverse, together with o few other edge defects. Dork steel ond olive. This piece oppeors shorper to us thon the Miller, Sheldon exomple, illustrated on Plote 17 of the Doctor's book. It is olmost os desiroble os the VF-20 specimen in the A.N.S., which olso hos edge dents. For some odd reoson, it is unoccountobly missing in Dr. Sheldon's tobulotion of finest specimens. We con coll it the second or third finest known, ond certoinly the best one ovoiloble of the seven or eight in existence. Ex Hines coll. Of greot rority. **Plate.** **($125.00)**

1746 **S-108.** (CN 21; G-23) R-4. Strictly VF-30. The obverse is olmost Ex. Fine, but the reverse is slightly corroded ot the lower left. Dork red, mottled with olive ond brown. A very beoutiful exomple of o rore voriety, thot wos probobly struck in 1797. This suppased R-4 occurs less thon one third os frequently os the following voriety, S-109. Decidedly rore. **Plate.** **($85.00)**

1747 **S-109.** (CN 6; G-6) R-4. EF-40. A splendid cent, with on even dark green surface. Glossy, well centered ond shorply struck. This voriety is not rore in worn condition, but (like oll 1796's) is extremely hord to find so choice. A prize coin, probobly the second or third finest known. Worth o good price. **Plate.** **($100.00)**

1748 **S-110.** (CN 5; G-5) R-2. The commonest of the Droped Busts, and probobly struck in 1797 or '98. This cent is groded F-15 by Homer Downing, but the obverse is o full VF-30 though with two old scrotches, one on the neck, the other in the field ot right. The reverse is somewhot rough, but well centered ond bold. Dork olive. The stote of the dies is well advonced; there is o heovy breok over TY of LIBERTY upon the obverse. An ottractive cent, for obove overoge. Ex Hines coll. **($35.00)**

1749 S-110. (CN 5; G-5) R-2. Another, the die breoks less odvanced. VG-8. Neorly Fine, brown, but the reverse not struck up. There ore severol edge bruises ond other defects upon the obverse. Also from the Hines coll. **($17.50)**

1750 **S-111.** (CN 24; G-29) R-5. VG-8. A bold ond Fine cent with o slightly rough surfoce. Nicely centered on the reverse. Russet ond brown, mottled with block. Quite rore. Ex Hines coll. **($30.00)**

1751 **S-112.** (CN 13; G-14) R-5. Almost F-15. The obverse hos claims to VF-20, ond is unusolly sharp ond cleor. However, the center of the reverse is not struck up, ond there ore obout three unimportont edge bruises upon the obverse, together with one or two other minute defects. Dork olive. This voriety is listed os R-5 but is rorer thon the lost. Ex Proskey ond Hines. **($55.00)**

1752 **S-113.** (CN 10; G-11) **R-6.** The Distont 1. F-15, but nearly V. Fine. Dork green color. This piece was lot #106 in the Newcomb sale, ond wos there described as "Very fine, dork brown almost block." In ony event it is one of the top four or five. Considerobly rarer thon the Gilbert H. (S-88). Upper bracket of R-6. V. Rore. **($100.00)**

1753 **S-114.** (CN 25; G-30) R-5. Perfect obverse die. VF-25. An ottractive cent, with boldly struck borders and o pleosing surface. Outside of a minute nick in the hair, this piece would be exceptionally choice. It is considered one of the first three or four. **Plate.** **($75.00)**

This voriety was struck in 1797 or '98, os were S-115 and 116. This is proven by the reverse die of the [illegible] which is always broken over the second T in STATES, while the same reverse die comes [illegible] with 1797 Obverse 20 (NC 5). It is quite obvious that the 1797 mulng must have [illegible] the dates.

1754 **S-115.** (CN 11; G-12) R-3. Perfect obverse die. VG-10. This cent would be Fine except for one or two light ond unnoticeable reverse scratches. Pleasing medium brown surface. Sheldon notes that this is rarity in Fine condition or better. Ex Hines coll. **($25.00)**

1755 **S-115.** (CN 11; G-12) R-3. Another, broken obverse die. The so-called Gilbert 41. VG-7. The obverse shows considerable wear and is somewhat mishandled. The reverse is much sharper, with claims to Fine, and has one or two light edge bruises. Dark brown and gray. As good as they come. **($17.50)**

1756 **S-116.** (CN 19; G-19) R-5. Called by H.K.D., F-12. The coin could probably be called F-15, were it not for a light obverse scratch behind the eye and a pin point nick upon the reverse. Black. Sharp and bold, and definitely desirable. The variety has a low condition census of 20-12, so this specimen is probably the third or fourth best. Much rarer than S-111, in any condition. Ex Proskey and Hines. **($37.50)**

1757 **S-117.** (CN 12; G-13) **R-6.** (Nearer to R-7) VG-7 or 8. The obverse is V. Good to Fine, but is badly corroded at the top, almost obliterating the word LIBERTY. There is also a small edge nick below the date. The reverse is strictly Fine and sharp, with only one or two minute defects. In fact, the reverse is far better than that shown upon the Sheldon plate. Dark brown and steel. The condition census is even lower on this variety than the last. An observation series of over 300 1796 Draped Busts has so far failed to turn up even one example of this variety, even though one NC-4 and two CN-14's were located. Ex Hines coll. Excessively rare, and a coin that must be seen to be appreciated. **($40.00)**

1758 **S-118.** (CN 14) **R-7.** Good-6. The obverse is just Good, and the reverse is Very Good and sharp. There are a few minute defects, but this cent is comparatively clean. An acceptable specimen of an extremely rare coin. Ex Proskey and Hines. **($45.00)**

1759 **S-119.** (CN 15; G-15) R-3. One of the Nichols find. Almost EF-40. This coin is actually Uncirculated, but the surface is slightly rough and defective. Olive and brick red, mottled with brown. A nice cent, with boldly struck borders, excellent for the "Date" collector, who just wants one 1796 Draped Bust cent. Ex Hines coll. **Plate.** **($75.00)**

1797

1760 **Sheldan-120a.** (Clapp-Newcomb 2; D-94) R-4. Wide date; The Reverse of 1796. Plain edge. VF-20. Dark brown. A nicely struck and comparatively clean cent. This, and the next two following, are a definite "Type," on the same order as the 1798 cent, reverse of '96. Ex Hines coll. Much scarcer than the gripped edge sub-variety. **($30.00)**

1761 **S-120b.** (CN 2; D-94) R-2. As the last; "Gripped" edge. VF-20. Dark steel color. A well centered and evenly struck coin. Ex Hines coll. This variety is in great demand. **($30.00)**

1761a S-120b. (CN 2; D-94) R-2. Another. Strictly Fine, but with three cuts upon the obverse, and a fourth, somewhat heavier, at the base of the reverse. Downgraded by H.K.D. to VG-7. Ex Hines coll. **($10.00)**

1762 **S-121.** (CN 3; D-93) R-3. Close date; The Reverse of 1796. Gripped edge. VF-20. An even, slightly iridescent, light brown. Well centered, the dies broken as described. Rarer than the preceding, and highly prized by type collectors. Ex Hines coll. **($40.00)**

1763 **S-122.** (CN 4) **R-7.** Almost Fine; VG-8. A well struck example of this rarity the words ONE CENT and the leaves of the wreath being sharp and clear. From a perfect reverse die. Steel and brown. There is a minor bruise upon the obverse edge, and one or two other unimportant defects. At the time his book was published, Dr. Sheldon only knew of four examples with a condition census of 12-8. Ten specimens are now known, of which this is the third finest. All are struck on poor, rough planchets. This piece was lot #140 in the Newcomb sale, where it was described as Fine. Ex. Rare. **($40.00)**

1764 **S-123.** (CN 6; D-106) R-5. Very Fine-20. The obverse is sharp, with claims to VF-30. The reverse is unevenly struck, and can only be called F-15. Light olive brown. A well centered cent, showing the slightest signs of handling. This is the second Nichols find variety, and is rarer in this condition than in Mint State. Ex Hines coll. V. Rare, more so than S-127. **($35.00)**

1765 **S-125.** (CN 8) **R-7.** Only Good-6, but of the greatest rarity. Crudely struck upon a poor planchet, which has acquired a rough surface. This cent appears better than its description suggests, as it has sharp, evenly centered borders, and a rather pleasing color. It was lot #143 in the Newcomb sale, where it was described as V. Good. Dr. Sheldon only saw this, the Hines coin, and the A.N.S. specimen. Two others are believed to be known. Excessively rare. **($40.00)**

1766 **S-126.** (CN 9; D-107) R-3. Badly broken obverse die. AU-50. Rather weakly struck in the center of the reverse, but a splendid specimen with sharp, bold borders. Light brown. This is one of the finest known examples of this variety. **Plate.** **($65.00)**

1767 **S-127.** (CN 10) R-5. The Peaked Hair Wave. From a perfect obverse die. Strictly F-15. Dark brown. There are two unimportant edge bruises, visible from the reverse, and one or two infinitesimal defects in the left obverse field. Ex Hines coll. An attractive and uncommonly scarce cent. **($30.00)**

1768 **S-128.** (CN 11; D-109) R-3. Perfect obverse die. VG-10. This sharply struck cent would be Very Fine, if it were not for a rough and dull surface. Dark steel. A coin that should definitely be seen. **($12.50)**

1769 S-128. (CN 11; D-109) R-3. Broken obverse die. VF-30. Dark brown. A splendid coin, though not fully struck up on the lower right part of the reverse. Choice and highly desirable. Ex Hines coll. **($37.50)**

1770 **S-130.** (CN 13; D-99) R-2. The variety with a highly defective left ribbon end. About Unc. The obverse is unusually sharp, and could be called AU-55. The reverse is not as well struck up, and shows a few slight indications of handling. The edge is somewhat defective, which does not mar the beauty of this magnificent cent. Glossy dark brown (Obv.), and light brown (Rev.). Both H. Hines and Homer Downing graded this piece as AU-50. **($50.00)**

1771 S-130. (CN 13; D-99) R-2. Another, as the last, but with the break behind the hair, on the obverse, more developed, and with signs of die deterioration in the right obverse field. AU-50. A well struck, well centered coin. Dark brown. **Plate.** **($50.00)**

1772 **S-131.** (CN 14; D-98) R-3. Stemless Wreath. VF-30. Sharply struck, but with slight signs of handling. Dark brown. One of the most popular "Type" coins in the entire series. Similar examples have brought over $100.00. **($90.00)**

1773 **S-132.** (CN 15) **R-6.** ("May be R-7"—Sheldon) Defective B, No Curved Break; Rarest Stemless Wreath. A numismatic tragedy of the worst order. This cent would be EF-40, and the finest of the seven or eight known, if some vandal did not cut the obverse in three or four places. Dark brown. H.K.D. graded this piece as VG-10, and we will follow suit. Ex Dr. Sheldon. Extremely rare. **($40.00)**

1774 **S-133.** (CN 16) R-5. Perfect B, No Curved Break; Third Rarest Stemless Wreath. G-7. This coin is strictly V. Good, but has three edge bruises upon the obverse, and two similar, but much lighter defects upon the reverse rim. Brown. Another cent that should be seen. **($25.00)**

1775 **S-134.** (CN 17; D-95) R-4. Small fraction. The variety with a period before the throat. AU-50. A splendidly struck cent, perfectly centered upon the obverse. The surface is highly iridescent, and unusually attractive so. The only perceptible defects are two or three granular marks in the left obverse field. A choice and highly desirable example of this variety, said to be the finest known specimen. **Plate.** **($80.00)**

The crude ONE CENT and small figures in the fraction, link the above reverse to the earliest of the "Type of '97" dies found upon 1796 reverses I, K, O and R. It is probably one of the first 1797 dies used. The fact that this variety occasionally comes on planchets with gripped edges, differing only slightly from those of S-120 and 121, links it with the latter and confirms the designation of earliest '97's.

1776 **S-135.** (CN 18; D-100) R-4. The third Nichols find variety. Mint State-60. A superb cent. The obverse is fully struck up, a characteristic hardly common with this variety. The denticles are evenly and boldly struck, and the impression is remarkably well centered. Lustrous light brown. A magnificent example, selected by H. Hines from several Uncirculated specimens. **Plate.** **($100.00)**

1777 **S-136.** (CN 19; D-102) R-4. Strictly AU-50, with claims to AU-55. The obverse is Uncirculated, but the reverse is (as almost always) poorly struck, due to a weakened die. There is a very slight rim defect upon the reverse, as well as a few traces of roughness. This splendid piece is struck upon a large, full planchet, and has lustrous light and dark brown surfaces. Like the Nichols find coins, this cent was struck upon a Boulton & Watt flan. It also has a blunted reverse, like the Nichols hoard varieties, Nos. 119, 123 and 135. One of the top half dozen known, possibly the third best. Ex Hines coll. **Plate.** **($82.50)**

1778 **S-137.** (CN 20; D-101) R-2. Fine-12. This cent would be F-15, but for a slight edge bruise at the bottom of the reverse. Nicely centered and struck, with a pleasing brown and steel surface. Ex Hines coll. Definitely rare in Fine condition. **($12.50)**

1779 **S-138.** (CN 21; D-103) R-3. AU-50. Another choice cent. Well centered and struck. The reverse swelling at the upper right, only weakens and does not obliterate the letters. Dark brown color. A splendid example from the Hines collection. **Plate.** **($65.00)**

1780 **S-139.** (CN 22; D-105) R-2. Mint State-70. Sharply struck and well centered. Both sides display considerable mint lustre. A truly magnificent cent, the finest known specimen. Ex Hines coll. Worth a good price **Plate.** **($85.00)**

1781 **S-140.** (CN 23; D-104) R-3. VF-20. The reverse swelling is almost negligible, as this is one of the first impressions struck. Dark brown. This die state is really rare. Ex Hines coll. **($25.00)**

1782 **S-141.** (CN 24) **R-6.** The Knobless 9. Strictly F-15. A well centered and struck cent. This coin has some claims to V. Fine, but shows signs of slight handling and traces of roughness at the base of the reverse. Dark steel. Probably the third finest extant. V. Rare. **($50.00)**

1783 **S-142.** (CN 26; D-96) **R-6.** Style II Lettering. VG-8. This coin would be Fine, except for a few light pit marks, here and there, on both obverse and reverse. There is also a slight edge bruise at the bottom of the reverse. Not an unattractive example, and prohibitively rare in decent preservation, there being less than five fine ones in existence. **($25.00)**

1784 **S-143.** (CN 27; D-97) **R-6.** 7 Imbedded in Drapery; Second Rarest Stemless Wreath. Fine-15. A sharp cent, with a number of minor defects, including a reverse nick at D of UNITED. Brown and alive. This specimen is probably among the top four or five examples known of this variety. Ex Hines coll. Extremely rare, particularly in Fine. **($65.00)**

1798

1785 **Sheldon-144.** (Clapp 1) **R-7.** GROUP I: (STYLE I LETTERS.) Closest date; buckled reverse. Very Good-8. ONE is weak at the buckle upon the reverse. A comparatively clean and evenly worn coin, the major defect being a short and light reverse scratch. Well centered and attractive. Dark brown. This is lot #178 of the Newcomb sale. It is far from the worst of the seven or eight known examples, and is probably the third or fourth best. Ex. Rare. **($40.00)**

1786 **S-145.** (C 2; D-115) R-3. Strictly Fine-12. Steel color. A nice cent, with a minute defect or so. **($12.00)**

1787 **S-146.** (C 3/4) **R-6.** The intermediate die state of the obverse. This coin could be graded VF-20. The obverse die definitely shows signs of rust, as almost all do. The surface is brown, with traces of mottled red. A desirable example of a V. Rare die. Ex Hines coll. **($50.00)**

1788 **S-147.** (C 5; D-116) **R-6.** Skewed Fraction. VG-10. An evenly worn and clean example of this highly underrated rarity. This piece would have claims to Fine, if we ignored the usual light handling nicks. We understand the basal value of this variety will be $4.00 in the forthcoming supplement to the Sheldon book. Ex. Rare. **($40.00)**

1789 **S-148.** (C 6; D-117) R-2. Horned 9 Variety. The obverse die is badly broken over ERTY. VF-20. Light brown slightly mottled with black. Aside from minor traces of corrosion upon the obverse, this cent is unusually sharp and desirable. Scarcer than the perfect die variety, which follows. **($20.00)**

1790 S-148. (C 6; D-117) R-2. As the last, from the perfect obverse die. Strictly F-12. A slight nick on the forehead removes this piece from the F-15 class. Dark brown. **($12.50)**

1791 **S-149.** (C 7; D-114) **R-7.** The rarest variety of this date known to Doughty. G-4. Evenly worn particularly upon the reverse. Dark brown and steel. Surprisingly enough, this piece is one of the best of the six known Ex McGirk coll. Excessively rare. **($30.00)**

1792 **S-150.** (C 8; D-111) R-5. GROUP II: (OVERDATES.) Close Overdate 1798 7; Long Fraction Bar. F-1[illegible] ONE, upon the reverse, is weakly struck. An evenly worn cent, with the usual minor defects struck on a large, broad planchet. Attractive iridescent brown surface. This variety will be R-6 in the Sheldon supplement, with a basal value of $3.00, instead of $2.00. A really rare overdate. V. rare in fine condition. **($45.00)**

1793 **S-151.** (C 9; D-112) R-3. Close Overdate, 1798 7. Short Fraction Bar. VG-8. Mr. Downing graded this poorly struck piece as F-12, but we cannot agree. The obverse of this copper, in spite of the condition of the die, shows considerable wear. Otherwise, this well centered cent is attractive and desirable. The overdate is unusually clear and sharp. **($12.50)**

1794 **S-152.** (C 10; D-113) R-2. The Wider Overdate, 1798/7. F-15. This piece would have claims to VF-20, were it not for o minute edge nick upon the obverse; several thin and light scratches in the obverse field; and a few reverse defects, including a round nick on the finol 0 of the froction. Medium brown, mottled with black. A nice cent, hardly worthy of so criticol a description. Like the two preceding, in great demand. **($17.50)**

1795 **S-153.** (C 11; D-120) R-4. GROUP III: (LARGEST DATES; STYLE II LETTERING.) Strictly VF-20. A cent that would be VF-30, or better, if it were not for a short dig in the right obverse field, ond one or two minor reverse defects. Dark olive, with o glossy, attractive surface. Decidedly uncommon. **($25.00)**

1796 S-153. (C 11; D-120) R-4. Another, like the last, but with a broken obverse die. F-12. A Very Fine cent with o number of pit marks upon the obverse, ond a rim defect or so. Dark brown. Scarce, like the last. **($15.00)**

1797 **S-154.** (C 12) R-4. The Imbedded 8. VF-20. A well struck coin, with a few minute defects, plus a light edge bruise at the top of the obverse. Dark brown and steel. This variety is slightly scorcer than the two preceding, but oll ore well within the top bracket of R-4, and are almost R-5 items. **($30.00)**

1798 **S-155.** (C 13; D-110) R-3. GROUP IV: (SMALL DATES; STYLE I HAIR.) Widest Date; The Reverse of 1796. AU-50. A splendid cent, with traces of mint lustre and surfoce roughness. Struck upon a very brood planchet, with a perfectly centered obverse. Light brown. Excellent for the type collector. Ex Hines coll. In great demand, ond one of the finest known. **Plate.** **($75.00)**

1799 **S-156.** (C 14) **R-7.** Compact Date; The Second Rarest Reverse of 1796. VG-7. An attractive cent, with a few minor defects, including a small obverse edge bruise. Dark brown. This voriety hos a low condition census of 20-10. Ex D. Proskey and H. Hines. Excessively rare. **($35.00)**

1800 **S-157.** (C 16; D-122) R-2. Variety with three fused denticles below the 9 in dote. Perfect obverse die. VF-20. Well centered ond struck. Dark olive color. Choice and obove average. **($15.00)**

1801 S-157. (C 16; D-122) R-2. Another, like the lost, but from the broken obverse die. F-15. A Very Fine cent, except that the surfoce is slightly rough ond shows evidence of corrosion. However, most of the roughness is inherent to the die. Medium brown color. Ex Hines coll. **($12.50)**

1802 **S-158.** (C 18; D-126) R-3. Perfect obverse and broken reverse dies. Almost VF-20. STA of STATES weak upon the reverse. A sharply struck cent with o few minor defects, including severol very light scratches. Steel color. Ex D. Proskey ond H. Hines. **($18.50)**

1803 S-158. (C 18; D-126) R-3. Another. Broken obverse and broken reverse dies, the obverse breaks behind the head just storting. VF-30. This cent would be EF-40, except for a number of defects, porticularly on the edge, and including a rather severe reverse rim bruise. Light brown, mottled somewhat with black. Ex Hines coll. A nice cent. By far the scarcest of the R-3 varieties. **($30.00)**

1804 S-158. (C 18; D-126) R-3. Another. The reverse die badly broken. VG-7. A Fine cent, but with spots of corrosion. Steel color. Ex Proskey ond Hines. **($8.50)**

1805 S-158. (C 18; D-126) R-3. Still onother. A loter stoge of the reverse die. VG-7. A sharp coin, but with a rough surface, ond the usuol minor defects, including o reverse edge bruise or so. Very dork brown. **($7.50)**

1806 **S-159.** (C 19; D-127) R-4. The some obverse die as the four preceding, but with the parallel crocks behind the head heovy. Reverse; Wide froction with greot distance between 1 ond 0. F-15. A shorp, olmost V. Fine coin, but with three cuts or bruises upon the obverse rim. Dark brown. A popular voriety, and like mony, hardly as bod os the description sounds. Ex Hines coll. **($18.50)**

1807 **S-160.** (C 20; D-130) **R-6.** Very Good-8. A sharp cent, with cloims to Fine, but somewhat defective. Dark brown. Its generol oppeoronce, however, is more thon sotisfoctory. Ex Hines coll. V. Rare. **($16.00)**

1808 **S-161.** (C 21; D-130) R-1. Struck from the lightly cracked reverse die. Strictly VF-30. This handsome cent would be EF-40, except for a short ond light scratch under the Y in LIBERTY. Shorply struck, with an attroctive medium brown surface. For above overoge. Ex Hines coll. **($18.00)**

1809 S-161. (C 21; D-130) R-1. Another, with heavy rim break above ATES of STATES, upon the reverse. VF-20. Well centered ond struck. The obverse is a golden brown, and somewhat mottled, with a slight edge bruise above the I in LIBERTY. The reverse is a lustrous dork brown. Hardly rare, but a desiroble "Penny." **($12.50)**

1810 **S-162.** (C 22) R-5. Top of Hair Unfinished; Blunt 1 in Dote. VF-20. Well centered. Dark olive. "Swellings" are evident upon the obverse of this cent, which indicate its rarity in Fine or better condition. The Newcomb specimen wos decidedly inferior. This desiroble piece, like so many others in this comprehensive collection, originated with Henry Hines. V. Rore. **($30.00)**

1811 **S-163.** (C 23; D-131) **R-6.** Top of Hair Unfinished; Pointed 1 in Date. Perfect obverse die. VG-8. A sharp cent, with the usual defects, but including a sharp obverse edge bruise ond gouging at ONE, upon the reverse. Dark brown. Condition census of 20-12. V. Rore. **($16.00)**

1812 S-163. (C 23; D-131) R-6. Another, like the last, but from the broken obverse die. VG-8. A Fine cent, but with light edge bruises on both sides, and a few microscopic handling defects. Dark brown. Ex Hines coll. A very difficult voriety to locate. V. Rare. **($17.50)**

1813 **S-164.** (C 24; D-123) R-4. Die Sinking ot Dote. VF-35. A beautiful example of a highly underroted cent. Well struck, with a pleosing brown surface. The only noticeoble defect is o minute nick to the left of the hair ribbon. This variety is nearer to R-5, than R-4, and may even be a full R-5. The piece at hand is one of the finest known specimens. Rare, and highly desirable. **($50.00)**

1814 **S-165.** (C 25; D-118) R-5. GROUP V: (LARGE DATES; STYLE II HAIR.) Fully Fine-12. Dark brown. A comparatively cleon example of another underroted voriety. This piece is seldom found Fine, and should possibly be called R-6. H.K.D. marked this cent as "Very rare in this condition." **($20.00)**

1815 **S-166.** (C 26; D-118) R-1. Extremely Fine-40. A splendid, lustrous olive cent. Far from rare, but unusually choice and highly desirable. From D. Proskey and H. Hines. **($25.00)**

1816 **S-167.** (C 27; D-118) R-2. From the almost perfect obverse die, which is unusual. Like the last, EF-40. This cent has faint traces of original mint color, ond could olmost be graded AU-50. It is for above averoge, ond worthy of o home in the most select collection. Ex H. Hines. **($32.50)**

1817 S-167. (C 27; D-118) R-2. Another, from the broken obverse die. VF-30. A sharp and choice coin, dark brown in color. This piece would be EF-40, except for a few minute defects. **($22.50)**

1818 S-167. (C 27; D-118) R-2. Still another. This specimen is from badly broken obverse and reverse dies. Strictly F-15, with a lustrous, dark brown surface. Ex Hines coll. **($12.50)**

1819 **S-168.** (C 28; D-134) R-3. GROUP VI: (SMALL DATES, STYLE II HAIR) About Uncirculated-50. An attractive cent, struck upon a somewhat defective planchet. Lustrous medium brown, mottled with black. Traces of golden mint lustre. One of the top specimens, formerly in the Hines coll. Rare so choice. **($50.00)**

1820 **S-169.** (S 29; D-119) R-5. About Uncirculated-50. Small rim break or lump on the obverse border below 98. A superb specimen, obviously struck upon a defective planchet, like the last. The obverse shows a few defects in the field, the most serious of which, behind the head, may have been done at the time of manufacture. The surface is a splendid, light golden brown with considerable original mint color. A magnificent cent, the second finest extant of this rare variety. Well worth a good price. **Plate.** **($80.00)**

1821 **S-170.** (C 20; D-128) R-3. From the perfect obverse die. EF-40. Another choice piece, the major defect being a pit mark above IB of LIBERTY upon the obverse. The surface, aside from a few normal granular defects, is superb, retaining traces of the original mint color. This variety may be R-4. In any event, this is one of the top half dozen known examples. **($40.00)**

1822 **S-171.** (C 31; D-133) R-5. Heavy Rim Break Left of L in LIBERTY. AU-50. A magnificent cent. Only a slight reverse rim bruise, above T in STATES, removes this piece from the AU-55 category. The surface is a lustrous golden brown, but while mottled lightly with black, still retains considerable original mint color. This is believed to be the second finest example known. Rare in any condition; decidedly rare so choice. **Plate.** **($80.00)**

1823 **S-172.** (C 32; D-129) R-2. 7 Recut on Top. Perfect obverse die. Strictly Fine-15. Dark brown. A clean and attractive coin. **($11.50)**

1824 S-172. (C 32; D-129) R-2. Another, like the last, but from the broken or defective obverse die. Strictly VF-20. This piece is decidedly superior to the last, and would be VF-30, except for a light edge bruise and one or two minute defects upon the obverse. Dark brown. Unusually well struck and centered. Ex Hines coll. **($15.00)**

1825 **S-173.** (C 33; D-132) R-2. Rim Break Over RTY in LIBERTY. AU-50. Another choice and highly desirable cent, with the usual infinitesimal handling defects. There is a serious reverse planchet defect, from the wreath to between AT of STATES. This flaw clearly illustrates the meaning of the term "Planchet Defect," as the leaves and letters are clearly struck over it. Dark brown. This variety was struck after the 1799 NC-1, as the reverse has a crack at NITE in UNITED, not found upon the 1799 die. A highly desirable specimen from the celebrated collection of Virgil Brand, via H. Hines. **Plate.** **($37.50)**

1826 S-173. (C 33; D-132) R-2. Another, the obverse rim break well advanced. VG-10. A fine cent with the usual minor handling defects. Dark brown. Very rare die state. **($8.50)**

1827 **S-174.** (C 34) R-3. Very Fine-25. A sharp, well struck cent, with claims to Ex. Fine. However, the edges are slightly bruised, and the attractive surface shows a very few minor defects. Lustrous dark brown. Ex Hines coll. Uncommon so choice. **($25.00)**

1828 **S-175.** (C 35) R-4. Heavy Reverse Rim Break Over U. VF-25. Nicely centered. Well struck, glossy, dark brown and black. This is an attractive example of a late stage of the dies. Also from the Hines coll. Very scarce. **($32.50)**

1829 **S-176.** (C 36) R-4. The extremely rare sub-variety without the vertical crack in the right field. About VF-30. Obverse, dark olive brown; Reverse, even light brown. An attractive coin with a glossy, almost completely clean surface. Any die state of this variety is underrated, as are all the cents with obverse 28. It is harder to locate than any other R-4, and most of the R-5's. Unusually choice, and highly desirable. Ex Hines coll. Nearly unique. **($35.00)**

1830 S-176. (C 36) R-4. Another, the obverse broken as described. Reverse: As described by Sheldon on page 214, but also with a row of impressed denticles above ATES OF, and die sinking there and elsewhere; crack from the wreath to C in CENT, and scaling from the first S in STATES to the C. VF-25. Light brown. An undescribed die state, struck upon a slightly misshapen planchet. Undoubtedly very rare. Ex Hines coll. **($32.50)**

1831 **S-177.** (C 37) **R-6.** Vertical crack in right obverse field: Reverse; Style I lettering. Very Fine-20. Dark olive brown. Sheldon states that this rarity is "hard to find in Fine condition." This choice example was owned by H. Hines, then H.K.D.; both shared the good doctor's sentiments. V. Rare in any condition, and highly desirable. **($40.00)**

1832 **S-178.** (C 38) **R-8.** Vertical crack in the right obverse field, as on the foregoing; the rarest Reverse of 1796. This piece is strictly Fine for the coin. Mr. Downing graded it as F-15, but to be ultra conservative, we shall call it F-12. Dark brown, with only one or two unimportant edge defects. This is one of the four seen by Dr. Sheldon, and is probably the second or third finest extant. We believe that just five are now known, the last discovered by C. Douglas Smith (Con. VG-8, but badly pitted). This piece is a most enviable specimen from the Hines coll. Excessively rare. **Plate.** **($100.00)**

1833 **S-179.** (C 39; D-135) R-2. The High 98. On the reverse, the E of AMERICA was first cut reversed, as the lower point and upright of the reversed letter show. AU-50. Light brown, with considerable original color remaining. A splendid cent, and highly desirable. **($37.50)**

1834 **S-180.** (C 40) **R-7.** A second intermediate die state of this rarity. The second break at UN in UNITED is not heavy, and not on the rim. Homer Downing called this piece G-4, but it appears to be a Very Good cent with a rough surface, particularly on the obverse. An acceptable specimen from the McGirk coll. Ex. Rare only about five or six known. **($25.00)**

1835 **S-181.** (C 41; D-136) R-4. High Numerator, Large Denominator. Lightly broken obverse. Strictly VF-20, almost VF-25. Medium brown color. Uncommonly choice. Ex Hines coll. **($27.50)**

1836 S-181. (C 41; D-136) R-4. Another. The die breaks advanced upon the obverse. F-15, but with a few light defects. Dark brown. **($15.00)**

1837 **S-182.** (C 42) **R-6.** Reverse: Die Cut across A from right ribbon. VF-25. A choice cent, but with light corrosion on the upper right side of the obverse. The surface is mostly an attractive light brown. Quite a number of worn specimens have turned up, but this variety is still one of the great rarities in V. Fine. **($50.00)**

1838 **S-184.** (C 44; D-124) R-2. The Low 9. Very Fine-30. Dark olive, with traces of original color, and a large red spot upon the reverse. If a few microscopic defects were ignored, this piece would be close to Ex. Fine. **($22.50)**

1839 S-184. (C 44; D-124) R-2. From the same dies as the last, but a **Freak** coin. Both sides are double struck; the impressions being almost 1/2" apart, so that the piece appears to have two busts, two wreaths, etc. Highly unusual. Fine to V. Fine. Ex Hines coll. **($10.00)**

1840 **S-185.** (C 45; D-125) R-3. The Second Low 9. Perfect obverse and reverse dies. Fine-12. Sharp, but with a slight reverse edge nick above ES of STATES. Dark olive brown. Ex Dr. Sheldon. **($12.00)**

1841 S-185. (C 45; D-125) R-3. Broken obverse and reverse dies. Strictly F-15. A Very Fine cent, were it not for a corrosion spot or so, at the forehead. Dark olive. Choice, with an attractive glossy surface. From our sale of May, 1950. **($15.00)**

1842 **S-186.** (C 46; D-121) R-2. Broken reverse die, as always, the reverse of the 1799 overdate. Very Fine-20. Few unimportant defects, including an edge nick at the base of the reverse. Medium brown, mottled with red. **($15.00)**

1843 S-186. (C 46; D-121) R-2. Another, the reverse die badly broken. VF-20. Dark brown. Above average. Ex D. Proskey and H. Hines. **($15.00)**

1844 **S-187.** (C 47; D-121) R-1. Slight obverse die breaks. VF-30. This cent is really Extremely Fine, but the obverse displays a few minute nicks. The surface is a glossy dark brown. Also from Proskey and Hines. Unusually choice. **($20.00)**

1845 S-187. (C 47; D-121) R-1. Another. Advanced obverse breaks. Fine-15. Slightest signs of handling. From Proskey and Hines. **($8.50)**

1799

1846 **Sheldon-188.** (Clapp 1; D-137) R-4. The Overdate, 1799/98. This is the fourth known specimen of the famous sub-variety with a heavy triple die break upon the obverse. It is described on page 235 of the Sheldon book, and originated in the Garrabrant collection. Walter W. Garrabrant obtained it from Henry Hines. While only in Condition 1, this is a well known and excessively rare cent. **($25.00)**

The Third Finest Perfect Date 1799 Cent

1847 **S-189.** (C 2; D-138) R-3. The Perfect Date 1799. The reverse shows traces of the two rim breaks commonly found upon this variety: one over the space between F of OF and A in AMERICA; the other, over the left side of M in AMERICA. Strictly Very Fine, conservatively graded at VF-30 to VF-35. Almost perfectly centered and evenly struck. The bottom of the date, including the two 9's, is clearly visible, as are the tops of the letters in LIBERTY. Two minute nicks on the hair, behind the ear, are the hallmark of this coin. The obverse is a very dark brown, and the reverse a similar color, lightly mottled with black. This identical piece is the second S-189, illustrated on Plate No. 33 of Dr. Sheldon's text. Careful examination of Homer Downing's records indicates this to be the third finest known specimen of the perfect date. It was owned by Henry Hines for a good many years, and was retained by him when he obtained his famous AU-50 coin from Wayte Raymond, for $2,500.00. Both Mr. Hines and Homer Downing placed a low value on this piece of $750.00, but H.K.D. is known to have refused $1,000.00 for it, shortly before his death. It is definitely superior to the famous "Abbey" specimen, also VF-30, which was listed in the Pearl catalog as "Extremely Fine" at $900.00, and is now owned by a New York collector. We consider the piece at hand a remarkable example, and well worth a good price. With the values of famous cents constantly advancing, any amount paid for a coin of this caliber is a good investment. **Plote.** **($1,000.00)**

1800

Overdates

1848 **Sheldon-190.** (Clapp-Newcomb 1; D-140) R-5. First Overdate, 1800/1798. VF-20. Dark brown. A sharply struck cent with incusations of the wreath, under the chin, not mentioned by Sheldon. Pleasing and attractive, in spite of a very few minute nicks, mainly noticeable upon the reverse. Rare in any condition, and particularly so in the top grades. Ex Proskey and Hines. **($50.00)**

1849 **S-191.** (CN 2; D-139) R-2. Overdate as last, 1800/1798. The Reverse die badly injured. VF-25. The obverse has claims to VF-30, but has two or three really light nicks, mostly on the edge. Unusually sharp, and a lustrous, light brown color. Ex Hines coll. Another coin for the major variety collector. **($35.00)**

1850 **S-192.** (CN 3; D-141) R-4. Second Overdate, "1800/1799." F-15. This cent almost ranks with the two foregoing lots in sharpness, but shows signs of handling. The tops of RTY, on the obverse, are weak as always. Mostly dark brown. Dr. Sheldon, on page 241, says of this variety— "Very rare in Fine condition." Ex Hines coll. We know of only four specimens equal to, or better than this one. **($30.00)**

1851 **S-193.** (CN 4; D-142) **R-6.** Like the last, supposedly over 1799. Reverse crack from final 0 in fraction through UN in UNITED to rim. Fine-15. Obverse rim nick or chip. A nice, clean appearing cent, probably the fifth or sixth finest known. Olive brown color. A most acceptable specimen of a Rarity 6 item, of which Dr. Sheldon had seen less than fifteen pieces. **($37.50)**

1852 **S-194.** (CN 5; D-143) R-3. Third Overdate, 1800/179; Rim Break under the Froction. Almost VF-30, but with a few microscopic signs of handling. Light brown and olive. Like all 1800's, hard to find in nice condition. **($50.00)**

1853 **S-195.** (CN 6) **R-6.** Overdate as lost, 1800/179. (This variety is erroneously listed in Clapp-Newcomb as D-144, which is not known to exist as Doughty described it.) Strictly F-12. Comparatively clean, with only a few slight defects. Dark, dull brown. LIBERTY on the obverse, and STATES on the reverse, are not fully struck up. This extreme rarity is probably R-7, as only nine or ten specimens are known. Ex Hines coll. **($32.50)**

1854 **S-196.** (CN 7; D-145) R-1. Fourth Overdate, 1800/179; the last 0 high. This splendid cent is really AU 50, but has two minor bruises upon the reverse rim. Beautiful olive brown, lightly mottled with russet and black. Sharper upon the reverse, than the one shown on Sheldon's Plate. One of the top six or seven known. Ex Hines coll. **Plate.** **($55.00)**

Perfect Dates

1855 **S-197.** CN 10; D-146) R-1. The "Q" Variety. Very Fine-30, but the face is struck somewhat flat, and there is a slight roughness on the right side of the obverse. Black. Neither of the two mentioned characteristics are noticeable, without close observation. This piece is comparable to the Clapp specimen. From our sale of May, 1950. For above average. **($25.00)**

1856 **S-198.** (CN 11; D-147) **R-7.** Rounded Right Top of 1. VG-8. The surface on this great rarity is quite rough, and there are two or three slight obverse scratches, one of which projects from the chin. This is the second rarest of the varieties known to Doughty, and the third rarest collectible among the 1800's. It came from the David O. Hughes collection, around five or six years ago, and is far superior to the (G-5, but tooled) Clapp example, being the fifth or sixth finest extant. In great demand, and very rarely offered. Nine specimens are now known. **($65.00)**

1857 **S-199.** (CN 12; D-149) R-4. Thin, Unfinished Ciphers; Crack across left tap of D to rim. F-12. Slightly bruised and lightly damaged at the edges, particularly discernible upon the obverse. Dark brown and sharp, with an attractive, glossy surface. Prohibitively rare in decent preservation, this being about as choice a specimen as can be found. Ex Hines coll. **($22.50)**

1858 **S-200.** (CN 13; D-148) R-2. Obverse as lost; The Long Stemmed Berry. Break through OF as usual. **A Freak.** There is a row of denticles from the outer edge of the die, at its lower left, showing over RTY of LIBERTY and to the right. F-12, but with a slight edge bruise, visible upon the reverse. Dark brown, with a comparatively clean surface. Ex Hines coll. **($15.00)**

1859 **S-201.** (CN 14) **R-7.** Obverse as the two preceding; Stemless Leaves Variety. Strictly G-5. The obverse evenly and cleanly worn; the reverse is better than Good, but unevenly struck, probably due to a failing die. Even considering two minute reverse edge nicks, this is an unusually clean cent. Dark brown. The second rarest collectible of 1800, eight or nine examples now known. Ex Hines coll. Excessively rare. **($30.00)**

1860 **S-202.** (CN 15; D-150) R-3. Obverse as the foregoing; Heavy Break Behind Curls. Mint State-65. The die breaks are unusually strong; the reverse swellings are as advanced as any that Sheldon describes; heavy double incusations in the lower left and upper right reverse, and much other damage to the die. Probably one of the last impressions struck. Magnificent iridescent olive, with considerable original mint lustre. A superb "Gem" for this variety, of which a top grade example is almost impossible to locate. This "Finest known" was lot #868 in the R. B. Winsor sale, 1895, and was obtained from Oscar J. Pearl. Worth a good price. **Plate.** **($125.00)**

1861 **S-203.** (CN 16; D-151) R-2. The Incused Variety. VG-10, but slightly defective, with three or four light edge bruises upon both sides. Dark brown. **($11.50)**

1862 **S-204.** (CN 17; D-153) R-4. The Perfect Die Reverse. F-12. The top of LIBERTY is somewhat weak. Medium brown color. A desirable cent, with a few unimportant handling defects. This was lot #295 in the Newcomb sale, 1945. Ex Hines coll. **($21.50)**

1863 **S-205.** (CN 18) R-5. Wide Date, Period Before Neck, Blank Lower Curl. Strictly VF-30. ERTY of LIBERTY rather weak, as always. A splendid, lustrous, golden brown, mottled with black, cent. Ex Hines coll. Highly desirable, and well worth a good price. **($62.50)**

1864 **S-206.** (CN 19; D-152) R-3. Similar to the last, but with horizontal crack behind the hair, and perfect lower curl. The very rare sub-variety without the break and sinking below the fraction. EF-40. A superb cent but displaying a few light nicks or scratches on the obverse, mainly behind the hair. Lustrous light olive. One of the finest known, and undoubtedly one of the first examples struck. Ex Hines coll. **Plate.** **$60.00)**

1865 **S-207.** (CN 20) R-2. Triangular Rim Break under the Reverse Fraction. VF-20. A sharp and desirable coin. Medium olive brown, mottled with traces of black upon the reverse. Ex Hines coll. Above average. **($25.00)**

1866 **S-208.** (CN 21; D-154) R-2. Break Over TY of LIBERTY and Right. VG-10. This F-15 cent has two or three nicks or cuts on the face, and another in the left obverse field. Dark olive. Regardless of the description, this is a desirable example of the advanced die stage. Ex Hines coll. **($13.50)**

1867 **S-209.** (CN 22) R-5. The Widest Date. Extremely Fine-40. A splendid "Penny," the obverse showing incused letters, evidence of a late die state. Reverse perfect. The surface is a lustrous golden brown, with considerable original color. Two microscopic nicks above ONE, upon the reverse, do not mar the appearance of this beauty. It is about the equal of the Clapp specimen, illustrated on the Sheldon plate, and is certainly one of the top three or four known. Ex Hines coll. **Plate.** **($85.00)**

1868 **S-211.** (CN 24) R-3. Early die state; swells fairly advanced, no cracks at date. VF-30. A comparatively clean and well struck cent. Nice, even, dark brown surface. Ex Hines coll. **($45.00)**

1869 S-211. (CN 24) R-3. Another. One of the most advanced states of die deterioration yet seen. The injury from the reverse die shows near rim at ERTY and at the date. Strictly F-12. Minute edge defect at the top of the reverse. Dark olive. Highly unusual, and uncommonly rare. Ex Hines coll. **($17.50)**

1870 **S-212.** (CN 25) R-3. The Chips Variety. Early state of the obverse die. VF-20. Dark brown, with the slightest signs of handling. From the famous collection of V. M. Brand. **($30.00)**

1871 S-212. (CN 25) R-3. Another. The most advanced stage of die breaks known. Strictly VF-20. The obverse has claims to VF-30, but is weakly struck, undoubtedly due to advanced die sinking at LIBERTY, the bottom and date. Dark, almost dull brown, with slight unimportant defects. Rarer than the last. Ex Hines coll. **($35.00)**

1801

1872 **Sheldon-213.** (Newcamb 1; D-161) R-3. Four Wavy Cracks before Face. VF-30. Medium brown. A choice and sharp coin, with a few imperceptible nicks in the upper reverse field. This variety is genuinely scarce in choice condition, and is sought after because of the obverse breaks. **($45.00)**

The varieties with Reverse "A" and its minor variations, Reverses "B" and "E", are of considerable interest. A painted first 1, in the date (1800 Punch), on all of these, and the last blunt 1, establishes that the dies were really made in (or for) 1800, with the last digit omitted. However, they were never used in that year. The three reverses, A, B, and E, were all from the same old hub used for many of the 1798-9 reverses, and all of 1800.

1873 S-213. (N 1; D-161) R-3. Another, but with more advanced breaks than the last. VF-20. Die sinking, not wear, over RTY of LIBERTY. Medium brown, with a slight rim bruise at the top of the reverse. Ex Hines coll. Uncommonly scarce. **($30.00)**

1874 S-213. (N 1; D-161) R-3. Still another, with advanced reverse breaks, similar to those found on some examples of S-214, and early S-215. Strictly VF-25, almost VF-30. Dark brown. A sharp, impressive coin, with a slight planchet defect on the reverse rim. Unusually choice and quite rare. Ex Hines coll. **($40.00)**

1875 **S-214.** (N 2) **R-6.** Strictly VF-25. Not boldly struck up on the right obverse, and corresponding side of the reverse. A lustrous, medium brown surface, with a very few and slight handling defects in the right obverse field. This splendid piece was lot #266 in the celebrated Dr. French collection, and was purchased by Mr. Hines for $50.00, many years ago. Uncommonly rare and desirable. Not particularly hard to locate well worn, but one of the great rarities in Very Fine. **Plate.** **($70.00)**

1876 S-214. (N 2) R-6. Another. Fine-15, but with some claims to V. Fine. A choice cent, with a pleasing and glossy, olive brown surface. One or two minute defects in the obverse field, do not mar the splendid appearance of this piece. From David Proskey via Henry Hines. **($50.00)**

1877 S-214. (N 2) R-6. Still another. Fine-15, and almost equal to the last. The upper right part of the reverse is rather weak, not from wear, but as a result of die injury. Attractive light brown. Obtained from Oscar J. Pearl. Rare, like the two preceding. **($45.00)**

1878 **S-215.** (N 3) **R-6.** Perfect obverse die; Slightly broken reverse die. Apparently struck before most of the S-213's, a die state unknown to Newcomb, and not mentioned by W.H.S. Undoubtedly, an excessively rare sub-variety. Strictly VG-10. Almost Fine, but with a few slight defects. Dark brown. This is an unquestioned R-6, and is actually nearer R-7, or over three times as rare as S-214. Extremely rare. **($35.00)**

1879 S-215. (N 3) R-6. Another. Broken obverse and reverse dies. The obverse is heavily injured, and all die cracks are in an advanced stage, undoubtedly accounting for the rarity of this variety. Fine-15. A sharp, attractive cent, with claims to V. Fine. Unfortunately, the obverse surface is slightly roughened. Dark brown. Like the preceding, extremely rare. **($45.00)**

1880 S-215. (N 3) R-6. Still another, the die stage similar to the last. VG-8. An evenly worn and acceptable coin. This and the two foregoing, are among the best specimens in collector's hands. It is highly unusual to find three of the eight or ten known, in one offering. S-215 is a variety to watch. **($25.00)**

1881 **S-216.** (N 8; D-160) R-2. The Blunt First 1. An unusual piece, as it was struck before the obverse die was injured. The bust and drapery strong; OF is as clear as the rest of the reverse legend. Slightly better than Fine-12, but with a few slight signs of handling. Medium brown color. Ex Proskey and Hines. We do not recall another piece similar to this. **($17.50)**

1882 **S-218.** (N 4) **R-7.** The "Rare" Three Errors Variety. This is the odd obverse with LIBERTY much too far to the right. Strictly VG-8, and almost VG-10. Medium brown color, with an odd obverse planchet defect. This is one of the two known examples with swelling between the rim and lower curl, on the obverse. It is the fifth or sixth finest of the eight pieces now known, and is superior to the Dr. French example, which Mr. Downing owned and sold. Ex Hines coll. **($65.00)**

1883 **S-219.** (N 6; D-156) R-3. First 1 Pointed; Three Errors Reverse. Die failure over ERTY, but the reverse lacks the break through first 0 of fraction and IIN (UNITED). An exceptionally rare die state. Strictly VF-20, but with a granular defect, resembling a planchet imperfection, hardly visible upon each side. A splendid cent, in the greatest demand. Ex Hines coll. **($45.00)**

1884 S-219. (N 6; D-156) R-3. Another famous Three Errors. Very advanced obverse die failure, obliterating much of BERTY. The reverse die is fully broken. F-12. An unusually clean and attractive specimen, with one or two unimportant defects, including an odd planchet flaw on Liberty's head and to the left. A desirable cent, retailing for $35.00 as a "Type" coin. **($30.00)**

1885 **S-NC 2.** (N 13) **R-8.** Heavy Reverse Rim Break at TES OF. The obverse die is sinking at ERTY, as on the very last of the S-219's. Very Good-7. An evenly worn cent, with only slight indications of mishandling. This is one of the two known to Sheldon, and is the second coin illustrated on Newcomb's supplementary plate. According to the Doctor's condition census of 7-4, it is the finest known example. Ex Hines coll. Of the most excessive rarity. **Plate.** **($125.00)**

1886 **S-220.** (N7; D-157) R-4. First 1 Pointed; Fraction 1/000. Strictly VF-25, but with a few minute imperfections, and several light reverse edge bruises. Glossy light brown, with faint traces of the original mint color. Dr. Sheldon states this is the "rarest of the error reverses, and excessively rare in first-rate condition." Ex Hines coll. **Plate.** **($55.00)**

1887 S-220. (N 7; D-157) R-4. Another, but a very late stage of the dies, much more advanced than the preceding. The rim break under the date is very heavy, so that much of the date is gone, as are the tops of LIBERTY. Fine-12, or even better, but ever so slightly mishandled. A choice light brown example of this rarity. **($27.50)**

1888 **S-221.** (N 9; D-159) R-3. The Corrected Fraction, 1/100 over 1/000. Fine-12, but slightly imperfect. Parts of the reverse show traces of rust. Mostly a dark steel color, lightly mottled with russet. A highly prized variety from the Hines coll. **($22.50)**

1889 **S-222.** (N 10; D-162) R-1. Blunt 1's. Very late die state, the small obverse rim break over IB clearly visible. Really EF-40, but struck flat on the face, and at the end of the bust. The reverse is also weak at the top of the wreath and OF. A well centered and choice cent, with considerable original color, particularly upon the reverse. A few light marks on Liberty, do not mar the beauty of this piece. **Plate.** **($35.00)**

1890 S-222. (N 10; D-162) R-1. Another, from the perfect obverse die. VF-20. Mostly a medium brown, with two or three minute nicks. Ex Hines coll. **($20.00)**

1891 **S-223.** (N 11; D-158) R-1. Blunt 1's, Fraction 1/000. Broken die at IB and RTY of LIBERTY. Very Fine-30, but with a few pin point nicks at NT of CENT, upon the reverse. The bust is unusually sharp. A dark brown, pleasingly mottled. Far above average, and in great demand. **($40.00)**

1892 S-223. (N 11; D-158) Another Fraction 1/000. Extended rim breaks, including the rare one obliterating the end of the bust. VG-10. A surprisingly clean coin, somewhat unevenly struck. Light brown and steel. This is Newcomb 9f-Gb and was called by him excessively rare. Ex Hines coll. **($15.00)**

1893 **S-224.** (N 12; D-163) R-1. Blunt 1's; Denominator 1/000. About Uncirculated-50. A superb cent. Superbly centered and struck. Light brown, attractively mottled with a darker brown and black. Not rare in fact a common variety, but in this preservation, either the finest or second finest known. This choice piece was lot #758 in the Zabriskie sale, 1909, and was later in the Hines collection. **Plate.** **($60.00)**

1802

1894 **Sheldon-225.** (Newcomb 1; D-172) R-4. Perfect obverse and broken reverse. Uncirculated. MS-60. Well struck and centered, with magnificent, iridescent coloring. Generally, this variety is found with a rough, mottled surface, but this specimen is a beautiful exception to the rules. Probably the second or third finest known. **Plate.** **($65.00)**

1895 S-225. (N 1; D-172) R-4. Another, the obverse rim broken below the date. The reverse die is heavily broken through ES OF, joining the rims; the resulting die sinking is undoubtedly the reason for the scarcity of this variety. Better than F-12, but with a few minute signs of mishandling. Steel color. This is the identical example mentioned by Dr. Sheldon on page 268, and is the only one reported in this state. Ex Hines coll. **($12.50)**

1896 **S-226.** (N 2; D-173) R-2. Lightly broken obverse die. Strictly VF-30, with a glossy, dark brown surface. Nicely struck and choice. **($18.00)**

1897 S-226. (N 2; D-173) R-2. Another, the obverse die breaks more extended. Crack from rim opposite chin to end of nose and above, not found on the last. VG-10, but slightly defective. Dark brown. Ex Hines coll. **($6.00)**

1898 **S-NC 1.** (N 3) **R-8.** Crack from B across Hair and Ear. About F-12, but with one or two very slight edge bruises. H.K.D. called this clean and attractive cent VG-10, which seems somewhat conservative. Dark olive and brown. This is the finest example known, and far superior to the Newcomb plate specimen. It originally came from the Proskey and Hines collections, and the obverse is illustrated on Sheldon's plate. Excessively rare, and well worth a good price. **Plate.** **($125.00)**

This variety is no longer really "Non-Collectible," as several additional specimens, all in low grade condition, have turned up. However, it is still an extreme rarity, and will undoubtedly have a basal value of over $10.00. The piece described above is worth a substantial premium, as the absolute finest known.

1899 **S-227.** (N 4; D-174) R-2. The Cobweb Variety. Very Fine-30. A beautiful cent, nicely centered and struck. The surface is a pleasing light golden brown, touched with black. A very few insignificant defects do not mar the beauty of this piece. **($17.50)**

1900 **S-228.** (N 6; D-164) R-2. Fraction 1/000. Extremely Fine-40. A sharp and desirable impression, with a slight obverse planchet defect, and two or three pin point nicks upon the reverse. Lustrous light and dark brown, nicely mottled. A top grade specimen of this popular "type" coin. **($35.00)**

1901 **S-229.** (N 5) R-5. Low Leaning 8. Very Fine-30, except for two minute nicks upon the bust, and two imperceptible scratches in front of the face. Die cracks as described. Dark brown. This rare variety was lot #344 in the Newcomb sale, 1945. The Dr. French example, listed as #300, was called Fine, and the best known at $40.00. **($42.50)**

1902 **S-230.** (N 8; D-171) R-2. Reverse die almost perfect. EF-40. This piece has strong claims to EF-45, or even AU-50. However, the face and forecurl are struck somewhat flat. Beautiful golden brown surface, with considerable original color. A splendid cent. **Plate.** **($25.00)**

1903 S-230. (N 8; D-171) R-2. Another, the reverse die decidedly cracked. Better than VF-20, but with a rim nick at the top of the reverse, and several slight handling defects upon the obverse. A glossy medium brown. **($12.50)**

1904 **S-231.** (N 9; D-165) R-1. Stemless Wreath; Without Double Fraction Bar. Obverse and reverse die cracks. About Uncirculated-50. A superb cent with a planchet defect on the lower right edge, extending the thickness of the flan. Beautiful, lustrous medium brown surface. This choice piece shows no signs of wear, and has not seen circulation. Ex Hines coll. **Plate.** **($30.00)**

1905 S-231. (N 9; D-165) R-1. Another Stemless Wreath, but perfect dies. F-15. Dark brown. A clean and attractive cent. We note a small chip out of the planchet below CA of AMERICA, on the reverse border. Ex Proskey and Hines. Popular, and in demand. **($10.00)**

1906 **S-232.** (N 10; D-168) R-1. T Cut Over Y. The reverse rim is heavily broken over ATE. Uncirculated. MS-60. A superb cent, well centered and well struck. The surface is a beautiful olive brown, with traces of iridescence and full mint red. A common coin in remarkably rare condition. **Plate.** **($35.00)**

1907 S-232. (N 10; D-168) R-1. Another, the reverse die perfect. Strictly VF-30. Dark brown. Well centered and struck. The commonest variety of this date, but a really nice "Penny." Ex Hines coll. **($13.50)**

1908 **S-233.** (N 11; D-167) R-5. The second T Cut Over Y. Perfect reverse die. Somewhat better than Fine-15 but with several microscopic signs of handling. Light medium brown. Hardly an R-5, but decidedly rare in Fine or better preservation. Ex Hines coll. **($22.50)**

1909 S-233. (N 11; D-167) R-5. Another. Broken reverse die. VG-10. This cent would be F-12 except for slight roughness on the obverse. Light and dark brown. A rare variety. **($15.00)**

1910 **S-234.** (N 12) R-5. The Injured LIBERTY Variety; Obverse Rim Break Over B. F-12. This coin has strong claims to Very Fine, but displays infinitesimal signs of handling, and has a light edge bruise on the reverse. Dark brown. Sheldon says of this variety, "Very rare in first rate condition." Ex Hines coll. **($18.50)**

1911 S-234. (N 12) R-5. Another, without the obverse rim break. The heavy incusations through LIBERTY can be seen, but Dr. Sheldon says this variety is always found with the rim break over B. VG-10. A Fine cent with minor handling defects, particularly upon the obverse. Dark brown, slightly mottled. As a variety, S-234 is more than twice as rare as S-233, even though both are graded as R-5 coins. We have never seen a duplicate of this particular sub variety, and neither had Mr. Downing. Ex Hines coll. Unique? **($15.00)**

1912 **S-235.** (N 13; D-178) R-4. Injured at RTY. Perfect obverse die. EF-40. A sharp, steel colored cent, with a few very minute pin point nicks on the obverse. This glossy beauty is one of the best specimens of a really rare coin. Ex Hines coll. **($40.00)**

1913 S-235. (N 13; D-178) R-4. Another, the obverse die broken over RTY. VG-8. A Fine cent, but lightly scratched on the obverse, and otherwise slightly mishandled. Dark brown. **($7.50)**

1914 S-235. (N 13; D-178) R-4. Still another. The die state with crack from rim through neck to drapery; intermediate between Newcomb's 9^{d}-H^{c} and 9^{e}-H^{d}, both extreme rarities. Strictly F-15. Dark olive, almost black. A choice and desirable specimen, formerly in the Hines coll. **($17.50)**

1915 **S-236.** (N 14; D-175) R-2. Extremely Fine-40. Perfectly centered and struck, with a glossy, medium brown surface. An exciting coin from the Hines coll. Unusually choice. **($25.00)**

1916 **S-237.** (N 15; D-170) R-2. The Big Berries Variety. Reverse very similar to the 1798-1800 dies. Strictly EF-40. Not rare as a variety, but this is the finest one of only three examples with perfect dies (none known to Newcomb, and only one known to Sheldon at time of publication). Ex Proskey and Hines. A splendid cent, of considerable interest and value. **Plate.** **($32.50)**

1917 S-237. (N 15; D-170) R-2. Another, with cracked dies as usual. Listed as AU-50, this cent is in Mint state, with a few light edge bruises, a nick or two, and other minor damage. The surface is a beautiful light brown, and both sides show considerable mint lustre. A nice "Penny" from our sale of May, 1950. **($30.00)**

1918 S-237. (N 15; D-170) R-2. Still another, with vertical crack from final S (In STATES) to right ribbon, and other minor cracks. VF-30. Dark olive. Another nice piece. Ex Hines coll. **($17.50)**

1919 **S-238.** (N 16) **R-6.** The Widest Date; Four Berries on Right Branch. Fine-12. The reverse is almost V. Fine, but weakly struck at left. Two minute nicks upon the obverse do not affect the appearance of this underrated cent. Dark brown, with touches of russet. This variety is next to the S-NC 1 in rarity, and is almost never seen choice. All of those that have turned up are in low condition; thus, this is quite a respectable coin. **($30.00)**

1920 **S-239.** (N 17; D-177) R-3. Perfect dies. This is the variety that is usually found with a prominent obverse crack from the rim through R and forelock to the border opposite the mouth. Without that, and other breaks, as here, this die is rarely seen. Very Fine-20. A clean, well centered, light olive brown cent. Ex Hines coll. **($17.50)**

1921 S-239. (N 17; D-177) R-3. Another. Single faint line of crack as described above. EF-40. A splendid, olive brown cent, with traces of original color. As the condition census for this variety is 70-35, this is one of the four or five top specimens. **Plate.** **$32.50)**

1922 S-239. (N 17; D-177) R-3. Still another, this one with a badly broken obverse. VG-10. A Fine cent, with a few slight defects. Dark brown. Ex Hines coll. **($8.00)**

1923 **S-240.** (N 18; D-176) R-5. Diagonal Crack, Lower Right Field. Strictly Fine-15. Dark steel with traces of russet. Slight roughening at lower left obverse. This is the rarest of the 1802's that were known to Daughty, and is extremely rare in any condition upwards of F-12. It may also be R-6. **($25.00)**

1924 **S-241.** (N 19; D-166) R-2. Stemless Wreath; Double Fraction Bar. The "Dropped S Variety." Perfect reverse rim. EF-40. Almost EF-45, or AU-50, but with a really slight obverse edge bruise. Lustrous and desirable dark brown surface. A beautiful cent from the Hines coll. **($32.50)**

1925 S-241. (N 19; D-166) R-2. Another, Reverse rim break over OF. Good-6. Ex Hines coll. **($4.50)**

1926 S-241. (N 19; D-166) R-2. Still another Stemless Wreath, but with two rim breaks; over OF and over TAT. Good-6. Ex Hines coll. **($4.50)**

1927 **S-242.** (N 20; D-169) R-2. Widest Fraction among 1802's. Very Fine-20. Dark olive with one or two slight obverse defects. Another choice cent from the Hines coll. **($12.00)**

1803

1928 **Sheldon-243.** (Newcomb 1; D-180) R-3. Stemless Wreath; Double Fraction Bar. Perfect obverse. About VF-20, but with slight signs of roughness, particularly upon the reverse. One or two other minute defects do not detract from the glossy beauty of this coin. Dark olive. Ex Hines coll. In great demand. **($17.50)**

1929 S-243. (N 1; D-180) R-3. Another; slightly broken obverse die. About Uncirculated-50. A choice cent, not fully struck up, but with considerable original mint color. A few minor defects, including slight impairment of the reverse edge, certainly do not compromise the beauty of this piece. It is at least the fourth, and possibly the third best example known. Ex Hines coll. **Plate.** **($50.00)**

1930 S-243. (N 1; D-180) R-3. A third Stemless Wreath. Very heavily broken obverse die. VG-10. A Fine to V. Fine cent, but with a lightly pitted and artificial surface. Some vandal has also slightly scratched the obverse. This, and the two preceding, have the "Dropped S" reverse found upon S-241 above. Ex Hines coll. **($10.00)**

1931 **S-244.** (N 2) R-4. Wide Curved Date; 3 in Drapery. VF-30. This cent could be called Ex. Fine, but it shows slight signs of mishandling, mainly apparent in a few light reverse scratches. Glossy dark brown. Newcomb calls this variety very rare, and this is one of the finest specimens extant. **($40.00)**

1932 **S-245.** (N 3; D-189) R-3. The Unicorn Variety. Reverse cracked through ERICA of AMERICA. Almost VF-20. Another sharp, glossy and attractive cent, showing a very few unimportant handling defects. Dark brown color. Unusually desirable. **($12.50)**

1933 S-245. (N 3; D-189) R-3. Another, the excessively rare sub-variety with a very bad reverse break at RICA. Fine-15. Weakly struck at left, both obverse and reverse. Dark reddish brown. A comparatively clean and highly desirable example of Newcomb's 3^{b}-C^{d}. Worth a good price. **($15.00)**

1934 **S-246.** (N 4; D-181) R-3. The Higher Numerator Variety. Perfect dies. Strictly Fine-15. Well centered and struck. Steel. A choice and very attractive cent from the Hines coll. **($12.50)**

1935 S-246. (N 4; D-181) R-3. Another; heavy reverse rim break at STA. VG-10. A Fine cent, with a very slight reverse edge bruise. Dark brown. Obtained from our sale of May, 1950. **($10.00)**

1936 **S-247.** (N 5; D-182) R-4. The Mumps Obverse; Short Fraction Bar. Perfect dies. About Uncirculated. This superb cent approaches Mint State, with no appreciable signs of wear, and a magnificent iridescent green sheen. There is a slight planchet flaw, over B of LIBERTY, which extends through the planchet to the reverse. H.K.D. claimed that this example was equal to the finest known. **Plate.** **($60.00)**

1937 **S-248.** (N 6) R-5. The Mumps Obverse; Long Double Fraction Bar. Almost Very Fine-20, with a few imperceptible signs of handling. Dark brown. This sharp and desirable coin is a "Sleeper," being close to an R-6 variety. It is classified as the fourth rarest "Collectible" 1803. Ex Hines coll. ($25.00)

1938 **S-249.** (N 7; D-179) R-3. The Mumps Obverse: Reverse; The Corrected Fraction, 1/100 over 1,000. Rev. "G" (Not E); same die as 1801 Reverse K, but with correction punched in over the first or erroneous zero. AU-50. Splendid, lustrous brown; considerable original mint color, particularly upon the reverse. A highly desirable and valuable specimen of this ever popular "Type" variety. Ex Proskey and Hines. **Plate.** ($65.00)

1939 **S-250.** (N 8) R-4. The Farthest 1 and 3; Medium Fraction Bar. VF-35. A beautiful Extremely Fine cent, but with the slightest, almost invisible, obverse surface scratches. Mostly a light, reddish brown; the reverse displaying traces of original color. Definitely a choice coin, and one that should be seen. Ex Hines coll. ($35.00)

1940 **S-NC 1.** (N 24) **R-8.** The Farthest 1 and 3; Widest Denominator. Good-5. Evenly worn, and with a number of minor edge defects. This piece is not one of the three original specimens, but turned up at the Garrabrant sale, where it was incorrectly listed as the comparatively common Newcomb 5. Of excessive rarity. ($50.00)

This variety is no longer Non-Collectible, as two other low-grade examples, in addition to the above, have turned up since the publication of the Sheldon book. However, the variety is still a strong R-7, with a basal value of $10.00 or more.

1941 **S-251.** (N 9; D-190) R-1. The Farthest 1 and 3; Short Fraction Bar. Perfect dies. Better than F-15, but with indications of slight obverse handling. Light olive brown with some obverse mottling. ($7.50)

1942 S-251. (N 9; D-190) R-1. Another, the reverse die cracked. Very Fine-30. Glossy steel and olive brown. An unusually sharp and attractive piece from the Hines coll. ($13.50)

1943 **S-252.** (N 10; D-186) R-2. Perfect obverse die, and rare so. Usually found with a crack through the base of date. Very Fine-20. A medium, lustrous brown. ($12.50)

1944 S-252. (N 10; D-186) R-2. Another; crack through bottom of date. VF-35. Light brown, with traces of mint color, and a few slight defects. Far above average. ($22.50)

1945 **S-253.** (N 11; D-183) R-2. The variety with a "Period" after the denominator. Cracked dies, as usual. Mint State-65. An Uncirculated "Gem," with a splendid iridescent surface, displaying much original red, particularly upon the reverse. Absolutely superb; the finest 1803 in the collection. It was purchased from Walter F. Webb's 79th sale, and is the best specimen extant. **Plate.** ($50.00)

1946 S-253. (N 11; D-183) R-2. Another; rare variety from perfect dies. VG-10, with claims to Fine. Steel color. This die state was unknown to Newcomb when his famous monograph appeared. Ex Hines coll. V. Rare ($8.00)

1947 **S-254.** (N 12; D-191) R-1. Perfect dies. EF-40. This choice cent would be Abt. Unc., were it not for two small reverse nicks at N of ONE and E of CENT. Well centered and struck, with a glossy, light brown surface. Ex Hines coll. ($18.00)

1948 **S-255.** (N 13; D-187) R-1. The Very Wide Date, with 03 close. About Uncirculated-50. A splendid impression from the perfect dies, with faint traces of the original mint luster. Light steel and brown. Ex Hines coll. **Plate.** ($22.50)

1949 S-255. (N 13; D-187) R-1. Another, the less common variety with the reverse die heavily broken over STA of STATES. VF-20. This cent also displays traces of mint color. For above average, and unusually desirable. ($11.00)

1950 **S-256.** (N 14; D-188) R-4. Lightly broken reverse. VF-20. Medium brown, again with faint traces of original color. An exceptionally choice piece, purchased from the catalogers. V. Scarce. ($30.00)

1951 S-256. (N 14; D-188) R-4. Another, the variety with a reverse rim break over STA. A Fine-15 cent, but with a very few minor handling defects. Dark brown. Ex Hines coll. ($12.50)

1952 **S-257.** (N 15; D-192) R-2. Close Date. This is the beginning of a series with large fractions. Mint State-60. A sharp, attractive cent with a light red and steel surface. Highly desirable, and one of the finest known. Obtained from a H. M. Grant sale of 1945. **Plate.** ($37.50)

1953 **S-258.** (N 16; D-193) R-1. Large Fraction; Break at D. Lightly cracked obverse die. Incusations from the curls in center of wreath. Mint State-60. A superb dark steel coin from the Hines coll. ($30.00)

1954 S-258. (N 16; D-193) R-1. Another, also with cracked dies. Almost EF-40, with a few slight defects. Medium brown, with traces of mint color upon the obverse. ($18.00)

1955 **S-259.** (N 17; D-194) **R-6.** The "Ghost 3" Obverse. Fine-12. Very dark brown. A comparatively clean example of a rare cent. Ex Hines coll. ($22.50)

1956 S-259. (N 17; D-194) R-6. A duplicate of this rare variety. VG-10. Dark, reddish brown. Unusually desirable. ($17.50)

1957 **S-260.** (N 18; D-195) R-1. Same obverse die as the last, but the bottom of the 3 strengthened, and the die extensively repaired. Extremely Fine-40. Rich chocolate brown, with suggestions of steel. A really nice "Penny." Ex Hines coll. ($18.00)

1958 **S-261.** (N 19; D-196) R-3. The "Scorred Neck" Variety. Perfect obverse die, unusual and scarce so. Very Fine-20, with a few of the commonly found minute imperfections. Lustrous dark brown. From our sale of May, 1950. ($16.00)

1959 S-261. (N 19; D-196) R-3. Another, but the obverse die cracked. F-12. A Very Fine coin, but with the obverse pitted in two or three spots. Steel color. It was from this broken obverse die that the mulling known as the 1804 "Restrike" was made. Highly interesting, and a good companion for the 1804 piece on the following page. ($10.00)

1960 **S-262.** (N 20; D-184) **R-6.** Divided Date. Very Fine-30. Mostly medium brown. Even with a few unimportant and unnoticeable obverse defects, this is the third finest example of the dozen or so now known. All of the ones discovered, since the publication of Dr. Sheldon's book, are from Fair-2 to Good-6. Both Dr. French and Oscar Pearl lacked this variety. It is much rarer than S-259, or even the famous "Large Date Small Fraction." Ex Hines coll. The second rarest 1803. **Plate.** ($60.00)

1961 S-262. (N 20; D-184) R-6. Another, but a **Freak.** Brockage. The reverse shows the full impression of another obverse, incused. Abt. Mint State-60, with a few minute defects, including an odd design etched into the left obverse field. If the reverse were actually present on this piece, it would unquestionably be the finest example of S-262 extant. It is very similar to the second 1795 S-79 described earlier. The obverse is illustrated on the Newcomb plate as 14th. From D. Proskey and H. Hines. Unique. **Plate.** ($50.00)

1962 **S-263.** (N 21; D-185) R-2. The Second Divided Date. Broken dies, including a severe rim break under the date. Uncirculated; Mint State-60. A magnificent cent, nicely centered and struck. Dark steel. Superior to the example illustrated on Plate 46 of the Sheldon book, and believed to be the second finest extant. Ex F. G. Simpson (S. H. Chapman, 1924) and G. H. Hall (1945) collections. Worth a good price. **Plate.** **($42.50)**

1963 **S-264.** (N 23) **R-6.** The renowned Large Date; Small Fraction. Only Good-4. Well worn, with a nick or two at 18 of the date, together with one or two other minor defects. Uncommonly rare, and in the greatest demand. **($25.00)**

1964 **S-265.** (N 22; D-197) R-4. The equally famous Large Date; Large Fraction. Abt. Very Fine-20. Steel color, with a pin point defect on the neck, plus one or two other microscopic imperfections. A choice and highly desirable specimen of this rarity, that catalogs at $75.00 in only Fine. Equal pieces have sold for well over $100.00. **($100.00)**

1804

1965 **Sheldon 266.** (D-198) R-3. The variety with perfect obverse and reverse dies. Very Fine-20. An unusually sharp example of this rare date. Steel color. A clean and desirable cent, in spite of the slightest tendency towards roughness, and a few diminutive surface defects. This piece appeared as lot #576, in the W. B. Wetmore collection, catalogued and sold by S. H. & H. Chapman, 1906. Uncommonly rare, and in the greatest demand. **Plate.** **($175.00)**

1966 **1804. Restrike.** Obv. S-261 (1803), badly rusted and broken, reengraved to 1804. Rev. An 1820 die rusted badly, reground. Copper. Uncirculated. MS-65. Almost fully red. Made by Mickley and Cogan, circa 1860-68. **($20.00)**

1805

1967 **S-267.** (Clapp 1; D-199) R-1. The Common Blunt 1. Faint reverse die crack over AM of AMERICA. Uncirculated. MS-60. Lustrous light brown, attractively mottled with steel. A superb cent, with only the most imperceptible flaws. A common variety of a rather scarce date. Ex Proskey and Hines. **Plate.** **($55.00)**

1968 S-267. (C 1; D-199) R-1. Another, the dies perfect. Abt. EF-40. A nice cent, but with a few minor defects, including a minute nick in front of the eye. Glossy dark brown. The recut 5, in date, is quite discernible and clear on this specimen. **($30.00)**

1969 **S-268.** (C 2; D-200) **R-6.** The Rare Blunt 1. Fine to V. Fine. Actually VF-20, but with one or two old, and unimportant obverse imperfections. Brown and steel. A well struck, and well centered example of this rarity. Sheldon only knew of a dozen specimens. Ex Proskey and Hines. A great prize in any but worn condition. **($37.50)**

1970 **S-269.** (C 3; D-201) R-1. The Pointed 1. About Uncirculated; AU-50. A highly attractive cent, with a rich olive color, and traces of mint luster. A few minor defects do not impair the good looks of this top grade piece. Ex Proskey and Hines. Scarcer than S-267. **($42.50)**

1806

1971 **S-270.** (D-202) R-2. Very Fine-30. Two microscopic reverse rim bruises. An unusually desirable, dark steel example of this very scarce date. In great demand. **($35.00)**

1807

1972 **S-271.** (C 4; D-205) R-2. The Comet Variety. VF-20. Obverse steel; Reverse dark brown. Far above average. **($25.00)**

1973 **S-272.** (C 2) **R-6.** The Famous Small 1807/6 Overdate. Very Fine-20. A sharp example of this rarity, showing a few unimportant signs of handling, including one or two light obverse nicks in front of the face. Dark steel. W.H.S. says that "most" of the fifteen or sixteen known to him are in low grade condition. This is, therefore, one of the very few that reach V.F. A "Type" coin, and in great demand. This variety is seldom offered. V. Rare. **($80.00)**

1974 **S-273.** (C 1; D-203) R-1. The Large 1807/6 Overdate. Very Fine-20. A comparatively clean and desirable impression from this popular die. Dark olive, turning to steel. **($17.50)**

1975 **S-274.** (C 3; D-204) R-3. Perfect Date; Small Fraction. EF-40. The scarce sub-variety with the reverse die badly sunken, heavy swell at STA of STATES, and OF obliterated. A nice cent with an attractive light, reddish brown surface. Even the commoner perfect examples of this variety are highly underrated. S-274 should be R-4, with a basal value of $1.75 or $2.00, as choice specimens are very seldom offered, and appear to be almost as rare as the following variety. From the collection of Virgil Brand. **($60.00)**

1976 **S-275.** (C 5; D-206) **R-6.** Perfect Date; Large Fraction. EF-40. A sharply struck, unusually clean example of this rarity. Dark brown. Dr. Sheldon stated that he saw, up to the time of publication, only half a dozen or so pieces in condition better than Fine. Homer Downing obtained this specimen from the Brand collection, and often remarked that it was one of the finest known. **($100.00)**

1977 **S-276.** (C 6; D-207) R-1. The Second (and commoner) Perfect Date; Large Fraction. VF-30. Dark olive brown. A choice and desirable "Penny." Ex Hines coll. **($18.00)**

1978 S-276. (C 6; D-207) R-1. Another, the rare sub-variety with a defective 1 in date. Fine-12. Steel. Nicely struck, but with a minute reverse rim nick. This was lot #798 in the John K. Borcky sale, held by T. L. Elder in 1935; later, it was in the Hines coll. **($10.00)**

1808

1979 **S-277.** (C 1; D-208) R-2. The first year of the Turban Head. This is the so-called "Twelve Star" variety, where the lowest star at left is unusually weak. Very Fine-20. A sharp example of this popular coin, with the usual microscopic handling defects. Chocolate brown. From the Hines coll. **($27.50)**

1980 **S-278.** (C 2; D-209) R-3. Very Fine-20. Struck somewhat off center, and weak at the left, on both sides. A nice medium brown cent, with the usual slight obverse imperfections. The scarcest variety of the year. **($30.00)**

1981 **S-279.** (C-3) R-2. The extremely rare sub-variety from a badly injured obverse die. The obverse seems poorly struck, with the stars on the right connected to the rim; figures of the date distorted, ribbon ends distorted, a pit or indentation just in front of the throat. Almost AU-50. Light chocolate brown and steel. The finest known example of a piece which Clapp could only find "quite worn." One well known collector told us that he only located three or four impressions from the injured die, (all under V G), in well over three hundred S-279's examined. This cent was purchased at the 1948 A.N.A. Convention sale. **Plate.** **($60.00)**

1809

1982 **S-280.** (C 1; D-210) R-2. Strictly Fine-15. A popular and rare date. Dark brown. **($35.00)**

1810

1983 **S-281.** (C 1; D-211) R-1. The Overdate, 1810/9. About Uncirculated; AU-50. This sharp and well centered cent has never seen circulation, and is actually in Mint State. However, the surface shows almost invisible indications, or traces, of the delicate corrosion mentioned by Dr. Sheldon. Lustrous medium brown, lightly mottled with steel. A splendid piece, rare so fine. From the Hines coll. **Plate.** **($42.50)**

1984 S-281. (C 1; D-211) R-1. Another overdate. Strictly VF-30. This beautiful coin has a delightful green patina or sheen, particularly upon the obverse. Highly desirable. **($25.00)**

1985 **S-282.** (C 2; D-212) R-2. Extremely Fine-45. Very dark brown, lightly mottled upon the obverse. A choice and glossy surfaced coin, struck somewhat off center. The obverse field displays one or two old and unnoticeable defects. Unusually choice. From H. Hines, purchased at an Elder sale in 1913. **($35.00)**

1986 S-282. (C 2; D-212) R-2. Another. About EF-40. Light brown, slightly touched with black. Choice, but not as much so as the last. Ex Praskey and Hines. **($30.00)**

1987 **S-283.** (C 3; D-213) R-1. Mint State-60. A choice, well struck Uncirculated cent, with a splendid iridescent surface. Neither Dr. French or Oscar Pearl owned a strictly Uncirculated cent of this year. Ex Hines coll. **Plate.** **($50.00)**

1988 **S-284.** (C 4; D-214) R-3. Better than F-15, but with a slight obverse edge bruise. Dark brown. A very scarce variety. **($15.00)**

1989 **S-285.** (C 5) R-1. The Die Crack Variety. VF-20. Dark olive and decidedly choice. **($15.00)**

1990 **1810. Restrike.** Obv. S-285. Rev. Identical to that of the 1804 Restrike. Struck in White Metal or Tin. The obverse was apparently struck from a badly rusted die, which was reground and reengraved enough to obliterate most traces of the identifying die cracks. Uncirculated. This item is believed to be an unofficial U.S. Mint product, like its earlier (1804) counterpart, and was probably struck in 1858. It first appeared in the Lyman Wilder collection (Haseltine), May, 1879, and is the finer of the two known specimens. Not from the Downing collection, but the former property of H. D. Gibbs. Excessively rare. **Plate.** **($100.00)**

Mr. Downing was intensely interested in the 1810 Restrike and with the cataloger, carefully studied the only other known specimen, the property of a New York dealer. In 1943, one of the publishers of the "Numismatic Review" illustrated and described his piece, in Vol. 1, No. 2, of that magazine. At that time, the claim was made that the coin was an "Unpublished Trial Piece," presumably contemporary. The restrike is neither "Unpublished" nor a "Trial Piece," as the description indicates.

1811

1991 **S-286.** (C 1; D-215) R-2. The Overdate, 1811/10. Very Fine-20. A sharp and clean example of this uncommon and popular cent. As rare as the renowned 1809. Ex Hines coll. **($40.00)**

1992 **S-287.** (C 2; D-216) R-2. The Perfect Date. Uncirculated; MS-60, or MS-65. Iridescent golden brown. The only Mint State specimen, of the four known, with the stars fully struck up at left. Homer Downing's "Master List" clearly calls this the finest known example. He considered it superior to the impression in the government collection, and definitely a better coin than the Newcomb piece which realized $200.00 in 1945. His photographic records clearly substantiate H.K.D.'s arguments for the coin. **Plate.** **($200.00)**

This superb cent was discovered abroad by Charles M. Wormser, while on a European trip in 1949. It was later sold to C. Douglas Smith, from whom Mr. Downing obtained it. Most authorities consider it one of the showpieces of the entire collection.

1812

1993 **S-288.** (C 1; D-217) R-1. The Large Date. Abt. VF-20, but with a few slight scratches on the upper left obverse edge. Dark brown. Obtained from O. J. Pearl. **($7.50)**

1994 **S-289.** (C 2; D-218) R-1. The Second Large Date. Abt. Uncirculated-50. A splendid golden brown cent, displaying considerable original mint color. Uncommonly fine. **($25.00)**

1995 **S-290.** (C 3; D-219) R-1. The Small Date. Extremely Fine-40. An attractive light medium brown. Another nice coin. **($20.00)**

1996 **S-291.** (C 4; D-220) R-2. The Die Crack Variety. Reverse of 1811. VF-30. A sharp cent with claims to Ex Fine; however, the reverse surface shows a few minute defects. Mainly a medium brown. The earliest and scarcest of the 1812's, and hard to locate choice. Ex Praskey and Hines. **($20.00)**

1813

1997 **S-292.** (C 1; D-221) R-1. Distant Star Variety. About Uncirculated-50. Lustrous dark olive. A choice and well struck example of this scarce date. Ex Praskey and Hines. **($32.50)**

1998 S-292. (C 1; D-221) R-1. Another. This piece is somewhat sharper than the last. But because of a reverse nick at A of AMERICA, and a minor edge bruise, can only be called AU-50. A golden brown beauty that saw little circulation. Fine specimens of this date retail for $10.00, and choice examples are not recently available. **($32.50)**

1999 **S-293.** (C 2; D-222) R-2. Clase Star Variety. Slightly better than VF-20, but with the usual slight signs of handling. Dark brawn. This piece is much scarcer than the faregaing, ond is somewhat underrated. A very difficult cain to find in first-rate condition. Ex Hines coll. **($17.50)**

1814

2000 **S-294.** (C 1; D-224) R-1. The Crosslet 4. AU-50. This choice cent is reolly Uncirculated, but has a very few microscopic pin point nicks and the slightest cabinet frictian. Lustraus dork brown. Unusually sharp and desiroble, ond o cain thot should be seen. Ex Proskey and Hines. **($13.50)**

2001 **S-295.** (C 2; D-225) R-1. The Plain 4. AU-50. An Uncirculated cent, but part of the reverse surface appears roughened. Glossy dork brawn, the obverse olmost "Proaf like." Far above overoge. Ex Hines call. **($13.50)**

2002 S-295. (C 2; D-225) R-1. Anather, the "bearded voriety." Mint Stote-60. A splendid cent, its galden surface lightly toned with lovender. Unusuolly choice, and highly interesting. Also from the Hines call. **($16.00)**

2003 S-295. (C 2; D-225) R-1. Still anather. The voriety with o double profile. In fact, the abverse of this cent is entirely double struck. Better than VF-30. Light and dark brown. This piece was lot #841 of the Jahn K. Borcky collection, 1935; later, in the Hines call. **($10.00)**

1815

It is camman knawledge that cents were not struck beoring this dote. However, during the latter port of the last century, this information was disputed ond an "Almast Uncirculoted" specimen of the 1815 Cent made the rounds. This coin rapidly became famous, ond many references to it can be found in early cotolags, fram 1863 on. Still later, another well made alteration appeored, and both masterpieces became legendory in numismotic circles. Homer Downing highly prized each of these historical pieces, and they are affered herewith for whot they ore.

2004 **1815. Alterotion.** Made from 1813; S-293. Almost AU-50. Medium brown. A most fomous piece, obtained from Henry Hines, ond illustrated upan Plote XI, in Howord R. Newcomb's fomaus wark on late dote cents. **Plote.**

2005 **1815. Alterotion.** Another, made fram 1813; S-292. Not as fine as the preceding. VF-30. Obtained from John Zug. Dickeson, os eorly os 1859, oscribed the scarcity af chaice 1813's to the "amateurs," wha had taken mony of them to be oltered, often crudely, to 1815.

The H. K. Downing Collection of U. S. Large Cents (Continued)

THE LATE DATE CENTS, 1816-1857

The Large Cents struck from 1816 to the last year of the series, 1857, are popularly known as the "Late Date" Coppers. In 1881 (second edition 1883), Frank Andrews of Vineland, N. J., published a small monograph entitled THE UNITED STATES COPPER CENTS, 1816-1857. This remarkably thorough work listed same 396 varieties, of which 5 are definitely unknown. It was later reprinted, upon several occasions, with "Additions." It remained the accepted standard until 1944, when Howard R. Newcomb published his mammoth text under the same title. Newcomb's efforts deserve high praise and recognition, yet due credit must remain with Andrews. The former added only 39 varieties from 1817 to 1839, and 168 from 1840 to 1857. The total of 603 varieties include many duplications, particularly after 1840, where broken die states, slight retouchings, or even irregular strikings have been numbered and included. Newcomb neglected to provide a precise or quantitative scale of rarity listings, an oversight deplored by many collectors

Homer Downing did not really collect late date cents. He acquired many of them, but only retained those he liked for some specific reason. He had a high regard for "Proof" Cents, knowing full well of their excessive rarity and high desirability. The Proofs offered are mainly from the Henry Hines collection, and are authentic in every respect.

In the course of studying the "Old Red Cents," H.K.D. formulated a listing of rarity and basal values for the late dates. This was based upon the system employed by Dr. Sheldon. Aware of the interest in such information, we are including it, together with additions and corrections. However, in several instances, pieces in top condition—i.e. Mint State, bring in excess of their book value. This is due to a heavy demand for types and dates, out of proportion to the actual rarity of the coins involved. On the other hand, many rare die varieties sell for less than their stipulated value, due to a limited demand, the result of a serious lack of factual information. Increased interest in die varieties will eventually tend to balance the situation, as it has to a great extent with the series, 1793-1814.

Proof Cents cannot be measured by any formula. Too few appear, and many are just about "Non-Collectible." Like all rarities, they are worth whatever the serious collector wishes to pay for them.

Information regarding the dates after 1839 is not given in table form, but we offer a few interesting notes at the end of the listing.

1816

1817

2140 **NA-2.** A remarkable **Freak.** This cent is struck far off center, almost halfway off the planchet. AU-50. Medium brown, slightly flecked with mint color. Purchased at an Elder sale in December, 1936, by Henry Hines. Highly unusual and valuable. **Plate.** **($12.50)**

2141 **NA-6.** Uncirculated. MS-65. Slightest cabinet friction. Lustrous golden brown, with signs of reverse tarnish. Ex Hines coll. **($4.00)**

2142 **NA-12.** Crack through top of date and stars. AU-50. Iridescent brown. From a 1927 Chapman sale; later, from Hines. Rarity 4. **($12.50)**

2143 NA-12. Another. Advanced obverse breaks. EF-40. Light and dark brown. From a 1926 Elder sale; later, from Hines. Slightly rarer than the last. **($10.00)**

2144 **NA-15.** Abt. VF-20. Steel color. Ex Hines coll. Rarity 5. **($7.00)**

2145 **NA-16.** The famous fifteen stars obverse. MS-60. An Uncirculated cent with considerable original red, but mostly a golden brown color. This splendid piece was lot #52, in the renowned collection of H. W. Beckwith, sold by S. H. Chapman, 1923. Ex Proskey and Hines. Not a rare variety in ordinary condition, but it is worth considerably more than its book value as a "Type." **Plate.** **($25.00)**

10	R-2	.10	

1820

2149 **NA-1.** 1820 over 19. MS-60. A splendid example, with a lustrous, iridescent, almost Proof like surface. This was lot #57 in the celebrated Beckwith sale, 1923. Ex Hines coll. In greater demand as a type, than as a variety. **Plate.** ($15.00)

2150 **N-14.** MS-70. An Uncirculated "Gem." Well centered and struck, with a glittering pink and steel surface. The finest known of the four specimens extant. This variety is a strong R-7, and almost an NC. Ex Hines coll. **Plate.** ($60.00)

2151 **N-15.** MS-65. The obverse is a rich lustrous brown; the reverse a gorgeous pink and steel iridescence. A really rare variety of the small date type. **Plate.** ($16.50)

Newcomb-Andrews No.	Rarity	Basal Value	Remarks
1	R-3	.25	Proofs may exist; A N-1½ is reported.
2	R-3	.25	Also a N-2½.

9	R-3	.15	
10	R-2	.10	Also a N-10½.
11	R-3	.20	Possibly R-4; rarer than A-1, A-2, A-9 or A-12.
12	R-3	.15	
13	R-1	.04	Randall hoard.
14	R-7	—	Only four known.
15	R-4	.25	

1821

2152 **NA-1.** Close date. Glittering olive (obverse) and purple (reverse). **Proof.** This [illegible] slightest degree from perfection, and is definitely superior to the Hall Brand example [illegible] It was lot #249 in the Dr. French catalog, and was obtained from the [illegible] Homer Downing valued this beauty highly, and refused to part with it, in spite of many [illegible] **Plate.** ($200.00)

2153 **NA-2.** Wide date. AU-50. Evenly centered and struck. A lustrous cent, showing only the slightest cabinet friction, and traces of original color. This piece is worth more as a date, than as a variety, in this splendid condition. It is about equal to the Newcomb specimen, lot #544, which realized $40.00. **($37.50)**

Newcomb-Andrews No.	Rarity	Basal Value	Remarks
1	R-2	.65	Proofs exist.
2	R-1	.50	N-2½ is very rare.

1822

2154 **NA-1.** Close date. Mint State-60. The reverse is not as well centered as the obverse. Iridescent russet and steel. A splendid cent from Proskey and Hines. Uncommonly difficult to find so choice. **Plate.** **($25.00)**

2155 **NA-4.** Wide date. MS-60. Perfectly centered, but the obverse displays a few infinitesimal handling defects. A lustrous light brown, slightly mottled. Ex Oscar J. Pearl. Not as rare as the preceding. However, in Mint State, any 1822 cent is Rare. **($15.00)**

2156 **NA-9.** State III of the reverse die; Rim fallen out over TES of STATES. EF-40. Almost an AU-50, but slightly plagued by several minor defects. Well centered and struck. The obverse is a reddish brown; the reverse a deep chocolate. This piece originated in Elder's sale of 12/6/24, lot #2102, and was later in the Hines collection. It is the finest known specimen of the rarest 1822, and is illustrated on Newcomb's plate. Excessively rare. **Plate.** **($60.00)**

1823

2157 **NA-1.** 1823 over 22. About Uncirculated-50. Dark brown and steel. A remarkable cent, with a very few microscopic obverse defects, visible only under a glass. Only the high spots show slight signs of cabinet friction. Unusually choice and highly desirable. In conditions approximating Mint State, this coin brings far over book value. **Plate.** **($65.00)**

2158 NA-1. 1823 over 22. Another. VF-20. Steel. Few defects, including an obverse edge bruise. In great demand. **($20.00)**

2159 **NA-2.** Perfect date. EF-40. Medium brown. A nice coin, but with a few defects, not readily noticeable. We note a small obverse rim bruise, and a small cut at F of OF, upon the reverse. Ex Hines coll. Somewhat rarer than the overdate variety. **($50.00)**

2160 **1823. Restrike.** Obv. NA-2. Rev. Believed to be one of 1813, but reengraved. Copper. This is an impression with the badly broken obverse, made after Cogan and Mickley sold the dies, but prior to the Silver examples. Uncirculated. MS-65. **($15.00)**

Newcomb-Andrews No.	Rarity	Basal Value	Remarks
1	R-2	$1.00	Proofs are known. Newcomb sale and Mint coll.
2	R-2	$1.25

"	R-1	.20	Copper. Broken obverse die.

(The restrikes are generally found in Unc. or Proof condition.)

1824

2161 **NA-1.** 1824 over 22. Almost MS-60. A sharp cent, slightly weak at the lower left side of the obverse, and the corresponding part of the reverse. The obverse shows a very few unimportant imperfections, or the slightest evidence of contact with other coins. Lustrous golden and dark brown, displaying considerable evidence of original mint color. This variety also brings over book value, when in top condition. The Newcomb specimen was Uncirculated, with some original red, and realized $155.00. **Plate.** **($50.00)**

5	R-6	$2.50	Over 22; Rev. of A-2, 1823.

1825

2162 **NA-1.** Fine crack at base of date. EF-45. Dark steel color. Ex Proskey and Hines. Superior to the Newcomb example. V. Rare, the rarest 1825. **($25.00)**

2163 **NA-3.** Small A's in legend. MS-65. A superb Uncirculated cent. Glittering golden brown and olive, the reverse with a brilliant touch of orange. "Gems" of this caliber are worth far more than book value. The Guidebook lists this "type" at $45.00 in Uncirculated. From a Raymond sale of 3/30/20, later, from Hines. **Plate.** ($40.00)

2164 **NA-7.** Large A's in legend. MS-65. Another magnificent beauty. Iridescent olive and golden brown, the reverse with considerable mint red. Lists at $47.50 as a type. Ex Hines coll. **Plate.** ($43.50)

2165 **NA-8.** Small A's. VF-30. Glossy medium brown. H.K.D. graded this piece as EF-40. ($6.00)

2166 **NA-10.** Large A's. AU-50. Red brown, with traces of original color. Really rare, and far above average. Ex Proskey and Hines. R-4. ($25.00)

2			Unknown. Obv. A-1; Rev. A-4.
3	R-2	.20	
4	R-3	.25	N-4½ is apparently rare.
5	R-1	.15	Also N-5½.
6	R-2	.20	Have never seen N-6¾.
7	R-2	.17	Barely R-2.
8	R-1	.15	N-8½ and N-8¾ are rare.
9	R-3	.25	State IV; only two are known. A N-9½, with the conventional double profile, is semi-unique.

1827

2168 **NA-11.** Uncirculated; MS-60. Lustrous golden brown; traces of obverse tarnish. A common variety, but popular and rare in Mint condition. Listed in the Guidebook at $20.00 Unc. ($15.00)

2169 NA-11. Another. AU-50. Beautifully struck, with a proof like olive surface, and a few minute obverse handling defects. Newcomb erroneously lists this variety as R-5. ($5.00)

2170 **N-12.** MS-60. Uncirculated, but the obverse shows minor evidence of contact with other coins, and there is almost invisible cabinet friction upon the highest spots. Nicely struck and centered; lustrous medium brown. The Newcomb example was only Fine. A splendid example of an extreme rarity. ($30.00)

11	NC-1	—	We have never seen a specimen.

1831

2176 **NA-3.** Small letters. Glittering light red **Proof.** Perfectly centered and well struck, with a gorgeous iridescent surface. This is believed to be the Dr. French specimen, and was in the Henry Hines collection for a good many years. H.K.D. marked it "Excessively Rare." We are inclined to agree. Newcomb did not know of any proofs from these dies. ($85.00)

2177 **NA-9.** Large letters. The excessively rare sub-variety with severe obverse breaks; a large piece of metal is missing from the third to fifth stars. VF-35. Lustrous light brown. An Extremely Fine cent with one or two light scratches, particularly upon the reverse. The first that we have seen, and probably the specimen that Newcomb used for the description, top of page 78. Ex Hines coll. ($12.50)

2178 **N-12/3.** Extremely heavy obverse break to the right of date. Good-6. Steel. Ex. Rare. ($4.50)

2179 **N-14.** Large letters. VF-35. Flatly struck on top of bust, and at bottom of wreath. Mostly light brown. Very rare, and not in the famous Newcomb collection. Ex Hines coll. ($12.50)

7	R-7	—	Possibly R-8. Only Proofs known.

1835

2186 **NA-1.** Large date and stars. MS-65. A splendid Uncirculated cent, with only a minute nick or two, upon the bust, to mar its beauty. Mostly full mint red. Another piece worth in excess of the book value. Ex Hines coll. ($15.00)

2187 **NA-5.** Small date and stars. MS-60. Iridescent pink and steel. Unusually clean, attractive and sharp. A superb piece, one of the best that we have seen. Ex Praskey and Hines. **Plate.** ($15.00)

2188 **N-16.** Type of 1836. MS-60. Uncirculated, but not struck up. The borders nicely milled. Lustrous light brown with traces of mint color, and three minute spots upon the reverse. ($8.50)

1839

2193 **NA-4.** Silly head, line under CENT. MS-60. Light brown and red, slightly mottled with steel. A choice example of this popular coin, which lists in the Guidebook, as a "type," at $22.50. Purchased from the catalogers. In great demand. **Plate.** ($18.50)

2194 **N-11.** Booby head, no line under CENT. MS-65. A beautiful olive "Gem," but some fool has scratched a small "X" type mark in the left obverse field. Mr. Downing had a particular regard for this piece and always liked to display it. Not as impaired as the description suggests. Ex Hines coll. ($10.00)

Newcomb-Andrews No.	Rarity	Basal Value	Remarks
1	R-4	$3.00	The so-called 1839 over '36. Brings double book value above VF. The W.A.P. Thompson sale, 1915, had a hoard of twenty-eight specimens.

14	R-5	.40	Booby head.

2195 **1840.** NA-2. Small date; 8 double struck. MS-65. Mostly red. Lists at $12.00 so, in the Guidebook. ($10.00)

2196 **1841.** NA-1. Brilliant red **Proof.** Almost perfect, with slight indications of tarnish upon the obverse. Equal to the Pearl specimen which was sold for $65.00. Ex Hines coll. **Plate.** ($55.00)

2197 — N-7. Mint State-60. Magnificent iridescent olive; flecked with russet. H.K.D. marked this variety as rare. Ex Hines coll. ($10.00)

2198 **1842.** NA-1. Small date. Choice iridescent **Proof.** Minute rim bruise, at the top of reverse. Sharp and perfectly centered. A very pretty and rare coin. Neither Pearl nor Newcomb had a specimen of this date in Proof. Exceedingly rare, in fact equal in actual rarity to that of any cent. The only other Proof example is in the Mint collection. Ex Hines coll. **Plate.** ($50.00)

2199 — NA-6. Large date. Uncirculated; MS-65. Glittering olive and red, with considerable mint lustre upon the reverse. From a U.S. Coin Co. (W. Raymond) sale of 2/10/15; later, from Hines. ($7.50)

2200 **1843.** NA-4. The famous Obv. of 1842; Rev. of 1844. MS-65. A splendid Uncirculated cent. Almost completely red, but beginning to tone evenly to a lustrous red brown. Decidedly superior to the French, Pearl, Newcomb examples. Very rare in this superb preservation. **Plate.** ($30.00)

2201 — Unlisted. Obv. of 1842; Rev. of 1842. Mr. Downing marked this piece N-10. It is similar to NA-3, but the 8 in date is further left than on either A-3 or N-10, and this has die file scratches, back of the head. MS-65. Medium brown, with considerable iridescence. From a 1936 Morgenthau sale, later, from Hines. V. rare. ($10.00)

2202 **1845.** N-9. Variety with a mole on the upper lip. MS-60. Lustrous red brown. ($6.00)

2203 **1846.** NA-8, NA-12 and NA-13. Small (1) and tall dates. The last has an undescribed rim break at the top of the reverse. AU-50 to MS-60. Light and dark brown, the first with some reverse red. Nice lot, one uncommonly rare. 3 Pcs. ($15.00)

2204 **1847.** NA-1. A **Freak.** Struck far off center to the left. Also, N-34. AU-50 and MS-65. The last, a superb and scarce piece, was lot #1908 in the famous G. M. Parsons collection, 1914. Two nice items, formerly in the Hines coll. 2 Pcs. ($12.50)

2205 **1848.** N-18. The excessively rare variety with the obverse die cracked completely across twice. AU-50. Almost Uncirculated, but the obverse has been mishandled somewhat, apparent at the jaw and neck of Liberty. Lustrous light brown. Ex Proskey and Hines. H.K.D. claimed that only one other was known. This is actually the NC-1 for the year. ($20.00)

2206 — NA-1, N-25 and N-35. AU-50 (1) to MS-65. Lustrous red and olive brown. A nice lot, the first rare. 3 Pcs. ($12.00)

The Excessively Rare Small Date Cent of 1848

2207 **Obverse.** The figures in the date are much smaller than on any of the regular issues. The numeral 1 has a flat top; 84 almost touch each other; 4 without crossbar at end of horizontal; point of curl under bust does not turn down towards 8; shape of head differs from all Liberty heads; the nose is straight and heavy; stars smaller, the eighth, tenth and twelfth being badly formed. **Reverse.** All letters are differently formed, and are widely spaced. The letters in ONE CENT are taller, and not uniformly placed; NT below CE; right base of T rests upon a leaf. The die work is especially crude on the leaves at lower right of wreath, and at junction of wreath and stem. Copper. Struck from dies. The workmanship is hardly the regular standard of the U.S. Mint. This variety has been called the "Late Date Jefferson Head." Fine. Struck slightly off center, having an uneven border. Attractive medium brown surface, showing only slight signs of handling. The second finest of the four known examples. Illustrated on Plate XI of Newcomb's famous work. One of the most interesting cents in the entire series, as no collection can really be considered complete without this piece. Of the greatest rarity, and well worth a good price. **Plate.** Mr. Downing was very proud of his specimen, and valued it at— ($250.00)

The above described example was the "Discovery" piece. It supposedly first appeared in the J. N. T. Levick sale of May 29, 1865. Six years later, it was in the Edward Cogan sale of Nov. 13, 1871. At that time, it was believed purchased directly by Larin G. Parmelee, in whose collection it was sold as lot #1196, and illustrated at the bottom of Plate 10. Later, it reappeared as lot #251 in the Peter Mougey collection, sold by T. L. Elder, September, 1910. In that catalog, it can be found illustrated on Plate XIX. Elder withdrew it from the sale, and the cent finally went into the collection of David Proskey. Henry C. Hines purchased it from him, and Homer Downing obtained it from Hines. The second known specimen appeared in the Spring of 1939. It was discovered by B. Max Mehl in the W. B. Hale collection, and is presumably still owned by Mr. Mehl. Authorities consider it the finest extant. The third piece was discovered a few months later, and for forty years had laid in the cabinet of Dr. W. E. Chapman. Through the efforts of J. G. MacAllister, it found its way into the George H. Clapp collection, and is now in the A.N.S. The fourth specimen was unearthed in 1940, and went into the Newcomb collection. It was sold in 1945, and is now the property of a famous Philadelphia numismatist.

2208 **1849.** NA-5, NA-6 and NA-8. The first and last, but particularly the NA-5, have a beveled edge. All approximate MS-60. Red and olive brown. A rare lot, highly valued by H.K.D. Ex Hines coll. 3 Pcs. ($15.00)

2209 **1850.** NA-7 and NA-9. Uncirculated. MS-65. Light brown, with considerable red. 2 Pcs. ($10.00)

2210 **1851.** NA-3. Over 81. MS-70. A "Gem" Uncirculated example of this popular and rare variety. Iridescent olive, tinged with pink upon the obverse. The sharpest impression that we have seen. Ex Hines coll. **Plate.** ($25.00)

2211 — N-19 and N-22. Very Fine-30 and Mint State-60. Last a lustrous golden brown and unusually choice. The N-19 is decidedly rare. 2 Pcs. ($7.50)

2212 **1852.** NA-3, NA-5, NA-13 and N-22. The first is MS-65, and almost fully mint red. The others are AU-50 (2) and VF-30. The NA-13 and N-22 are rare. A desirable lot. 4 Pcs. ($12.00)

2213 **1853.** NA-3, NA-4 (Recut 3), NA-8, NA-18, N-25 and N-26. VF-30 to MS-60. Mostly a [illegible] medium brown. The NA-4 is a R-7 item; we have only seen five examples in all. Interesting and [illegible] lot. 6 Pcs. ($15.00)

2214 — 1853 N-25 and 1854 NA-11. MS-65. Two beautiful Uncirculated cents. Almost full mint red. Uncirculated nice. 2 Pcs. ($8.00)

2215 **1854.** NA-12. Red and steel **Proof.** Somewhat iridescent, the reverse well toned, and not in [illegible] Partial wire edge. Ex Hines coll. Extremely rare. **Plate.** ($45.00)

2216 **1855.** NA-9. The "Knob" variety. Small, high die break over ear. MS-65. A red Uncirculated example of this popular piece. Ex Hines coll. ($10.00)

2217 — NA-10. Slanting 5's. Glittering pink and steel iridescent **Proof.** Mostly brilliant and [illegible]. From the collection of T. James Clarke. Extremely rare. **Plate.** ($40.00)

2218 — NA-10. Another **Proof**. A superb multi-colored beauty, the reverse well toned, as usual. This piece has an imperceptible rim defect upon the reverse, which did not bother either Mr. Hines or Mr. Downing. Extremely rare. ($37.50)

2219 — 1855 NA-8 and 1856 NA-2. VF-30 and MS-60. The last is a lustrous light brown. NA-8 of 1855 is extremely rare. 2 Pcs. ($8.00)

2220 **1856.** NA-5. Superb square edged **Proof**. The obverse is a rich brick red; the reverse olive and steel. Ex Hines coll. Extremely rare. **Plate.** ($40.00)

2221 — NA-5. Another **Proof.** Somewhat more brilliant than the last. The obverse is a brighter red, with slight indications of tarnish. The reverse, as on the preceding, is an iridescent olive and steel. Also from the Hines coll. Extremely rare. ($40.00)

2222 **1857.** NA-1. Large date. MS-60, but with a minute obverse rim nick, below the date. Glossy light brown. Scarce and popular. ($10.00)

2223 — N-3. Small date. Choice red **Proof.** This superb piece has a partial wire edge, and a magnificent iridescent surface. N-3 is an R-6 variety. Extremely rare. **Plate.** ($50.00)

2224 — N-3. Another **Proof.** An excellent mate for the last, but this piece is an iridescent purple color. The appearance of duplicate Proofs in this collection, does not indicate any lack of rarity. Mr. Downing acquired and retained every available specimen. Ex Hines coll. Extremely rare. ($50.00)

2225 — N-5. Small date. Brilliant red "Gem" **Proof.** By far the finest Proof Large Cent we have ever seen. Few Proof "Pennies" have survived in this preservation, and many of those have been tampered with. This beauty was purchased by H. Hines at the Morgenthau sale of 6/16/42, where it was lot #372. H.K.D. later obtained it from Mr. Hines. Extremely rare. **Plate.** ($100.00)

Notes on the Late Date Cents: 1840-1857

1840. Proof A-2; N-12 and N-13 are apparently sub-varieties of each other, and of A-1.
1841. Proof A-1; N-7 is considerably rarer than the other varieties.
1842. Proofs A-1, A-3; N-8 is quite rare, probably a R-5.
1843. Proof N-14; A-4 and N-13 are the same variety, and an intermediate state exists.
1844. Proof A-1; A-4 is reported in Proof. A-4, A-5 and N-7 are rare. A-6 is scarce. There are two unlisted varieties, one being found only in Proof.
1845. Proofs N-8, N-14; the last Ex. Rare. A-6 is rare; N-7 more so. N-11 and 13 are rare, the last extremely so, with the breaks. Several unlisted varieties exist.
1846. Proofs A-1, A-10, N-19; a new variety, Obv. N-17, Rev. Perfect, also exists in Proof. A-7 is scarce. A-13, 14; N-15, 16, 20 and 21 are more or less rare.
1847. Proofs A-1, A-13, N-25; Also one unlisted in Proof. N-17 is at least R-6. N-24 and N-25 are both sub-varieties of A-9. N-33 is a sub-variety of A-3. N-36, if it exists, is R-8; have seen two specimens of a muling of Obv. N-16, Rev. A-10, which may be N-36. N-31 is rare; N-39 V. Scarce. As in 1846, several unlisted varieties exist.
1848. Proofs A-8, N-19; A-1 is R-6; N-15 is R-5; N-18 is NC-1; N-29 is possibly R-5. Have never seen N-33 or N-34.
1849. Proofs A-1, N-18; A-2 and N-24 are probably the same in perfect dies. N-19 is rare.
1850. Proof A-11; N-21 is at least R-6. As in 1849, several unlisted varieties exist.
1851. No Proofs known. N-20 and N-28 may be from the same dies. N-25 is the same as N-34.
1852. Proof A-8; N-22 is very rare, more so than A-13. N-16 and A-5 may be the same.
1853. Mickley had a Proof. A-4 is R-7; one specimen has a heavy rim break between twelfth and thirteenth stars. A-7 is rare; A-18 is V. Scarce; N-21, 23 and 29 are scarce. N-30 is rare. There are unlisted varieties.
1854. Proof A-12; A-10 and A-14 are at least R-4. N-19 is rare, and N-22 scarce.
1855. Proofs A-10, N-11; the latter rare in any condition.
1856. Proofs A-5, A-7.
1857. Proofs N-3, N-5; N-4 is not much rarer than A-2 or N-5.

MASSACHUSETTS SILVER COINS

1652 — TERCENTENARY — 1952

The Property of O. K. Rumbel, Mission, Texas

2362 **Willow Tree Shilling.** 1652. Noe 2-B. Strictly Fine for these crude and unevenly struck pieces. This is the fourth specimen known to Mr. Noe from these dies, and it is the only example with a fully struck up reverse, the date and denomination being unusually clear. As desirable an impression of a Willow Tree as we have seen. If the 1856 Flying Eagle Cent in Proof is worth $175.00, this choice sample of Early Americana is worth every dollar of $500.00. Excessively rare. **Plate.**
2363 **Willow Tree Sixpence.** 1652. Noe 1. Very Good to Fine, but somewhat mishandled and holed. Excessively rare. Lists in Good at $200.00, and Fine at $400.00. Only a few are known.
2364 **Oak Tree Shillings.** 1652. Crosby 1a-D; Wurtzbach 8; Noe 6. Without Shrubs; NEW ENGLAND AN DOM. Fine, but weakly struck on the right hand side of the obverse, and the corresponding part of the reverse. There is a planchet crack and one or two other flan defects on the left edge. Excessively rare, the fourth known specimen of this variety. **Plate.**
2365 1652. Crosby 2-D; W-10; Noe 5. With Shrubs at side of tree; NEW ENGLAND AN DOM. Strictly Fine. A clean, sharp example. **Plate.**
2366 Another. Abt. Fine. Not quite the equal of the last.
2367 Still another. The obverse is badly worn, the reverse Good. The date and denomination are sharp and clear, but the tree and legend are only partly discernible. This may have been used as a "Witch piece."
2368 1652. Crosby 4-C; W-12; Noe 9. Without Shrubs; NEW ENGLAND AN DOM. Strictly Fine. An exceptionally clean and desirable piece, the flan impaired at the right. We note a few minor defects, including a minute punch mark at the bottom of both sides. Altogether, a nice coin, and one that should be seen.
2369 1652. Crosby 7-B; W-17; Noe 14. The Spiney Tree; NEW ENGLAND AN DOM. Abt. Good. A worn, but acceptable shilling, with a slight scratch to the right of the 2 in date. Worth $22.50.
2370 1652. Crosby 9-H; W-20; Noe 1. Legend begins at upper l.; NEW ENGLAND AN DOM. Almost Very Fine. Mostly sharp and clear, but not well centered. The planchet is slightly clipped, and the flan is imperfect in two spots upon the reverse. A nice example of a true "Type" coin, which will be listed as such in the next edition of the Standard Catalog. Worth well over $50.00. **Plate.**
2371 **Oak Tree Sixpences.** 1652. Crosby 1a-D; W-22; Noe 20. MASATHVSETS IN; NEW ENGLAND ANO. Just about V. Fine. A well struck and evenly centered example of a real rarity. Only four pieces are known to the A.N.S. **Plate.**
2372 1652. Crosby 1b-D; W-23; Noe 22. Legends as on the last. V. Good to Fine, but somewhat mishandled, with a short scratch across the tree, plus one or two other slight defects. Rare.
2373 1652. Crosby 1c-D; W-24; Noe 21. Similar type. Good to V. Good. More or less imperfect, and like the last, this may have been a "Witch piece." Scarce.

2374 **Oak Tree Threepences.** 1652. **Unlisted.** Obv. MASATHVSETS. IN. Rev. Crosby C, Noe 28, badly broken Fine, but upon an uneven planchet, and off center, particularly upon the obverse. The finer of only two specimens known, and the identical coin illustrated in the January, 1952 Numismatist, p. 45. An exceedingly valuable and desirable item, the other example holed. Well worth $150.00. **Plate.**

2375 1652. Crosby 6-C; W-33a; Noe 28. MASATHVSETS; Legend begins at lower l. Almost V. Good Obverse worn, the planchet small. Hardly a Rarity 6 variety.

2376 **Oak Tree Twopences.** 1662. Crosby 1-A1; W-34; Noe 31. Fine. Nicely centered and evenly struck. A desirable little coin, and well worth full list of $25.00.

2377 Another. Fine or better, but neatly holed between E and T of MASATHVSETS.

2378 1662. Crosby 1-A2; W-35; Noe 29. Fine, but upon a rough and uneven planchet. This piece has been cleaned

2379 **Pine Tree Shillings.** 1652. Crosby 1b-D; W-39. The Normal Tree; MASATHVSETS IN. Extremely Fine. Slightly clipped, as usual, but a choice, lustrous example of a large size type. **Plate.**

2380 Another. Struck upon a larger planchet than the preceding. Fine to V. Fine, but the flan is severely cracked at the bottom. Still, a nice specimen. Valued at $50.00.

2381 1652. Crosby 2a-A1; W-40. MASATHVSETS IN; NEW ENGLAND AN DOM. Fine to V. Fine, but somewhat clipped. A clean, attractive coin, but with a peculiar planchet defect at the top. Wurtzbach called this variety Rarity 4.

2382 1652. Crosby 5-B2; W-44. The Normal Tree; MASATHVSETS IN. Almost V. Fine. A large, sharp piece, with one or two minor defects. Worth at least $50.00. Scarce. **Plate.**

2383 1652. Crosby 12-I; W-47. Small tree with berries; NEW ENGLAND AN DOM. Abt. V. Fine. Struck upon a broad, full planchet. Slightly clipped, and with one or two unimportant imperfections. A really nice large size Shilling. **Plate.**

2384 Another. Almost Very Fine. Not quite as sharp as the preceding, but a beautiful example. Similar pieces have sold as high as $65.00.

2385 Still another. Just about V. Fine. Clipped on each side, which gives this piece a rectangular look. Far above average. One of the most attractive varieties in the series.

2386 **Small size.** 1652. Crosby 14-R; W-49. With double curved branches; NEW ENGLAND AN DO. Fine. The planchet imperfect at bottom. Wurtzbach also called this variety R-4.

2387 Another. Very Good. This planchet is defective, and slightly clipped at the lower left side of the obverse, as well as on the corresponding part of the reverse. A $25.00 coin.

2388 1652. Crosby 21-L; W-58. The Small tree; Legend begins almost opposite XII. V. Good. Weak at the top on both sides, and slightly mishandled at the bottom edge.

2389 Another. A Fine, and nicely centered piece. However, somebody has mistreated this coin, and careful examination reveals a few slight dents. Hardly as bad as the description sounds.

2390 1652. Crosby 22-L; W-59. Same type as the preceding. Very Fine, but weakly struck at M upon the obverse, and A in AN upon the reverse. Worth at least $35.00.

2391 1652. Crosby 23-L; W-60. The Normal tree; Legend begins almost opposite XII. Good to V. Good. Badly clipped, and with a small punch mark or so upon both sides. Excessively rare, the fourth specimen extant.

2392 1652. Crosby 24-N; W-62. MASATHVSETS IN; Legend begins at lower l. Fine to V. Fine. A sharp piece, but appears to be evenly clipped all the way around. Wurtzbach called this variety excessively rare, which is somewhat of an exaggeration. However, it is a decidedly rare type, and will catalog at $40.00 in only Fine. **Plate.**

2393 **Pine Tree Sixpences.** 1652. Crosby 1-A; W-64. Tree with berries; NEW ENGLAND ANO. Strictly Very Fine. A sharp, attractive example. Worth $40.00 or more in this condition. **Plate.**

2394 Another. Fine to V. Fine and sharp. Struck upon a warped flan. There are three short and light scratches to the left of the tree, but these do not materially affect the appearance of the piece. Slightly clipped, but a good looking coin, and worthy of a home in any collection.

2395 **Pine Tree Threepence.** 1652. Crosby 1-A1; W-68. Tree with berries; NEW ENGLAND. Strictly Fine. The planchet uneven, and somewhat clipped. A rare type, which will list at $25.00 in Good, and $40.00 Fine, in the 1953 Standard Catalog.

MISCELLANEOUS U. S. COLONIALS

The Property of various consignors

RJC

2396 **Mark Newby Silver Farthing.** (1678-80) Kneeling King, facing l., playing the harp; Crown above. FLOREAT :REX. Rev. St. Patrick, carrying a metropolitan cross; church at right. QVIESCAT PLEBS. Struck upon a wide full planchet from the dies, which, according to Crosby, are only known in Silver. Very Fine. Slightly superior to the specimen in our 35th sale that, in conjunction with the regular piece in copper, brought $77.50. Uncommonly rare and desirable. **Plate.**

NN

2397 **Rare London Token.** (1694) Elephant facing l. Rev. Shield, stars above and below. LON DON. Betts 82. Fine to V. Fine. Struck upon a thin and somewhat defective planchet, appearing particularly granular on the upper right side of the reverse. This variety, entirely different than the commoner piece which follows, will appear in the new edition of the Standard Catalog. Extremely rare. Ex Hall, Brand collections. **Plate.**

BALDWIN

2398 Regular London Token. (1694) Similar to the last, but GOD PRESERVE LONDON. Struck on a very thick planchet. Extremely Fine, with traces of mint lustre. Unusually choice, and well worth $1[illegible]0 in this condition.

NN

2399 1723. Rosa Americana Twopence. Abt. Uncirculated. Light olive and brown. The planchet is somewhat defective at the bottom of the reverse, which does not mar the general appearance of the coin. Ex Gibbs coll. Cost $15.00.

BALDWIN

2400 1723. Twopence. Another, like the last, but Extremely Fine. The reverse has a peculiar tan and [illegible] surface common to Bath metal. Also, 1722. Penny. Very Fine. Struck on a granular and somewhat defective flan. Above average. 2 Pcs.

2401 1722. Rosa Americana Halfpenny. Obv. Legend reads GEORGIUS D G REX instead of the conventional DEI GRATIA REX. Crosby 2; No. 7, Pl IV. The edge has a filed surface which almost resembles reeding. Abt. Ex. Fine. Well struck, and almost the equal of the piece in our 36th sale. Rare

2402 **Pattern Wood's Halfpenny.** 1722. Laureate head of George I to r.; the neck disproportionately long. GEORGIVS D : G : REX. Rev. Facing figure of Hibernia seated, holding a harp, and looking to the right at a mass of rock. HIBERNIAE. Date below. Nelson No. 1; See Pl. I, No. 1. Very Fine. Struck upon a wide, full flan, the planchet showing a number of minute granular defects. This is a variety of the famous "Rock Halfpenny" and was originally in the Charles C. Clapp collection. Later, it passed into the possession of H. D. Gibbs. The envelope states that Mr. Clapp paid $180.00 for this piece. Extremely rare. **Plate.**

2403 1722. Wood's Halfpenny. First type; harp at left. Very Fine or better; somewhat weakly struck. Nice lustrous, light brown surface, but with one or two unimportant reverse edge defects. Ex C. Clapp, H. D. Gibbs colls. Rare, and undervalued.

2404 1723. Wood's Halfpenny. Uncirculated olive. On a large, full flan with bold, strong borders. Not fully struck up in the center, but a splendid example. Ex Gibbs coll.

2405 1785. Vermont Cent. VERMONTIS. Richardson No. 4; R-3. Fine to V. Fine. A sharp, but rather unevenly struck piece. The date and all of the legends are unusually clear. Ex Harley, Chapman, Gibbs. Marked $18.00. Rare, and difficult to locate.

2406 Connecticut Cents. 1786. Mailed bust I. Also, 1787. Draped bust I. Last struck twice with two entirely separate die impressions. Abt. Fine. Unusual pair, the second should be seen. Ex Hall, Brand colls. 2 Pcs.

2407 **Rare Kentucky Cent.** (1790) Hand with scroll inscribed OUR CAUSE IS JUST. UNANIMITY IS THE STRENGTH OF SOCIETY. Rev. Pyramid of stars, radiant, top one "K" for Kentucky, hence general assignment of this type to that state. E PLURIBUS UNUM. Edge lettered PAYABLE AT BEDWORTH NUNEATON OR (HIN) KLEY. Struck upon a wide and broad planchet. Extremely Fine, with slight signs of handling. Dark olive brown. See Crosby, p. 343, also the Dr. Clay (1871), Parmelee (1890), and Jenks (1921) collections. By far the rarest of the Triangle tokens. Ex George Clapp and H. D. Gibbs, at a cost of $40.00 and $35.00, respectively. Believed unique. We do not know of a duplicate.

2408 Kentucky Cents. (1790) Identical to the preceding, but with plain edges. Large (31mm) and Small (28mm) planchets. Extremely Fine and Very Fine. A most unusual pair. The small one is the first that we have seen, and is undoubtedly quite rare. 2 Pcs.

2409 **Cholmer's Threepence.** 1783. Extremely Fine. Somewhat off center, as usual, with a planchet defect on the upper right side of the obverse that shows upon both sides. Almost the equal of the specimen in our 36th sale that sold for $90.00. Ex Wurtzbach, Brand colls. V. Rare. **Plate.**

2410 Massachusetts buttons. Two with Indian standing, holding arrow and bow; * at AC of legend: 17 & 25mm. Another, Coat of Arms: 22mm. Also, (U.S.) Standing Eagle and Shield surrounded by sixteen stars: 23mm. First three with original shanks. V. Fine and Ex. Fine. An old and splendid lot, from the Dr. Hall collection. Rare. 4 Pcs.

2411 New Jersey Cents. 1786. Maris 15-T. V. Good or better, and rare. Also, 1787. Maris 6-D. Very Fine. Dark brown. Minor reverse edge bruise. Purchased from Henry Chapman as Ex. Fine. 2 Pcs.

2412 Another pair. 1786. Maris 14-J. Also, 1787. Maris 63-s. Very Fine. Unusually nice. 2 Pcs.

2413 **EXCELSIOR Cent.** 1787. **Eagle facing left.** Crosby Obv. 3; No. 22, Pl. VII. Fine to Very Fine. An unusually sharp example of this rarity which is generally found well worn. Both sides show a number of slight handling defects, including an unnoticeable nick at the base of the eagle's neck upon the reverse. This specimen is from the Wurtzbach, Brand colls., and was valued at $100.00, several years ago. Uncommonly rare. **Plate.**

2414 **NON VI VIRTUTE VICI Cent.** 1786. Bust of Washington, in uniform, facing the r., legend around. Rev. A seated figure of Liberty, facing the r., holding the scales of Justice and supporting a staff and Liberty cap. NEO EBORACENSIS; date below. Crosby Fig. 60; No. 4, Pl. VIII: Baker No. 13. V. Good to Fine. Poorly struck, as almost all are, upon a defective and cracked planchet. Dark brown color. The edge shows signs of handling, but this is a clean and acceptable specimen of a great rarity. Believed to have cost $130.00, several years ago. **Plate.**

2415 **Continental Currency Dollar in Bross.** 1776. CURENCY variety. Similar to the Appleton example, in that the rings upon the reverse are beaded, and partly cut into lines. Comma under the N in AMERICAN, changed into a period upon the commoner Pewter pieces. See Crosby, p. 305. Almost Fine. Extremely rare, far more so than is generally known: Well worth $250.00 or more. **Plate.**

THE EXCESSIVELY RARE "AMERICA" CONFEDERATIO CENT

2416 1785. Cent. Indian, holding a bow and arrow, standing beside an altar; a quiver of arrows upon his back, his right foot resting on a crown. INIMICA TYRANNIS AMERICA. Rev. A cluster of thirteen large stars within a glory of rays; the large circle of stars reverse. CONFEDERATIO, date below. Crosby Obv. 1, Rev. A; No.13, Pl. VII. Fine to V. Fine, with slight planchet granulation. Somewhat weakly struck in the center of the reverse, but a splendid lustrous, steel colored specimen struck upon a wide, full flan. Only five or six impressions are known of this crudely struck Pattern, of which this is one of the finest. It is superior to the Parmelee and Mougey pieces; almost the equal of the G. Clopp, A.N.S. example and inferior, as all are, to the superb coin in the collection of Eric Newman. We have never seen the Ellsworth, Garrett specimen, now in the Johns Hopkins University collection, which may well be either the Parmelee or Mougey examples. Excessively rare, one of the greatest and most desirable Colonial rarities. Our photograph does not do this piece justice. **Plate.**

This variety is rarer than the type with "Americano" and a small circle of stars reverse; Crosby Obv. 2, Rev. B. A Very Fine example of the latter sold for $800.00, as lot #374, in the celebrated Stickney sale, 1907. The coin offered above was sold to W. C. Newcomer by H. Chapman. B. Max Mehl handled the Newcomer Colonials, selling the piece to Col. E. H. R. Green. It was later purchased by B. G. Johnson, from the Green estate, and in time, sold to Jim Kelly. Kelly sold it to R. Prann of Puerto Rico, who in turn, sold it to Allen Harper. Mr. Harper sold it back to Kelly, who then sold it to the cataloger. This great rarity later passed into the hands of a Brooklyn collector, Mr. L. Horowitz, who, having lately given up interest in Early Americana, disposed of the coin to a noted dealer who now consigns it to our hands for sale.

2417 Pitt Halfpenny. 1766. Very Fine. Attractive light brown color. Lists at $7.50 in only Fine

2418 1783. GEORGIUS TRIUMPHO. Strictly Very Fine. Also, 1794. Franklin Press Cent. Perfect obverse die. Uncirculated; with considerable mint lustre. Nice pair, the last scarce. 2 Pcs.

2419 1794. Franklin Press Cent. Broken obverse die. Abt. Uncirculated; lustrous olive color. In addition, 1795. Washington Grate Cent. Diagonally reeded edge. Uncirculated. Partly red. Unusually choice. 2 Pcs.

2420 **Washington Pieces.** 1791. Cent. Small eagle on reverse. Ex. Fine. This specimen has two or three handling defects, including a minute reverse nick upon the shield. Scarce.

2421 Another. Very Fine, but slightly mishandled, particularly upon the edges. Worth $10.00.

2422 **Liverpool Halfpenny.** 1791. Bust of Washington left as on the large eagle cent. WASHINGTON PRESIDENT, date below. Rev. Ship sailing right, crossed branches beneath. LIVERPOOL HALFPENNY. Heavy die break or lump at the top of the mainmast, to the immediate right of H in HALFPENNY. Crosby Obv. 1, Rev. B, No. 6, Pl. X. Very Fine. Struck upon a small, constricted planchet, as generally found. Slight chip out of the flan at the lower right side of the obverse, and the corresponding part of the reverse. Very rare. A specimen realized $110.00 as lot #3275 in Woodward's March, 1865 sale. **Plate.**

2423 1793. Ship Halfpenny. Fine to V. Fine, but with minute nicks or pit marks, particularly upon the obverse. A glossy brown color. Also, 1795. LIBERTY & SECURITY Halfpenny. Almost Fine. The first quite scarce. 2 Pcs.

2424 **Roman Head Cent.** 1792. Undraped bust facing the right, filleted. WASHINGTON PRESIDENT, date below. Rev. Small Eagle, with upraised wings, on his breast a shield, in his talons an olive branch and bundle of arrows. About his head, six stars; above, CENT. Lettered edge, UNITED STATES OF AMERICA. Crosby Obv. 1, Rev. A; No. 9, Pl. X: Baker No. 19. Struck as a Proof. A beautifully toned example with a superb light brown and partly iridescent surface. Less than a dozen specimens known. The record price paid for this magnificent coin was $480.00 in the sale of the John F. McCoy collection, May, 1864. The same piece was later in the Woodward sale of March, 1865, and sold for $400.00, later appearing in the sale of the Lightbody collection, where it realized $255.00. Even though the Dollar is worth considerably less today, the choice specimen at hand should at least realize $275.00. Ex. Rare. **Plate.**

2425 **Washington Half Dollar in Silver.** 1792. Clothed bust of Washington facing l. G. WASHINGTON. PRESIDENT. I. Date below. Rev. Eagle with shield on breast; olive branch and bunch of arrows in talons; fifteen stars above. UNITED STATES OF AMERICA around. Plain edge. Struck on a small, thick and rather compact planchet of 32mm. Crosby Obv. 4, Rev. E; No. 8, Pl. X. Obverse almost Good with a small attempted puncture in the left field together with a few other slight defects. Rev. Strictly V. Good or better. Very rare. **Plate.**

2426 **Washington Half Dollar in Copper.** 1792. Similar to the last, but the edge ornamented with circles and squares. Struck upon a broad, thin planchet of 34mm. Abt. V. Fine, but slightly weak in the center. The edge is unfortunately bruised upon both sides. Crosby considered this variety unique, in that he only knew of the Fonrobert specimen. We only know of one other, that being the Parmelee example sold in 1890, which was Fine and plugged, and is now part of the W. S. Appleton collection in the Massachusetts Historical Society. Extremely rare. **Plate.**

Both of the last were designed and struck by Peter Getz of Lancaster, Pa., a self taught, but highly skillful mechanic and engraver. It is generally believed that the above represent Patterns which Getz submitted in an attempt to qualify for the engravership of the Mint, or to obtain a Governmental coinage contract. It is certain that they are the only coins of the period which follow exactly the letter of the (Senate) Act which was revised into the Law of April, 1792, establishing the Mint. It is oddly coincidental, that the edge ornamentation of the Copper piece should closely resemble the edges of the regularly issued Dollars and Halves of 1794. Likewise, a close resemblance may be noted between the reverse design of both specimens and the "Heraldic Eagle" type of the regular issues, struck a few years later.

COMPLETE SET OF PROOF TWO CENT PIECES

2427 **1864 to 1873.** Complete set of Two Cent pieces, including both varieties of the 1864, all in choice Proof condition. The rare "Small Motto" is a splendid medium red brown color, and not the dark iridescent brown generally found. All the others are almost fully brilliant and only two or three display any degree of toning or tarnish. There is a minute spot upon the reverse of the 1873, but it does not materially alter the appearance of that rare date. Decidedly above average, as this series has a tendency to darken and become dull. Mounted in a small Raymond album page. Lists at $327.50 in the 1951 Standard Catalog. 11 Pcs.

NICKEL THREE CENT PIECES

The Property of a New York Collector

2428 1866. Proof. Almost fully brilliant, lightly tarnished upon the obverse. Lists at $10.00

2429 1867. Proof. Mostly brilliant, but lightly toned upon the reverse which also shows one or two insignificant defects. Lists at $7.50.

2430 1868. Brilliant Proof. Just about a "Gem" and worth full catalog of $8.50 so

2431 1869. Brilliant Proof. Another top grade coin. Like the last. lists at $8.50

2432 1870. Proof. Partly brilliant. Lightly tarnished upon both sides. Lists at $8.50

2433 1871. Proof. Almost in full brilliancy. Scarce, lists at $12.50

2434 1872. Brilliant Proof. Easily removable, minute reverse tarnish spot. Another $8.50 coin

2435 1873. Brilliant Proof. Light, uniform toning. Catalogs at $7.50

2436 1874. Brilliant Proof. As nice as they come. Decidedly uncommon. Worth $1[illegible]

2437 **1875.** Brilliant Proof. Traces of tarnish. Rare. Lists at $17.50

2438 1876. Proof. Mostly brilliant with light, even tarnish and one or two microscopic defects. Becoming quite scarce. A $10.00 coin.

2439 **1877.** Proof. The obverse is almost fully brilliant, but the reverse is somewhat dull and the planchet shows a number of minute granular defects. Another example of how difficult Nickel is to work with. The rarest date in the series.

2440 **1878.** Brilliant Proof. The second rarest date in the series. Catalogs at $20.00.

2441 1879 and 1880. Brilliant Proofs. Now list at $5.00 each. 2 Pcs.

2442 1881 and 1882. Brilliant Proofs. The reverse of the first is also slightly granular. Otherwise, both are "Gems." Worth $8.50. 2 Pcs.

2443 1883 and 1884. Brilliant Proofs. The reverse of the 1883 is also slightly defective, due to striking difficulties, which is the way many of these coins are found. List at $7.50, a slight increase over the 1951 catalog. 2 Pcs.

2444 1885. Brilliant Proof. Rather scarce, as it now lists at $6.00.

2445 1886. Brilliant Proof. Slightest traces of toning. Catalogs at $5.00.

2446 **1887/6.** Brilliant Proof. Minute indications of tarnish. Rare, catalogs at $25.00.

2447 **1887.** Brilliant Proof. Traces of tarnish. Lists at $15.00 and is one of the most difficult dates in the series.

2448 1888 and 1889. Brilliant Proofs. Now list at $3.50 each. 2 Pcs.

A SELECTION OF COLONIAL & OBSOLETE CURRENCY; ESSAIS FOR U.S. NOTES; VIGNETTES, ETC.

From the Collection of Wayte Raymond

2449 **Uncut Sheets of Colonial Paper Money. Delaware.** Jan. 1, 1776. British Arms. Printed by James Adams. Four plates of four notes each. Four, Five, Six and Ten Shillings. Obv. and Rev. of notes show on both sides. Signed by J. McKinly; T. Collins; B. Marlowe. Printed upon very heavy, mica and thread impregnated paper. Crisp Unc. Has been lightly folded once, and has two pin holes, at the fold, which do not touch any of the notes. Ex. Rare. Sixteen notes in all, a full sheet. Worth $40.00.

2450 **Rhode Island.** July 2, 1780. Guaranteed by the U.S. Printed by Hall and Sellers, in two colors, red and black. Two plates of eight notes each. One, Two, Three, Four, Five, Seven, Eight and Twenty Dollars. (The complete issue.) Obv. and Rev. of notes show on both sides. Signed by A. Comstock and J. Harris. Printed upon heavy, mica and thread impregnated paper, which has a woven appearance and is watermarked CONFEDERATION in two lines. Crisp Unc. Has been lightly folded once, and has two pin holes at the fold. There is a slight tear at both ends of the crease, as well as a few other odd tears at the edges. None of these touch any of the notes and do not affect the splendid appearance of the whole. V. Rare. Sixteen notes in all, a full sheet. Worth $32.50.

2451 Rhode Island. May, 1786. Arms of the state. Printed by Southwick & Barber. An impression from a full plate, half of a sheet. Six and Nine Pence; One Shilling and Two Shillings, Six Pence. Signed by J. Comstock and L. Allen. Printed upon thin, laid paper. Unc., mostly perfect. Also, a similar block of four South Carolina notes. April 10, 1778. Two Shillings, Six Pence and Three Shillings, Nine Pence; Five Shillings and Ten Shillings. Engraved upon rather coarse paper. Extremely Fine, but with a pin hole between the two left notes and slight fraying at the upper left corner. Last list at $5.00 each in Fine. Rare uncut. Two blocks of four notes each. Well worth $20.00. 2 Pcs.

2452 **Georgia. 1773.** Twenty Shillings. Part of an issue of 4,299 Pounds good only until Sept. 29, 1776 and so stated upon the note. Printed in red and black with seven signatures. Very Fine, but creased and torn at the center which has been expertly mended. A nice, clean note of the most excessive rarity. We have never seen a duplicate.

2453 **State of Massachusetts Bay.** 1777. Mammoth bond or obligatory note. Payable in Spanish milled dollars or specie by June 1, 1780, with six per cent annual interest. "Sword in hand" vignette at upper l.; Ornate border around three sides. Partly signed, with one signature, but without name of payee, number, exact date of issue or definite amount stated. Appears to be copper plate work by Paul Revere. Engraved upon thin, laid paper. Size 8¼x7" with wide margins. Ex. Fine. Hole cancelled in two places. An unusually choice and highly desirable item. Should realize a good price.

2454 Massachusetts Bay. Jan. 1, 1780. Large bond or obligatory note. Issued to J. Record in the amount of 435 Pounds and payable on or before March 1, 1784, with six per cent annual interest. Contains a complicated agreement relative to the variable value of such necessities as Corn, Beef, Sheeps Wool and Sole Leather. Apparently issued to obtain the state's quota for the Continental army. Attractively engraved, but hardly as elaborate as the last. Numbered and signed by the Treasurer, together with two other signatures. Engraved upon thin, laid paper. Size app. 10½x4¾" with close margins. Very Fine, but slightly damaged and reinforced. From the collection of J. E. Morse. Ex. rare.

2455 **Early Obsolete notes.** Two old album sheets containing five early bank notes engraved by Abner Reed of South (then East) Windsor, Conn., circa 1816-17; Also, a note engraved by Amos Doolittle, New Haven, Conn. Attached are three autographed items by B. J. Lossing and Professors Olmstead and Silliman of Yale, 1852-56. In addition, two specimens of the steel and copper-plate engraving of Reed and Stiles and Reed, Stiles & Co., E. Windsor and Hartford, 1820-22. V. Good lot. Ex. rare. 4 Pcs.

2456 Uncut Sheet of four notes; THE CONCORD BANK. $5., $5., $10., $20. Concord, N. Hampshire. Unusuol early Steamboat vignettes. Signed REED. Undoubtedly a specimen sheet, as the notes are unsgd., but bear the written date AUGUST 13, 1817 and E. WINDSOR, CONN. where the signatures of the Cashier and President are usually found. V. Fine. Ex. Rare.

2457 Uncut Sheet of four notes; THE JEFFERSON COUNTY BANK. $10., $20., $50., $100. Adams, New York. The first portrays a map of Northwestern New York state, including the counties of Jefferson, Lewis, Oswego, etc. Signed REED. Unsgd., but like the last, inscribed EAST WINDSOR and CONNECTICUT. V. Fine. Slight stains, due to age. Ex. Rare.

2458 Uncut Sheet of four notes; THE BANK OF MOUNT VERNON. $1., $5., $5., $10. Mount Vernon, Ohio. The last has a central vignette portraying Washington. Signed REED. Unsgd., but like the two preceding, inscribed MAY 21, 1817 and E. W. CONNECTICUT, etc. Abt. V. Fine. Ex. Rare.

2459 Uncut Sheet of four notes; THE REPUBLIC OF COLUMBIA. 1, 2, 3, 5 Pesos. BOLIVAR 182__. Unsgd Engraved by PETER MAVERICK, NEW YORK. Ex. Fine. The first that we have seen

2460 Uncut Sheet of four notes; THE NEW YORK MANUFACTURING CO. $1., $1., $2., $3. New York City, N. Y Interesting vignettes illustrating various novel victories of the War of 1812. Signed LENEY & ROLLINFON Unsgd. V. Fine and mounted. Ex. Rare.

2461 Uncut Sheet of four notes; THE NEW YORK MANUFACTURING CO. $6., $8., $10., $20. New York City, N.Y. Various vignettes. By Leney & Rollinfon, but not bearing their names. Unsgd. Abt. V. Fine. Mounted, like the last. Ex. Rare.

2462 Uncut Sheet of seventeen notes; THE CITY OF CHARLESTON, S. C. All of the 5¢ denomination March, 1862. FIVE on reverse, in red, utilizing six different forms of type. Fine. Folded and somewhat creased. Of unusual interest and value.

2463 Uncut Sheet of five notes; 25¢, 25¢, 50¢, 75¢, $1.00. Syracuse, 1837. Payable in Safety Fund bills. Also, on uncut strip of three odd notes; 12½¢, 37½¢, 75¢. In addition, five satirical notes of the 1878-92 Presidential campaigns and two miscellaneous items, one a duplicate bill of exchange with a California tax stamp affixed. V. Good to Unc. 9 Pcs.

2464 **Vignettes.** Sample folder containing twenty-two pages, reproducing numerous well known vignettes and kindred items. Printed in blue, maroon, green and black. Also, an advertisement of W. L. Ormsby and an original announcement of the formation of the American Bank Note Co., 1858. In addition, two vignettes, one a design for an entire note and the other by the Hamilton Bank Note Co., N. Y. Highly interesting lot. Mostly V. Fine. 5 Pcs.

2465 Mounted plate proof showing the vignettes of Pennsylvania, New Jersey, Virginia and South Carolina as they appeared upon the reverse of the Five Dollar, National Bank Note of the Second Charter period, Series of 1882. Printed in Brown. Ex. Fine. Probably unique.

2466 Three rare vignettes, associated with U.S. Notes. F. B. Morse, dated Jan. 3, 1877; "Chief Onepapa" by G. F. C. Smillie; Columbia and two ships, the central vignette of the reverse of the Ten Dollar, National Bank Note of the Third Charter period, Series of 1902. All in Black. The border of the second is torn, but all three vignettes are perfect. Rare. 3 Pcs.

Dr. Frank A. Limpert tells an interesting story about the "Onepapa" vignette which appeared upon the obverse of the Five Dollar, Silver Certificate, Series of 1899. "The Indian was photographed by the Bureau of Ethnology. He was a typical Indian; his head-dress was three upright eagle feathers. However, when this portrait was tried on the design of the note, the feathers projected too high to look well. A Pawnee war bonnet was procured from the National Museum, but the Indian refused to pose with it, as it belonged to a rival tribe. The bonnet was posed on an employee of the Engraving division and photographed; was cut out and placed on the photograph of 'Running Antelope' (correct name), and engraved in November, 1889. The Indian was a member of the Uncpapa or Hunkpapa Sioux."

2467 **Early United States Notes. $100.** (1814) Aggressive eagle holding large olive branch and arrows, at upper r. Shield, trophies and cannon balls, at lower center. UNITED STATES at top. Space for number and date below. ON THE_____DAY OF_____181___, THE UNITED STATES PROMISE TO PAY TO_____ OR ORDER AT_____ONE HUNDRED DOLLARS WITH INTEREST FROM THE DATE HEREOF UNTIL THAT DAY AT 5 2/5 Pr CENT Pr ANN. IN CONFORMITY WITH THE ACT OF CONGRESS OF 26 DECr. 1814. At right end: RECEIVABLE EVERY WHERE BY THE UNITED STATES IN PAYMENT OF DUTIES TAXES AND PUBLIC LANDS. Unsgd., except for two signatures at the lower right. Printed by Murray, Draper, Fairman & Co. on thin, watermarked, silk paper. Punch (X) cancelled twice. Fine to V. Fine, but slightly creased. Torn somewhat at the lower left and lightly stained at the right fold. Ex. Rare.

2468 **$5.** March 25, 1815. Eagle with shield on breast, holding ribbon with motto in beak, at upper right. UNITED STATES and RECEIVABLE EVERY WHERE, etc., at top. TREASURY DEPARTMENT. THE UNITED STATES PROMISE TO RECEIVE THIS NOTE FOR FIVE DOLLARS IN ALL PAYMENTS TO THEM; OR TO FUND THE AMOUNT AT SEVEN PER CENT INTEREST, ON REQUEST; AGREEABLY TO THE ACT OF CONGRESS OF FEBy. 24, 1815. Unsgd. Printed by the same firm as last, on the same paper. **An unsevered pair;** each note punch (X) cancelled. V. Good, somewhat wrinkled and stained. Ex. Rare.

Both of the preceding are a part of a series of notes issued in 1812, 1813, 1814 and 1815. The War of 1812 and the resulting economic crisis forced Congress to authorize and the Administration to issue, some $80,000,000. worth of interest-bearing treasury notes. They were retired as soon as possible after the war and are seldom, if ever, met with.

TWO-YEAR INTEREST-BEARING NOTE

2469 **$100. Essai.** Vignette of the Treasury building at top center; Former and mechanic seated by shield, at lower l.; Sailors and cannon ("In the Turret"), at lower r. TREASURY NOTE. TWO YEARS AFTER DATE, THE UNITED STATES WILL PAY THE BEARER ONE HUNDRED DOLLARS WITH INTEREST AT FIVE PER CENT PER ANNUM PAYABLE SEMI-ANNUALLY. WASHINGTON, DECEMBER 1, 1863. Sgd. Chittenden and Spinner. Plate (C). Without number or seal. Three coupons attached to the right end. An essai, printed on one side only by the American and National Bank Note Companies. Uncirculated and almost perfectly crisp. Unpublished and excessively rare. **Plate.**

Two-Year Interest-Bearing notes were issued under an Act of Congress, March 3, 1863. They were regularly issued in the denominations of $50., $100., $500. and $1,000. All bore interest at five per cent and had green backs. The essai described above, is unlike the notes regularly issued, as they were without the three interest paying coupons at the right end. Only the $500. note was issued with coupons, while on the others, interest was payable at maturity on redemption. Mr. Grinnell, in all his years of collecting, was only able to locate a $50. note dated April 13, 1864

NATIONAL CUSTOMS NOTE

2470 **$50. Essai.** Portrait of Alexander Hamilton at lower right; Figure of Loyalty standing, with sword, at l. WASHINGTON at upper l. ONE YEAR AFTER DATE THE UNITED STATES WILL PAY TO THE BEARER FIFTY DOLLARS WITH FIVE PER CENT INTEREST. Sgd. Chittenden and Spinner. Plate (B). Without date, number or seal. Surcharged, in large gold letters, NATIONAL CUSTOMS NOTE. An essai, printed on one side only, by the American Bonk Note Company. Uncirculated. Perfect, except for a 1/4 inch tear in the upper right hond corner and a minute crease at the extreme lower right hand corner. Completely unpublished and of the most excessive rarity. No "Notional Customs Note" was ever issued. **Plate.**

The nate described abave, with the exceptian af the surcharge, clasely resembles the $50. bill regularly issued as a One-Year Interest-Bearing nate. These, like the last, were issued under an Act af Cangress, March 3, 1863. Mr. Grinnell had a $50. One Year nate in Gaad canditian which was dated April 1, 1864. He considered it the rarest denaminatian af the series.

FIRST ISSUE NATIONAL BANK NOTE

2471 **$10. Essai.** Large vignette of Franklin experimenting with electricity, ot the l.; Equally lorge vignette of female ostride American eagle, at the r. NATIONAL CURRENCY. THIS NOTE IS SECURED BY BONDS OF THE UNITED STATES DEPOSITED WITH THE U.S. TREASURER AT WASHINGTON. Below: THE FIRST NATIONAL BANK OF WASHINGTON, D.C. WILL PAY THE BEARER ON DEMAND TEN DOLLARS AT THEIR OFFICE IN THE CITY OF WASHINGTON, D.C. Space for dote and bank official's signotures at bottom. Sgd. Chittenden and Spinner. Plate (C). Without date, number or seal. Surcharged, in lorge gold letters, FIRST WASHINGTON, D.C. An essai, printed on one side only, by the Continental Bank Note Company. On thread impregnated paper. Very Good. Has two mojor ond four minor tears, oll of which have been mended. Completely unpublished ond said by Mr. Raymond to be absolutely unique. No note of this type and design wos ever issued. **Plate.**

This essai was evidently the prapasal af the Cantinental Bank Nate Campany far the $10. Natianal Bank nate af the first issue. The accepted design far the $10. bill was made by the American Bank Nate Campany wha alsa were respansible far the $1., $20., $50. and $100. nates. The regularly issued nates had entirely different vignettes, which were abaut ane half the size af the designs upan this essai. Apparently, the idea af the gald surcharge was alsa abandaned.

2513 1912. Proof. Mostly brilliant with a few infinitesimal spots of tarnish. Scarce, lists at $7.50.
2514 **1912 "S".** Uncirculated. The forelock is almost fully struck up. Lustrous, with a beautiful, light, even toning. The rarity of this coin is more fully appreciated when it is remembered that only 238,000 pieces were struck. In comparison, there were 26,236,714 examples coined at Philadelphia and 8,474,000 at Denver.
2515 **Indian Head.** 1913 to 1937. A complete set of "Buffalo Nickels" as struck at the Philadelphia mint. Uncirculated and mostly brilliant with the exception of the 1914 which is only Extremely Fine. Includes both varieties of the 1913. A few are weakly struck, as always, but the scarce 1918 and 1921 are far above average. Altogether, a choice and attractive set. Worth close to $50.00. 22 Pcs.
2516 1913 "S" and "D". Type I. Uncirculated. The first mostly brilliant and the last somewhat dull. Also, 1913 "S". Type II. Extremely Fine. Slightly tarnished. Uncommon lot; well worth $25.00. 3 Pcs.
2517 1913 "D". Type II. Brilliant Uncirculated. Well struck and choice except for an obverse planchet defect. Worth $10.00 so.
2518 1914 "S". Uncirculated. Lustrous, but rather weakly struck, as always, together with two or three insignificant obverse rim defects. V. Scarce. Lists at $15.00.
2519 1914 "D". Uncirculated. Almost fully brilliant, the reverse being lightly toned. Comparatively well struck and above average. V. Scarce.
2520 1915 "S". Brilliant Uncirculated. Strongly struck and decidedly lustrous. V. Scarce. Well worth full catalog value of $15.00.
2521 1915 "D". Uncirculated. The obverse is better struck up and more brilliant than the reverse, which is somewhat toned. Not quite as scarce as the preceding. Cost $11.50.
2522 1916 "S". Uncirculated. Generally well struck with a surface planchet flaw on the cheek of the Indian. Highly lustrous and definitely acceptable. Lists at $12.50.
2523 1916 "D". Uncirculated. Mostly brilliant and choice. The reverse is slightly weak. As scarce as the last.
2524 **1917 "S".** Choice Uncirculated. Well struck and almost fully brilliant. A nice example of a rare coin. Records to $38.00.
2525 1917 "D". Brilliant Uncirculated. Slight reverse toning. Rare. Catalogs at $20.00.
2526 **1918 "S".** Uncirculated. Somewhat weakly struck in the center, as commonly found, but a lustrous and choice example of this rarity. An equal specimen in our 36th sale brought $40.50.
2527 **1918 "D".** Brilliant Uncirculated. Slight traces of iridescent toning. Except for a minute planchet defect on the obverse rim, this coin would be just about perfect. Rare. Lists at $40.00.
2528 **1919 "D".** Uncirculated. A strongly struck and evenly toned coin that has one or two minute obverse rim defects. Above average and worth a good price. Catalogs at $35.00.
2529 **1920 "S".** Uncirculated. Well struck and lustrous. Traces of golden toning. One of the real rarities in this series that now lists at $45.00.
2530 **1920 "D".** Uncirculated. Somewhat weak upon the reverse. A lightly toned, but definitely choice example of this mint mark. As rare and valuable as the last with equally high records.
2531 **1921 "S".** Uncirculated. Almost fully brilliant and well struck. One of the nicest examples of this rarity that we have seen. Far superior to the specimen in our 36th sale that realized $30.00.
2532 **1923 "S".** Uncirculated. The obverse is strongly struck and mostly brilliant. As usual, the reverse is weak with only traces of lustre. A coin that is seldom, if ever, found better. V. Rare. Lists at $3[illegible].00.
2533 1925 "D". Brilliant Uncirculated. V. Scarce. Currently bringing full catalog of $12.50 or better.
2534 1926 "D" and 1927 "D". Uncirculated. The reverse of the first is miserably struck. M[illegible] brilliant. 2 Pcs.
2535 1928 "D", 29 "S", 31 "S", 34 "D", 35 "S", 35 "D", 36 "S", 36 "D", 37 "S", 37 "D" and 1938 "D". Uncirculated. Mostly brilliant and choice. The balance of this partial set. List at over $10.00. 11 Pcs.

SILVER THREE CENT PIECES

The Property of a New York Collector

2818 1851. The first year of issue. Brilliant Uncirculated. Catalogs at $4.50 and readily brings that amount.
2819 1851 "O". The only mint mark in this entire series. Bright, lustrous Uncirculated. The obverse shows minute indications of tarnish and the reverse has one or two microscopic defects. $9.00 was paid for this coin. Rare, and in demand.
2820 1852 and 1853. Brilliant Uncirculated. Full mint lustre. The first is lightly toned upon the obverse and the last is a "Gem." List at $7.00. 2 Pcs.
2821 **1854. Proof.** Almost fully brilliant, with attractive blue and pink toning. Said to be from the Col. E. H. R. Green collection at a cost of $85.00. Of extreme rarity.
2822 **1855. Proof.** Particularly brilliant upon the reverse. Beautiful iridescent toning. This is the rarest date in the series and is seldom offered in Proof condition. Catalogs at $60.00, but specimens have brought higher amounts at private sale. Ex. Rare.
2823 **1857. Proof.** Partly brilliant with a lustrous golden iridescence. Not as rare as the two foregoing, but decidedly uncommon so. Catalogs at $20.00.
2824 1858. Proof. The first year that Proofs were regularly issued and distributed. Not in full brilliancy. The obverse clearly shows the difficulty that the mint had in striking these small coins. Lists at $12.50.
2825 1859. Proof. Partly brilliant with traces of tarnish upon both sides. Catalogs at $8.50.
2826 1860. Proof. Iridescently toned, the reverse particularly so. Lists at $7.50.
2827 1861. Proof. Almost fully brilliant and attractively toned. Slightly scarcer than the last.
2828 1862. Brilliant Proof. Traces of golden toning together with a minute tarnish spot upon the obverse.
2829 **1863.** Brilliant Proof. Somewhat tarnished, particularly around the obverse edges. Only 460 struck. An underrated date, now listing at $22.50.
2830 **1864.** Brilliant Proof. Superb gold and blue toning. A splendid example of this rarity. Only 470 struck. Worth full catalog value of $45.00.
2831 **1865.** Brilliant Proof. Attractively toned with traces of reverse tarnish. Only 500 struck. Above average and an unusually difficult date to obtain. Bringing full catalog value of $22.50.
2832 1866. Brilliant Proof. Somewhat tarnished, mainly around the obverse edges. Only 725 struck. Lists at $11.00.
2833 1867. Brilliant Proof. A perfect mate for the preceding. Only 625 struck. Lists at $11.50.
2834 1868. Brilliant Proof. Light iridescent and gold toning. Only 600 struck. Lists at $12.50.
2835 1869. Brilliant Proof. Attractive gold and blue toning. Only 600 struck. Lists at $15.00 and is becoming quite elusive.
2836 1870. Brilliant Proof. Pink and gold toning. Only 1,000 struck. Readily bringing its catalog value of $10.00.
2837 1871. Proof. Almost fully brilliant with attractive iridescent toning. Only 960 struck. Now lists at $11.00.
2838 1872. Brilliant Proof. Splendid gold and blue toning. Only 950 struck. Catalogs at $17.50.
2839 **1873.** The last year of issue. Brilliant Proof. Beautiful gold and blue tarnish around the edges. Only 600 struck. Catalogs at $23.50, a slight increase over the 1951 edition.

MERCURY DIMES

From the Ralph J. Lathrop collection, N. Y. C.

2840 1916, 16 "S" and 1917. Brilliant Uncirculated. Sharp, perfectly struck "Gems." 3 Pcs.
2841 **1916 "D".** Absolutely brilliant Uncirculated with a bright, frosty mint surface. This coin is sharply struck with wide, broad margins. It is completely free of the slightest rubbing or dullness and is unquestionably, the finest example of this rarity that we have seen. Cost $100.00, two years ago, when run of the mill examples were selling for $75.00. V. Rare, and in great demand.
2842 1917 "D". Brilliant Unc. Full mint lustre and sharply struck. Scarce with records over $10.00.
2843 1917 "S" and 1918 "S". Perfect, brilliant uncirculated "Gems." As well struck as they come. 2 Pcs.
2844 1918. Brilliant Uncirculated. Another sharply struck, carefully selected coin. Struck during the "War" years and a date to watch. Records to $10.00.
2845 1918 "D". Brilliant Unc. Another frosty "Gem." Scarce.
2846 1919. Brilliant, perfect Uncirculated. As frosty and lustrous as when it left the dies. Becoming scarce.
2847 **1919 "S".** Brilliant Uncirculated. As rare as the Quarter of this date and mint. A specimen, almost the equal of this beauty, realized $16.50 in our 36th sale, when the coin cataloged for only $12.50.
2848 1920 and 1923. Brilliant Uncirculated. The last a perfect "Gem." 2 Pcs.
2849 1920 "D". Brilliant Unc. Sharp and well struck with a bright, frosty mint surface. Minor planchet defect on rim at bottom of the reverse. Far above average. Scarce.
2850 1920 "S". Brilliant, perfect Uncirculated. A splendid coin with a few, easily removable, reverse tarnish streaks. Scarcer than the preceding.
2851 **1921.** Brilliant Uncirculated. A superb example with full mint lustre, as nice as the day it left the Mint. Somewhat weakly struck, the way this rarity is usually found. Similar specimens have sold for over $60.00. V. Rare.
2852 **1921 "D".** Brilliant Uncirculated, a Cameo-like "Gem." This coin now catalogs at $25.00. It has been bringing that amount in sale after sale, while only listing for $12.50 or $15.00. Rare, and in great demand.
2853 **1923 "S".** Brilliant Uncirculated. Slightly toned upon the reverse. The lower part of the fasces is struck up, which is seldom the case on this coin. Becoming rare.
2854 1924 and 1925. Brilliant Uncirculated. Bright, frosty "Gems." Seldom found so nice. 2 Pcs.
2855 1924 "D". Perfect, brilliant Uncirculated. Another "Gem" coin with full mint lustre. Normally scarce, superb specimens, like this one, should bring well over catalog.
2856 1924 "S". Brilliant Uncirculated. Unusually sharp impression. Scarcer than the last, almost rare.

2857 1925 "D". Brilliant Uncirculated. A frosty little "Gem." Examples of this quality are worth well over catalog. Scarce.

2858 1925 "S". Brilliant Unc. The reverse of this coin is absolutely perfect. As difficult to obtain as the preceding.

2859 1926, 27 and 1928. Choice, brilliant Uncirculated. Slightest traces of toning. Cost $6.00. 3 Pcs.

2860 1926 "D". Brilliant Uncirculated. Bright and frosty, with full mint lustre. Unusually well struck. Ordinarily scarce, rare so choice.

2861 **1926 "S".** Brilliant Unc. Another bright, sharp coin with full mint lustre. Really rare with high records. This gorgeous specimen should bring $20.00.

2862 **1927 "D".** Brilliant Uncirculated. A well struck and fully lustrous example of this rarity. This piece is as nice as any we have seen and should realize a good price. It is now the second coin in the series and well on its way to becoming a $100.00 item.

2863 **1927 "S".** Brilliant, perfect Uncirculated. A sharp and frosty "Gem" example of this rare mint mark, which now lists at $20.00.

2864 1928 "D". Brilliant Uncirculated. One or two infinitesimal defects, but far above average. Records to $8.50. Scarce.

2865 1928 "S". Perfect, brilliant Uncirculated. A sharp, frosty "Gem." Another "Premium" coin. Decidedly scarce.

2866 1929, 29 "D" and 1929 "S". Brilliant Unc. The second is slightly toned and the last a "Gem." Unusually nice. 3 Pcs.

2867 1930, 34, 34 "D", 35, 35 "D" and 1935 "S". Brilliant Uncirculated. Slightest traces of toning. 6 Pcs.

2868 1930 "S". Brilliant Uncirculated. A bright, frosty little coin that is becoming rather scarce.

2869 1931, 31 "D" and 1931 "S". Brilliant Unc. The two mint marks slightly toned. A "Depression" issue and considerably underrated. Currently bringing about $7.50. 3 Pcs.

2870 **1942/1.** About Uncirculated. A nice, lustrous coin and the choicest that Mr. Lathrop could locate. We have yet to see a perfect, brilliant "Gem" example of this variety. This piece cost $10.00.

2871 1936, 36 "D", 36 "S", 37, 37 "D", 37 "S", 38, 38 "D", 38 "S", 39, 39 "D", 39 "S", 40, 40 "D", 40 "S", 41, 41 "D", 41 "S", 42, 42 "D", 42 "S", 43, 43 "D", 43 "S", 44, 44 "D", 44 "S", 45, 45 "D" and 1945 "S". All brilliant and choice Uncirculated, the balance of the set. Also, the five W. Raymond pages in which the set was housed. 374-A to 374-E. Plus a binder. The pages are Ex. Fine, the binder used. 30 coins; 5 pages; 1 binder. In all, 36 Pcs.

UNITED STATES SILVER DOLLARS

ESSAI, PATTERN, EXPERIMENTAL, TRIAL AND RESTRIKE PIECES, 1851-1882

The property of O. K. Rumbel, Mission, Texas

It is with considerable pleasure that we present herewith a collection that illustrates various designs and ideas which, in appearance and execution, are often superior to the coins approved and accepted for regular circulation. We consider this series to be of extraordinary interest and only regret that a scientific reference is not available. It is indeed unfortunate that Adams and Woodin's UNITED STATES PATTERN, TRIAL AND EXPERIMENTAL PIECES is considered little more than a confused and incomplete listing. However, it is our understanding that one, and possibly even two, works are in the offing both of which will break down the entire series in a sensible manner. The rapidly increasing popularity of the Silver Dollar series, when combined with the publication of adequate reference works, will do much to increase the demand for these magnificent coins.

This offering of sixty different varieties is comparable only to the selection from the Woodin collection, sold publicly in New York during January 1942, and the coins from the Fred E. Olsen collection, sold by B. M. Mehl in November 1944.

The A.W. numbers are included for purposes of identification only. We include any pertinent information that is available to us. The values following each lot represent U. S. Pattern coin prices based upon the 1950 list prepared by Col. James W. Curtis. When combined with our own records, they indicate the average price at which each piece was sold or offered during the years 1946-49.

2872 **1851.** Similar to the regular dies, but struck in Copper. A Restrike. (See our notes under the same coin in Silver.) Dull, tarnished Proof. **A.W. 144;** R-13. We know of this, and three other examples. The Bolender specimen, lot #201 in his 183rd sale, Feb. 23rd last, realized $117.50. This coin is from the Col. E. H. R. Green coll. Ex. Rare. **($125.00)**

2873 **1864.** The regular dies, but with motto IN GOD WE TRUST on ribbon, over eagle, as adopted in 1866. Copper. A well toned Proof, particularly so upon the reverse. **A.W. 434;** R-10. **($50.00)**

The above Dollar; the Half (A.W. 437) and the Quarter (A.W. 441 were originally issued in sets. See lot #150, the Woodside sale, 1892.

2874 **1865.** The regular dies, but with motto IN GOD WE TRUST as regularly adopted the following year. Silver. A choice Proof, generally brilliant, mostly so upon the obverse. **A.W. 490;** R-12. The Atwater example sold for $150.00 in 1946. Another specimen, at private sale, realized $200.00. A highly valuable and desirable coin. **Plate.** **($175.00)**

The above Dollar; the Half (A.W. 494) and the Quarter (A.W. 499) were originally issued in sets. See lot #161, Woodside sale, 1892.

2875 **1866.** The regular dies, with motto. Struck in Copper. Tarnished, chocolate colored Proof with a slight reverse spot. **A.W. 534;** R-6. Only 36 to 50 pieces struck. A specimen sold in the Bolender sale, Feb. 23rd last, for $40.00. **($37.50)**

2876 **1870.** Indian Princess seated, facing left, in high relief. Signed LONGACRE in small letters below base. Rev. STANDARD above; 1 DOLLAR within wreath. Silver. Plain edge. Proof, almost fully brilliant. **A.W. 851;** R-13. To our knowledge, this variety has not appeared in over fifteen years. Ex Col. Green coll. Of extreme rarity. **Plate.** **($100.00)**

2877 **1870.** Obv. Identical to the last. Signed LONGACRE. Rev. Same as the regular dies. Silver. Plain edge. Proof. Mostly brilliant, but has one or two microscopic defects. **A.W. 857;** R-13. Almost as valuable and a suitable mate for the preceding. **($75.00)**

2878 **1870.** Liberty seated, holding olive branch and shield, facing left. The graceful design by Barber. Rev. STANDARD above; 1 DOLLAR within wreath. Silver. Plain edge. Brilliant Proof. **A.W. 864;** R-13. Ex Col. Green coll. A beautiful and desirable coin. **Plate.** **($70.00)**

2879 **1870.** Obv. Identical to the last. The Barber design. Rev. Same as the regular dies. Silver. Plain edge. Brilliant Proof. **A.W. 871;** R-13. This and the preceding constitute a splendid pair. Ex. Rare. **($60.00)**

2880 **1870.** Same as last. The Barber design combined with the regular reverse. Silver. Reeded edge. Brilliant and superb Proof. Slightly toned and with infinitesimal planchet defects in the reverse field. **A.W. 872;** Supposedly Rarity 13, but somewhat commoner than the last. The Balender example, lot #386 in his 183rd sale, Feb. 23rd, 1952, brought $52.50. Ex Col. Green call. The nicest we have seen. **($55.00)**

2881 **1870.** Same as last. Copper. Thick planchet with plain edge. Proof, almost fully brilliant. Traces of tarnish. **A.W. 875;** R-10. The Balender coin sold for $31.00. **($32.50)**

2882 **1871.** Indian Princess seated, facing left, in high relief. Without LONGACRE. Rev. STANDARD above, 1 DOLLAR within wreath. Silver. Reeded edge. Proof, mostly brilliant. Two small obverse nicks. **A.W. 1110;** R-13. This coin has high records. Ex. Rare. **Plate.** **($85.00)**

2883 **1871.** Obv. Identical to the last. With high relief and 22 stars on the flag behind figure. Rev. Same as the regular dies. Silver. Plain edge. Brilliant Proof. **A.W. 1122;** R-12. We can only locate one recent record for this variety. **($65.00)**

Actually, there are two varieties of A.W. 1122. One has the Longacre obverse in high relief, as above, with 22 stars on the flag behind the Indian Princess; the other, the Longacre obverse by Barber, in lower relief, has only 13 stars on the flag (See A.W. 1120).

2884 **1871.** Same as last. The high relief Longacre design combined with the regular reverse. Silver. Reeded edge. Lightly toned Proof. A "Gem." **A.W. 1123;** R-12. Ex Col. Green call. A gorgeous coin and a thrilling piece to own. **($62.50)**

2885 **1871.** Same as last. Copper. Plain edge. Beautifully toned, red Proof. **A.W. 1124;** R-12. The Balender specimen realized $40.00. This piece cost $45.00, several years ago. **($40.00)**

2886 **1871.** Same as last. Copper. Reeded edge. Brilliant red, "Gem" Proof. **A.W. 1125;** R-12. A perfect mate for the preceding and just as rare. Balender's coin brought $35.00. **($37.50)**

2887 **1871.** Same as last. Aluminum. Reeded edge. Proof. Almost in full brilliancy. **A.W. 1127;** R-12. This, the last, and A.W. 1123 (Silver) would make an attractive set. **($35.00)**

Trade Dollars

2888 **1872.** Longacre obverse by Barber. Similar to the foregoing, but in lower relief and with only 13 stars on the flag behind the Indian Princess. Rev. TRADE DOLLAR, etc. in wreath. Silver. Reeded edge. Proof, not in full brilliancy and with a few unimportant defects. **Unpublished;** The obverse of A.W. 1247 (As illustrated, not described) and the reverse of A.W. 1244. Of the most excessive rarity. May be unique. **Plate.**

This rare variety is also known in Copper with a reeded edge. Examples, in both metals, appeared only in the Woodin loan, A.N.S., 1914.

2889 **1872.** Obv. The Indian Princess design in high relief, by Longacre. Rev. COMMERCIAL DOLLAR, etc. in wreath. Silver. Reeded edge. Dull Proof. Evidence of cleaning, many years ago. **A.W. 1248;** R-12. This coin features the famous "Commercial reverse" which was the first design for what became the well known Trade dollars. Ex. Rare. **Plate.** **($75.00)**

2890 **1873.** Head of Liberty with large, beaded diadem, facing left. Rev. TRADE DOLLAR, etc. in wreath. Silver. Reeded edge. Cleaned Proof, not fully brilliant. **A.W. 1298;** R-6. The Bolender specimen, lot #348 in his 183rd sale, Feb. 23rd last, realized $46.00. **Plate.** **($35.00)**

The Mint sold Pattern Trade dollars in sets as follows: A.W. 1298, 1303, 1308, 1313, 1322-A and 1324. (See the description of A.W. 1322-A which follows.) Generally, these sets were available in Silver with reeded edges, but they were also struck with plain edges and in Copper, Aluminum and White Metal.

2891 **1873.** Female head with hair in tight, flat knot at back, facing left. Rev. Eagle holding shield. The Bailey design. Silver. Reeded edge. Cleaned and brilliant Proof. **A.W. 1303;** R-6. Balender's coin sold for $50.00 which is somewhat of a record. **Plate.** **($35.00)**

2892 **1873.** Obv. Similar to the regular type, but from a different die. Rev. Small eagle with spread wings, scroll in beak, facing left. Silver. Reeded edge. Brilliant Proof. **A.W. 1308;** R-6. Balender's specimen realized $45.00. **Plate.** **($40.00)**

2893 **1873.** Liberty seated on globe; short plow handles at back. Rev. Eagle holding shield, scroll in beak. Silver. Reeded edge. Brilliant Proof. The famous **A.W. 1322-A.** This coin is a mule of the identical obverses of A.W. 1317 & 1322 and the identical reverses of A.W. 1247 & 1328. As stated above, it belongs to the set of six Pattern Trade dollars and is not the great rarity claimed for it. The Olsen collection alone had two examples. Rarity 6. Roughly, 36 to 50 pieces struck. **Plate.** **($40.00)**

A.W. 1322-A also exists in Silver with a plain edge— R-13. Copper, reeded edge— R-8. Aluminum, reeded edge and White Metal, plain edge, both extremely rare.

2894 **1873.** Modified Longacre obverse. Indian Princess seated, facing left, with LIBERTY on globe incused. Rev. Small eagle with spread wings, scroll above, facing right. Silver. Reeded edge. Impaired Proof. **A.W.1324;** R-6. The Balender example, a perfect specimen, sold for $51.00. **($25.00)**

2895 **1873.** Liberty seated on globe; long plow handles at back. Rev. Eagle holding shield. White Metal. Plain edge. Brilliant Proof. **A.W. 1335;** R-12. We cannot locate any recent records for this piece. Ex. Rare. **Plate.** **($60.00)**

2896 **1875.** Seated figure of Liberty, facing left; motto on scroll above the date. The so-called "Steamboat" design. Rev. COMMERCIAL DOLLAR, etc. in wreath. Copper. Reeded edge. Red Proof, almost fully brilliant. **A.W. 1421;** R-12. Only eight pieces struck. Ex Col. Green call. We can only locate one recent record for this variety which is far rarer than generally known. **Plate.** **($60.00)**

2897 **1875.** Obv. Identical to the preceding. Rev. Same as the regular dies of the Trade dollar. Silver. Reeded edge. Nicely toned Proof. Minute planchet defect below 7 of date. **A.W. 1426;** R-12. Ex. Rare. Cost $100.00, several years ago. **($75.00)**

2898 **1875.** Same as last. The "Steamboat" design combined with the regular reverse of the Trade dollar. Copper. Reeded edge. Beautiful red Proof. Decidedly toned upon the reverse. **Unlisted;** generally described as A.W. 1426-A. (Probably R-12) Ex. Rare. Cost $67.50. **Plate.** **($65.00)**

Silver Dollars (Cont'd)

2899 **1876.** Liberty head with beaded diadem; stars around; above, IN GOD WE TRUST. Rev. ONE DOLLAR within wreath. Copper. Reeded edge. Beautifully toned, red Proof. **A.W. 1483;** R-13. Recent record of $85.00 Ex. Rare. **Plate.** **($75.00)**

2900 **1876.** Obv. Similar to last, but plain diadem. Rev. Identical to last. Copper. Reeded edge. Another, nicely toned, red Proof. **A.W. 1485;** R-13. We cannot locate any recent records for this variety either at auction or at private sale. A splendid mate for the preceding. Ex. Rare. **Plate.** **($85.00)**

2901 **1876.** Obv. Similar to last, but without stars or motto. Rev. Identical to foregoing. Copper. Reeded edge Proof. Attractively toned and not fully brilliant. **A.W. 1487;** R-13. This coin has high records. **Plate.** **($85.00)**

2902 **1876.** Obv. Similar to last, but motto IN GOD WE TRUST between bust and date. Rev. Identical to foregoing Copper. Reeded edge. Brilliant red Proof with considerable reverse toning. **A.W. 1489;** R-13. The Olsen specimen, sold in 1944, realized $105.00. A mid-west dealer values his example at $225.00. **Plate.** **($100.00)**

2903 **1876.** Seated figure of Liberty, facing left, without stars around. Similar to the "Steamboat" design found upon the obverse of the 1875 Commercial dollars. Motto in very small letters, in panel, above date. Rev. Identical to foregoing. Copper. **Plain edge.** Brilliant red Proof with the slightest traces of tarnish. **A.W. 1491;** R-14. Only two or three pieces struck. This is the only example that we know of with a plain edge. The regular variety, with reeded edge, has a sale record of $207.50. Ex Col. Green coll. Excessively rare, perhaps unique. **Plate.** .....

2904 **1876.** Obv. Identical to the last. Motto, in panel, above date. Rev. Same as the regular dies, 1840-65, without motto. Copper. Reeded edge. Brilliant red Proof. Traces of tarnish. **A.W. 1495;** R-14. Only two or three pieces struck. Private sale record of $250.00. Ex Col. Green coll. Excessively rare. **Plate.** **($125.00)**

2905 **1876.** Obv. Identical to the foregoing. Rev. COMMERCIAL DOLLAR, etc. in wreath. Copper. Reeded edge. Brilliant red Proof, traces of toning. Slightest defects. **A.W. 1497;** R-14. (A mule and technically, a Trade Dollar.) Only two or three pieces struck. Cost $125.00. Ex Col. Green coll. Excessively rare. **Plate.** **($100.00)**

This is by far the largest offering ever made of the rare patterns struck in 1876, the Centennial year. Henry Chapman, in his famous catalog of the Stickney collection, remarked that collectors of the period (1907) were probably unaware of the great rarity of the Commercial dollars. His statement, "I well remember seeing $100.00 paid for one in the Centennial year," makes us wonder what the last lot, if available at that time, would have brought. It undoubtedly would have been a show-piece among numismatists at the Philadelphia exposition.

2906 **1877.** Obv. Liberty head, similar to that on A.W. 1483 described above, but the beading on diadem is different and the execution of the bust less graceful. Rev. 1 DOLLAR within wreath which is entirely different than the reverse of A.W. 1483. Copper. Reeded edge. Beautiful iridescent Proof. **A.W. 1503;** Supposedly Rarity 12, but actually rarer. Cost $75.00, several years ago. **Plate.** **($65.00)**

2907 **1877.** Obv. Similar to the last, but plain diadem and hair flowing down the neck. Rev. Identical to last. Copper. Reeded edge. Nicely toned red Proof. One or two touches of tarnish. **A.W. 1505;** Listed as Rarity 12, but like the last, rarer. Ex Col. Green coll. Also cost $75.00. **Plate.** **($60.00)**

2908 **1878.** Obv. The design of George T. Morgan as regularly used, 1878-1904. Rev. Similar to the adopted dies, but with the eagle holding an olive branch of three leaves in his right talon. Copper. Red Proof with indications of tarnish. **A.W. 1560;** R-10. Ex Col. Green coll. Of considerable interest. **Plate.** **($32.50)**

Die varieties exist of both A.W. 1559 (Silver) and 1560. The specimen described above is identical to the illustration on page #167 of the Adams and Woodin book.

2909 **1878.** Obv. Large Liberty head with beaded diadem. Rev. Standing eagle with spread wings, facing left. "Barber's rejected dollar." Silver. Brilliant Proof with one or two infinitesimal defects. **A.W. 1562;** R-6. Always a popular and desirable coin. The Balender specimen, lot #397 in his 183rd sale, Feb. 23rd last, realized $45.00. **Plate.** **($45.00)**

Several die varieties also exist of A.W. 1562. The above piece is entirely different from the A. & W. illustration. On the obverse, the motto is somewhat larger and further from the border. Also, LIBERTY is lower on the diadem. Rev. The motto E PLURIBUS UNUM is differently spaced below the legend. Under lot #334 in the Woodside sale, 1892, this variety is termed rarer than the usual A.W. 1562.

2910 **1878.** Barber's second Galaid design. Obv. Disheveled bust of Liberty, facing left. Rev. Complete inscription in wreath. Copper. Bright red Proof with minute indications of tarnish. **A.W. 1568;** R-10. Ex Col. Green coll A variety that is seldom offered. **Plate.** **($50.00)**

2911 **1879.** Obv. The Morgan design as regularly adopted. Rev. Large eagle with spread wings. Silver. Proof, almost fully brilliant. **A.W. 1584;** R-10. Ex Col. Green coll. Valued by a mid-west dealer at $100.00. **Plate.** **($80.00)**

2912 **1879.** Same as last. The regular Morgan obverse combined with the large eagle design. Copper. Beautiful light brown Proof with considerable blue tarnish. **A.W. 1585;** R-10. As rare as the preceding The Balender specimen sold for $37.50. **($40.00)**

2913 **1879.** Similar to the foregoing. Rev. Motto, in large letters, surrounding upper portion of eagle Copper Brilliant iridescent Proof. **A.W. 1587;** R-10. A superb coin. **Plate.** **($35.00)**

2914 **1879.** Obv. Identical to the foregoing. Rev. Smaller eagle with E PLURIBUS UNUM above. A. & W state that this coin is a mule; a combination of the Morgan obverse and of a Barber reverse. Oddly enough, E PLURIBUS UNUM is found upon both sides. Copper. Bright red, iridescent "Gem" Proof. **A.W. 1589;** R-10. A splendid coin of considerable rarity. **Plate.** **($45.00)**

This Barber reverse is not found upon any other dollar.

2915 **1879.** Obv. The famous "Washlady" design by Barber. Rev Eagle, somewhat similar to the last, facing left Copper. Brilliant iridescent "Gem" Proof, as the preceding **A.W. 1591;** R-10 Seldom offered and an exceedingly attractive coin. The Balender example realized $60.00 and was estimated at $125.00 **Plate.** **($65.00)**

2916 **1879.** Obv Smaller, plain head of Liberty with beaded diadem Rev Small eagle, partly within wreath Another unusual design by William Barber. Copper. Bright red Proof. **A.W. 1596;** R-10 Ex Col. Green coll The

Bolender specimen, from the Stickney collection, was sold for $100.00. A magnificent coin that is seldom offered. **Plate.** **($75.00)**

2917 **1879.** Barber's Metric design. Obv. Bust of Liberty similar to that on A.W. 1562, "Barber's rejected dollar." Rev. Description of composition within a beaded circle, surrounded by a wreath. Silver. Proof, almost fully brilliant. **A.W. 1598;** Supposedly Rarity 6, but in reality, Rarity 1. (See the note following A.W. 1606.) An attractive, desirable and comparatively inexpensive coin. **Plate.** **($27.50)**

The stipulated weight of the last is 25 Grams (385.81 Grains) and it weighs 25.090 Grams (387.20 Grains).

2918 **1879.** Same as last. Barber's Metric design. Copper. Beautifully toned red Proof. **A.W. 1599;** R-11. A splendid coin and far rarer than the preceding impression in Silver. Bolender's example brought $40.00, its full estimated value. **($40.00)**

2919 **1879.** Morgan's Metric design. Obv. Bust of Liberty with coiled hair. Rev. Identical to the foregoing. **Metric Silver.** Struck in the exact alloy called for by the reverse inscription. (Alloy weight— 25 Grams or 385.81 Grains; Exact weight— 25.005 Grams or 385.89 Grains.) Brilliant, choice Proof. **A.W. 1602;** R-11. Ex Col. Green coll. Ex. Rare. **Plate.** **($100.00)**

2920 **1879.** Same as last. Morgan's Metric design. Copper. Attractively toned red Proof. Few infinitesimal planchet defects in the reverse field. **A.W. 1603;** R-11. A magnificent coin and a splendid mate for the preceding. **($35.00)**

2921 **1879.** Barber's Goloid Metric design. Obv. Disheveled bust as on A.W. 1568. Rev. Description of composition within circle of stars. Silver. Brilliant Proof. Unimportant planchet defect at edge which is discernible upon both sides. **A.W. 1606;** Listed as Rarity 6, but actually only Rarity 1. A beautiful coin of exceptional interest. **($22.50)**

The stipulated weight of the last is 14 Grams (216.05 Grains). Actually, it weighs 13.990 Grams (215.90 Grains). It is not commonly known that A.W. 1575 (The common Stella), 1598, and 1606 were issued in sets. They are among the commonest patterns as 500 to 600 odd sets were restruck — one for each Senator and Representative.

2922 **1879.** Same as last. Barber's Goloid Metric design. Copper. Beautiful, evenly toned, red Proof. **A.W. 1607;** R-10. An exquisite coin that is far rarer than the preceding. **Plate.** **($22.50)**

2923 **1879.** Morgan's Goloid Metric design. Obv. Small bust of Liberty with tightly coiled hair. Rev. Identical to the foregoing. **Metric Silver.** Struck in the exact alloy. (Specified weight— 14 Grams or 216.05 Grains; Exact weight— 14.06 Grams or 216.98 Grains.) Proof, attractively toned. Almost invisible scratch on cheek. **A.W. 1610;** R-11. Of the most extreme rarity. **Plate.** **($100.00)**

2924 **1879.** Same as last. Morgan's Goloid Metric design. Copper. Superb, slightly toned, red Proof. **A.W. 1611;** R-10. The Bolender coin realized $40.00 in his 183rd sale. **($35.00)**

2925 **1880.** Barber's Metric design. Identical to A.W. 1598 except for the date. **Metric Silver.** (Alloy weight— 25 Grams or 385.81 Grains; Exact weight identical.) Perfect, brilliant Proof. **A.W. 1636;** R-11. An excessively rare and highly desirable coin from the Col. Green collection. **Plate.** **($80.00)**

2926 **1880.** Same as last. Barber's Metric design. Copper. Brilliant red Proof. Except for the most minute touch of tarnish, this coin is a "Gem." **A.W. 1637;** R-11. The example in the 183rd Bolender sale, Feb. 23rd last, sold for $40.00. **($40.00)**

2927 **1880.** Morgan's Metric design. Identical to A.W. 1602 except for the date. **Metric Silver.** Like A.W. 1636 above, this coin is struck in the correct alloy and its weight checks out exactly to 25 Grams. Brilliant and superb Proof. **A.W. 1639;** R-11. Unchecked examples of this coin have sold as high as $123.75 and a mid-west dealer values his at $175.00. **Plate.** **($125.00)**

2928 **1880.** Same as last. Morgan's Metric design. Copper. Nicely toned red Proof. **A.W. 1640;** R-11. A magnificent coin, equal to the Bolender specimen which recently realized $50.00. **($50.00)**

2929 **1880.** Barber's Goloid Metric design. Identical to A.W. 1606 except for the date. **Struck in Goloid metal** and not the standard Silver alloy. The stipulated weight of this coin is 14 Grams and it weighs just that. Proof, almost fully brilliant and showing the slightest traces of tarnish. **A.W. 1642;** R-11. An extreme rarity and a wonderful example of Dr. Hubbell's proposition. Of the highest value and interest and worth a good price. **Plate.**

2930 **1880.** Same as last. Barber's Goloid Metric design. Copper. Beautifully toned red Proof. **A.W. 1643;** R-10. Another gorgeous coin of considerable rarity. **($35.00)**

2931 **1882.** Obv. Magnificent bust of Liberty with hair hanging loosely down past neck, facing right. Rev. Impressive eagle standing to right. The superb design by Morgan. Copper. Perfect, iridescent red Proof. **A.W. 1659;** R-11. Ex Col. Green coll. In the humble opinion of the catalogers, the most beautiful coin in the collection and a prize of the first magnitude. **Plate.** **($100.00)**

Mammoth Longfellow Medal In Gold

2932 Obverse: Massive, kindly head facing three-quarters left, surrounded by a continuous wreath of oak, bound at top and bottom, and bordered by the dates, 1807—1907. Below, in minute letters, B. L. PRATT SEPT. 07. Reverse: Within a similar wreath, in eight lines, an inscription— HENRY/WADSWORTH LONGFELLOW/-POET-/BORN IN PORTLAND MAINE/FEBRUARY 27-1807/DIED IN CAMBRIDGE/MASSACHUSETTS/MARCH 24-1882. Below: B. L. PRATT 1907. Edge plain, except for a few infinitesimal test marks and the name TIFFANY & CO. Diameter, 63mm., thickness, 5mm., weight, 130.5 Dwt. Struck by a unique process which gives the piece a matte surface, together with a partial reddish purple sheen. Uncirculated. Only two said to have been struck. From the J. P. Morgan collection, later, from the collection of Wayte Raymond. **Plate.**

Bela Lyon Pratt was one of the designers of the $2½ and $5 "Incused Indian Head" Gold coins first struck in 1908. He was better known as a sculptor than as a designer of coins and medals. At one time he studied under Augustus St. Gaudens. He died in May, 1917. The above described medal was lot #787 in our 33rd sale, April 14, 1951. At that time it was purchased by Mr. J. McFadden Dick, Jr. It has been consigned to us for sale, and is herewith reoffered.

LESHER OR REFERENDUM DOLLARS

THE FINEST AND LARGEST COLLECTION EVER OFFERED IN NUMISMATIC HISTORY

The Property of O. K. Rumbel, Mission, Texas

Probably not again in fifty years will this rare opportunity afford itself to the wise and farsighted collector. The private Silver Dollars made by Joseph Lesher of Victor, Colorado, have always been eagerly sought after, and their auction records attest to their popularity and dignity of price. Of between two and three thousand pieces struck, all too many have found their way to the melting pot or to the depositories of the non-numismatists.

In the national campaigns of 1896 and 1900, Lesher was an advocate of the free coinage of Silver. His idea of a private silver coin issue, as a commercial enterprise, seems to have stemmed from Colorado's endorsement of free silver coinage at a ratio of sixteen to one. Apparently, he believed that the people of his state, and of other parts of the country, wanted and would have used more metal dollars had they been supplied. The name "Referendum" was given to the pieces, as Lesher referred his product to the people for acceptance, or rejection, as a medium of exchange.

The coins themselves are all octagonal in shape, so as to avoid confusion with the official issues. They were of popular size and value, guaranteed to be redeemed by the issuer, and clearly marked as to their quality and price. All were issued with a plain edge, and the composition was Silver .950 Fine, alloyed with Copper. Each bore a number, with a very few exceptions, but it is established that a regular system of numbering was not maintained, and that the numbers do not indicate the relation of one series to another, or have any accurate relation to the amounts issued, either in respect to varieties or for the series as a whole. It is believed that Lesher designed the pieces himself, as one of his die cutters later remarked that the work was performed under instructions as to detail.

The earliest issues, dated 1900, contain one ounce of "Coin Silver" and have the novel denomination of $1.25. The dies for the very first emission were seized by the Government authorities. Mr. Lesher took the matter up with Senator Teller, and the local U.S. District Attorney, finally having his arguments brought to Washington. The Secretary of the Treasury was cool to the idea, but agreed, that on condition of certain changes in the inscriptions, there would be no further official interference. This however, did not fully prove to be the case, and Lesher had his scheme both patented and copyrighted. He had a mistaken idea that this maneuver licensed his effort, and would eliminate continuing Government interest.

Lesher began with the idea that he would issue and redeem his own coinage. As this proved impractical, he made an arrangement with A. B. Bumstead, a local merchant, who agreed to redeem the Referendum Dollars in merchandise or money. Bumstead's name was cut into the die of the second issue, and his deal with Lesher worked out quite well. It is believed that one thousand pieces were made for the use of the Victor Grocer, and though dated 1900, they were manufactured and used as late as any of the series.

Late in 1900, Lesher toyed with the proposal to have banks handle his product. A Pattern piece was designed and struck, upon which a bank's name could be punched. In proposing the suggestion that his coins could be redeemed "At Any Bank," he was really inviting further trouble with Uncle Sam. As this occurred at a time when Bumstead was doing quite well, the idea was dropped.

In 1901, the situation was reviewed by the Victor Coiner, and he commenced an entirely new issue. The weight, size and price of his wares were reduced. His coins were made the weight of the Standard Dollar, and they had the price (or value) of $1.00. They employed a suggestion conceived with the "Bank" type of having a blank field, upon the obverse, for business imprint. The imprints were to be punched in after the coins were struck. Mr. Lesher had a large quantity made, and held them for stock. From time to time, he dipped into this inventory, and sold various quantities to different merchants and firms. The price averaged .80 or .85 each. They were either stamped to order, or the issuer placed his own name upon them. It was intended that they would circulate on the basis of the Bumstead plan. Lesher, when interviewed in 1914, could not recollect what disposition he had made of his remaining supply of blank or "Stock" pieces. It is known that Boyd Park, a Denver Jeweler, had an interest in the remainder, and it is supposed that he may have reduced them to bullion.

A limited number of business people cooperated with Joseph Lesher. Most of them only issued a few pieces, and others merely played with them, imprinting or engraving only samples. The Referendums were accepted as money in Cripple Creek, Colorado City, Colorado Springs, Victor, and most likely, even in Denver. They also had limited circulation in Pueblo, but in some places their only use was as trade premiums, or as items for sale as novelties.

Lesher gave up the idea after losing interest, and after reaching the conclusion his operations could not be a financial success. His coins circulated, as many are found badly worn, but few ever returned for redemption.

A few years after the private coining activity ceased, Victor, and the surrounding territory, was carefully combed by many prominent numismatists. Messrs. C. W. Cowell, H. O. Mann, Judson Brenner, C. E. Briggs, and others made a special effort to locate specimens. The Brenner and Briggs collections became the most complete but the late Farron Zerbe brought together fourteen different types, after purchasing examples from both. The Zerbe collection is now in the American Numismatic Society, and is forever off the market.

In 1917, Mr. Zerbe published a most complete and authoritative article concerning the Lesher coinage. ("PRIVATE SILVER COINS ISSUED IN THE U.S., THE LESHER OR REFERENDUM PIECES," in The American Journal of Numismatics, Vol. 51, pp. 153-166.) Our descriptions are Zerbe's, and we have arranged the fifteen major types in the order he arrived at, the unpublished variety in this collection being placed after his number 14. (Numbers 13 and 14 were not listed in the 1917 article, but are based upon pieces donated to the A.N.S. by Mr. Zerbe in 1947.) In addition, we have added a rarity listing, ranging from 1 to 8. All Leshers are rare in the accepted sense of the word, the commonest varieties currently retailing from $40.00 to $50.00 with ease. A striking parallel may someday exist with these privately minted Silver coins, and the similar Gold pieces made in California fifty years earlier. A $16.00 Moffat ingot could only realize $130.00 in the Brown sale, 1904, fifty years after it was struck, and a Dunbar & Co. Half Eagle brought a trifling $6.50 in the Cleaney sale, 1890. When interest was fully centered upon these rarities they increased tremendously in value, both being worth in the neighborhood of $1,000.00 today. Such could and probably will, be the fate of the rarer Leshers.

The present offering is equal to the Zerbe, A. N. S. holdings, in that each collection lacks one type the other possesses. However, in addition, this remarkable and unique array includes numerous minor varieties, and a wide selection of different numbers. It is the greatest group ever presented of these intrinsically numismatic pieces, and is a memorial to the perseverance of its owner. A prize of the first magnitude. To quote from Farran Zerbe, "So long as metal shall endure in the form of coin or medal and there are collectors to prize them, Joseph Lesher, Victor, Colorado, and his 'Referendums' will be remembered; and in the annals of Colorado history he will trail after Clark, Gruber, Conway and Parsons, not in the same class by any means, but relatively, as a private coiner of that State."

1900 Issues

2933 **First Type.** Obv. JOS LESHERS REFERENDUM SOUVENIR. in upper semicircle; below, in six lines, ONE OZ OF COIN/SILVER/PRICE 1.25/M.F.G.D. VICTOR/COLO./1900. Rev. A COMMODITY/WILL GIVE/IN/EXCHANGE/CURRENCY COIN/OR/MERCHANDISE/AT FACE VALUE/NO in nine lines. 35mm across center. Zerbe #1. **No. 6.** Only one hundred specimens were struck of this variety, numbered consecutively from 1 to 100. The numbers are engraved, not punched. These were widely distributed due to the widespread interest they created. The dies were seized by the government, thus stopping the production of this first type. Uncirculated, with a Proof like lustre, and a few minute defects. A similar example, in the Roach collection, was said to have cost over $100.00.

2934 Another. Zerbe #1. **No. 44.** Abt. Uncirculated. Beautiful lustrous surface. From the famous C. E. Briggs collection, B. M. Mehl, 1932. Rare so choice.

2935 Another. Zerbe #1. **No. 77.** Abt. Very Fine, lightly toned. Slight planchet defect in the reverse field. Ex Briggs coll. V. Scarce.

2936 Another. Zerbe #1. **No. 86.** Ex. Fine. A choice, lustrous example, with light iridescent toning. Hard to find so choice. The Dunham specimen was only Fine. V. Scarce.

2937 Another. Zerbe #1. **No. 94.** Uncirculated. Considerable original color with traces of toning. A beautiful example, and well worth a good price. As fine as any known to us. **Plate.**

The above described type is the most distinctive of the entire series. Frank Hurd of Denver cut the dies, and the coins were struck by a private firm in that city. Mr. Zerbe found this variety rather hard to locate, and labeled it fourth in rarity. However, a few have turned up, from widely separated points, and we are inclined to call it Rarity 4.

2938 **Bumstead Type—First Reverse.** Obv. An ideal mountain mining scene occupies upper half of field; in two lines at top divided by the central mountain peak PIKES-PEAK/SILVER MINE; on lower half. A COMMODITY./WILL GIVE/.IN EXCHANGE./MERCHANDISE/AT/A. B. BUMSTEAD/No. in seven lines. Rev. JOS. LESHERS REFERENDUM SOUVENIR in upper five-eighths of circle near edge; balanced in center of upper half is a device from the seal of the State of Colorado including its motto NIL SINE NUMINE (Nothing without God) which separates 1. OZ. COIN; below, .SILVER./PRICE 1.25./M'F'D. VICTOR/COLO./.1900. in five lines. 35mm across center. Zerbe #2. **No. 138.** This variety is found numbered up to about 600, as the examples listed below will indicate. It is believed that about 600 were struck. Abt. Uncirculated. A bright clean coin. Scarce.

2939 Another. Zerbe #2. **No. 192.** Uncirculated, with a brilliant, Proof like surface. Unusually nice. Scarce.

2940 Another. Zerbe #2. **No. 203.** Uncirculated. Evenly toned. One or two microscopic imperfections. Scarce. **Plate.**

2941 Another. Zerbe #2. **No. 532.** Good to Very Good. Well worn, with one or two slight obverse nicks, and a minor edge bruise at the bottom of the reverse. Conclusive proof of how well these privately made coins circulated. Harder to locate than a choice specimen.

2942 Another. Zerbe #2. **No. 579.** Just about Uncirculated, and with a very few infinitesimal defects. Attractively toned. Scarce.

2943 Another. Zerbe #2. **No. 593.** Uncirculated. Beautiful Proof like surface, lightly toned. Far above average. Ex Briggs coll. Scarce.

The dies for the above variety were made by Herman Otto, who also cut all the other dies used. Like the first type, the above, and all others, were struck in Denver. Mr. Zerbe claimed that but few with the "Scrolls" reverse could be located. Actually, this type is slightly easier to find than the last. Rarity 3.

2944 **Bumstead Type—Second Reverse.** Same as No. 2 excepting that there are no scrolls in field at sides of the State seal device, or line above COLO. 35mm across center. Zerbe #3. **No. 606.** All seen of this type are numbered between 600 and 1,013, but the famous Cowell collection supposedly had two specimens numbered 1535 and 1741. Farran Zerbe only found this variety numbered as high as 988, and presumed that only 1,000 were struck. Mr. Lesher stated that Bumstead sold about 700, of both varieties, so it can be assumed that the numbering system was far from systematic. Ex. Fine. A choice piece, evenly toned.

2945 Another. Zerbe #3. **No. 614.** Uncirculated. Very lightly toned. A splendid example. **Plate.**

2946 Another. Zerbe #3. **No. 684.** Uncirculated. Iridescently toned, with a Proof like surface.

2947 Another. Zerbe #3. **No. 716.** Abt. Uncirculated. Partly toned. Traces of iridescence.

2948 Another. Zerbe #3. **No. 726.** Ex. Fine, but somewhat mishandled. In particular, we note two or three slight edge bruises. Dark blue toning.

2949 Another. Zerbe #3. **No. 792.** V. Good to Fine. Evenly worn, obviously from circulation as a $1.25 coin.

2950 Another. Zerbe #3. **No. 976.** Abt. Uncirculated. Unusually choice and desirable.

2951 Another. Zerbe #3. **No. 1000.** Ex. Fine. A nice piece, with a Proof like surface, but showing one or two minute defects. This specimen was long thought to be the final Bumstead number.

Zerbe correctly believed his No. 3 to be the most common variety. It is the easiest to obtain in the series, and can be called "Common" on the same basis a Stella can be called common. Rarity 1.

2952 **Bank Type.** Obv. Upper half same as No. 2; lower half, A COMMODITY/WILL GIVE MERCHANDISE OR CASH/.AT.ANY.BANK./NO. in four lines; a blank field, the size and position of which suggests that provision was made for special imprint in addition to the number; at bottom, in curved line, AT BULLION VALUE. Rev. Same as No. 3. 35mm across center. Zerbe #4. **No. 1621.** Only five pieces, die trials, were struck and the Bank idea was abandoned. No. 1525 was in the Cowell collection; No. 1563 was in the Briggs, Roach colls.; No. 1620 was in the Brenner collection, and was later obtained by Farran Zerbe; No. 1631 was the first Zerbe specimen, and is mentioned as such in his 1917 article. These unrelated numbers, when only five were struck, are indicative of the lack of system associated with the enterprise. Extremely Fine or better. Nicely toned. Extremely rare. The Cowell specimen realized $68.50, 1923. Rarity 7. **Plate.**

1901 Issues

The weight, size and price were reduced with this final modification of Lesher's idea. The following are 38mm [illegible] and weigh 412½ grains, the weight of a standard Silver dollar. All have the price $1.00, instead of $1.25, as on the 1900 issues.

2953 **Imprint Type.** Obv. Mining scene, etc., as on No. 2, below in four lines IN THE PEOPLE WE TRUST/A COMMODITY/WILL GIVE IN EXCHANGE/MERCHANDISE AT, a blank space for imprint, at bottom, NO with line for number. Rev. JOS.LESHERS.REFERENDUM.SILVER SOUVENIR.MEDAL in three quarter circle at top, State seal device as on No. 2 divides PRICE $1.00. with U.S./PATENT at left and NO 62,695 at right; below in six lines, TRADE MARK REG. U.S. PAT. OFF./NO. 36,192 APR. 9, 1901 DESIGN PAT. APR. 16. 1901./M'F'D./VICTOR COLO/.1901. Zerbe #5. **No. 8.** No period after number. This is the Lesher "Stock" variety, without business imprint. The piece at hand was lot 1690 in the Belden E Roach sale, B. M. Mehl, 1944. Abt. Uncirculated, and almost perfect. Lightly toned. Rare. **Plate.**

2954 Another. Zerbe #5. **No. 41.** Period after number. Abt. Uncirculated. Very sharply struck. Evenly toned Rare.

2955 Another. Zerbe #5. **No. 439.** No period after number. Strictly Very Fine. Traces of iridescent tarnish Attractive, but a slight edge bruise at the top of the obverse. Rare.

2956 Another Zerbe #5. **No. 1025.** Period after number. Very Fine. Indications of iridescent tarnish. The highest number known to Mr. Zerbe was 1022. Rare.

2957 Another. Zerbe #5. The rarer sub-variety without number punched in. Abt. Uncirculated. A beautiful lustrous piece, with a toned Proof like surface. V. Rare.

The use of the word "Medal," upon the reverse of the Imprint type, was undoubtedly official influence making itself felt Lesher called his products coins, and considered them mediums of exchange. Mr. Zerbe called No 5 fourth, in order of rarity We agree with him, and are quite sure the variety is a Rarity 5 item.

2958 **Zerbe No. 6.** Same as No. 5, but stamped J. M. SLUSHER/CRIPPLE CREEK, COLO. **No. 11.** Period after number. Abt. V. Fine. Traces of tarnish, and with a few minute handling defects. Scarce.

2959 Another. Zerbe #6. **No. 57.** As last. Slightly better than the last, and a cleaner coin. Scarce. **Plate.**

2960 Another. Zerbe #6. **No. 106.** Wider spaced numerals in number; without period. Strictly Very Fine. Slight indications of iridescent toning. Scarce.

2961 Another. Zerbe #6. **No. 117.** As last. Abt. Unc. A lustrous, Proof like beauty. Scarce.

2962 Another. Zerbe #6. **No. 179.** Closer numerals; without period. Abt. Unc. Another lustrous, and beautiful impression, but with a planchet defect or so at the top edge. Scarce.

2963 Another. Zerbe #6. **No. 191.** As last. Extremely Fine. A really nice example. Scarce.

2964 Another. Zerbe #6. **No. 249.** Somewhat wider spaced numerals in number; without period. Fine to V. Fine, with traces of iridescent tarnish. Scarce.

J. M. Slusher was a Cripple Creek grocer, and according to Zerbe's account at his conversations with Lesher, had less than five hundred pieces. Mr. Zerbe only knew this variety to be numbered from 49 to 248, but others have appeared. The Cowell collection had a No. 4, and a No. 542. The No. 11 and No. 249 above, were unknown to F Z. This is the second commonest type, and can be called a low Rarity 3 item.

2965 **Zerbe No. 7.** Same as No. 5, but stamped SAM COHEN/VICTOR, COLO. **No. 418.** Ex. Fine, Proof like surface. Slight planchet defect at bottom edge. Ex Roach collection at $67.50. A low price, considering the actual rarity of this type. Ex. Rare. **Plate.**

2966 Another. Zerbe #7. **No. 429.** This is the famous example with the imprint double struck, one being upside down. Strictly Fine. From the Briggs, Roach collections. Unique.

2967 Another. Zerbe #7. **No. 436.** Extremely Fine. Lightly toned with a lustrous surface. Ex. Rare.

Cohen was a Victor Jeweler, and evidently did not handle many Referendums. Zerbe only knew of three examples, and including the above, we have only located five or six. Rarity 7.

2968 **Zerbe No. 8.** Same as No. 5, but stamped D. W. KLEIN & CO., PUEBLO, COLO. **No. 1063.** Fine or better Iridescent tarnish at the edges. Of the most extreme rarity. The Roach specimen realized $105.00 in 1944. **Plate.**

Mr. Klein's firm was engaged in the retail liquor business, and originally had three hundred Lesher dollars. They must have all disappeared, as Zerbe only knew of two, and we doubt it more than half-a-dozen are extant Rarity 7.

2969 **Zerbe No. 9.** Same as No. 5, but stamped GEO. MULLEN VICTOR, COLO. **No. 1509.** Only V. Fair to Good. A piece that really circulated. Ex Briggs coll. V. Rare.

2970 Another. Zerbe #9. **No. 1511.** Uncirculated. The gorgeous and "Gem" example from the Mann collection. This beauty is one of the three known to Zerbe, in 1917. V. Rare. **Plate.**

2971 Another. Zerbe #9. **No. 1616.** Very Good. Slight signs of handling. Ex Roach collection. V. Rare.

2972 Another. Zerbe #9. **No. 1543.** Uncirculated, with a bright, Proof like surface. We notice a few imperceptible defects, but this is a splendid specimen. V. Rare.

2973 Another. Zerbe #9. The excessively rare sub-variety without number punched in. Extremely Fine with slightest signs of tarnish. This is undoubtedly the Morgan specimen, another of the three examples known to Zerbe.

Forran Zerbe quoted Lesher as saying that Mullen was a Shoemaker, and that he had only 100 pieces We presume from the limited number known, that they were numbered from 1500 to 1550, with either the balance unnumbered destroyed or lost In addition to the five described above, we doubt if more than two or three are known A strong Rarity 6 type.

2974 **Zerbe No. 10.** Same as No. 5, but stamped BOYD PARK DENVER, COLO This imprint differs from the preceding, in that it is in smaller characters. **No. 517.** Extremely Fine. Blue iridescent toning at the edges. V. Scarce.

2975 Another. Zerbe #10. **No. 527.** Strictly Very Fine or better. V. Scarce **Plate.**

2976 Another. Zerbe #10. **No. 533.** Very Fine. Evenly toned, with two or three minute defects V. Scarce

2977 Another. Zerbe #10. **No. 590.** A Fine, clean coin, with minor indications of handling V. Scarce

2978 Another. Zerbe #10. **No. 628.** Wider spaced numerals in number, without period Extremely Fine Lustrous, attractively toned, and definitely desirable. Undoubtedly rare.

2979 Another. Zerbe #10. The very rare sub-variety without number punched in Uncirculated Iridescently toned, with a Proof like lustre.

2980 Another. Zerbe #10. Without number punched in. Uncirculated Brilliant Proof like surface

2981 Another. Zerbe #10. Without number punched in. Very Fine. Slightly mishandled, particularly upon the reverse edges. Zerbe only knew of one example without the number impression, his own.

Park was a Denver Jeweler, and a distributing agent for Lesher. Apparently, only two hundred were stamped, as all the known specimens are numbered between 500 and 700. Rarity 4.

2982 **Zerbe No. 11.** Same as No. 5, but stamped W. C. ALEXANDER/JEWELER/SALIDA, COLO. (The second A in SALIDA is an inverted V.) This imprint is in three lines, while all of the others are in two. **No. 1.** Fine to V. Fine, with a few minute defects. Evenly toned, with some iridescence. Of the greatest interest and value. From the Roach collection, 1944, at $105.00. **Plate.**

2983 Another. Zerbe #11. **No. 18.** Very Good. Slightly mishandled. Equal to the Cowell, Briggs, Zerbe example, now in the A.N.S. collection. Excessively rare.

Farran Zerbe, in 1917, considered the Alexander imprint the rarest in the series. He only knew of the first Cowell specimen, which he later obtained for his own collection. We only know of two others, in addition to the Roach and Zerbe pieces. One was No. 31, and was sold with the Cowell collection in 1923. The other is the second listed above. The Salida Jeweler is quoted by Mr. Zerbe as saying that he "obtained from Joseph Lesher, Victor, Colo., fifty of the Referendum Dollars in March 1902, paying forty dollars for them; all of them were received stamped to my order as the one described, and numbered from 1 to 50. Have none on hand and do not know where they are located." A Rarity 8 type.

2984 **Zerbe No. 12.** Same as No. 5, engraved GOODSPEEDS & CO./26 PIKES PEAK AVE. **No. 1027.** The number is punched, not engraved. Abt. Uncirculated. A nicely toned example of an extreme rarity. Not in the Cowell collection. To our knowledge, only one other available specimen exists. **Plate.**

Goodspeeds & Co. were Jewelers of Colorado Springs. They experimented with Leshers by engraving a few, expecting later to have some stamped. In all, three examples are known to us. No. 1015, the Briggs, Zerbe piece, is now in the collection of the A.N.S. The Roach specimen was No. 27, and we do not know its present whereabouts. Rarity 8.

Zerbe No. 13. Same as No. 5, but stamped J. E. NELSON & CO./HOLOREGE, NEB. The Rumbel collection lacks this variety, which was unknown to Farran Zerbe when he prepared his excellent article on the subject. The only known example is very badly worn, and was presented to the A.N.S. by Mr. Zerbe in 1947. It is No. 31, and is presumed unique.

2985 **Zerbe No. 14.** Same as No. 5, but stamped W. F. WHITE MERC. CO/GRAND JCT COLO. **No. 2.** Very Fine. A nice coin, with a few unimportant defects, and a partly iridescent surface. Ex Roach collection. Considered the only available specimen extant. **Plate.**

The above described item is technically unique, as the imprint is in small letters, and entirely different from that on the only other known example. The Zerbe piece, now in the A.N.S., was stamped from an entirely different punch. W. F. White & Co. were Clothiers in Grand Junction, Colo. Rarity 8.

2986 **No. 15.** Same as No. 5, but engraved H. STEIN. **No. 1050.** The number is punched, or stamped, and is not engraved. **Unpublished.** It is believed that Mr. Stein was a Clothier in Canon City, Colo., but this information cannot be verified. This variety was unknown to Farran Zerbe. Fine to V. Fine. Believed unique. **Plate.**

OFFERED AS ONE LOT

The Rumbel Collection of Lesher Dollars

The foregoing collection of Lesher or Referendum "Dollars" is the largest and most complete offering ever made. In view of the fact that it would be quite impossible to duplicate this collection, it is the wish of the owner that it should be kept together if a satisfactory bid is received. After the preceding lots have been knocked down to the highest bidders, the total will be added, and if a bid of $100. over this total is received, bids will be opened for the complete collection.

UNITED STATES SILVER DOLLARS

1795 - 1803

The Property of O. K. Rumbel, Mission, Texas

Capt. J. W. Haseltine, a pioneer Philadelphia dealer, sold his collection of Dollars, 1795 to 1803, at auction sale on Nov. 28, 29 and 30, 1881. His catalog of that sale, known as the "Type Table," was the first attempt to describe early dollars according to die varieties. Over the years, his listing became a standard reference and often sold as high as $35.00. In 1927, B. Max Mehl reprinted Haseltine with additions. A few years ago, M. H. Bolender, the noted dealer of Freeport, Ill., now retired, decided to revise and rewrite the Early Silver Dollar section of the "Type Table." Recently, Mr. Bolender published "THE UNITED STATES EARLY SILVER DOLLARS FROM 1794 to 1803." This book is now the standard authority and the following lots are based upon the Bolender descriptions. The intense interest, stimulated by a new book on the subject, has uncovered new varieties and information. While several of the coins listed below are in an outstanding state of preservation, this collection is valuable primarily for the large number of varieties offered, many of which are quite rare.

3089 **1795. B-1.** Bust with flowing hair to r., resembling the head of 1794. Wide date spaced 1795. Rev. Two leaves under each wing of the eagle. Slightly better than Fine. Has a reverse edge bruise, otherwise a clean and attractive coin. Cost $30.00.

3090 1795. B-1. Another. Strictly Fine. A beautifully centered and evenly worn example. Well worth $25.00.

3091 1795. B-1. Another. Very Good. Has a minor defect in the left obverse field. Nice even wear.

3092 1795. **B-2.** Flowing hair. Similar to the preceding, but with the 95 in date closer together than the other figures. Minute diagonal bar in field close to inner point of the 4th star. Rev. Same as B-1; two leaves under each wing. The obverse is V. Good and comparatively sharp; the reverse is only Good to V. Good. Usual minor handling defects. Said to be worth $20.00.

3093 1795. **B-5.** Flowing hair. The variety that can be readily identified by a diagonal bar in the left obverse field close to the uppermost curl. Rev. Three leaves under each wing of the eagle. Ex. Fine. The left side of the obverse, in particular, shows file marks which were done at the mint to correct planchet weight. This sharp, well struck coin also has a number of small defects, including a minute reverse edge nick. Similar examples have sold as high as $85.00. This specimen cost $65.00, many years ago.

3094 1795. B-5. Another. About Ex. Fine. Not quite as sharp as the preceding, but a splendid coin with considerable mint lustre. Boldly struck with well defined borders. Minute nick in the upper part of the obverse field. A highly desirable specimen, said to have cost $60.00.

3095 1795. B-5. Another. Claims to Ex. Fine. Another choice example, almost the equal of the last. Well centered with a partly toned, lustrous surface. Has a few infinitesimal imperfections, many of which are manufacturing defects. This piece, like the two preceding, is superior to the Bolender specimen which was described as Very Fine and slightly scratched. Originally cost $60.00 and so marked.

3096 1795. B-5. Another. Fine, though bought as Very Fine. Few minute defects so common upon these large, heavy coins. This piece is also marked $60.00 which seems entirely too high.

3097 1795. B-5. Another. About Fine. This dollar also has a few unimportant defects. Worth $25.00 so.

3098 1795. **B-9.** Small bust with flowing hair. This obverse (Same as B-3 & B-11) is often called the "Head of 1794" because of two low and thick curls. The third curl from the top turns downward. Rev. Same as B-4, with two leaves under each wing. Fine. Has an odd planchet defect through the Y of LIBERTY. Rarity 5. V. Rare. Valued by Bolender at $50.00.

3099 1795. **B-10.** Flowing hair. Obverse identical to B-1. Rev. This rare die can be distinguished by two berries on the outside of wreath, at right, between the end of eagle's wing and the ribbon bow. There are two leaves under each wing of the eagle. Fine to Very Fine. An attractive, evenly toned coin. The Bolender specimen was only Fine and realized $85.00 in the sale of his collection on February 23rd last. Rarity 6. Ex. Rare. Undoubtedly one of the finest known examples and worth a good price. **Plate.**

3100 1795. **B-12a.** Flowing hair, in six curls, the lowest of which passes through a point of the first star and continues to right, ending in a sharp point. Vertical die crack extending from bust downward through 7 of date to border. Rev. Three leaves under each wing. Thirteen berries. Fine to V. Fine. Rarity 7. Until now, this variety was considered unique. The discovery piece was Bolender's own, and was sold with his collection on Feb. 23rd last. It was previously lot #807 in the famed Stickney sale, 1907, where it was cataloged as Good. This example is far superior to the Stickney-Bolender specimen which realized $110.00. Excessively rare, the finest known example. **Plate.**

3101 1795. **B-14.** Draped bust. Hair tied up with ribbon and thus known as the "Fillet" head. Variety with bust placed too far to left. Rev. Very small eagle. Abt. Very Fine. File marks on obverse together with one or two other unimportant defects which include a few minute scratches under the L of LIBERTY. Well worth $35.00.

3102 1795. B-14. Another. Draped bust, as last. Strictly Fine. Usual minor defects together with a serious, attempted puncture in the O of OF upon the reverse.

3103 1795. **B-15.** Draped bust, similar to preceding, but well centered. Rev. Also similar to the foregoing. Fine to V. Fine. A nice, clean coin with a nominal amount of the commonly found picayune defects. Rarer than B-14.

3104 1795. B-15. Another. Draped bust, as last. Strictly Very Good. Small gouge in the left obverse field as well as a few other defects, including a reverse edge bruise. An acceptable coin that is better than its description. Cost $20.00.

3105 **1796. B-2.** Draped bust, as on all following. Small, wide date. Rev. Small letters. Abt. Very Fine. Rarer than commonly known. Ex Col. Green collection. Cost $55.00.

3106 1796. **B-4.** Small, wide date, the 9 and 6 close. Curl on top of head perfect. Rev. Large letters. Almost Fine. Worth over $25.00.

3107 1796. **B-4a.** Same obverse die as last. Curl on top of head defective. The identical obverse found on B-3 which has a Small letters reverse. This variety has a Large letters reverse. Trace of bifurcation on LIBERTY otherwise as described by Bolender. Strictly Good with a minute reverse edge bruise. This combination has been called unique, but we have seen several specimens. From the Belden Roach sale, 1944, as lot #1460 where it was described as having a Fine obverse and a Very Good reverse. V. Rare. Cost $36.00.

3108 1796. B-4a. Another, identical to last. As described by Bolender, but traces of bifurcation on A and I in AMERICA. Good to V. Good with two small punch marks upon the reverse. V. Rare, but hardly the extreme rarity so often claimed.

"Bifurcation" is really a result of too wide a planchet. It is generally found at the bottom of letters around a legend, and appears to be a splitting or an indentation at the base of each letter. Bolender, in his book, believes that bifurcated letters were cut that way in the die, while actually, we believe it to be little more than a matter of striking.

3109 1796. **B-5.** Large date. Rev. Small letters. Small die lump at right top of I in AMERICA. Almost Ex. Fine; slight rubbing on the high spots. This coin has a beautifully toned surface with considerable mint lustre. A few, hardly noticeable, scratches between UNITED and STATES upon the reverse. A choice and attractive example of this scarce date. A specimen, only slightly superior, realized $100.00 in the sale of the "World's Greatest Collection" in 1945. **Plate.**

3110 1796. B-5. Another. Fine or better. Nicely toned. Well worth $30.00 so.

3111 1796. B-5. Another. Strictly Fine. Few defects, including on obverse edge bruise. Appears to have been cleaned.

3112 **1797. B-1.** Sixteen stars, 9 x 7. Rev. Large letters. Very Fine. Beautifully centered with considerable mint lustre. Valued by Bolender at $50.00 so.

3113 1797. **B-1a.** Same dies as last. Die cracks through 97 of date, bust, and stars on right. Another crack from upper back curl through ribbon and seventh star. Fine to V. Fine. Few unimportant defects including on obverse edge bruise. Lightly tarnished. A choice and rare coin.

3114 1797. **B-2.** Sixteen stars, 9 x 7. Rev. Small letters. Fine, with some claims to V. Fine. The obverse is particularly sharp and well struck. Several signs of mishandling, mostly on the edges, including a very small cut in the right obverse field. Ex Col. Green coll. A very rare and popular "Type" variety. Cost $72.50 and well worth it.

3115 1797. **B-3.** Sixteen stars, 10 x 6. Rev. Large letters. Just about Ex. Fine. A splendid coin with a strongly struck and lustrous obverse. Unfortunately, the reverse is not as well struck and shows evidence of considerable filing prior to striking. Equal to specimens that have sold for $50.00. **Plate.**

3116 1797. B-3. Another. Strictly Very Fine with traces of lustre. Has one or two old and minor defects, but is far above average. Valued by Bolender at $50.00 so.

3117 1797. B-3. Another. Obv. Very Good or better. Rev. Almost Good. Outside of a minor obverse edge bruise this is a nice, evenly worn coin. Retails today for about $25.00.

3118 1797. B-3. Another. Obv. Strictly V. Good. Rev. Abt. Good. The obverse shows a few handling marks and has three initials lightly scratched in the right field. Not a beautiful coin, but far from common. Cheap at $20.00.

3119 **1798. B-1.** Thirteen stars. Rev. Small eagle and large letters. Fine or better. Usual minor defects and several rim bruises, including a serious one that is apparent on both sides. In great demand as a "Type" coin. Well worth $35.00, with higher records.

3120 1798. B-1. Another. Good to V. Good. Minute rim defect on obverse. Tarnished and evenly worn. A very popular coin.

3121 1798. **B-2.** Fifteen stars. Rev. Small eagle and small letters. Obv. V. Good. Has a few granulation streaks together with several tarnish spots and other minor defects. Rev. V. Fair to Good. Not an attractive coin but certainly a rare and popular one. Cost $25.00, several years ago.

3122 1798. **B-4.** Draped bust and thirteen stars. Rev. Large, heraldic eagle as on all following, to 1803. Knob 9. Curl does not touch 1. Rev. Ten perfect, one faint and two "Headless" arrows. Very Fine and sharp. Rarity 6. Lacking in the "World's Greatest Collection." Extremely rare. Valued by Bolender at $75.00.

3123 1798. **B-6.** Knob 9. Point of 1 touches curl and 8 very nearly touches bust. Rev. Ten perfect and two "Headless" arrows. Very Good with some claims to Fine. Few defects and well toned. Rarity 3. Valued by Bolender at $25.00 in Fine.

3124 1798. B-6. Another. Strictly Fine or better. However, this coin has a number of edge bruises and several minute nicks. There is also a small gouge over the head.

3125 1798. **B-8.** Stars on right very close to Y and bust. Long vertical die flow in center of left obverse field. Rev. Four large berries on branch. A lustrous, Very Fine coin that has been roughly handled. There are a number of small gouges, particularly noticeable upon the reverse. Cost $17.00.

3126 1798. **B-8a. (Should be B-8b.)** Same dies as last, but thoroughly shattered. The die breaks are much more extended than upon Bolender's 8a. Almost Fine and showing the full effect of broken dies. Undoubtedly of extreme rarity.

3127 1798. **B-11.** Medium wide date. No spur on 9. Hill shaped die cutting shows just beneath ribbon below along two highest curls at back of head. Perfect dies, unknown to Haseltine so as the obverse die broke early. Fine to V. Fine. Obverse edge bruise and small punch mark upon the breast. Rarity 6. Extremely rare. Valued by Bolender at $50.00 in Fine.

3128 1798. **B-13.** Medium wide date. Die flaw between last star and bust. Rev. Only ten arrows. Almost Fine. Bought as Very Fine.

3129 1798. **B-14.** Medium wide date. Spur on 9. Diagonal lines in field between first two stars and crown. Very Good. Has an odd shaped cut at mouth and one or two other defects.

3130 1798. **B-15.** Wide date. Spur on 9. Rev. Same as B-11. Strictly Very Fine. Bold and generally well struck but somewhat weak in the center. Ex Col. Green coll. Valued by Bolender at $3[illegible].00.

3131 1798. **B-15a.** Same dies as last, but struck before the obverse was completed. The stars, date and lowest curl are smaller, weak and incomplete. An easy point of comparison is the last star which is almost half the size of its counterpart on B-15. Fine to V. Fine. A nice, clean example of this variety. [illegible] Ex [illegible]

3132 1798. B-15a. Another. Almost Very Fine, but weakly struck on the upper left part of the obverse and the corresponding part of the reverse. Also, there are two minute reverse edge bruises. Rarity 5. Bolender values this variety at $40.00 in Fine and $65.00 in V. Fine. It is seldom that two rarities of this caliber appear together.

3133 1798. **B-17.** Very wide date, the 8 just touching the bust. Rev. Five very small berries in branch. Only ten arrows. About Extremely Fine. A beautifully toned coin with considerable lustre, believed to be one of the three finest known specimens. Rarity 7. To our knowledge, only five examples exist of this rarity. Bolender mentions three pieces: His own, which he called Very Fine; the Fine specimen mentioned in his book; the Haseltine coin, which was only Good. Ex Col. Green collection where it was called Unc. Excessively rare. Cost $65.00, many years ago, and is well worth $100.00 today. **Plate.**

3134 1798. **B-19.** Very wide date, distant from bust. Rev. Several die flaws, one between ST, another between TE, another at right of E in STATES. Very Fine. Struck on a wide, full flan. Rarity 5. Valued by Bolender at $65.00. Very rare.

3135 1798. **B-20.** Very wide date, 1 close to curl. Die defect between date and bust. Rev. Leaf points between R and I in AMERICA. Heavy die break from right wing down through I in AMERICA to border, another below ER in AMERICA. There is also a small rim break beginning below the tail which is unlisted. Fine or better. Has a minute reverse edge bruise. Rarity 4. Almost the equal of Bolender's example. Rare variety, and well worth $35.00.

3136 1798. B-20. Another. Identical to last, but a somewhat later impression. The die defect, between date and bust, has become a lump, as described by Bolender. The reverse breaks are heavier, particularly the one at the rim below the tail. This coin is a shade sharper than the last and is almost V. Fine. It has two unimportant obverse edge bruises which are so common upon these large, heavy coins. Somewhat rarer than the last.

3137 1798. B-20. Another. Identical to the last two, but a still later die stage. All breaks are very heavy and we can observe two new light cracks beginning at the base of ES in STATES and at the bottom of O in OF. Other minor indications of the die's disintegration are evident. This coin is strictly Fine and has a few minor defects, including several light digs on the obverse. It is undoubtedly one of the last impressions and as such, is really rare.

3138 1798. **B-22.** Very wide date, 8 firmly united with bust. Rev. Die break down through E of STATES. V. Good. Several defects, including a number of edge bruises, one of which, upon the obverse, is rather serious. Rarity 2.

3139 1798. B-22. Another. Good or slightly better. Also slightly mishandled, including a reverse scratch and two minute digs to the right of E in STATES.

3140 1798. **B-23.** Obverse from the same die as last (B-22). Rev. Same as B-19; a rare combination. Strictly Fine. Nicely toned. Rarity 3. Well worth $25.00 so.

3141 1798. **B-23a.** From same dies as the preceding. Second curl from bottom defective. Very Fine or better, originally purchased as Ex. Fine. A bright, lustrous, bold coin with infinitesimal indications of handling. A beautiful piece, valued by Bolender at $50.00. Rarity 4. Uncommonly rare.

3142 1798. B-23a. Another. Abt. Very Fine. An attractive dollar with the usual slight signs of handling. Cost $35.00.

3143 1798. **B-24.** Medium, wide date. Rev. Die break from stem down to milling. Very Fine. A sharp, well struck example. One or two minor defects, including a reverse edge bruise. Cost $27.50.

3144 1798. **B-24a.** From the same dies as last, but has a die break from neck through right field, 12th star, to border. Fine or better. Minute bruise upon shield on reverse. Rarity 2.

3145 1798. **B-25.** Close date. "Whisker" under chin. Rev. Star touches upper part of eagle's beak. Very Good, originally bought as Fine. Usual signs of handling, this time obvious in two obverse edge bruises and a slight dig in the left obverse field. Rarity 4. Rare. Worth $25.00.

3146 1798. **B-27.** Close date, high 8. Rev. From same die as B-11 and B-15. (Leaf points to space between R and I in AMERICA. Star distant from eagle's beak.) Almost Uncirculated. A highly lustrous coin, struck on a wide, full planchet. There are a few, almost invisible scratches to the right of S in STATES. A similar specimen sold in the "World's Greatest Collection" sale for $60.00. Rarity 2. **Plate.**

3147 1798. B-27. Another, but a later die stage. The reverse crack is somewhat longer than that described by Bolender. Almost Ex. Fine with the usual minor defects. A beautiful coin, valued at $35.00.

3148 1798. B-27. Another. Almost the final state of the dies. The reverse is shattered. Strictly Fine or better. The obverse has its share of minor defects, including a scratch to the right of the third star. A very rare and unpublished sub-variety.

3149 1798. **B-30.** Close date, high 8. Pronounced obverse die breaks from below 9 up to bust; to first star, and beyond; along border to right base of bust. Rev. All upper stars distant from clouds. Strictly Fine. Slight defects. Rarity 5. Valued by Bolender at $40.00. Very rare.

3150 **1799/98. B-2.** Weak die flaw at left base of E. Rev. Die break from border down through curved part of D in UNITED. Fine. Two slight defects, one on each side. Rarity 4. A clear and popular overdate. Well worth $30.00.

3151 1799/98. B-2. Another. Die flaw at left base of E somewhat stronger. Several other die defects are quite evident in the upper obverse field. Fine or better. Traces of mint lustre. A shade more desirable than the last.

3152 1799/98. B-2. Another. Die flaws and breaks, on both sides, somewhat more prominent. An advanced stage of the die. Very Good. Popular, and in great demand.

3153 1799/98. **B-3.** Obverse from the same die as last (B-2). Rev. The famous "Fifteen Star" reverse. There are two extra stars almost buried in the clouds. Fine or better. A well struck coin with wide, deep borders. Traces of lustre. Rarity 5. Valued by Bolender at $40.00. Ex Col. Green coll. V. Rare.

3154 **1799. B-4.** Irregular date. Rev. The "Fifteen Star" reverse, as last. V. Good. Few light edge bruises, particularly on the obverse. Rarity 4. Valued by Bolender at $15.00 in Good and $30.00 in Fine. Rare.

3155 1799. **B-5a.** Perfect date. Pocket under throat as claimed by Bolender. Rev. All six upper stars touch clouds. Weak die break through UNITED STATES. Strictly Fine. Short scratch on left side of shield into reverse field. Rarity 3.

3156 1799. B-5a. Another. Similor to the preceding, but without pocket under throot. Rev The die break through UNITED STATES is much more pronounced ond clearly begins below the eogle's tail. Abt. V. Fine. One or two slight defects. Troces of mint lustre. Undoubtedly rorer thon the lost.

3157 1799. B-5o. Another. Without pocket ond with heavy reverse break. Fine to V. Fine ond olmost the equol in condition. The reverse borders are porticulorly well struck upon this coin. One or two minute obverse edge defects. Rare.

3158 1799. **B-6.** First stor smoller than the others. Rev. Right stand of A in STATES touches cloud. Very Fine with some claims to Ex. Fine. A beoutifully struck piece with deep, shorp reverse borders. Nicely toned with traces of mint lustre. Rority 5. Bolender values this voriety ot $60.00 in V. Fine. Very Rore. **Plate.**

3159 1799. B-6. Another. Fine or better. Two minute obverse edge nicks do not impoir the oppeorance of this rority Worth $40.00 in this condition. V. Rare.

3160 1799. **B-8a.** Liberty with open mouth. Slight die breok through two points of seventh star ond LIB Rev. Line between N ond I of UNITED ot base. Almost V. Fine. Minor edge bruise ot top of obverse ond o planchet defect ot edge, obove S of STATES. Rority 3.

3161 1799. B-8o. Another. Very Good, few defects, but o nice, clean coin.

3162 1799. **B-8b.** Identicol to the preceding, but o loter stoge of the die. All of the breoks described by Bolender do not cleorly appeor upon this coin. Fine. One or two minor defects. Rorer than the lost, but hordly o Rority 5 coin. Worth $30.00.

3163 1799. B-8b. Identicol to the foregoing, but o very late stoge of the die. Crack through LIB is heovier ond extends further. Additional breok from border above T down through TY. Top of E ond R defective. The reverse die is now badly shottered with numerous breoks. Uncirculoted. A splendid, shorp impression with full mint lustre. Far superior to the Bolender example which was only V. Good to Fine. Rority 5. Undoubtedly the finest known specimen ond conservotively valued at $125.00. **Plate.**

3164 1799. **B-9.** Large stars, oppeoring close together. Rev. "Apostrophe" die flaw after last S in STATES. Strictly Fine. A nice, cleon coin.

3165 1799. B-9. Another. Very Good. Unimportant obverse die bruise.

3166 1799. B-9. Another. Very Good. Light obverse scrotch ond few minor edge bruises. Not os desirable as the lost.

3167 1799. **B-9a.** Identicol to the preceding, but the voriety with more fine crocks on the obverse. Abt. Fine. Few signs of mishondling, including on edge bruise on each side. Rority 2.

3168 1799. B-9o. Identicol to the lost, but o loter stoge of the die. The obverse die breaks are oll clearly pronounced ond sharp. Very Fine. Struck on o wide, full planchet with even impressions of the dies. Traces of lustre. Few unnoticeoble defects. A choice ond desirable example of this sub-variety. Well worth $30.00.

3169 1799. **B-10.** First stor appears smoll ond thin. Rev. Five lorge berries. This specimen exhibits none of the die breoks, on either side, ottributed to it by Bolender. In the sole of this collection, Bolender described o B-10c, under lot #107, which he stated hod o perfect "Obverse" die. As this coin is free of breaks upon both sides, we con only conclude thot it is unpublished. Fine. Smoll obverse edge bruise. Presumobly rare.

3170 1799. B-10. Identicol to the lost, but now the light crack through last three stors, os mentioned by Bolender, con be seen. The reverse of this piece is olmost as perfect as the last. There is no evidence of the die breok through OF, bottom of AMERICA, etc. Strictly Very Fine ond lustrous. Minor bruising upon the obverse edge. A nice coin and evidently os rare os the preceding.

3171 1799. **B-10b.** Identical to the foregoing, but with a perfect obverse die and a severely broken reverse die. Abt. Fine. Few edge bruises, mostly light, but one severe upon the reverse. Rority 3. The Bolender specimen was about the equol of this coin.

3172 1799. **B-11b.** Obverse same os B-10, when perfect. Rev. Usuolly described as "Without berries." Heovy die break from border through fourth feother of wing, to stor and eogle's beak. The length of this break is not mentioned in the Bolender book, but he does describe o similor specimen os B-11b in the cotolog of his collection. Fine. Few edge bruises, including one rother obvious one upon the reverse. Supposedly Rority 5. It is cloimed thot B-11a is worth $40.00 in Fine.

3173 1799. B-11b. Identical to the lost, but "Woves" at date ore stronger. We note traces of o die breok, on this coin, through UNITE of UNITED. This breok, unknown to Bolender, seems to oppear in varying degrees upon oll exomples of this sub-voriety. Very Fine with consideroble lustre. A choice ond desiroble coin. Rore

3174 1799. B-11b. Another. Strictly Fine. One or two minor defects. Rore.

3175 1799. B-11b. Another. Very Good or better. Several slight defects, including what oppears to be o small stor scrotched in the left obverse field. Rore.

3176 1799. B-11b. Identicol to the foregoing, except thot the reverse die is now severely broken. Very Fine A boldly struck and well centered coin with troces of lustre. Assuredly, the equal of lot #110 (B-11b), thot Bolender volued at $50.00 in the sole of his collection.

3177 1799. **B-12a.** Seventh star close to L, more so thon 8th is to Y. Rev. Same as B-11. Slightest signs of obverse die crocks. A comporatively early impression from the die. Very Good or better. Minute gouge at top of head Rority 4.

3178 1799. B-12o. Another. Successive stoge of the die. Obverse cracks barely showing. V. Good. Small reverse edge bruise. As rore os the last.

3179 1799. **B-12b.** Identicol to the two preceding, but the obverse die cracks ore much more pronounced. Very Fine with some claims to Ex. Fine. A well centered, well struck coin thot is worthy of o home in the finest collection. Reolly rore. The Bolender exomple wos only slightly better and sold for $75.00.

3180 1799. B-12b. Identical to the lost, but there ore now two breaks across the hair and bust Also o break from the 9th stor curves through field to border near point of bust. The beginning of the end for this die. Strictly Fine. Minute reverse edge defect. Very Rore. Worth $30.00.

3181 1799. **B-14.** Die flaws before eye. Rev. Die flows under AM of AMERICA Fine or better Well centered and struck. Slightest signs of hondling. Rority 4 Volued by Bolender ot $30 00 in Fine

3182 1799. B-14 Another. Very Good. Usual unimportant defects. As rare as the lost

3183 1799. B-14. Another. Very Good. Small obverse nick under T of LIBERTY. Rore.

3184 1799. **B-16a.** Left stars distant from curl and L. Right stars close to Y and bust. Rev. Left corner off U in UNITED. Waves at top of date and die break through OF on reverse. Fine or even a little better. A nice, clean coin. Valued by Bolender at $25.00. Rare.

3185 1799. **B-16b.** Identical to the last, but many die cracks have shattered the obverse die, thus terminating its use. Strictly Very Fine with considerable mint lustre. The reverse shows slight evidence of file marks. A choice, attractive coin. Bolender only knew of one specimen, his own. We have only seen one other in addition to this piece. Rarity 6. Valued at $75.00.

3186 1799. **B-17.** Obverse same as B-10. Rev. Five extra large berries on olive branch, the two upper berries partly buried in leaves. Trace of reverse die break as found on B-17a. Very Good.

3187 1799. **B-17a.** Identical to the last, but with pronounced reverse die break from border through center of U, bottom of NITED, left wing, up through ST. Fine. A clean and well struck dollar. Rarity 4. Valued by Bolender at $30.00. Rare.

3188 1799. B-17a. Another. Very Good. Several signs of mishandling, including a few light scratches and an edge bruise or so. Not too bad a coin. Rare.

3189 1799. **B-18.** Obverse identical to B-19, the next lot. Rev. Heavy die break between E and D in UNITED and through left wing, to top of shield. Very Good. This coin has the usual quota of defects and has also been expertly plugged and retooled. Rarity 6. Ex. Rare.

3190 1799. **B-19.** Eighth star distant from Y, and farther than first star is from curl, or seventh star from L, or last star from bust. Rev. Same as B-2. Die break from border down through curved part of D in UNITED. A very early state of the reverse die. Very Good. Minute edge nick on left side of obverse. Rarity 5. Valued by Bolender at $20.00 in Good and $40.00 in Fine. V. Rare.

3191 1799. **B-21.** Eighth star close to Y. Rev. Same as B-14. Die flaws under AM of AMERICA. Almost Ex. Fine. Slight signs of die roughness. A splendid, lustrous coin that is only touched by wear on the highest parts. Beautifully toned. Rarity 4. Said to be worth $50.00. **Plate.**

3192 1799. B-21. Another. Abt. Very Fine. A sharp, desirable coin. Lightly toned. Rare.

3193 1799. B-21. Another. Fine or better. Usual infinitesimal signs of handling. Said to be worth $30.00 so.

3194 1799. B-21. Another. Almost Fine. A nice example of a rare dollar. Cheap at $25.00.

3195 1799. **B-22.** Same obverse as B-14. Rev. A heavy horizontal die break from right side of E to left side of M divides the coin in half. Obv. V. Good; Rev. Fine. Few unimportant defects. Rarity 6. Bolender values this variety, in Fine, at $50.00. Ex. Rare.

3196 1799. **B-23.** Thirteen stars, 8 x 5. Rev. From the same die as B-16. Strictly Very Fine. An attractive, well struck coin with a few defects, most of which appear upon the obverse. In particular, we note two small gouges in front of the forehead and another on the edge, at point of bust. Rarity 5. Ex Col. Green collection where it was priced at $65.00. Rare, and in great demand.

3197 1799. B-23. Another. Fine. Shows the usual handling defects which seem to have an affinity for this variety. A nicely centered, evenly worn specimen. A very popular "Type" coin. Cost $30.00, many years ago.

3198 **1800. B-4.** In date, 1 close to curl, 8 tipped to right. Rev. T in UNITED double cut, AME join. Die flaws show at top and to right of ES in STATES. We cannot locate the obverse breaks around the date, and assume that this specimen is identical to B-4b, as described under lot #137, in Bolender's Feb. 23rd sale. Strictly Fine. Well centered and strongly struck. Slightest defects. Said to be very rare.

3199 1800. **B-5.** Variety with die dot inside lower part of R in LIBERTY. Rev. AM join, leaf under left side of upright of I in AMERICA. Very Fine. Few defects including a light obverse edge bruise above BE of LIBERTY. Rarity 4. Rare.

3200 1800. **B-8.** Obverse from same die as last (B-5). Rev. Three upper stars on right do not touch clouds. Very large berries. There is a reverse die break beginning below F of OF and continuing through AMERI above C to border. Fine to V. Fine. Wide flan with deep, bold borders. This coin, with tongue in cheek, could be called an example of the famous Haseltine 9.

3201 1800. B-8. Another. Very Good with a number of edge bruises and abrasions, many of which are upon the reverse.

3202 1800. **B-10.** Very wide date, 8 low. Rev. From same die as B-5, but with light die break from leaf through C to border. Fine. Nicely struck. Few reverse edge defects.

3203 1800. B-10. Another. Very Good. Odd punch mark on neck.

3204 1800. **B-11.** Obverse identical to last with highest curl on top of head defective. Rev. AMERICAI. Fine. Small X scratched by some vandal in space under UNUM on reverse. This is the rare variety that took Bolender thirty-five years to locate. Rarity 7. Worth a good price.

3205 1800. **B-12.** R in LIBERTY distinctly double cut. Rev. Five small berries. AME do not join. Fine. Usual minor defects, including a few light reverse scratches above eagle's head.

3206 1800. **B-14a.** Dotted date or "Q" variety. Flaws inside and above first 0 in date. Rev. ME in AMERICA join. Only 12 arrows show plainly, 13th nearly hidden. There are several light breaks on both obverse and reverse. Fine to Very Fine. Sharp and attractive. A popular and desirable variety.

3207 1800. B-14a. Another. The various breaks, particularly upon the obverse, are somewhat sharper on this specimen. Fine with some claims to V. Fine. About as attractive and choice as the preceding. Said to be from the Col. Green collection at $25.00.

3208 1800. **B-15.** Last star very close to bust. Minute dot between R and T of LIBERTY. Rev. Ten perfect arrows and three heads without sticks. Just about V. Fine for this variety. Wide, broad planchet with full borders. Rarity 4. Ex Col. Green coll. Worth $35.00. Rare.

3209 1800. B-15. Another. Fine to V. Fine and also struck upon a full flan. Usual unimportant signs of mishandling. Rarity 4, as the last. Cost $25.00, many years ago.

3210 1800. **B-16.** Die dot just to left of highest curl on top of head. Rev. Same as B-4. Fine to V. Fine. A nice, clean coin. Desirable and choice.

3211 1800. B-16. Another. Fine. Somewhat roughly handled and holed above head.

3212 1800. **B-16b.** Similar to the last, but suction marks as "Waves" behind and at top of date. Very Fine or better. Sharp and bold impressions. A nicely toned coin with traces of mint lustre. Highly attractive and desirable and supposedly rarer than the foregoing.

3213 1800. B-16b. Another. Strictly Fine and well struck. Several minor signs of handling plus a small gouge at the base of throat.
3214 1800. B-16b. Another. Abt. Fine. Light scratch from chin to tenth star. Above average.
3215 1800. B-16b. Another. Not quite Fine, but a beautifully struck and attractive coin.
3216 1800. B-16b. Another. Abt. Fine. Several serious defects including an obverse edge bruise. Like many other coins in this collection, this specimen was purchased as V. Fine.
3217 1800. **B-17.** A line to left of foot of 1 in date. Rev. Only 12 arrows. This coin is almost V. Fine, but has a light scratch across the bust to the right border plus a few other less important defects
3218 1800. **B-17a.** Identical to the last, but has several die cracks, including one upon the reverse ignored by Bolender. About Fine. Obverse edge bruise above ER in LIBERTY. Scarcer than the preceding.
3219 1800. **B-18.** Last star closest and nearer bust than eighth star is to Y. Rev. Suction marks at OF, among stars, at right wing and AME. The die is also cracked at AMERICA, a state not mentioned by Bolender Fine to V. Fine. One or two insignificant rim defects.
3220 1800. B-18. Another. Very Good. Small cut in upper left obverse field.
3221 1800. **B-19.** Right stars close to Y and bust. Rev. AMERICA1. Abt. Very Fine. Beautifully toned with traces of lustre. Not rare, but a popular variety. Worth $25.00.
3222 **1801. B-1.** Wide date, 01 closest. Rev. Point of star almost touching tip of lower part of eagle's beak. Very Good. A sharp and clean coin. Rarity 4. Uncommonly rare.
3223 1801. B-1. Another. Good to V. Good. Few defects. An edge injury has apparently been retooled on the reverse close to the eagle's left wing tip. As rare as the last.
3224 1801. B-1. Another. V. Good to Fine. Has a few reverse scratches and a neat hole above the head.
3225 1801. **B-1a. (Should be B-1b.)** An unpublished state of the dies. The reverse is badly cracked: ST through clouds to wing and AME; below O of OF through F to tip of wing; the die is sinking at MER; complex injuries at ERICA, D and before OF. Bolender, in his sale catalog, described an earlier stage of the reverse breaks as his B-1a. Abt. Fine. Slight signs of mishandling. Considerably rarer than the regular variety which in itself is Rarity 4. Cost $30.00.
3226 1801. **B-2.** Obverse the same as last (B-1). Rev. Only twelve arrows show plainly. (This reverse was also used in 1802 and 1803.) Almost Very Fine. Planchet chip in the left obverse field. An acceptable example of a rare variety. Rarity 4.
3227 1801. B-2. Another. Strictly Fine. Minute reverse edge bruise. Rare.
3228 1801. B-2. Another. Very Good or better. Numerous signs of mishandling, including several minor reverse edge bruises. Rarity 4, as the foregoing.
3229 1801. **B-3.** The obverse is from the same die as B-1 and B-2. Rev. Variety with right foot of all the T's missing. Good to V. Good. Crudely plugged at top of head.
3230 1801. **B-4a.** Close date, figures evenly spaced. Rev. A "Spur" on curved part of D in UNITED. There is also a slight die crack from border down to cloud after final S in STATES. Bolender, in the sale of his collection, calls this sub-variety B-4a. Almost Fine. Few surface flaws. Rarity 5 or better. V. Rare.
3231 **1802/1. B-1.** "Pocket" at throat and "Collar" at base of neck line. Reverse "A". Same as that on B-2 of 1801; B-4 and B-6 of 1802; B-4 and B-6 of 1803. Strictly Fine. A nice, evenly worn and clean coin. Rarity 4. Valued by Bolender at $25.00. Rare.
3232 1802/1. **B-2.** Wide date, the most space between 1 and 8. Reverse "B". Same as that on B-4 of 1801; B-3, B-5 and B-9 of 1802; B-1 and B-5 of 1803. Good, few defects.
3233 1802/1. **B-3.** Wide overdate, most space between 8 and 0. Small die lump in upper right obverse field between eighth and ninth stars. Reverse "B". Better than Fine. Small cut on reverse edge. Cost $20.00, several years ago. Rarity 3.
3234 1802/1. B-3. Another. Fine, purchased as V. Fine. Several unimportant defects, including a short reverse scratch in the stars above the eagle. V. Scarce.
3235 1802/1. B-3. Another. Good. Somewhat mishandled and well tarnished. $15.00 was paid for this coin.
3236 1802/1. B-3. Another. Obv. Good; Rev. V. Fair. Even wear.
3237 1802/1. **B-4.** Close date, the 1 firmly touching the curl. Reverse "A". Strictly Very Fine, traces of lustre Rarity 5. Bolender values this variety at $50.00 so. Very Rare.
3238 1802/1. B-4. Another. Very Good or better. Minute handling defects. Rarity 5, as the last.
3239 **1802. B-6.** Variety with right foot of T in LIBERTY missing. Reverse "A". Ex. Fine. A splendid, sharply struck and bold coin with one or two handling defects that do not mar its beauty. Well centered and lustrous with slight reverse file marks. Traces of tarnish. Ex Cal. Green coll. Well worth $40.00.
3240 1802. B-6. Another. Very Fine. A beautiful dollar, well struck and sharp. Lightly toned.
3241 1802. B-6. Another. Very Fine. Slightly sharper than the last, but has an almost invisible scratch across the face into the hair, plus an edge cut that shows on both sides. Attractively toned.
3242 1802. B-6. Another. Almost V. Fine. Slight reverse edge bruise above TE of STATES.
3243 1802. B-6. Another. About V. Fine. Usual light signs of handling, particularly upon the obverse Not as nice as the preceding.
3244 1802. B-6. Another. Fine to V. Fine. One or two unimportant reverse nicks Traces of golden toning
3245 1802. B-6. Another. Fine to V. Fine. A well centered and struck coin, almost the equal of the last
3246 1802. B-6. Another. Fine or better. A nice, clean coin with a simulated lustrous surface
3247 1802. B-6. Another. Strictly Fine. Cost $15.00.
3248 1802. B-6. Another. Fine. Two small reverse scratches above the group of arrows.
3249 1802. B-6. Another. Strictly Very Good.
3250 1802. B-6. Another. Abt. V. Good. Two reverse defects.
3251 **1803. B-4.** Close date. Small thin 3, top side long, the right end near bust Numeral 1 firmly united with curl. Reverse "A". Very Fine. A lustrous, bold coin with sharp, even impressions The Bolender specimen in the same condition, was estimated at $40.00 and sold for $40 00
3252 1803 B-4. Another Almost Fine Several small nicks and bruises, on both sides particularly at the edge This piece is hardly as bad as its description implies

3253 1803. **B-5.** Small, thin 3 which is too high. Figures of date oll close. Reverse "B". Very Fine with traces of lustre. A splendid example of this rore voriety. Rarity 5. Valued by Balender ot $50.00 in V. Fine. Cost $32.50, many yeors ago.
3254 1803. **B-6.** Thick top ta 3 of date. 180 wide ond 3 somewhat low. Reverse "A". Abt. Fine. Few defects including o minute reverse edge bruise. Traces af lustre.
3255 1803. B-6. Another. Claims ta Fine. Slightest signs of handling, but atherwise o clean and ottractive cain.
3256 1803. B-6. Another. Abaut Fine. An occeptable ond desirable specimen. Cast $20.00.
3257 1803. B-6. Anather. V. Gaod to Fine. There are several smoll nicks and cuts, particularly upan the obverse. Reverse edge bruise above AT in STATES.
3258 1803. B-6. Another. Very Goad. Numerous indicotians af hondling. Also, there is an "X" lightly scratched across the reverse. Cast $17.50.
3259 1803. B-6. Another. Similar to the foregaing, but the 3 in dote oppears to be slightly smoller ond somewhat shorter at the top. V. Good to Fine. Simuloted lustrous surface with o light reverse edge bruise.
3260 1803. B-6. Another. Same as last. Originally Fine or better. Unfortunately, this cain has been buffed, upan the obverse, in on ottempt ta remove several scrotches in the right field. Otherwise, well struck and fairly attractive.
3261 1803. B-6. Another. Some as two preceding. Good to V. Gaod. Two light obverse edge bruises.

UNITED STATES SILVER DOLLARS

1836 to 1922 "D"

The property of O. K. Rumbel, Mission, Texas

3613 **1836.** Liberty seated r., in plain field. C. GOBRECHT F. an base, date below. Rev. Flying eagle in a field of 26 stars. Plain edge. Sharp, lightly toned Proof. Few minute planchet defects on the reverse rim. An above average example of this rare and popular coin. Cost $150.00 and well worth it.
3614 **1840.** Similar design to last, as are all following. Abt. Ex. Fine. Usual insignificant defects. Lists at $15.00. V. Fine and $30.00 Unc. Scarce.
3615 1840. Another. Almost V. Fine. Small obverse edge nick. Lightly toned.
3616 **1841.** Very Fine or better. Traces of lustre. Cost $10.00, prior to the current demand.
3617 1841. Another. Fine to V. Fine. Several signs of minor mishandling including an obverse edge nick. An uncommon date.
3618 **1842.** Very Fine. Usual minor defects. Cost $7.50, several years ago. Worth more today.
3619 1842. Another. Very Fine. Almost as sharp as the last. Slight nick in the right obverse field. Lightly toned.
3620 1842. Another. Strictly Fine. Lists at $7.50.
3621 **1843.** Almost Unc. There are two serious obverse defects, one near the milling and another on the rim. Both appear to be the result of faulty manufacture. Also, usual slight signs of "Bag Handling."
3622 1843. Another. Very Fine or better. Lightly toned.
3623 **1844.** Abt. Extremely Fine. Pleasingly toned. A scarce date. This example is well worth $17.50.
3624 1844. Another. Almost V. Fine. Slight edge bruise on obverse. Lists at $15.00 in V. Fine.
3625 **1845.** Fine to V. Fine. Odd defect on the obverse rim which appears to be a planchet flaw. Scarce.
3626 **1846.** Very Fine or better. Slightest signs of handling. An attractive and nicely toned coin.
3627 1846. Another. Strictly Fine. One or two minor edge defects. Worth $7.50 so.
3628 **1846. "O".** Fine. Old and light scratch above eagle's head on the reverse. In demand.
3629 **1847.** Very Fine to Ex. Fine. Usual unimportant defects. Nicely toned and well worth $12.50.
3630 1847. Another. Almost V. Fine. Has the light abrasion marks almost always found upon these large, heavy coins. An uncommon date.
3631 **1848.** Very Fine. Usual defects including a very small scratch in the reverse field. Scarce. Lists at $15.00 so.
3632 1848. Another. Good to V. Good. Minor defects. Cost $7.50.
3633 **1849.** Impaired Proof. Slight rubbing together with other indications of careless handling. Appears to have been cleaned. All in all, considerable mirror like surface remains and this example is not as defective as some we have seen. Originally purchased for $75.00.
3634 1849. Another. Strictly Ex. Fine with some claims to Unc. Unfortunately, the bright, lustrous surface is somewhat marred by a few small nicks and handling defects. Lists at $12.50 in V. Fine and $20.00 Unc.
3635 1849. Another. Abt. Ex. Fine. Has the usual unimportant defects and is nicely toned. Above average for this uncommon date.
3636 **1850.** Impaired Proof. Mostly brilliant, but plagued with several minute defects including an obverse edge nick and a slight reverse edge bruise. This piece has also been cleaned. The example in our 36th sale January 26th last, was not quite as nice and realized $52.50. Perfect specimens have sold for over $100.00.
3637 1850. Another. Ex. Fine or better with some Proof surface. Lightly toned with a few infinitesimal defects. The Balender coin, only slightly superior, was estimated at $25.00 and brought $32.00 in his 183rd sale.
3638 1850. Another. Just about Ex. Fine. A beautiful, evenly toned dollar. This date is rarer than generally known and now lists at $35.00 Unc.
3639 **1850 "O".** V. Good to Fine. Has several digs and other defects, particularly upon the obverse.

3640 **1851.** Voriety with the dote level and almost perfectly centered between bose ond milling. Itolic 5. Hoseltine Addendo No. 1. The date an this coin is similar ta the issues of 1852 to 1857. **A Restrike.** Praaf, almost fully brilliont and lightly taned. Cotalogs ot $250.00. V. Rare and in great demand. **Plate.**

The above described variety af the 1851 Silver Dollar wos restruck in both Silver and Capper. All knawn examples, in bath metals, are Proofs ar former Praafs. It is believed that these cains, as well as Praaf specimens of the 1852 Dollar, were manufactured in the Coiner's department af the Mint under the supervision af Cal. James Ross Snawden. This was dane in either 1855, upan the behest of M. Alexandre Vattemare, ar during the period 1859-66. Mony early dealers, including Cogan, Harzfeld, Mason and Woodword, repeatedly stated that the dallars of 1851 and 1852 were restruck. Recent research, in the Notional Archives, canfirms this long neglected contention.

3641 **1853.** Close to Uncirculated. An attractive, lustrous coin with o short, light scratch in the obverse field and two similar scratches, in the reverse field. Hardly as bad os the description implies. Lists at $25.00 Unc.

3642 **1855. Proof.** A shorp, mostly brilliant coin which shows only slight evidence of hondling. Not o Gem, but a beautiful coin ond o highly desirable one. Catolags ot $100.00. Ex. Rore.

3643 1855. Another. Strictly Fine. There are a few scrotches in the obverse field ond the reverse has o small edge bruise at the battom. Uncommonly scorce ond well warth $15.00.

3644 **1856.** V. Gaod, slight claims to Fine. Minar signs of mishondling upon the obverse. Far superiar to the "Good" specimen we sold for $10.50 in aur Jonuory 26th sale.

3645 **1857.** Ex. Fine with consideroble Proof surfoce. There is a dauble pronged scratch in the right abverse field and one or twa unimportant reverse defects. Lists at $15.00 in V. Fine ond $27.50 Unc. Anather scarce date.

3646 **1859.** Brilliont Proof. Just beginning to tane slightly. There ore one or twa microscopic defects on the reverse edge which shouldn't even be mentianed. A choice cain with records in excess of $40.00.

3680 **1879.** Brilliont Proof. Appears ta hove been cleaned. Only 1,100 struck. Lists at $10.00.

3681 **1880.** Proof. Almost fully brilliant upon the obverse, but heavily toned upan the reverse. Only 1,355 struck. Lists at $10.00.

3682 **1881.** Brilliant Proof. This coin would be a "Gem" except for a few microscopic defects. Only 975 struck. Lists at $10.00.

3683 **1882.** Brilliant Proof. Beginning to tone somewhat. Only 1,100 struck. Lists at $10.00

3684 **1883.** Brilliant Proof. Only 1,039 struck. Lists at $11.00.

3685 **1884.** Brilliant Proof. This coin would be perfect except for a few imperceptible defects. Only 875 struck. Lists at $12.00.

3686 **1885.** Brilliant Proof. Infinitesimal scratch in front of nose. Only 930 struck. Lists at $11.00.

3687 **1885 "S"** and **1886 "S".** Unc. "Semi-Proofs." Usual indications of "Bag Handling." These two coins were purchased as genuine Proofs at a total cost of $60.00. 2 Pcs.

3688 **1886.** Proof, almost fully brilliant. Beginning to tone, particularly upon the reverse. Only 886 struck. Lists at $15.00.

3689 **1887.** Brilliant Proof. Almost a "Gem." Only 710 struck. Lists at $13.50.

3690 **1888.** Brilliant Proof. Just about perfect. Only 832 struck. Lists at $13.50.

3691 **1889.** Proof, almost fully brilliant. Only 811 struck. Lists at $13.50.

3692 **1890.** Proof. Not in full brilliancy. Only 590 struck. This date will bear watching. Lists at $17.50

3693 **1891.** Brilliant "Gem" Proof. Only 650 struck. Lists at $13.50.

3694 **1892.** Brilliant "Gem" Proof. Only 1,245 struck. Lists at $13.50.

3695 **1893.** Proof. A superbly struck coin, lightly toned. Only 792 struck. Lists at $15.00.

3696 **1894.** Brilliant Proof. Just about perfect. Only 972 struck. Lists at $16.00.

3697 **1895.** Brilliant "Gem" Proof. One of the finest examples of this rarity that we have seen. The current catalog valuation is $125.00. It would not surprise us to see this coin reach the $200.00 mark within a very short time. V. Rare. In the greatest demand.

The cataloger has long contended that the total coinage of 1895 Silver Dollars, Proof or otherwise, never exceeded 880 specimens. In the Ralph R. Barker collection, a sale by S. H. & H. Chapman on July 7th & 8th, 1904, under lot #702, we located the following— 1895 Silver Dollar. Brill. Proof. "Only 860 dollars coined at Philadelphia this year, and it will be one of the rarities of the future."

3698 **1896.** Brilliant "Gem" Proof. Only 762 struck. The Bolender piece sold for $21.00 in his 183rd sale, Feb. 23rd last, when it only cataloged for $17.50.

3699 **1897.** Brilliant "Gem" iridescent Proof. Only 731 struck. One of the few dates lacking in the Bolender collection.

3700 **1898.** Brilliant "Gem" Proof. Only 735 struck. The Bolender specimen realized $18.25.

3701 **1899.** Brilliant "Gem" Proof. Only 846 struck. The Bolender specimen realized $16.00.

3702 **1900.** Proof. Almost fully brilliant, but with a small tarnish spot upon the reverse. Only 912 struck. The Bolender specimen realized $17.50.

3703 **1900.** The Washington-Lafayette dollar. The only commemorative struck of this denomination. Brilliant Uncirculated. Usual minute signs of "Bag Handling." In great demand.

3704 **1901.** Brilliant Proof. Just about perfect. Only 813 struck. The Bolender specimen realized $17.00.

3705 **1902.** Brilliant "Gem" iridescent Proof. Only 777 struck. Lists at $15.00.

3706 **1903.** Brilliant Proof. Traces of tarnish. Only 755 struck. A date to watch. Now lists at $25.00.

3707 **1904.** Brilliant Proof. Somewhat toned upon the reverse. Only 650 struck. Lists at $27.50.

3708 **1921.** Brilliant Proof. Few imperceptible defects. This a genuine Proof and not a first strike or "Semi-Proof." Catalogs at $75.00 and is worth more. V. Rare.

3709 **1921 "D".** Set of thirteen die varieties, mostly different, all enveloped and carefully described. Also, two 1922 "D" Peace Dollars with die cracks. All Unc., or nearly so. Interesting. 15 Pcs.

Trade Dollars

3710 **1873.** Proof, almost fully brilliant. An attractive, well struck coin with a partial wire edge. Unfortunately, there are minute indications of careless handling. Lists at $25.00, but the M. H. Bolender example realized $32.00. Only 600 pieces struck, the smallest coinage of any Proof Trade Dollar.

3711 **1873 "S"** and **1873 "CC".** V. Good or Better and Fine to V. Fine. Usual minute defects. Both Scarce, last particularly so. 2 Pcs.

3712 **1874.** Brilliant, perfect Proof. Only 700 Proofs coined. This example is worth full catalog of $22.50.

3713 **1874 "S".** Bright Uncirculated. Not fully struck up on head and with the slightest signs of "Bag Handling." However, a lustrous, attractive coin worthy of a home in the finest collection. Cost $10.00

3714 **1874 "CC".** V. Fine or better. Chop and puncture mark on obverse. Also, another 1874. Fine to V. Fine 2 Pcs.

3715 **1875.** Brilliant Proof. Evidence of cleaning and slight mishandling. Only 700 Proofs coined. Lists at $25.00 Uncommonly hard to obtain.

3716 **1875 "S"** and 1876 "S". Abt. Very Fine. First with slight obverse edge bruise. Worth $7.00. 2 Pcs

3717 **1875 "CC".** Almost Uncirculated. Mostly brilliant and sharply struck. Few unimportant defects. Lists at $15.00 in Unc., but has records to $18.50.

3718 **1876.** Brilliant Proof. Somewhat toned with a partial wire edge. Apparently cleaned, many years ago. Only 1,150 Proofs coined. Lists at $22.50.

3719 **1876 "S"** and **1876 "CC".** Very Fine. Last with one or two minor defects. Well worth $10.00. 2 Pcs.

3720 **1877.** Mostly brilliant Proof. Slightly toned upon the reverse. Only 710 Proofs coined. The Bolender example realized $23.50 when the catalog value was $20.00.

3721 1877 and **1877 "S".** Extremely Fine. First weakly struck on head, but lustrous. 2 Pcs.

3722 1877 and 1877 "S". As Last. Very Fine. The 1877 "S" is somewhat defective upon the obverse. 2 Pcs.

3723 **1877 "CC".** Extremely Fine. The reverse is particularly well struck and lustrous. The Bolender example, in identical condition, realized $32.50 in his 183rd sale.

3724 1877 "CC". Another. Strictly Very Fine. Lists at $15.00, but has records to $20.00.

3725 **1878.** Proof. Almost fully brilliant. Only 900 pieces coined, all of which were Proofs. Lists at $25.00.

3726 **1878 "S".** Fine to V. Fine; Very Fine with a few small gouges on obverse and two reverse edge bruises; Ex. Fine, gauge on face; Abt. Uncirculated. Last particularly choice. 4 Pcs.

3727 **1878 "CC".** Very Good. Unimportant edge bruise upon the reverse. Only 97,000 coined and one of the rarest items in the series.

3728 **1879.** Brilliant Proof. Just beginning to tone. Total coinage of 1,541 pieces, all Proofs. Lists at $22.50.

3729 **1880.** Mostly brilliant Proof. Total coinage of 1,987 pieces, all Proofs. Lists at $22.50.

3730 **1881.** Absolutely brilliant Proof. Almost a "Gem." Total coinage of only 960 pieces, all Proofs. Lists at $22.50, but is probably worth more.

3731 **1882.** Another brilliant Proof. Just about perfect. Total coinage of 1,097 pieces, all Proofs. The Bolender example realized $21.00.

3732 **1883.** Brilliant Proof. Some dark tarnish upon the obverse in one or two small areas. Total coinage of only 979 pieces, all Proofs. The last year of available issue. Lists at $22.50.

AN INTERESTING EUROPEAN CONSIGNMENT OF AMERICANA

BALDWIN

3900 **Massachusetts Silver.** Oak Tree Threepence. 1652. Crosby 3-A2; Wurtzbach 30; Noe 25. MASATHVSETS; NEW ENGLAND. Abt. Good, unevenly struck and worn. A clean and acceptable example of an extreme rarity. Only six pieces, including this one, are known to the A.N.S. **Plate.**
3901 **Pine Tree Shillings, etc.** 1652. Crosby 1b-D; W-39. The Normal Tree; MASATHVSETS IN. Very Fine, and slightly clipped. A highly desirable specimen of the larger type, in spite of a minute reverse nick to the right of the denomination. Items of this caliber are becoming quite hard to locate, and now retail as high as $65.00. **Plate.**
3902 1652. Crosby 12-1; W-47. Small tree with berries; NEW ENGLAND AN DOM. Very Fine. Struck upon a full flan, though not particularly well centered upon the obverse. Another nice large size shilling, evenly toned, but with two or three imperceptible defects. **Plate.**
3903 1652. Crosby 20-L; W-57. The Small Tree; Legend begins almost opposite XII. A small size shilling, the identical die variety illustrated in the 1951 Standard Catalog. Strictly Fine, and well centered, but with a minute nick or cut in the center of V in MASATHVSETS upon the obverse. Valued at $30.00.
3904 1652. Pine Tree Sixpence. Crosby 1-A; W-64. Tree with berries; NEW ENGLAND ANO. Abt. Very Fine. Struck upon a warped flan, and very slightly clipped. Unusually sharp, and definitely above average. Worth at least $40.00 so. **Plate.**
3905 1652. Pine Tree Threepence. Crosby 1-A1; W-68. Tree with berries; NEW ENGLAND. Almost Very Fine. The planchet is uneven, and slightly clipped, with a slight crack on the right side. On the basis of its 1953 Standard Catalog listing, this coin is a "Type" and well worth $50.00. **Plate.**
3906 **Colonial Coppers.** 1787, Draped bust l., Connecticut Cent; 1787, New Jersey Cent; 1783, Blunt rays, NOVA CONSTELATIO Cent; 1794 and 1795 Talbot, Allum & Lee Cents. Fine to Extremely Fine, the 1794 Talbot, Allum & Lee with an obverse edge bruise. Superior to the usual lot offered. 5 Pcs.
3907 1795. Washington Grate Cent. Diagonally reeded edge. Almost Uncirculated. Nicely toned. Well worth $7.50 so.
3908 **Half Cents. 1793.** Gilbert I. The first year of issue, and in demand as a "Type" coin. A sharp piece, almost Fine, but with the usual slight defects. Lists at $60.00 in Fine. Rare.
3909 1797. G-4. "1" over 1 in date. Clearly struck over a 1795 Talbot, Allum & Lee Cent, which was cut down in size. Consequently, on a rather thick planchet. V. Good to Fine. Decidedly interesting, and uncommonly rare.
3910 **Large Cents.** 1793. Wreath type; lettered edge, single leaf after DOLLAR. Crosby 11-J; (S-11c). Strictly Very Good. The edges are somewhat bruised, and among other defects, the numerals "17" have been lightly scratched into the field in front of the neck. Light brown color, and hardly as bad as the description implies. Popular and scarce.
3911 1794. The Fallen 4. Hays 32. Definitely Fine, but with the usual slight signs of handling, and a rim bruise at the lower right side of the reverse. A famous and scarce variety.
3912 1795. Plain edge; ONE CENT high. Sheldon 76b. Very Fine. A choice cent, but with a number of small granular defects and/or minute pit marks or nicks. These flaws only cover a very small part of the coin's total area, and do not materially affect its appearance.
3913 1796. Liberty Cap. Gilbert F; (S-91). Clearly struck over another 1796 Liberty Cap Cent. The numerals "96" boldly appear upon the reverse where STA of STATES should be. Very Good, but the edges somewhat bruised. Highly interesting, and the first we remember seeing so.
3914 1797. The Gripped edge variety. S-121. Good to V. Good, but slightly nicked upon the bust. Also, 1801. The Corrected Fraction, 1/100 over 1/000. S-221. Almost Fine, but mishandled. Among other defects, the edges are bruised, and there is a small cut below E of CENT upon the reverse. Two popular and scarce "Types." 2 Pcs.
3915 1802. S-230. (N 8; D-171). The reverse die badly broken. Abt. Very Fine. A nice cent, but with a small rim imperfection upon the obverse. Lustrous medium brown.
3916 1803. S-250; (N 8). Strictly Very Fine. A choice and desirable example of this rare variety. Golden brown, and somewhat mottled. Well worth $20.00 so.
3917 **Half Dimes.** 1792. "Half Disme." About Fine, but holed above the head. Very rare.
3918 1795. Valentine 5A. An Uncirculated coin, but with numerous light file or adjustment marks upon the obverse. Beautiful iridescent toning. Lists at $50.00 so in the Guidebook.
3919 1800. Decidedly Fine and sharp. Worth full catalog value of $15.00.
3920 1801. Fine. Not evenly struck or worn. Rare, and valued at $40.00.
3921 1801. Another, but only Good to V. Good. There is a small attempted puncture mark or so at R of LIBERTY. A rare date.
3922 **Early Silver, etc. 1796.** Dime. First year of issue. The variety with a heavy break extending from the first star to rim. Extremely Fine and unusually bold. Uncirculated examples have realized as much as $125.00 **Plate.**
3923 1795. Half Dollar. Beistle 19a-Gb. Small, narrow bust; two leaves under each wing of the eagle. This specimen shows no evidence of the round die break at OF, upon the reverse, as described by Beistle, but does have slight evidence of other die cracks. Extremely Fine. Not as advanced a die state as the obverse illustrated in the Beistle text, but far superior in condition. Probably the finest known example of this exceedingly rare variety. **Plate.**
3924 1795. Silver Dollar. Bolender 5. Flowing hair type; three leaves under each wing of the eagle. Strictly Very Fine and lustrous. A well struck and centered dollar, with only one or two microscopic imperfections. A $40.00 coin, and equal to specimens that have sold for more.
3925 1876. Trade Dollar. Iridescent Proof. Hardly in full brilliancy. Lists at $22.50.
3926 **Philippine Islands.** 1904. Silver Proof set. Ten, Twenty, and Fifty Centavos; Peso. Iridescent tarnish. 4 Pcs.
3927 **Cut and Counterstamped Money. Dominica.** Dollar or "Ring." 1799 Mexican Eight Reales with round crenellated cut from center. Wood 3. Fine. Really rare, and seldom offered. **Plate.**

3928 Six bits. Plug from center of Dollar, countermarked with a crowned figure 6. Wood 8. Fine. Rare. **Plate.**

3929 Four bits. Plug from center of Dollar, re-holed in center and countermarked with a crowned figure 4. The hole is scalloped on the side away from the counterstamp. Wood 10. Fine. Rarer than the last. **Plate.**

3930 **Tortola.** Half Dollar (2), Quarter and One-Eighth Dollars. Stamped TORTOLA, the lettering varying. See Wood 12-15. Good and V. Good. 4 Pcs.

3931 Similar. Quarter and One-Eighth Dollars. The edges partly crenellated. Wood, p. 95. Good. Rarer than the preceding. 2 Pcs. The first on **Plate.**

3932 **Montserrat.** Quarter Dollar. Quarter of a Spanish-American Dollar counterstamped with a large M three times, and with an uncertain stamp upon the reverse. This piece was later marked for Tortola. Wood 27, p. 97. V. Good. Rare. **Plate.**

3933 **St. Vincent.** Half Dollar. Lower half of a 1792 Spanish-American Dollar counterstamped with an SV in monogram three times. See Wood 64. Fine. Very rare. **Plate.**

3934 **St. Lucia.** Three bits. Outside segment of a Spanish-American Dollar counterstamped S.LUCIE. Wood 73. Fine. Scarce. **Plate.**

3935 **Martinique.** Dollar. 1757 Mexican "Pillar Dollar" with heart shaped cut from center. The heart cut is comparatively pointed, and has a garland like border. See Wood 89. Abt. Very Fine. Rare and popular. **Plate.**

3936 **Jamaica.** Dollar, Half Dollar, Quarter Dollar, Real, and Half Real. 1757-5B Spanish-American "Pillar" Silver counterstamped, upon both sides, with the letters G R in a circular indentation. See Wood 107, p. 114. Fine to V. Fine. A highly desirable and attractive set. 5 Pcs.

3937 **Sierra Leone.** Quarter segment of a Spanish-American Dollar counterstamped with a crowned W R. Wood 131. V. Good. Rare.

INTERESTING AMERICAN ITEMS FROM A RENOWNED DEALER'S STOCK

4443 **Choice Circulated Flying Eagle and Indian Head Cent set.** 1857 to 1909 "S". 1881, 99, 1900, 01, 05, 06, and 1909 are Uncirculated. Three rare dates, 1867, 68, and 1869 are Abt. Unc., each with traces of lustre. Several others, including 1864, 64 "L", 65, 66, 73, 75, and the really rare 1877, are Very Fine or better. 1870, 71, 72, 1908 "S" and 1909 "S" average V. Good to Fine, while the balance of the set runs from Good to Abt. Uncirculated. Mounted in a Raymond Popular album, the extra 1858 Flying Eagle and 1864 "L" included separately. Said to have cost over $125.00. 58 Pcs.

4444 **Complete set of Lincoln Cents.** 1909 to 1949. All choice Uncirculated. Mostly red, however, as usual, many are toned or tarnished. Some years and mintmarks are almost impossible to locate in bright red condition. None of these have been cleaned or doctored. List in the 1951 Standard Catalog in excess of $240.00. Mounted in a Popular album. 116 Pcs.

4445 **Complete set of Washington Quarters.** 1932 to 1949. Brilliant Uncirculated. Several lightly toned. A select, hand picked set, definitely above average. None have been cleaned or improved. Worth close to $100.00 on today's market, if sold individually. Mounted in a Popular album. 48 Pcs.

4446 **1887 Proof Set.** Consists of the Silver Dollar, Half, Quarter, Dime, Nickel, Three Cents and Cent. The Three Cent Nickel is the rare overdate, 1887/86. Mostly brilliant, but well tarnished in the original wrappers. Worth at least $80.00. 7 Pcs.

4447 **1892 Proof Set.** The first year of the Barber design for the Half, Quarter and Dime. Consists of the Silver Dollar, Half, Quarter, Dime, Nickel and Cent. Almost fully brilliant, but with the usual tarnish from the original wrappers. Far above average, and well worth $50.00 so nice. 6 Pcs.

4448 **1893 Proof Set.** Consists of the Silver Dollar, Half, Quarter, Dime, Nickel and Cent. Mostly brilliant, but with the beautiful iridescent tarnish from the original wrappers. Like the last two, highly desirable. Worth $50.00. 6 Pcs.

4449 1938, 1939, 1940, 1941 and 1942 Proof sets. The last with only one Nickel, T-1. Brilliant, with only traces of tarnish. Constantly and steadily increasing in both demand and value. Five sets of five coins each. 25 Pcs.

4450 **Double Eagle.** 1909/8. Very Fine or better. A very interesting overdate that catalogs at $100.00 so.

4451 **Half Eagle.** 1806. Round topped 6, united with the bust. Ex. Fine and lustrous, with one or two minute obverse rim defects. Above average and choice. Well worth $50.00 so.

4452 **Commemorative Gold Dollars.** 1903. Bust of Jefferson. Louisiana Purchase Exp. Uncirculated, but ever so slightly marred in the left obverse field. Now lists at $15.00.

4453 1903. As last. Bust of McKinley. Brilliant Uncirculated. Lists at $15.00.

4454 1904. Lewis & Clark Exposition. Brilliant Uncirculated. Becoming quite rare and hard to locate. Well worth $62.50.

4455 1917. McKinley Memorial, Niles, Ohio. Brilliant Unc. Scarce.

4456 1922. Grant Memorial. Star in the obverse field. Brill. Unc. Only 5,016 minted, almost the lowest coinage of the entire series. V. Scarce.

4457 1862. Gold Dollar. Brilliant Uncirculated. Well worth $10.00 so.

4458 1851. Gold Dollar. Abt. Unc.; Also, Peru. 1923. 1/5 Libra. Indian head r. Rev. Arms in wreath. Ex. Fine. 2 Pcs.

4459 **Private Gold Coins.** Dollar. (1842-52) August Bechtler. CAROLINA GOLD. 27. G. 21. C. Very Fine or better. An unusually nice specimen.

4460 5 Dollars. 1849. Moffat & Co. San Francisco. Fine to Very Fine. Small, short scratch in the left reverse field.

4461 5 Dollars. 1850. Similar to the last. Fine. Scarcer than the 1849 piece.

4462 **Silver Dollars.** 1859 "O". A shade from Uncirculated. Bright and lustrous. A perfect coin lists at $12.50.

4463 1873. Trade Dollar. Abt. Uncirculated and lightly toned. The rather scarce first year of issue.

4464 1900. Washington-Lafayette Commemorative. Uncirculated. Toned. Becoming unusually popular.

4465 **Half Dollars.** 1825, 34 L. Date, Small letters, and 1870 "S". Fine to V. Fine. Last has a few minute defects. 3 Pcs.

4466 **Quarters.** 1807. Browning 1a. The famous and **unique** specimen of this date with a **plain edge.** Toned Uncirculated, but somewhat weakly struck in the center and about the border. A regular 1807 Quarter is almost impossible to locate so choice. This piece is not only in splendid preservation, but a highly interesting and exceedingly desirable variety. **Plate.**

The above coin was lot #476 in our 33rd sale, April 14, 1951, where it realized $95.00 after rather active competition. Originally, it appeared in one of Lyman Law's sales, a good many years ago, and sold for over $100.00. Later, the piece was listed as lot #592 in the Collection of a Prominent American (Granberg-Waadin), which was dispersed by Wayte Raymond, May, 20, 1915. Hillyer Ryder paid $40.00 for it at the time, and considered it a high price, as the preceding lot, a regular Uncirculated 1807 Quarter, brought only $5.50.

4467 **1872 "CC".** Abt. Very Fine. An uncommonly rare coin, as only 9,100 pieces were minted. The W.G.C. example was V. Good to Fine, and realized $75.00, over seven years ago.

4468 1898 "S", 1900 "S", 02 "S", 08 "D" and 1917 "S" T-1. First three average Abt. Ex. Fine; last two, Fine and V. Fine, but mutilated. Well worth $25.00. 5 Pcs.

4469 **Twenty Cents.** 1876. Superb iridescent Proof. Bringing full catalog value of $20.00.

4470 1876. Iridescent Uncirculated. A choice piece, listing at $10.00.

4471 **Dimes.** 1898, 98 "S", 99 "S", 1900 "S", 02 "O" and 1914 "S". The 1898 and 1902 "O" are Fine and V. Good; balance V. Fine and Ex. Fine. Scarce lot so, and valued at over $17.50. 6 Pcs.

4472 **Half Dimes.** 1835 Small date, Large 5c, 1862, 1871 and 1872. Uncirculated. Mostly toned. 4 Pcs.

4473 **Nickels.** 1900 and 1927 "S". Ex. Fine and V. Fine. Last rare, and supposedly worth $7.50. 2 Pcs.

U. S. Essai, Pattern, Experimental, Trial and Similar Pieces

4474 **Eagles.** 1863. The regular dies, but with motto GOD OUR TRUST on scroll, above eagle, upon the reverse. Bronze. Bronzed Proof. **A.W. 364;** R-3. Interesting and scarce.

4475 1874. Dana Bickford's International Ten Dollar Gold Piece. Copper. Reeded edge. Proof. Has been cleaned, but is beginning to retarnish. **A.W. 1367;** R-6. One of the most intriguing U.S. Patterns. Cost $5[illegible].00, according to the previous owner.

4476 **Half Eagle.** 1878. Masculine and heavy head of Liberty facing l. Periods between E PLURIBUS UNUM above. Rev. Conventional eagle facing, head turned to left. Without motto IN GOD WE TRUST. Copper. Toned Proof. **A.W. 1556;** R-10. Seldom seen or offered. **Plate.**

4477 **Stella.** 1879. The regular Four Dollar Gold piece, but struck in Aluminum. A superb Proof with a high wire edge. **A.W. 1577;** R-13. A magnificent mate for the Gold coin, and infinitely more rare. Records for in excess of $200.00. **Plate.**

4478 **Half and Quarter Eagle Mule.** 1846. The obverse of an 1846 Half Eagle struck upon the reverse of an 1846 Quarter Eagle. A clear and intentional overstrike, and not a combination of two obverse dies. The reverse (Obverse of the Qtr. Eagle) shows plainly the effect of the Half Eagle impression. Copper. Reeded edge. The planchet is somewhat irregular, undoubtedly due to the lack of a collar during the second operation. Copper. Abt. Unc. Assuredly a Mint product, and a mating of the obverses of A.W. 102 and 103. Unique. The first that we have seen or heard of. **Plate.**

4479 **Silver Dollars.** (1836) Original die strike for the obverse of the 1836 Silver Dollar by Christian Gobrecht. Struck upon an extremely thin planchet, in a fusible alloy composition resembling White Metal. An impression from one of the later brass trial dies, made before the adopted steel die was completed. Liberty appears thickset, stocky, and is apparently without a neck. Major parts of the final product seem to be lacking, including most of the detail on the rock at Liberty's left. Engraver's lines appear in the background. This is the companion piece, and is almost identical to, the example in our 35th sale which sold for $36.00. Both originated with a Philadelphia collector, who holds many interesting items from the Gobrecht estate. Ex. Rare. **Plate.**

4480 1870. Indian Princess seated, facing left, in high relief. Signed LONGACRE in small letters, below base. Rev. Same as the regular dies of the period, 1866-73. Copper. Reeded edge. Lightly toned Proof. **A.W. 860;** R-12. Uncommonly rare, and with a recent sale record of $57.50.

4481 1870. Liberty seated, holding olive branch and shield, facing left. The graceful design by Barber. Rev. Same as the regular dies. Aluminum. Plain edge. Choice Proof. Microscopic rim imperfection at the base of the reverse. **A.W. 877;** R-10. Col. Curtis lists this variety at $70.00 in his 1950 "United States Pattern Coin Prices." Rarer than commonly known.

4482 1878. The obverse design of George T. Morgan as regularly issued, 1878-1904. Rev. Similar to the adopted dies, but with the eagle holding on olive branch of three leaves in his right talon. Copper. Nicely toned red Proof. **A.W. 1560;** R-10. A splendid comparison piece for the dollar specialist.

4483 **Co-Metallic Dollar of Eutopia.** 1886. Bi-Metal (Gold & Silver) suggestion for a Cometallic coinage. Obv. REPUBLIC OF EUTOPIA around; date below, a design on either side. Within a beaded circle; MODEL FOR COMETALLIC COINS AND MEDALS. Rev. The twelve signs of the Zodiac. Within a somewhat heavier beaded circle: A R G E N T O R U M (Each letter separated) SILVER 206 1/4 GRS. In the center, a Gold insert: Obv. Crude sun and rays; Rev. In three lines, surrounded by a beaded circle and a design, GOLD 12. 9/10 GRAINS. Both borders milled, or partly milled. Edge plain. Silver 32mm; Gold 11mm. Wright 928; Adams 589 (Pa.). Extremely Fine and toned, the obverse from a broken die. Excessively rare, but three or four examples known. **Plate.**

This curious piece has long been associated with Dana Bickford. Actually, it was designed and struck by Nicholas Veeder of Pittsburgh, Pa. The dies were by Heeren Bros., of the same city. It was issued as a practical illustration of a cometallic coinage, proposed by Veeder in a booklet published in 1885. A copy of the latter, in the cataloger's library, bears the title "Cometallism: A Plan for combining Gold and Silver in Coinage, for uniting and blending their values in Paper Money, and for establishing a Composite Single Standard Dollar of Account." Contemporary comments branded both the unofficial pattern and the idea "A version of the Galoid dream." Dr. Wright quoted Ed Frossard, an early dealer, as stating that only three were struck, the dies yielding "on the third impression." In addition to the above described piece, and the Zerbe, Boyd specimen in the A.N.S., we positively know of but one other, that which appeared in the April, 1951 Schulman sale. A fourth is said to be owned by a New York dealer.

4484 **Half Dollars.** 1859. The Paquet obverse. Rev. Eagle with ribbon. Silver. Beautifully tarnished Proof. **A.W. 291;** R-4. Recent records of $16.00.

4485 1859. The Longacre obverse. Rev. HALF DOLLAR within wreath. Silver. Proof. Almost fully brilliant. **A.W. 293;** R-4. Well worth $15.00.

4486 1859. The Longacre obverse. Rev. 1/2 DOLLAR within wreath. Silver. This piece has all of the reverse die flaws illustrated in Adams-Woodin. Toned "Semi-Proof." **A.W. 295;** R-4. Scarcer than either of the last two.

4487 1859. Same as the last, but the reverse die is free of flaws. Copper. Toned Proof. **A.W. 296;** R-4. An interesting mate for the preceding.

4488 1859. The Longacre design. Rev. 50 CENTS within wreath. Silver. The reverse is free of the die flaws illustrated in Adams-Woodin. Toned Proof. **A.W. 297;** R-4. Really scarce, and worth $17.50.

4489 1864. Regular dies, but with IN GOD WE TRUST, as adopted in 1866, upon the reverse. Copper. Brilliant iridescent Proof. **A.W. 437;** R-10. One of the nicest examples of this rarely offered piece that we have seen. Said to have cost $35.00.

4490 1859. Liberty with cap; two stars on the forehead. Within the fold of the ribbon, bearing the word LIBERTY, is the initial "B" for William Barber. Rev. STANDARD SILVER, etc. Silver. Plain edge. Proof, showing slight evidence of cleaning. **A.W. 732;** Rarity 8, and not R-5 as listed.

4491 1869. Identical to the last, but struck in Copper. Toned and tarnished Proof. **A.W. 734;** R-[illegible]

4492 1869. Liberty with a plain diadem. Rev. STANDARD SILVER. Silver. Reeded edge. Toned Proof. **A.W. 745;** R-5. Well worth $15.00.

4493 1870. The beautiful and exceedingly graceful design by Barber. Rev. The regular dies of 1866-71. Copper. Plain edge. Red Proof. Minute planchet defect at the bottom of the obverse rim. **A.W. 891;** R-10. Recent record of $18.50.

4494 1870. Liberty with cap; two stars on the forehead. Without "B" in folds of ribbon. Rev. STANDARD/50/CENTS/1870. Silver. Reeded edge. Toned Proof. **A.W. 916;** R-8. Well worth $20.00.

4495 1870. Liberty with one star on the forehead. Rev. Same as the last. Silver. Reeded edge. Iridescent Proof. **A.W. 922;** R-8.

4496 1870. Liberty with a plain diadem. Rev. Same as the two foregoing. Silver. Reeded edge. Purple Proof. **A.W. 928;** R-8. This piece, and the two preceding, would make a nice set. Scarce.

4497 1879. The famous "Washlady" design by Barber. Copper. Brilliant Proof, but with an obverse tarnish streak. **A.W. 1615;** R-10. A popular and beautiful Pattern. **Plate.**

4498 1879. The Morgan design. Similar to the obverse of the 1878 Dollar. Rev. Large eagle with spread wings. IN GOD WE TRUST in a semi-circle around the lower portion. Copper. Red Proof, but with one minute tarnish spot upon each side. **A.W. 1617;** R-11. Highly attractive and decidedly rare. **Plate.**

4499 1879. The Morgan design, but E PLURIBUS UNUM in front and behind bust, and not above it, as on the last. Rev. Same as the preceding. Silver. Toned Proof. **A.W. 1618;** R-11. Extremely rare, with records to $75.00. **Plate.**

4500 1882. The Magnificent bust of Liberty, by Morgan, with hair hanging down loosely past the neck. Rev. Impressive eagle standing to right. Silver. Attractively toned blue Proof. Not quite fully struck up. **A.W. 1660;** R-11. From the Col. Green collection. Truly one of the most beautiful of all U.S. Coins, and well worth $100.00. **Plate.**

4501 **Quarters.** 1858. Regular obverse. Rev. The well executed and impressive Paquet design, featuring a lifelike eagle with larger and fuller wings than upon the regular issue. With the denomination unabbreviated at bottom. Silver. Toned Proof. **A.W. 235;** R-13. The first of the "Paquet Eagle" reverse patterns. Extremely rare, and seldom offered. **Plate.**

It has long been known that A.W. 235 and 236 are the same coin. In addition, to our knowledge, the variety listed under A.W. 237 is unknown as described.

4502 1869. Liberty with cap; two stars on the forehead. Rev. STANDARD SILVER, etc. Aluminum. Reeded edge. Brilliant Proof. **A.W. 758;** R-5. Ex Col. Green coll.

4503 **Dimes.** 1869. Liberty with one star on the forehead. Rev. STANDARD SILVER. Silver. Reeded edge. Toned blue Proof. **A.W. 781;** R-5.

4504 1869. Liberty with a plain diadem. Rev. Same as the last. Silver. Reeded edge. Toned Proof. **A.W. 787;** R-5.

4505 1870. Liberty with one star on the forehead. Rev. Same as the two preceding, except for the date. Aluminum. Plain edge. Brilliant Proof. **A.W. 997;** R-10. Much scarcer than either of the last.

4506 **Half Dimes.** 1869. The regular dies, but struck in a Nickel alloy. Reeded edge. Thick planchet. Mostly brilliant Proof. Not fully struck up. **A.W. 800;** R-12.

4507 1871. The Longacre design, in high relief, without stars. Rev. STANDARD, etc. Copper. Toned red Proof. **A.W. 1179;** R-12. Ex Col. Green coll. Worth $15.00.

4508 **Five Cent Pieces.** 1866. Shield. Similar to the type adopted for regular use in this year, but with a divided date, and the motto IN GOD WE TRUST minute in size. Rev. Heavy figure 5 within a wreath. Around, UNITED STATES OF AMERICA. Bronze. Lustrous Proof. **A.W. 568;** R-10. Valued by a midwestern dealer at $50.00.

4509 1868. Liberty head similar to that on the Three Cent Nickel. Word LIBERTY and star on coronet. Rev. Large V within a wreath. IN GOD WE TRUST on scroll above. Nickel. Brilliant, well struck Proof. **A.W. 675;** R-4.

4510 1869. Very similar to the last. Nickel. Fine. **A.W. 803;** R-4. Somebody spent this, and it apparently circulated. Highly unusual.

4511 1882. Liberty head as on the regular issues, 1883 to 1912. Around, UNITED STATES OF AMERICA. Date below. Rev. V. in wreath. Above, E PLURIBUS UNUM. Aluminum. Attractive Proof. From the same dies as A.W. 1667-68, but **Unpublished.** Of extraordinary rarity, and the first that we have seen.

4512 1883. Liberty head. Around, UNITED STATES OF AMERICA. Date below. Rev. 50 N. 50 C. within wreath. FIVE above, CENTS below. Nickel alloy. Brilliant Proof. **A.W. 1689;** R-8. A specimen realized $19.50 in our 35th sale, but this variety has higher records.

4513 **Cents.** So-called Pattern Cent. Eagle on sinister half of a U.S. shield. Rev. TRIAL PIECE./DESIGNED FOR/UNITED STATES/CENT./1792. Copper, thick planchet. Breen Obv. D; No. 6. Ex. Fine. Rather defective and crudely struck, apparently upon a hand press. The second rarest of the four obverse dies. Undoubtedly manufactured by Dr. M. W. Dickeson. Ex Dealer Chapman; A. C. Gies, H. D. Gibbs collections. V. Rare. **Plate.**

4514 1859. Indian head. Rev. The adopted die of 1860. Copper-Nickel. Choice Unc. **A.W. 312;** R-4. Records to $10.00.

4515 1864. Indian head. The regular dies, but struck upon a thin planchet in Copper-Nickel. Beautifully toned Proof. Presumably minted at the same time as A.W. 461-62, but unlisted. A truly transitional Pattern from the thick Copper-Nickel "White" Cents to the thinner Bronze Indian Cents. Of extreme rarity. Cost $65.00.

4516 1868. Obv. Similar to the regular issue Nickel Three Cents. Rev. I in Laurel wreath. Nickel. Partly brilliant Proof. **A.W. 700;** Commoner than R-12. Records to $18.50.

Private and Territorial Gold Pattern and Trial pieces, together with similar material

4517 5 Dollars. (1831-42) **Christopher Bechtler.** Rutherford, N.C. C. BECHTLER. AT RUTHERF.* In center, 5 DOLLARS. Rev. CAROLINA GOLD: Below, 21 CARATS. In center, 134.G.; Large star immediately underneath. Silver, struck over an eighteenth century Spanish Two Reale piece, the name CAROLUS and 17 of the date being legible. 29mm. V. Good and neatly holed at C., before BECHTLER. This coin shows considerable wear and handling, undoubtedly from its being carried as a souvenir or pocket piece. Believed to be unique. Ex W. C. Newcomer coll. **Plate.**

4518 10 Dollars. 1860. **Clark, Gruber & Company.** Denver, Colo. View of Pike's Peak. Trial piece in Copper. Proof. Beautiful iridescent toning. From the collections of Dr. Hall and Virgil Brand, where it was described as extremely rare. **Plate.**

4519 20 Dollars. 1861. Clark, Gruber & Company. Liberty head, as on all following. Trial piece, in Copper, from the first or faulty dies. The stars, upon the obverse, and the reverse legend are both small and thin. The general appearance of the design lacks completeness. Reeded edge. Extremely Fine and not fully struck up. Nicely toned. Uncommonly rare, as only a few pieces were struck. **Plate.**

4520 20 Dollars. 1861. Clark, Gruber & Company. Similar to the last, but a trial impression from the dies finally adopted. The engraver erroneously spelled DENVER, upon the reverse, with two "N's", which was corrected by changing the second N to a V. Copper. Reeded edge. Red Proof, somewhat stained upon the obverse. Ex Hall, Brand colls. V. Rare. **Plate.**

4521 20 Dollars. Another. From the same dies as the last. Copper-gilt. Extremely Fine. Closely resembles the Double Eagle struck in Gold. Rare.

4522 10 Dollars. 1861. Clark, Gruber & Company. Similar to the preceding. Copper. Reeded edge. Proof. Iridescent toning. Ex Hall, Brand colls. V. Rare.

4523 5 Dollars. 1861. Clark, Gruber & Company. Similar. Copper. Reeded edge. Red Proof. Minute nick upon the reverse edge. Ex Hall, Brand colls. V. Rare.

4524 2½ Dollars. 1861. Clark, Gruber & Company. Similar. Copper. Reeded edge. Proof. Not fully brilliant and partly tarnished. Ex Hall, Brand colls. V. Rare.

All of the above described trial impressions were struck in Philadelphia by the firm that provided Clark, Gruber & Company with their coining dies. Before sending the finished dies, the trial pieces were sent to Denver for the firm's approval. They are usually found in Copper with reeded edges, however, the 1861 series exists in both Copper and White Metal with plain edges. "A PIONEER DENVER MINT" by Nolie Mumey, Denver, 1950, is highly recommended for all numismatists interested in the history and coinage of the Denver establishment.

4525 5 Dollars. (1861) **John Parsons & Company.** Located at the mining camp of Hamilton in South Park, Colo. Trial piece, in Copper, from the regular dies. Quartz stamping mill in center; JNo. PARSON & Co. above; ORO at bottom. Rev. Eagle with outstretched wings and shield on breast, holding olive branch and three arrows. PIKES PEAK GOLD around; FIVE D. below. Reeded edge. The planchet of normal thickness. Very Fine, and a splendid piece. There is a small, unimportant edge cut below F of FIVE upon the reverse. Ex Newcomer and Col. Green colls. Excessively rare and highly desirable. Valued at one time at $1,500.00. **Plate.**

4526 10 Dollars. 1850. **Baldwin & Company.** San Francisco. Mounted vaquero riding to r. Restrike in White Metal from the trial dies by Albrecht Kuner. The obverse shows some evidence of a rusty die. Adams 97. Uncirculated, but slightly stained upon the obverse. Scarce, and currently bringing about $25.00.

4527 5 Dollars. 1849. **Cincinnati Mining & Trading Company.** Regular dies, struck in Copper. Adams 69. V. Good. There are five serious punch marks upon the reverse which were evidently intended to cancel this trial impression. A rather battered example of an extreme rarity. From the H.O. Granberg and Waldo Newcomer collections.

4528 10 Dollars. 1850. **Dubosq & Company.** San Francisco. Extremely thin trial die impressions or "Squeezings." Obverse and reverse struck separate, in a fusible alloy composition, composed of tin and antimony, etc. Uncirculated. From the effects of J. B. Longacre, the famous Mint engraver, who executed the regular U.S. Double Eagle at about the same time these impressions were made. Excessively rare, believed to be unique. 2 Pcs. **Plate.**

4529 5 Dollars. 1850. Dubosq & Company. Similar to the preceding. Trial die impressions of the obverse and reverse struck separately. W. Metal composition. Uncirculated. Like the last, from the J. B. Longacre estate. Excessively rare, presumably unique. 2 Pcs. **Plate.**

It seems addly coincidental to us that Theodore Dubosq Sr. was a noted Philadelphia Jeweler at the same time J. B. Longacre was so active in Mint affairs. Two Dubosq trial pieces are known, dated 1849, which have T. DUBOSQ across the obverse field. It may be surmised, that the change from an original obverse design to an exceedingly close replica of the then current U. S. Gold coins, could have been the result of Langacre's influence.

4530 Dollar. 1849. **Pacific Company.** San Francisco. The obverse only, struck over a Spanish real of 1776. A trial piece in Silver, apparently struck with a sledge hammer. Adams 65, and there called unique. Good. Originally described and illustrated in the catalog of Ed. Frossard's collection, lot #912, Oct. 2, 1884. At that time it was thought to have been a private token of the period 1834-38, and brought only $9.60. Later it was in the Woodward sale of J. C. Randall material, lot #1666, September, 1885; Woodward sale, lot #741, June 1886; Woodward's 108th sale, lot #2560; the Howland Wood collection, and finally, in the collections of H. O. Granberg and Virgil Brand. It is mentioned in the July, 1902 number of the A.J.N., p. 25. We are told that the fabulous Chicago collector valued this piece at the fantastic figure of $2,500.00. In any event, it is undoubtedly unique, and represents the rarest denomination of the rarest U.S. series. **Plate.**

4531 **The Model Series.** Half Eagle. 1849. Obv. Within an olive wreath, MODEL HALF EAGLE in three lines. Above, CALIFORNIA; below, the date. Rev. An eagle with outspread wings, surrounded by thirteen stars. Brass. Reeded edge. Adams 100. Very Fine, with a slight planchet defect at edge.

4532 Dollar. 1849. Obv. Within an olive wreath is the numeral 1. Above, CALIFORNIA; below MODEL DOLLAR. Rev. An eagle with outspread wings; thirteen stars around; date below. Brass. Reeded edge. Adams 102. Ex. Fine with traces of original silvering. Rarer than the last.

4533 **$3.04.** 1866. **Gold and Silver Territorial Ingot.** At top, crudely punched in three lines, POOR MAN'S BULLION OWYHEE. Round seal, with shield and scales; U.S. INTR. REVENUE. Date immediately below. Rev. In six lines, the first curved; BLAKE & CO; ASSRS. OZ. 1.80. S.F. (Silver Fine) 9.73. G.F. (Gold Fine) .021; $3.04. This ingot is 51mm long; 27mm wide, and 4mm thick. Very Fine, slightly mishandled. We cannot locate any information relative to Blake & Company, other than that they issued ingots of this type. Owyhee was in the Idaho Territory, close to the Silver and Gold fields of Nevada. Of the most extreme rarity, the first that we have seen and to our knowledge, the only specimen ever offered. From the collection of Wayte Raymond. **Plate.**

4534 **Small Rectangular Silver Ingot of Utah.** At top, F. (Fineness) 970. At base, in two lines, OZ. 741. On the right side, in two lines; UTAH SILVER. The "F" punch was tried out twice on the bottom of the reverse. This ingot is 35mm long at top; 39mm at base. It is 8 and 10mm wide, and 4mm thick. V. Fine. Uncommonly rare. We have no knowledge of a duplicate. Ex Raymond.

4535 **Copper and Silver Mine Tokens.** 1860. Crude bust of Liberty facing l., resembling that on the Quarter dollar, 1831-38; thirteen stars around; date below. Rev. Ornate numeral 1 and letter C in monogram (One Cent). Around, COPPER MINE TOKEN. Star below. Copper, thick planchet, plain edge. Ex. Fine. Of the greatest rarity. **Plate.**

A Good example appeared in the S. S. Crosby collection, sold by J. W. Haseltine, June, 1883. Captain Haseltine believed that the above piece had been struck in Denver, Colorado, and called it V. Rare.

4536 Another. Crude Indian head facing left in a plain field. Rev. Identical to the last. Copper, thick planchet, plain edge. Rather poorly struck. Fine or better. We have never seen or heard of a duplicate. **Plate.**

4537 1860. Bust of Liberty facing l.; identical to the obverse of the first described. Rev. Well executed Eagle with shield on breast; olive branch and arrows in talons. Above, SILVER MINE TOKEN. An "E" below. Brass, thick planchet, reeded edge. Uncirculated. Few unimportant defects. Ex. Rare. **Plate.**

4638 **Rare Territorial Notes.** 10¢, 20¢, 25¢, 50¢. BANKING HOUSE OF C. A. COOKE & CO. Denver, Colorado Territory. 186—. Each unsgd. and punch cancelled at space for signature. Presumably Proofs. Every note, with the exception of the 20¢, bears a replica of the current coin. Ex. Fine. Beautiful green and black specimens from the collection of Wayte Raymond. Ex. Rare. 4 Pcs.

4539 **Mommoth San Francisco Mint Silver Bor or Ingot.** Large (55 x 35mm) oval Mint stamp with Eagle, shield on breast, holding olive branch and arrows; MINT OF THE UNITED STATES above, AT SAN FRANCISCO below. Stamped 63 above the Mint stamp and 10 below it. 999.75 FINE at bottom. The weight, stamped in the center, is **137.78 OZS.** This bar is 14½" long; 3¾" wide, and fully ½" thick. Very Fine. A highly unusual item, and the first that we have seen. Should realize a good price.

4540 Small San Francisco Mint Silver Ingot. Mint stamp at top, similar to the last. Numbered 1790. 999.5 FINE. 6 punched at bottom end. Weight (on reverse) 5.29 OZS. Ex. Fine.

4541 Another as last. Numbered 1791. Weight 5.29 OZS. Ex. Fine.

4542 Another as last. Numbered 1793. Weight 5.29 OZS. Ex. Fine.

4543 Another as last. Numbered 1796. Weight 5.31 OZS. Ex. Fine.

4544 **Confederate States of America.** 1861. So-called "Dime." Undraped head of Davis to l. JEFFERSON DAVIS. Die sinker's initials, C.R. below the bust. Rev. C S A FIRST PRESIDENT. Date within olive wreath. Silver. Unpierced, and the first that we have seen so. Ex. Fine. From the collections of George M. Parsons and Wayte Raymond. In our opinion, the finest known example. The Betts, Wilcox, Jenks specimen, while equally fine, was holed with a die loop. Excessively rare. **Plate.**

This piece appeared in the Parsons sale, 1914, as lot #2709. There it was described as Uncirculated, and sold for $44.00. It was purchased by T. L. Elder, and only later passed into the hands of Mr. Raymond. We doubt if more than five or six pieces are known in all.

4545 J. W. Scott Store Card with the reverse of the Confederate Half Dollar. White Metal. Brilliant "Semi-Proof." In great demand.

4546 1860. NO SUBMISSION TO THE NORTH. Rev. THE WEALTH OF THE SOUTH. Copper, Brass, and Brass, silvered; Obv. THE WEALTH OF THE SOUTH. Rev. Shield. Copper, Brass, Brass, gilt, and W. Metal; Similar obv. Rev. Stephen A. Douglas, Brass; Similar obv. Rev. John Bell, Copper; Similar obv. Rev. Elliott, Vinson & Co., Copper; Similar obv. Rev. STEAMER LANCASTER No. 4, Copper. Two others, NO SUBMISSION TO THE NORTH. Rev. John Bell (Copper) and with a blank reverse (Brass). Extremely Fine and a rare lot. One holed. 13 Pcs.

4547 1860. THE WEALTH OF THE SOUTH, etc. Four duplicates from the last lot, mostly Brass: 1861. Figure hanging from a gallows. JEFFERSON DAVIS. Date below. Rev. DEATH TO TRAITORS. W. metal. Also, Half Dime token. Scales, surrounded by thirteen stars. Rev. 5 C, nine stars around, all within circle and ornate border. Countermarked with a small "H" in the center. Lead. In addition, the Baltimore "Ship token" in Brass. Three of the first four holed. V. Good to Unc. Two uncommonly rare. 7 Pcs.

4548 **Washington Medals.** 1797. Obverse only of the AMOR, HONOR ET JUSTITIA "Masonic" medal. Bust in uniform, facing the left. G. WASHINGTON PRESIDENT. Date below. Rev. Uniface. Brass, 36mm. Baker 288. Holed, edge engrailed, and appears to have been mounted. Ex. Fine, with most of the original silvering. Only one other example known so. Excessively rare. **Plate.**

The last is undoubtedly the work of Peter Getz. A similar example, in Very Good condition, was described as lot #766 in the Parsons sale, 1914. It was illustrated on Plate IV, and appears to have been somewhat battered.

4549 Head facing the right. GEORGE WASHINGTON. Rev. Within a wreath of olive branches. TIME INCREASES HIS FAME. **Struck in Gold.** 28mm. Part of the Mint series. Baker 91. Proof, almost perfect. Extremely rare. **Plate.**

4550 **Hard Times Tokens.** Low 10, Jackson with broad shoulders; Low 111, CENTRE MARKET. Also, Low 49. The scarce and popular "Half Cent" token. First two Uncirculated, last Ex. Fine. Unusually choice and desirable lot. Ex Hall, Brand colls. 3 Pcs.
